Letter Praises Boonevillians . . .

December 7, 1964

Mayor M. W. Smith
Booneville, Mississippi

Dear Sir:

On November 24, my husband and I were passing through Booneville when we were involved in a car accident which necessitated my being hospitalized in the Northeast Mississippi Hospital. My husband has stayed at the Town Motel while I have been here. We are resuming our journey back north to our home in Connecticut today, but we want to say before we leave that we have had the kindest treatment here that can be imagined. Not only has the entire hospital staff in A wing been most considerate and efficient, (and this includes the doctors, nurses and other workers) but many of the townspeople have gone out of their way to do many wonderful things for both my husband and me. The law enforcement officers, too, were most helpful.

We never experienced anything like it and we will certainly be ambassadors of good will when we reach home. We realize now that Mississippians are very fine people, and are grateful to have had the opportunity to learn that recent unpleasant publicity does not apply to most of them. We will always remember Booneville as a wonderful town.

Very truly yours,
Muriel V. Whittemore
(Mrs. Arthur S.)
Brookfield Center,
Connecticut

This award is presented each year to one of the 20 troops that make up the 108th A. C. Regiment. Qualifications for the award are decided by the troop having the highest score in training, personnel and equipment. Col. Gravlee congratulated Capt. Stewart for the superior rating he and his unit posted during the past year.

Officers Report Recent Arrests

Sheriff Gerald Green and Police Chief Stacy report a number of arrests recently.

Two teenagers and an adult from Corinth broke in at Goodwin's Laundry where they took cigarettes and at Arnold's Grocery at Franks-town where they got a large amount of cigarettes and some money. Enroute back to their home in Corinth, Booneville police arrested and jailed them. They were released later on a public drunkenness fine. The minors were sentenced to Columbia Training School but the sentence was upheld providing they meet requirements of the Youth Court. The adult is awaiting action of the grand jury.

Sheriff Green arrested two minors and an adult for breaking in the Amos Melton home. The minors were taken to Pontotoc Youth Court and are now on probation.

Police Chief Stacy said five boys from Baldwin were picked up by the Booneville and Baldwin police after they stole hub caps from cars in front of the Community Hospital in Corinth. Four were given juvenile hearings before Chancery Clerk Bluford Allen and one was sent with Sheriff Green to Judge Inzer at Pontotoc.

Sheriff Green said Ed Denson was arrested on charges of malicious mischief and arson. He slashed tires on a car belonging to Miss Joyce Bailey and set fire to the home near Roaring Hollow where she lived with her mother. The fire destroyed the house and all the contents. He confessed and is free on \$10,000 bond. State Fire Marshals, Clarence Pace and Ben Cavanaugh, assisted in the investigation.

A car belonging to Glasford Parks was stolen from in front of the Eudora Apartment. Three Negro youths, one was 15 and two were 13, were apprehended about 45 minutes later near Baldwin. They are now on probation.

The speaker urged the group not to apologize for Mississippi, but to point out what we are contributing to the economy of the nation.

"We are all blessed materially and we need to give some of it back — you can do it through such programs as we are recognizing here tonight," he said.

Mr. Khayat concluded, "We are the masters of our fate. We have to do it ourselves, let's all join hands and take this state where it needs to go. We're on the move, let's keep it moving."

The meeting was closed with benediction by Wallace Poole, president of the Prentiss County Home Bank.

Study Of Tombigbee Basin Discussed Here Wednesday

Highlights of the Tombigbee River Basin Study, covering approximately four million acres of land in northeast Mississippi and some three million acres in Alabama, are being presented in two public hearings this week by the Mississippi Board of Water Commissioners which co-sponsored the survey along with the Alabama Water Resource Commission.

Wednesday afternoon, December 16, officials met at Booneville in the Prentiss County Electric Power Association building. This meeting was attended by approximately 100 landowners, agricultural and conservation workers, state legislators and other interested persons from northeast Mississippi and Alabama.

On Thursday, December 17, the meeting will be held at State College in Lee Hall on the Mississippi State University campus at 9:30 a. m.

Mayor Marion Smith acted as master of ceremonies for the meeting at Booneville, and it opened with the invocation by James L. Ballard, mayor of Tupelo.

Sam A. Thompson of Itta Bena, member of the Mississippi Board of Water Commissioners, explained that the river basin studies were in effect an inventory of the land, water and other resources in the area. Fifty-four federal, state and local agencies helped in the survey. He said this meeting was to present that portion of the survey related to agriculture in the northern part of the Tombigbee District, and another similar meeting in February will bring the rest of the study.

Ray H. Wells of Jackson, planning party leader of the Soil Conservation Service, said that agricultural interests are very important in this river basin because there are 36,000 farms in the area and industrial and area urban development has helped point up the need for adequate flood prevention, water use and management. Total annual damage to crops, pastures and fixed improvements now amounts to more than \$7 million in the upland watershed, and to nearly one and a half million dollars on the major tributaries and central and lower portion of the Tombigbee.

Mr. Wells said that many areas in the smaller watersheds making up the basin are subject to frequent flooding. The study shows that 30 of the 55 small watersheds, mostly in the northern portion of the basin, may be considered feasible under the Department of Agriculture small watershed program which provides for a combination of floodwater retarding structures and land treatment.

Ed Swensen, Jackson, U. S. Forest Service, explained how fire control and condition of the forest floor are important to water control. He pointed out that many areas in the district need improvement practices, and told how the Forestry Service can help landowners.

J. C. Whitehead, Jr. of Tupelo, chairman of the Tombigbee River Valley Water Management District, told the group that the study shows what is needed and it is up to the people of the area to solve the problems and get the job done. He explained that it must be done on a local basis, primarily by sub-watershed areas with local participation. The role of the district is to help coordinate the work of all people working on the problem of developing water resources in the Tombigbee basin and help to organize local interest. He also stressed the recreational aspects of the program.

The role of the soil conservation districts in carrying out the aims showed by the study was discussed by B. Moseley, vice president of the Mississippi Association of Soil Conservation District Commissioners. He said the districts could help appraise needs and carry out plans, and help to coordinate the assistance available in making needed improvements.

In summarizing the meeting at the close, Mr. Thompson said the information gained in this study will be distributed throughout the river basin to those who can do the most good in planning local projects and implementing development of the program. He concluded, "The opportunities are astounding with the abilities we now have so that the future will be what we make it."

Story Of Christmas To Be Presented By Northeast Glee Club

The 49 members of the NEMJC Glee Club will present the Story of Christmas through music, narration and tableau, Thursday, December 17 at 11 a.m.

The singing will be a cappella and accompanied. The public is cordially invited.

The Glee Club sang on the Telephone in Tupelo on Dec. 6.

Stockholders, officers, directors and employees of the Prentiss County Home Bank enjoyed a wonderful Christmas party in a private dining room of the Natchez Trace Inn near Tupelo on Tuesday night.

There were 79 present for the occasion. The dining room was colorfully decorated, beautifully lighted, and featured a lovely Christmas tree. J. W. Smith, Jr., was Master of Ceremonies.

A most delicious meal, consisting of a wide variety of holiday foods, was served buffet style.

Ole Santa himself was present and gave the children attractive gifts.

Entertainment was provided by the Mel-O-Tones — Janet Smith, Gaye Roden, Mary Grace Nabers and Mrs. Mary Gault Nabers.

Enthusiasm grows keen as the program progresses each year. Many will enjoy going to the court house to watch the amount climb toward the \$2,500 mark. Last year generous Prentiss Countyers contributed \$2,750.00.

The East Booneville Home Demonstration Club will have 14 cakes for auction at the program.

Police Chief W. W. Stacy reported on Thursday, December 10th, Billy Whisenant and Elton Barron of the Booneville Police Department approached a 1958 Chrysler bearing a Florida license. The car gave chase up Highway 45 North. Corinth police units were called and the car was chased north of Corinth on the Smith Bridge Road where it hit a power pole and the hot wires burned the car. The driver escaped.

Chief Stacy said the car was loaded with 150 to 200 gallons of corn whiskey, but the police got only one gallon which was thrown from the car. Investigation is still being made to locate the owner of the car which showed the license plate belonging to a 1963 Chevrolet.

Ten arrests were made over the week end for public drunkenness, reckless driving and speeding. Fines amounted to \$250.00.

The personnel of Gray's Department Store held their Christmas party at the lovely new home of Mr. and Mrs. Everett Furkicks on Tuesday night.

Christmas decorations added to the beauty of the home and an attractively decorated table with festive gifts and centerpieces by the employees.

The group enjoyed a delicious dinner with all the trimmings after which gifts were exchanged, games played and Christmas carols sung.

Thrasher, Jumpertown And Blackland Winners In County RCDC Program

Thrasher RCDC was named first place winner in the Prentiss County program at the 12th annual Recognition and Awards Banquet held Thursday night at the Northeast Mississippi Junior College cafeteria. Runnerup in the program was Jumpertown and Blackland was third place winner.

W. T. Smith, county agent, presided at the meeting and the invocation was given by Rev. W. L. Wallace, pastor of the First Methodist Church. Following the meal, Mayor W. M. Smith welcomed the group and W. T. Smith recognized the communities and guests, after which the awards were presented.

The \$100 first place award to James Chase, president of the Thrasher club, was made by Fred Houston of the Rotary Club; Herman Wood of the Civitans presented the \$75 second award to W. W. English of the Jumpertown club; and the \$50 award to Blackland was presented to Dalton Garner by Mrs. Webster Cleveland of the Pilots Club. Other communities participating in the program were presented \$25 checks by the presidents of their sponsoring civic clubs — New Site by Herbert Summers of the Lions Club, and Pisgah by Eddie Caviness, Jr., of the Jaycees.

Speaker for the occasion was Edward A. Khayat of Moss Point, executive director of the Mississippi Association of Supervisors. He was introduced by Hon. E. K. Windham, attorney for the Prentiss County Board of Supervisors.

Mr. Khayat told the group that in 1880 Mississippi was among the top six states in the nation economically, but after being ravished by the Civil War the state languished in near poverty for many years. Then the people began to see that if they would make the best use of their God-given resources the state would prosper again.

The speaker reminded the audience that generations of Mississippians had believed in just planting

cotton, and discussed the comparatively recent trend toward diversification in agriculture and industry. He pointed out the importance of the wood using industry and the growth of the dairy industry, in which the state is now among the top seven.

Mr. Khayat said that there is plenty of oil and gas all over the state, and we will now be among the top five states in oil and gas production.

"We've proved with the BAWI program that we can deliver the goods to industry with willing and capable workers," Mr. Khayat said, "and while we don't have the people to compete quantitatively with the more populous states we must stress quality, and to do this we must provide the best of schools."

He said that the area has finally

wakened up to our water resources and urged those present to do everything possible to see the Tombigbee reach the Tennessee.

The speaker urged the group not to apologize for Mississippi, but to point out what we are contributing to the economy of the nation.

"We are all blessed materially and we need to give some of it back — you can do it through such programs as we are recognizing here tonight," he said.

Mr. Khayat concluded, "We are the masters of our fate. We have to do it ourselves, let's all join hands and take this state where it needs to go. We're on the move, let's keep it moving."

The meeting was closed with benediction by Wallace Poole, president of the Prentiss County Home Bank.

Just Scribbling

by

MRS. ED JOHNSON

I especially want to write a column this week in order to make a request for Lester White. He has many, many friends in Booneville and Prentiss County who have been deeply concerned over his serious illness. I think his wife worded the request so well when she wrote:

"This may seem unusual but Lester says will you please put a small place in your paper asking for the prayers of the people of Prentiss County and wherever the paper goes. For the past 3 days he has showed some signs of improvement. If the white cell count holds up for 6 more days they will be able to give him more of the cancer treatment in the veins. But they tell us prayer has been the major factor in this case. So please pray for him and ask the churches."

Let's all remember him.

Mr. and Mrs. L. B. Beene, Sr. recently received a very clever letter from their daughter, (Sara) Mrs. Kevin Greenburg of Santa Ana, California. The lengthy letter is a gem and supposedly written by the new arrival and reads in part: "I will soon be one week old — everyone says I look older than that. They're saying the same thing about my mommie and daddy . . . It was a good night for babies to be born, I guess, because there were at least 9 that night or maybe more . . . There's a lot of talk as to whom I look like, Aunt Jane says I look like daddy; daddy says I look like mommie and mommie says I look like Aunt Susan because she's the prettiest one in either family. Guess they think a pretty baby can't look like its own sweet self . . . Mommie can't get in her clothes yet. She was so disappointed because she thought she looked so skinny. Give my love to all the people that I know love me. We can't wait to see you."

The annual Christmas parade last week was indeed a big success. Lots of folks got a kick out of seeing Daisy Lou Southerland Golden drive the tractor which pulled the Pilot Club float.

And Mrs. E. L. Robison remarked on how the folks around her enjoyed seeing the well-groomed and gentle oxen.

My folks, Mr. and Mrs. E. C. Long, who did much of the work on the Aletha Lodge float, held their breath . . . afraid the snowmen might topple over! But they made it, and have since decorated the auditorium for the Beauty Revue at Rienzi and at the Country Club.

All in All, it was an enjoyable and pretty parade.

A man on television last week told how modern parents try to buy everything for their children. He said he had even bought a space suit for his son . . . paid \$19.00 for the outfit.

Then he paused a few seconds, and added, "But you know something . . . he wouldn't go!"

Ed received a note from Neil Woodruff, MSCW journalism teacher, last week, which we appreciated. To receive a kind word from someone who knows what they're talking about is always encouraging.

Have you ever noticed how many small children make a "dash" across a street. They run as hard as they can! I think that's wrong. We should teach them to walk, not run, across a street. Walk and look! Enroute to Memphis Saturday to pick up a coat I had mended and to get gifts with our stamp books, a pretty little blonde haired girl, about 7 years old I guess, watched a car in the opposite lane pass, then literally tore out in front of us. Ed slammed on brakes . . . but my knees were weak for miles. If a child doesn't have time to walk across a street, he should wait until he does.

I hope all of you are finding exactly what you want to give to loved ones for Christmas — it's best to shop right here at home — and that you aren't too rushed. Don't forget the Goodfellow program Saturday night.

Till next week, Helen

Local Insurance Man Returns From Meeting

Leslie Estes of Marietta, Miss., has just returned from Jackson, Miss., where he has been attending a three-day refresher course staged for Federal Crop Insurance Corporation salesmen. Mr. Estes, who has been with Crop Insurance in this area for five years, said the meeting, which included more than 40 top salesmen, agents, and supervisors, was also attended by FCIC officials from Washington and the Corporation's Southeast Area Office in Valdosta, Ga.

Federal Crop Insurance protection has been offered to farmers in Prentiss County for five years on cotton and soybeans and is again being offered for the 1965 crop year now.

Full information may be obtained in Crop Insurance from Leslie Estes at Marietta, Miss.

According to Mr. Estes, Crop Insurance coverage nationally during 1964 was available in nearly 1,100 counties on combinations of 20 crops. 1965 will see further expansion in new counties and new crops.

Mr. Estes said, "Each year the cost of getting a crop produced has gone up, with farmers paying more for feed, seeds, motor vehicles, farm machinery and equipment, while the profit a farmer makes hasn't changed very much in the past ten years. It is becoming more and more important for growers to protect their investments. Federal Crop Insurance is an effective, tested method of cushioning

the terrible impact of crop loss." "Many times," Mr. Estes said, "A check from FCIC for insurance paid on a crop loss is all that stands between a farmer and ruin, and any good farmer will tell you it takes nearly four years to make up a loss in production expense. It is a risk business, farming, and Crop Insurance removes nearly all the risk when it comes to investment in a crop."

Marion Leads In Vine-Ripe Tomato Tests At Station

STATE COLLEGE, Miss. — Marion continued to produce the highest yield of vine-ripe tomatoes in the 1964 variety tests at the Truck Crops Branch Experiment Station at Crystal Springs.

John A. Campbell, superintendent of the station, said Marion also had the lowest percentage of stem cracking. This variety has been widely accepted by growers in the Copiah County area.

Supermarket had the greatest early yield, but its total yield was low. Bradley, the second highest in yield, had the same pinkish color as Gulf State Market. This color is preferred by many shoppers.

Five leading varieties in the 1964 trials were included along with many breeding lines. Yields in 1964 were reported as follows: Marion 33 bushels per acre, Bradley 479, Manapal 471, Supermarket 424 and Rutgers 407. All varieties are resistant to Fusarium wilt with the exception of Rutgers which is susceptible to this disease.

Records were taken on fruit harvested every two to three days when pink color was just breaking at the blossom end to one-half of the fruit surface showing color. Thirteen pickings were made from June 9 through July 10.

"Tomatoes allowed to ripen on the vine have a more attractive appearance which is associated with better flavor and superior quality as compared with artificially ripened green wrap tomatoes," Mr. Campbell said. "For this reason considerable attention and effort have been devoted to breeding and testing tomato varieties for vine-ripe production and market qualities."

Ladies Luncheon At Country Club Dec. 2 Features A Gala Holiday Atmosphere

A holiday mood prevailed Wednesday, December 2, at the Golf and Country Club when forty-one members attended the regular monthly Ladies Day Luncheon.

Hostesses for the beautifully-planned occasion were Mrs. W. T. Barnett, Jr., Mrs. Robert H. Cox, Mrs. Floyd Cunningham, Mrs. John Mahaffy, Mrs. John Henry Price, and Mrs. C. W. Yarber.

The guests were greeted at the door by Mrs. Mahaffy and Mrs. Cox, and each one was asked to place on the tree, the special ornament she had brought, which had been traditional at Christmas in her own home.

Decorations appropriate for the season were placed at vantage points. A most interesting and unique arrangement of ribbons and snowballs bedecked the brick fireplace.

The luncheon table ran the length of the reception room and was centered with greenery, baubles, and miniature trees and Santas. The buffet table in the dining room featured a wreath of spruce and fruit flanked by candle holders in tree shape.

After the delicious meal, Mrs. Mahaffy, chairman of the Ladies' Division of the club, told about events to be held at the club house during the Yuletide season. Of special interest to all adult members is the Dish Dinner and Bingo Party which is scheduled for the night of December 21 at 6:30. Plans are being made for a coffee for the Ladies and a teen-agers party,

both to be held during the Christmas holidays.

The door prize, a Christmas basket with an arrangement of holly, was won by Mrs. Pascal Box.

In the afternoon many of the members enjoyed bridge and canasta.

COUNTY AGENT NOTES

By W. TAYLOR SMITH, County Agent

RAT AND MICE CONTROL

Statistics show that one rat will cost you an average of \$10.00 a year, and if you see one rat around your barn or feed room, chances are that many more are around!

Can you afford this loss? Most folks cannot! You can do something about it, though.

Proper use of poisons will help you rid your farm of these predators.

The anti-coagulant poisons like warfarin, PMP and pival are recommended. These

are the safest to use.

Rats must eat these materials for several feedings to be killed. Place containers of bait in runways and keep them filled. Around a cupful in a clean container is recommended for each bait station.

You can buy these materials ready to use or you can buy the straight materials and mix your own and follow all directions on the label, when using these or any other chemicals!

Mice are becoming problems in many homes. The cold weather is driving them to shelter. Instead of poisoning the mice and taking chances on them dying in walls and causing odors, try baiting traps.

Pecan meats or other nut meats make ideal baits. Place traps in closets, behind the refrigerator, washing machine, or other places where mice tend to frequent.

NEW LAND

If you need more grazing or hay, try setting Coastal Bermuda on

newly cleared land. These areas will not have a lot of weeds and grass on them to interfere with the Coastal. This will make for a better stand and survival.

If the land being cleared is bottom land, be sure to put in W-ditches before preparing it for setting the Coastal. This is because after the Coastal or other crop is set, most farmers are reluctant to put in drainage as it looks like it takes out too much grazing.

One acre of Coastal highly fertilized will provide for the grazing and hay needs of one beef cow. If La. S-1 clover is put in the Coastal, one acre will feed two or three cows for several months in the spring.

SOYBEANS

If you are one of those soybean growers who only produce the state average yield or less, you can expect a big increase — up to 25 bushels per acre by using a little fertilizer and controlling weeds.

Using 200 to 300 pounds of 0-20-20 per acre with weed control can boost yields tremendously. Major causes of low soybean yields are lack of lime, fertilizer and lack of weed control.

Mackie Don Smith Leads Rebounders At Memphis State

MEMPHIS, Tenn. — Off to a fast start, Memphis State's freshman basketball team has all this week to prepare for its next opponent.

The Tigers, with three straight victories, play the Alabama frosh Saturday night in a Mid-South Coliseum preliminary.

Coach Bob Stephenson's club has whipped two junior colleges and the strongest AAU team in Memphis, and is now looking forward to its first engagement with another freshman team.

The young Tigers do not lean toward the fast break but are still averaging nearly 89 points a game. Five players—three forwards and two guards—are hitting in double figures.

Jack Romp leads the way with a 15.3 average. Mike Butler is hitting 14.7, Mackie Don Smith 14, Mike Stewart 13.3 and Jimmie Hawkins 13.

Smith tops the rebounders with 43 and Romp has been the most accurate from the field, hitting 54.5 per cent.

Sgt. Robert E. Maddox Completes Training

Sgt. Robert E. Maddox, son of Mrs. Clara L. Maddox, Route 3, Baldwin, Miss., completed his annual Army training tests Nov. 21 with the 8th Infantry Division near Babenhause, Germany.

The tests are given to determine the combat readiness of each soldier and his unit.

Sergeant Maddox, an assistant squad leader in Company C of the division's 12th Engineer Battalion near Dexheim, entered the Army in 1953 and arrived overseas in September 1964 on this tour of duty.

The sergeant attended Booneville High School. His wife, Jimmie, is with him in Germany.

A Friend Is Gone
From "Rube's", the store with the friendly "homey" touch. One is gone whom all will miss so much.

His health had been failing for many days. Yet he tried so hard to follow his familiar ways.

All who came to his place wanted to come again. For not only were they customers, but his friends.

Many came to pay last respects to a friend so kind. May this comfort his loved ones left behind.

His cheery greetings, hearty handshakes, and jokin'g, too. Will be remembered for a long time by all he knew.

Prentiss ASCS County News

By CHARLES E. CALVERT, Office Manager

ASC COUNTY COMMITTEE MEMBERS NAMED

Farmers recently elected to serve as the Agricultural Stabilization & Conservation (ASC) county committee for the following year include:

Willie Hatfield, Chairman, Community A.
R. C. McMillan, Jr., Vice-Chairman, Community C
Mathel L. Taylor, Regular Member, Community E
Ervin Lambert, First Alternate, Community F
Ellis Bullard, Second Alternate, Community C.

The election was held at a county convention December 10, 1964 at the Prentiss County Electric Power Association Building; electors were farmers chosen as convention delegates at recent ASC community elections throughout the county.

Chairman Hatfield points out that the ASC county and community farmer-committees are in charge of local administration of such national farm programs as the Agricultural conservation program, the feed grain program, the voluntary wheat program, acreage allotments and marketing quotas, the National wool program, the sugar program, commodity loans, and storage facility loans.

The ASC county office at Booneville is headquarters for the county committee and serves as the farmers' local contact for business connected with participation in the programs administered by the committees.

LET'S TALK MISSISSIPPI
Commercial Broilers — Mississippi produced a total of 156,510,000 commercial broilers in 1963, an increase of 12 per cent over the previous year; and a new record for the state. Total state broiler production amounted to approximately seven per cent of the national level. The state also exports many of its broilers. Gross income from the industry during the past year was over \$70 million.

Telephone Poles — Telephone poles used throughout the nation are grown in Mississippi. An official of the Bell System reports that approximately one-half all such poles used by the system in the United States "had their roots originally in Mississippi."

The state's climate and soil blend to produce some of the finest utility poles in the nation, both for telephone and electric power lines.

Old Capitol Museum — One of the showpieces in Mississippi is the Old Capitol Museum in Jackson. Restored several years ago, it is now filled with many interesting items of interest for historians, students, tourists, both young and old. During one month this summer, some 18,000 visitors, representing 32 states, toured the historic building. Both tourists and homefolks leave the interesting site with a better understanding and appreciation of the state's history.

RABBIT TOBACCO
Rabbit tobacco is under study at the University of Mississippi's School of Pharmacology. Mississippi researchers think that this plant (often called "Indian posey") might be used in the manufacture of cosmetic products.

WORKSHOP PARTICIPANTS—Among those who are participating in the Municipal Codes Workshop being held over the weekend at the University of Mississippi are (from left) Nolan Wheeler of Booneville, J. W. Parker, director of Housing Improvement Department of Memphis, Hunter Lane, Jr., Commissioner of Public

Service in Memphis, H. B. Berry of Ruleville, and J. B. Morgan of Senatobia. The workshop is sponsored by the Mid-South Association of Building Code Enforcement Officials, the Institute on City Planning, and the University of Mississippi.

Babson Forecast To Be Published Dec. 31

The Banner-Independent will publish BABSON'S BUSINESS AND FINANCIAL FORECAST FOR 1965 on December 31.

We are calling this feature to your attention because 1965 will be a year of many changes.

This Babson Forecast will contain predictions covering such important topics as: Business Volume Impact of Excise-Tax Cuts Developing Profits Squeeze War or Peace in the East Britain's Plight Worldwide Credit Problems China On the Nuclear March Farm-Price Prospects Silver Coinage Crisis Inflation vs. Deflation American business has no more inspiring personality than Roger W. Babson, internationally known business commentator and investment adviser. An outstanding feature of his philosophy has been his life-long insistence on the importance of both religion and advertis-

ing in business.

Born and reared in an old-fashioned atmosphere of hard work and hustle on a farm in Gloucester, Mr. Babson went to the Massachusetts Institute of Technology. Upon graduating, he turned instinctively to financial and business activities in which his father was engaged.

His exertions, however, undermined his health; he contracted tuberculosis and he was sent West "as good as dead." It was while he was convalescing from this dread malady that he worked out some of the possibilities and problems of business forecasting. His weekly releases are used by over 400 newspapers and his financial reports by 20,000 corporations and estates. His research work is carried on by a large staff of experts. Mr. Babson has probably done more than any other man to create among his millions of newspaper readers an interest in simple business problems, and to instill a broader vision in businessmen, enabling them to meet the ups-and-downs of the business cycle.

Since its establishment, the Marine Corps has made approximately 300 landings on foreign shores which may explain why it is called "a force in readiness."

Festive Party Enjoyed By Town And Country Club Members And Husbands

The Town and Country Garden Club members entertained their husbands with a Christmas Party at the Town Motel, Tuesday evening.

Dressed in glamour, the private dining room, like the freshness and charm of a garden in bloom, featured decorations which were a glowing reflection of the season and most appealing. The occasion added a generous measure of joy to the holidays.

Mr. and Mrs. W. V. Kemp greeted the guests as they came into the party setting. A long ribbon runner in red to say "Christmas" extended the full length of the table, and groups of frosted pine cones at intervals set aglow with gaily burning red candles to light a festive scene and to cast the magic spell of Christmas, gave the inspiration for a merry party. A single decorated candle crowned the buffet table from which a traditional turkey menu was served. Mrs. Troy Moore gave the invocation.

Mrs. Kemp, club president, introduced Mayor and Mrs. Marion Smith. Mr. Smith serving as mas-

ter of ceremonies, introduced Miss Linda Franks, pianist, and Miss Diane Freeman, who sang, "Christmas Roasting in the Fire" and "Silver Bells." Douglas Way led the singing of "Jingle Bells" and "Deck the Halls." A special feature was the beautiful rendition of the Christmas story, "The Empty Purse," told by a talented speaker, Mrs. Sale Martin.

After dinner, Mrs. Harold Prichard directed a spirited game in the form of a debate, "Yes There Is A Santa" and "No There Is No Santa," with Kenneth Pounds and Joe Carter representing the affirmative and negative, which highlighted the entertaining features with the affirmative as the winner.

The door prize, a Christmas centerpiece, was awarded to Mrs. Harold Robertson.

Model of Jackson in the year 2039 based on a study by Michael Baker, Jr., Inc. This study was sponsored by the First National Bank of Jackson in celebration of its 75th Anniversary.

Jackson to be a "Space Age" city of 1,622,000 people in the year 2039

JACKSON — Most anniversaries are celebrated by reminiscing on the past. However, the First National Bank of Jackson chose to commemorate its 75th Anniversary with a look 75 years into the future.

In order that this look into the future be as accurate and factual as possible, First National retained the internationally known consulting firm of Michael Baker, Jr., Inc. to conduct a comprehensive study of Jackson 75 years from today. Consulting architect on the project was Joseph P. Bentempo and Associates.

The published study con-

tains many interesting projections about the life and times of Jackson in the year 2039, including changes in transportation, housing, food, clothing, banking and general living conditions.

The focal point of this study is a 12 x 12-foot detailed scale model of Jackson's future central business district. Replicas of office buildings, apartment houses, government buildings, stores, factories, park areas, malls and other structures give an excellent idea of Mississippi's capital city in the future. With the exception of a few historical landmarks, the Jackson of tomorrow will be

quite different from Jackson today.

This unusual scale model, along with several artist's drawings of downtown Jackson, will be on display in First National's main office lobby for several weeks as part of its anniversary event.

According to R. M. Hearin, President, "To our knowledge, no study of this kind has ever been made projecting 75 years into the future. However, we feel that the study is accurate and factual to the point of being significantly helpful to persons working with future planning and community development."

HOME AGENT NOTES

By CLAIRE T. ROSS

It won't be many days until you will be getting your Christmas turkey all ready to cook. If it is frozen, be sure to allow plenty of time for it to thaw.

It takes an 18 to 20 pound turkey two to three days to thaw in the refrigerator. Allow three or four days for a larger turkey.

If time runs short and you must thaw the bird in a hurry, place it, in its original wrapper, under cold running water. Don't run water over an unwrapped bird to thaw.

Don't ever thaw your turkey at room temperature or in warm water. Let the bird thaw in its original wrapper. If the packer has directions on the package, be sure to follow them.

Once thawed, don't re-freeze uncooked turkey.

As a guide in buying your turkey, allow 4 to 8 pounds for 4 to 10 servings; 8 to 12 pounds for 10 to 20 servings; 12 to 16 pounds for 20 to 30 servings; 16 to 20 pounds for 30 to 40 servings, and 20 to 24 pounds for 40 to 50 servings.

When the turkey is done the drumstick will move easily and the meat on the thickest part of the drumstick is very soft when touched. If you're roasting an unstuffed turkey, it will cook an hour quicker.

For easier carving, let your tur-

key stand in a warm place 20 to 30 minutes before carving and serving.

This recipe comes to us from the state extension office:
Christmas Fresh Fruit Mold
3 packages unflavored gelatin
1 cup fresh lemon juice
2 cups fresh orange juice
1 cup sugar
2 tablespoons chopped pimento
2 cups turkey broth or milk
3 eggs, slightly beaten
Buttered crumbs

Soften gelatin in lemon juice. Place over hot water to melt. Add to orange juice, sugar and salt. Rinse a 1½-quart mold with cold water. Pour in ½-inch layer clear gelatin. Chill until stiff. Arrange a layer of the sliced banana over the firm gelatin. In the meantime, chill the remaining gelatin mixture until it begins to thicken. Fold in remaining fruit and turn into the mold. Chill until firm and ready to serve. Turn out onto a serving plate. Garnish with holly. Makes 8 servings. Serve with Orange Whipped Cream, if desired. To make, whip 1 cup heavy cream until stiff. Fold in 2 tablespoons confectioners' sugar and 1 tablespoon grated orange peel. Yield: 2 cups.

Mrs. Arvid Wroten of the Burton Home Demonstration Club gives us this recipe:

Ice Box Fruit Cake
1 pint seedless raisins
1 pint coconut
1 pint pecans
1 can condensed milk
25c package vanilla wafers
Crush vanilla wafers. Add chopped raisins, coconut and pecans. Mix well. Add vanilla wafers. Mix with hands and press into loaf pan 5 x 7 inches — or refrigerator tray. (If you want more color, candied fruit might be substituted for one-half the raisins.)

Postmaster Says "Please Mail Now"

"It's too late to mail early, so please mail now," Postmaster J. K. Lindsey said today.

"The biggest mail explosion in history is upon us and we need the cooperation of everyone to make sure that the holiday mail is all delivered before Christmas," the Booneville Postmaster said.

Mr. Lindsey suggested the use of air mail and special delivery to guarantee pre-Christmas delivery, especially for out-of-town mail.

In all instances, the use of ZIP Codes will be helpful. The codes generally mean that mail moves in a more direct route and is handled fewer times. Parcels with ZIPED addresses may be delivered 24 hours or more before others going to the same destination which do not include the five digit code. Postmaster Lindsey announced that all postal operations will be on a holiday schedule Christmas Day. Only special delivery mail will be delivered on December 25.

Mr. Lindsey thanked all the citizens of Booneville who cooperated in the "Shop and Mail Early" campaign. "It now appears that we passed the peak for outgoing mail on the 17th. However, there still is a small mountain of holiday mail which must be delivered," he said.

McCreary's To Have Double Celebration

Mr. and Mrs. C. L. McCreary of New Site will hold open house in their new home Sunday, December 20 from 2 until 4 p.m. They will also celebrate their 33rd wedding anniversary. All friends and relatives are invited.

Reports

The beauty in our everyday lives may vary with environment and intellect, but most will agree that landscape architecture has much to do with it.

The three-dimensional thinkers who perpetrate this beauty delve into both art and science to achieve objectives both functional and esthetic. And though the opportunities in the profession are apparent and ever-widening, until now there has been no higher education program in landscape architecture in the state.

Dr. Louis N. Wise, dean of the College of Agriculture at Mississippi State University, announced this week that State now has such a curriculum. It will be administered through the Department of Horticulture, of which Dr. C. C. Singletary is head.

TWO PROFESSORS WILL TEACH the University's landscape architecture students when the curriculum becomes official with next fall's University catalogue, Dr. Wise said.

E. C. Martin Jr., whose skills have been evident for a number of years on the land-grant institution's campus, earned his degree at the University of Georgia. Jack N. Haynes, an LSU and University of Michigan graduate, joined the MSU horticulture faculty with the beginning of the fall semester.

THE UNIVERSITY ALSO HAS facilities, a set of ambitious objectives and some qualified opinions that the future of the curriculum is bright.

Some State students have already begun studying courses applicable to a major in landscape architecture. The broad field of study will include some existing courses at MSU as well as several new ones.

Landscape architecture graduates must be well versed in landscape design, landscape architecture history, architecture, art, construction materials, floriculture, plant materials, soils, city planning, geology and land surveying among other things.

GRADUATES MAY CHOOSE from job opportunities throughout the nation—either in private practice, or with municipalities, parks, recreation areas, highway departments, golf courses, country clubs, architectural firms, and federal or state governments.

There are no handicaps to women in the profession, and Haynes said that he has worked with several successful husband-wife landscape architecture firms.

Mississippi State is the fifth state in the South to offer landscape architecture in its higher education program. Other institutions with landscaping curriculums are Texas A&M, LSU, and the Universities of Georgia and Florida.

Enrollment in these and other curriculums in the U. S. has mushroomed over recent years, MSU officials added, expressing hopes that the new MSU enrollment will do likewise.

PRESENTED GIFT—Mrs. Wilda Fugitt, left, is shown presenting Mrs. Patsy Keenum, president of the B. & P. W. Club, with a gift from the club at the annual Christmas Party held Thursday night at the Town Motel. Members of the club had their husbands as special guests for the evening.

B. & P. W. Club Has Annual Christmas Party Thursday Night At Town Motel

The B. & P. W. Club met at the Town Motel on December 10 for their annual Christmas Party. The meeting was called to order by the president, Mrs. Patsy Keenum. After the club collect by Billy Hester, a guest, the group enjoyed a turkey menu.

The Student-of-the-Month, Miss Pat Crowe, daughter of Mr. and Mrs. R. V. Crowe, was presented a gift by Mrs. Keenum from the club.

The members then introduced

their husbands, who were guests of the evening.

The Christmas theme was presented in a program by Mrs. Helen Jones. She read impressively a story entitled, "Inside Christmas." Three lovely legends were read, after which Mrs. Louise Dubard led the singing of traditional Christmas carols. The exchanging of gifts followed. Mrs. Wilda Fugitt presented Mrs. Keenum with a silver tray, a gift from the club.

The meeting was adjourned by the president, Mrs. Patsy Keenum.

Woman's Club Christmas Party Is Held In Lovely Galloway Home

The handsome new home of contemporary styling, of Dr. and Mrs. S. C. Galloway, on Skyline Drive, was an enchanting scene for the Woman's Club Christmas program on Thursday afternoon, with Mrs. Galloway, Mrs. Marvin Smitherman and Mrs. J. S. Bishop, hostesses.

All areas of the spacious home gave a holiday impact with the season's colors making the atmosphere of every room radiant with Christmas joy. The hostesses developed a basket theme with sparkling imaginative ideas and some touches of the antique family traditions.

At the entrance driveway, hanging at a merry angle on the lamp post, was a swag of pine tied with a big red bow. The outside approach to the upper level entrance is reached by a winding stair on a series of terraces. The wrought iron railing was entwined with

present. Refreshments with spiced tea and coffee were served.

The consensus of the group was that Christmas is fellowship and Christ is the heart and spirit of the true meaning of Christmas.

Many of the things that symbolize Christmas have a fascinating history; mellowed to give a special meaning to the celebration, they have become a tradition.

In the living room a fire side basket was filled with pine boughs and Maine pine cones. On the piano a rattan basket was filled with Christmas bells in white, heaped among the white magnolia foliage. On an end table a miniature church with the open door gave spiritual significance.

In the dining area, the green cloth was overlaid with green net, as a rich background for the gleaming silver and white accessories. A candelabra with tiered white tapers accented the center arrangement. Pungent spice drops and fruit-filled delicacies, as pretty as jewels, were real gems of flavor, served on garnished trays with coffee. Mrs. Homer Parker, president, poured coffee.

The decorative New Orleans style second floor gallery overhangs a double glass entryway from the patio. Both the windows and doorways give a captivating view of the hillside at all seasons. The snows will create a winter wonderland. At each window there was placed a single decorated candle of legendary meaning, to be lighted on Christmas Eve.

On the lower level, in the large den and library, hearthside hospitality abounded with an appealing traditional decor. Over the large fireplace was a staggered arrangement of three red stockings on the brick chimney for the three children of the household. A rattan basket filled with pine cones, Santa Claus pillows, and a crackling fire gave comfort and cheer.

In the hallway, resplendently stood the family Christmas tree, with the branches dropping gracefully with the glittering weight. Nearby was an antique handwoven utility basket shaped with gaily packaged gifts. A large, old family picnic basket in the utility room was filled with an unusual collection of Christmas wrappings. Outside on the patio, a tree was decorated with red wool ornaments and strung with popcorn for the birds.

Miss Irene Bane directed the program on "What Makes A Happy Christmas," sponsored by the Fine Arts and Home Life Department. The Christmas Story from the second chapter of Matthew 1-2 was impressively read by Mrs. W. C. Eaker. The feature story of the afternoon was told by Mrs. B. G. Horton, "The Christ Child," by Andrea Hoffer Proudfoot. Mrs. Horton, a gifted speaker, with charm and a depth of understanding interpreted the real meaning of the "not what we give, but what we share," theme. This was an appealing feature of the program.

Mrs. Jack Dubard led the group singing of the best-loved Christmas carols.

CALL THEM WHAT THEY ARE — SOCIALISTS

It was reported a few years ago that Norman Thomas, veteran socialist leader who ran in six presidential elections as the Socialist Party candidate, had stated that he would no longer make the race. He gave as his reason the fact that the Democratic Party had included in its platform the entire socialist welfare program that the Socialist Party had espoused over the years that there was, therefore, no need for him to make the race.

It is to be imagined, too, that the cooperation extended by many of the so-called Modern Republicans in the passage of much of the welfare state program pushed by the Democrats had considerable influence in helping Mr. Thomas reach such a decision.

What this country has desperately needed for many years is a strong two-party system, not two parties in name only, as has been the case for so long, but two parties that give the people a real choice. The first big step toward that objective was taken this fall, when the Democratic Party presented, as usual, a liberal platform and the Republican Party presented, not a me-too platform but a real conservative platform. We must maintain that choice if we want to remain a free people in a free nation, because otherwise we would devolve into a one-party nation — and nothing would more quickly destroy our freedom.

Moreover, when we attain this realignment of parties, with their entirely differing philosophies, we should call the parties by their real names — Socialist and Conservative. We ought to be at least as honest on that score as are the British. While not agreeing with them in any respect, one can have a certain amount of respect for people who believe in socialism and who openly advocate socialism.

was made to the club's Golden Age Friend.

Mrs. Homer Parker, the efficient president, welcomed two visitors, Mrs. T. L. Word of Okolona and Mrs. E. L. Robison, an honorary member.

as the best form of government for a nation. On the other hand, one can have no respect for those who believe in socialism but will not openly admit that they believe in it, who try to hide their socialist philosophy behind a false facade.

Khrushchev is reported to have said in a speech shortly before he came over here as a guest of this country, "Americans will not accept socialism under that name, but they will accept it and are accepting it under different guises, until they will some day wake up and find they have socialism." How true, how true!

But now many of these socialist wolves disguised in liberal clothing had just as well come out in the open, and admit that what they are working for is a socialist nation. Something has now happened that very clearly portrays this.

An 80th birthday party was held last Sunday for Norman Thomas in the Astor Hotel, New York City, where nearly 2,000 persons packed the ballroom, according to an AP dispatch, "paying \$2.50 each for coffee, a Danish Pastry, and a handshake from Norman Thomas."

The AP story further stated, "The occasion was marked by a warm message from vice president-elect Hubert H. Humphrey." His message said: "No fundamental problem of politics, no issue of social justice escaped his critical eye and cogent comment."

Prior to this occasion, a letter was sent out in October, under the heading "Norman Thomas 80th Birthday Committee" and signed by A. Phillip Randolph, president of the Brotherhood of Sleeping Car Porters, stating "... because Norman Thomas continues to carry on his fight for a better world, we want to help him serve with maximum effectiveness those causes he untiringly supports. We are collecting a fund to present to him, for him to spend as he wills..." It should be noted that the "better world" referred to in this letter is a socialist world.

On the back of this letter were printed the names of several hundred sponsors, including 5 U. S. Senators and 3 U. S. Representatives, and other well-known figures such as Arthur Schlesinger, Jr., Paul G. Hoffman, Walter Reuther, James G. Patton, and Martin Luther King, to mention a few.

All these sponsors and contributors and well-wishers, including vice president-elect Humphrey would have vigorously denied over

Parents Should Check Child's Immunization

Are your children protected against diphtheria, whooping cough, tetanus, polio and smallpox? This question should be asked of each and every parent in Prentiss County, according to Doctor J. W. Hunter, Health Officer for Prentiss County Health Department.

"Many parents wait until a child is ready to start school before protecting him against these five diseases," continued Doctor Hunter.

In 1962 there were 444 reported cases of diphtheria, over 17,000 ca-

ses of whooping cough, and 322 cases of tetanus in the United States, he added. These diseases primarily strike children under the age of five.

"Each child should start receiving immunizations as early as six to eight weeks of age," he stated, "and all immunizations should be completed by his first birthday."

It was pointed out that often parents think their children are protected after they have received one dose of vaccine. Every child needs a series of three injections to protect him from diphtheria, whooping cough and tetanus in addition to a series of injected or oral polio vaccine and a smallpox vaccination.

"After the basic series, children must have periodic boosters to keep their protection at a high level, stressed Dr. Hunter. "These boosters should be given at two to four year intervals."

It was emphasized that immunizations are available through family physicians or the local county health department clinics.

Dr. Hunter concluded by urging parents not to delay in consulting family physicians or the Prentiss County Health Department for the immunization that may be needed.
