Along the way to the crown they disposed of Enterprise, State Line and Houlika.

If the Royals get by Pelahatchie they will meet the winner of the game between Tupelo, AA champs, and Hancock North Central, A winners, for the overall crown.

New Site has a season record of 33 wins and five losses, and although they have lost to Tishomingo, Kossuth, Jumpertown and Wheeler, they have also beaten each of these teams.

and Downs were named all-tournament in north half play.

"Certainly we cannot forget the support that the fans from New Site and Prentiss County have given

us and this has also played a great part in our success. Our victory at Brookhaven has given us an opportunity to play Pelahatchie again and if we get off a good game I believe we can take them."

Principal Ralph Smith added, "We are extremely proud of the fine job these boys have done and are equally proud of the fine job Coach Caveness has done, not only

this year, but the past six years. We appreciate the fine support of the fans from over the county and will be looking for a large crowd Friday at the Coliseum in Jackson."

## Contract Is Awarded Wednesday For Booneville-Baldwyn Airport Work

Contract for the construction of the Booneville-Baldwyn Airport was awarded Wednesday morning to Worsham Brothers of Corinth on their low bid of \$81,113.08.

The bids were received and opened at 10:30 a.m. by the Prentiss County board of supervisors and the airport committee. The airport committee is composed of Charles M. Work on the airport construction

is expected to begin in the very near future. The airport site is on the Gordon, Hatfield and Arnold farms about a mile and a half northwest of Franktown, near the old Lincoln School.

Plans call for a northwest-southeast paved runway 60 feet by 3200 feet, paved taxiway and parking apron. The facility will also have runway marker lights and a rotating beacon. About 60 acres of land will be owned for the airport and permanent easement obtained on another 10 acres.

The lighting system is to be equipped with relays so that it will come on automatically at dusk and go off at dawn.

The committee and engineer are making plans for an office or administration building and a hangar if the necessary funds are available and they are also considering the installation of a medium intensity lighting system instead of the low intensity system in the original bid.

Revenue bonds in the amount of \$75,000 to finance the local share of the cost of construction were sold June 7, 1965 by the board of supervisors to the Peoples Bank & Trust Company of Booneville at an interest rate of 3.84 per cent.

## Kappa Kappa Iota

Dr. Mary Summers, chairman of the Northeast Mississippi Junior College Department of History reviewed the book "Intern" by Doctor X at the regular meeting of Kappa Kappa Iota on March 1 at the Town Motel Restaurant. "Intern", said Dr. Summers, "is the week by week diary of a young doctor during his year of hospital internship. Frank, sometimes shocking, and completely honest, it is the first inside account of modern medical and hospital practice that has ever been presented to the American public."

Dr. Summers said, "Intern" gives the reader a gripping picture of hospital routine, of the exhaustion that round-the-clock duty inflicts, of the conflicts, the incredible blunders, frantic improvisations, and heroic efforts that occur everyday."

"Through it all," continued Dr. Summers, "the reader sees the young intern gradually coming to terms with his own competence, gaining in skills and confidence, earning his stature among his superiors."

"An unprecedented document, every event is completely true. Only actual names and places have been concealed to protect the privacy of the individuals involved," concluded Dr. Summers.

Preceding the book review by Dr. Summers, Mrs. Ivy Mae Smith welcomed the group including a new member, Mrs. Louree Jones. Mrs. Sandra Webb used as the theme for her devotional, "I will lift up mine eyes unto the hills from whence cometh my help."

Mrs. Miller accompanied by Mrs. Smith led in group singing, "Let Me Call You Sweetheart" and "Kappa's Pledge"

Anxiety does not add anything to our well-being, it merely leads to frustration. We should follow Jesus' teaching, when He said "Be not anxious for you life, what you shall eat, or what you shall drink; nor what you shall put on. Live each moment in faith."

## COUNTY-WIDE MEETING

You are invited and urged to attend the county-wide meeting on agronomy and weed control at the Prentiss County Electric Power Association building Monday, Mar. 14 beginning at 9:30 a.m.

## SILAGE

High quality and high yielding silage crops yield more nutrients per acre than any other farm crop. Mississippi dairymen have proved that a higher quality feed can be more safely grown and harvested as silage than as hay in most years.

For economical milk production, high quality forage is an absolute necessity.

A silage operation can be completely mechanized (harvesting, storing and feeding). This makes it even more attractive with the advent of less dependable farm labor and high cost labor.

Costs of silage are directly related to per acre yields. In Mississippi cost of growing, harvesting and storing a high quality silage crop will range from \$3 a ton to \$8 a ton, depending on variety, yield and storage facility.

## TIMBER

The outlook for profitably growing timber is the brightest in Mississippi's history.

New mills locating in the state will boost markets around 24 per cent for pine sawlogs, an overall 16 per cent in one year for sawlogs, and a 122 per cent increase in the pulpwood market is foreseen by 1968.

Most of the timberland in Mississippi is producing only around one-third of capacity. If supply of timber is going to keep up with the increasing demand, better management is going to be needed.

Managing the timberland includes removing cull trees that are crowding out the valuable ones; protecting the woods from fire and insects and replanting understocked stands.

Gov. Johnson  
To Address MEC  
Meeting Apr. 5

Gov. Paul E. Johnson will deliver an address, "A Challenge to Mississippi Leaders," at the 17th annual meeting of the Miss. Economic Council, the State Chamber of Commerce, on April 5.

The governor's address will be presented at the noon session following presentations by those Mississippi communities having received seven or more MERIT Community Awards.

Communities to be honored are Senatobia, Drew, Canton, West Point, Yazoo City, Clarksdale, Tupelo, Greenwood, and Jackson. These towns are endeavoring to complete requirements in all ten MERIT categories in order to receive the ALL MERIT status.

Darryl R. Francis, president of the Federal Reserve Bank of St. Louis, will be the featured speaker at the annual banquet held in the

evening.

On the evening program with Mr. Francis will be a ceremony honoring William M. "Fish Bait" Miller, a native of Pascagoula and Doorkeeper of the U. S. House of Representatives. Each year the MEC pays tribute to a famous Mississippian who has been faithful and loyal to his or her native state.

The all-day meeting will include a morning session on "Communi-

Leadership and Race Relations."

Presentations and discussions will be centered around the areas of boycotts, voting and industrial development.

The afternoon session will feature two prominent figures deliberating on the question of whether, "The Great Society is in the Long-Range Best Interest of Mississippi." Hodding Carter, publisher and Pulitzer Prize winner from Greenville will expound on the

proponents' view; Thurman Sensing, executive vice president of the conservative Southern States Industrial Council of Nashville, Tennessee, will relate the opponents' viewpoint.

Reservations for the April meeting are being accepted now from Council members and their guests. Luncheon and banquet tickets are \$4.00 and \$5.00 respectively and tables for eight may be reserved for both functions.

At first in football the ball was always kicked and never carried. But in 1823, during a game at Rugby, England, the score was tied and the end of the game was near.

William Webb Ellis caught a long

punt, tucked the ball under his arm and took off, passing all opponents to cross the goal line just as the game ended. He was criticized but it was the beginning of the game as it is known today.

## "Discover Mississippi '66"

Governor Johnson has announced a major new campaign to stimulate travel within Mississippi—by Mississippians. It's called "Discover Mississippi '66," and this newspaper is proud to have a part in it.

We will inform our readers, through attractive public service advertisements and special articles in these pages, of some of the many attractions that can be found by pleasure travelers right here at home.

An enthusiastic audience heard the Governor outline the program at a Jackson meeting recently. He said that, with the exception only of winter sports, "Mississippi offers every vacation attraction you can find anywhere else in the United States."

Here in Mississippi you can find seashores and small mountains, abundant gardens and majestic old mansions, historic battlefields—and even a petrified forest! Our family visited the petrified for-

est recently and we all enjoyed it.

Spending your money at home makes good sense economically, but there's a bigger reason than this. If you haven't yet "Discovered Mississippi," there are surprises and pleasures in store for you and your family.

Not too long ago a state representative from south Mississippi took his wife on a vacation. They drove over 2,000 miles, and spent 14 days on the trip—and they never left Mississippi! A lifelong Mississippian, he expressed wonder and delight at what he discovered about his home state.

We think it would be a great idea for you, our readers, to discover new reasons for your pride in Mississippi. Discover brand new, surprising spots of beauty and history. Discover this new concept in vacation. Discover a happy way to spend a weekend, or a week.

Discover Mississippi, '66!

## Good Physical Education Program For Boys And Girls At Northeast JC

(This is the sixth in a series of sixteen articles featuring the academic departments at Northeast Mississippi Junior College.)

By MARY ROBINSON

What is more important than health and physical fitness? Realizing the importance of physical education, the Northeast Mississippi Junior College provides a splendid activity program for both boys and girls.

Included in the Health and Physical Education Curriculum are outlined courses designed to develop the body, to help build a stronger personality, to prepare the student in first aid teaching, and to develop better skills and mental hygiene. Personal and Community Hygiene is designed to arouse in the student a sensible and personal health consciousness in relation to his own welfare and that of the community. From time to time the students have the opportunity to hear off-campus speakers. Recently, Miss Sarah Hill, Jackson, Dental Health Consultant for the State Board of Health, spoke to the Health and Community Hygiene Class on the care of the teeth. Miss Hill in presenting a survey on the fluoridation of water, to prevent tooth decay, pointed out that a small percentage of the towns in Mississippi use the fluorine system. Miss Hill also showed a film on "Dental Care," which emphasized the proper technique for brushing the teeth and the three types of toothpaste recommended by dentistry.

An important part of Health and Physical Education Curriculum are the basic activity courses including softball, tennis, archery, shuffleboard, square dancing, ball-room dancing, badminton, volleyball and soccer.

Another course is Recreation and Playground, a study of techniques and methods of teaching games and contests in recreation and playground activities.

Courses in Baseball and Basketball give a theoretical study of these sports from a coaching standpoint. Included also is the study of fundamentals and team play. When one thinks of the Health and Physical Education Department at Northeast, he automatically thinks of baseball and basketball teams—The Tigers.

Throughout the history of the college, The Northeast Tigers have won numerous conference games and Junior College Championships.

## Needy Persons In County May Apply For Food Program

The Mississippi Department of Public Welfare's Expanded Commodity Distribution Program is under way in Prentiss County. According to J. B. Hill, Agent, needy persons in Prentiss County who have not yet been certified by the Welfare Department may apply for food help on Monday through Friday of each week at the Prentiss County Welfare Office. All persons applying for food assistance will be required to furnish proof of their income. Eligibility for the food is determined by the Welfare Department in accordance with the rules and regulations developed in cooperation with the U. S. Department of Agriculture Consumer and Marketing Services.

The expanded commodity distribution program, called "Operation HELP", has been approved by Gov. Paul B. Johnson, who has named a nine-member Advisory Committee to work with Welfare Commissioner, Evelyn Gandy, in implementing the program in such a manner as to provide food to all of Mississippi's needy citizens.

Miss Gandy points out that the demonstration project is designed to expand distribution of USDA donated foods in the state for a period not to exceed six months. It allows distribution in counties which previously have not had a food assistance program, expansion in counties where distribution formerly was limited to welfare clients only, and expansion in counties having programs lasting less than six months.

## WHERE DO THE STARS GO, MOMMY?

The big brown eyes are thoughtful, the small face earnest as Mary Anne considers the universe.

Sometimes our pint-sized inquisitor's questions are devastatingly funny, sometimes deadly serious; but always important. Harry and I may chuckle over them, but we never forget that these queries reflect Mary Anne's increasing awareness of the world about her. We know that our answers and attitudes are an important part of her development.

Another influential portion of Mary Anne's growth, we feel, has been her regular attendance at Church School. There, Mary Anne's experiences with other children have been related to God's plan. The tiny kitchen or play garage in the skilled teacher's capable hands becomes the training ground for Christian behavior.

How glad we are that our church is well equipped to guide our child in her religious growth.

Attend your church. Take advantage of the inspiration and knowledge it is eager to share with you and your children.

# HOME ECONOMIST'S NOTES

By CLAIRE T. ROSS, Extension Home Economist

The kitchen is again coming into its own as the social center of the home, despite the growing popularity of the family or TV room. Many stay-at-home homemakers are enjoying their kitchens as the place for neighborhood confabs or coffee breaks during the daytime. The family or TV room remains the favorite for evening gatherings. Because of its social uses, homemakers are demanding larger kitchens. Many want enough space for a dinette set, although the combination kitchen-dining room shows no signs of coming back.

## Booneville Girl Scouts Observe Thinking Day

All Girl Scout troops in Booneville joined together in a program on Tuesday afternoon, February 22, in observance of Thinking Day. This is the one day each year when Girl Guides and Girl Scouts everywhere join their thoughts and send them round the world as a powerful prayer that all men shall be friends. The program was presented at the PCEPA Building, with mothers of the girls as special guests.

Janice Gullett of Senior Troop 161 was moderator of the meeting.

in French Toast Cups:

Dip bread as for French toast, then reach for custard cups instead of the skillet. Butter the cups well. Into each one, press a dipped slice of bread. Bake in a moderate oven (350 degrees F.) until lightly browned, or about 20 minutes. To serve, spoon fluffy scrambled eggs into the baked French Toast Cups.

## STARTING ANNUAL FLOWERS

If you are anxious to get your flower garden started, but know it's a little early to trust that all cold weather is gone, you can start your plants in seed flats or pots. Or, you can broadcast the seed in good soil outdoors and then dig and transplant to your flower garden.

The seed must have moisture for they won't sprout if they are dry. Just press small seed such as petunia and alyssum into the soil so they are in contact with moisture; there is no need to cover them. Cover larger seed such as marigold and zinnia about one-fourth inch deep with fine soil.

Plant seed the size of nasturtium and morning glories three-fourths inch deep where they are to grow with no transplanting.

If you are doubtful about how deep to plant seed, it is better to undercover than to overcover.

## IF YOU ARE PRE-WASHING

MATERIAL before you cut a garment or article, turn in the raw edges and baste a temporary hem to prevent troublesome ravelling of loosely-woven or slippery fabric.

## WHEN SERVING TRAY MEALS

TO A BED PATIENT, use a hand-sized towel as a colorful place mat. These towels are non-skid, absorb sound and spills, are machine-washable and are usually available from the linen closet at no expense.

Make More Cotton

with NEW

SUPER GOLDEN RIVER

this Premium Fertilizer fills the gap between Golden River and Super Q with a new higher formulation.

New Super Golden River can help you step up to higher cotton yields this season. Super Golden River is fortified with Boron in the amounts recommended by the Extension Service for producing top cotton yields. Nine other trace elements, including Calcium, Sulphur, Magnesium and iron prevent soil deficiencies that can eat into your pocketbook. If cotton is your crop, then you'll do better with Super Golden River in your fields. It's formulated in two grades—9-12-12 and 12-12-12. Super Golden River is thoroughly mixed and granulated for easier, more consistent application. Try it this season; it's a sure way to step up to a richer harvest!

## OTHER RIVERSIDE FERTILIZERS

RIVERSIDE REGULAR—basic NPK formula. Choose 9-12-12 grade or 12-12-12.

RIVERSIDE GOLDEN RIVER adds 7 "minor" elements that make a big difference in yields. Includes Boron.

RIVERSIDE SUPER Q—the finest fertilizer on the market. Made for the farmer who's shooting for sky-high yields.

RIVERSIDE LIQUA-MIX—a "complete" fertilizer containing NPK in easy to use liquid form.

## Sales And Earnings Of Brown Shoe Rise

ST. LOUIS, Mo.—Monte E. Shomaker, President of Brown Shoe Co., in the first quarterly report of sales and earnings to be issued by the firm, announced increases in sales and earnings over the comparable period a year ago.

Net profits in the three month period ended January 31, 1966 increased to \$3,643,000 from \$3,254,000 for the same three months in 1965, an increase of 12 per cent.

Earnings per share amounted to \$1.11, an increase of 12 per cent over the 99 cents per share earned in 1965.

Net sales for the three months were \$70,060,000 compared to \$61,298,000 for the same period a year ago, an increase of 14 per cent.

"During this period retail shoe business has been strong despite the unusually mild weather in many parts of the country," Mr. Shomaker said. "Acceptance of our Spring lines of nationally adver-

tised shoes has been good, and wholesale orders and shipments are running ahead of last year, despite the fact that the earlier Easter this year has resulted in somewhat earlier wholesale shipments than in 1965.

"The period has seen an extremely volatile raw material market with substantial increases in the price of hides and leather. This situation is continuing to receive our close attention."

Mr. Shomaker added that March and April, two important months in the company's Spring season, lie ahead. "With continued strength at retail, we anticipate further increases in sales and earnings," he said.

By CHARLES E. CALVERT, Office Manager

**Big Signup Urged For Feed Grain And Cotton Programs**

At a recent meeting of ASC farmer-committeemen, Horace D. Godfrey, Administrator, Agricultural Stabilization and Conservation Service, emphasized the need for 1966 participation in the commodity diversion programs. Mr. Godfrey stressed the following points in discussing the commodity supply situation:

1. Farmers can sign up for 1966 programs with confidence that the programs are based on the government's best estimates of commodity supply requirements.

2. The flexibility of the Food and Agriculture Act of 1965 assures farmers that future programs will likewise be in tune with market

demand and the Nation's food policy. (This flexibility is apparent in this year's program adjustments eliminating diversion payments for spring wheat, increasing the price acreage allotment, and permitting feed grain program payments where soybeans are planted on feed grain acres.)

3. The two new bills being proposed by the President—to establish security reserves of commodities and to amend and retain the best parts of P. L. 480—could not become effective for some months. Further, even if the bills had been enacted, it would take some time to develop with other countries the necessary agreements and programs for self help that can be implemented with the aid of U.S. Food.

As for reserves, the President's message said, "During the first year of the new program, it is not likely that we will have to purchase any commodity to build up a reserve."

4. No shortages of commodities are in sight or threatened. Secretary Freeman recently pointed out that we still need urgently to reduce carryover stocks of feed grains and cotton. As for wheat, we expect to carry over into next year as much as we use for food and seed in a full year—600 to 650 million bushels—despite our stepped-up aid to India. With the program as now set, we can anticipate that with about average weather we will have a crop of 1.3 to 1.4 billion bushels to make a total supply of around 2 billion bushels.

"Cotton and tobacco are still serious problems in terms of over-supply," the Administrator said. "Feed grain stocks remain more than sufficient—and it would be tragic to ease up on that program on the theory that our problems are over. We need to continue pushing hard on feed grain signup in 1966. For feed grains, we are aiming for 34 million acres of diversion on farms accounting for 82 million acres of feed grain base. This should turn out to be quite close to what we accomplished in 1965."

Discussing cotton, he said, "We are headed this year for the largest carryover in the history of cotton. We have a new program to deal with that commodity, and we are hopeful that high participation will reserve that trend in supplies and make our fiber more competitive both at home and abroad."

"The new 1966 programs," he declared, "give us the flexibility to adjust production to our changing needs—without swamping our own agriculture in a morass of overproduction that could lead to disaster. Through these voluntary programs, farmers can expect growing income opportunities with a maximum of flexibility and individual choice. Strong participation in the programs by farmers is essential to their success."

Cotton And Feed Grain Sign-Up End April 1, 1966

The cotton and feed grain sign-up will end April 1, 1966. We again call the attention of every cotton farmer in the county to the fact that you MUST sign up prior to April 1 in order to receive price support on your cotton production.

For example, a farmer with a 5 acre allotment who intends to plant his full allotment MUST sign up in order to receive the small farm payment and the price support payment.

Questions are still being asked about planting soybeans on diverted land in the feed grain and cotton

**State Offers Many Attractions For Natives As Well As Tourists**

Last year 15,000,000 people from all over the country visited Mississippi, enjoying some of the scenic splendor and attractions the Hospitality State has to offer.

Many of these out-of-state travelers saw more of the state's attractions than many thousands of Mississippians have seen.

For instance, how many "natives" are aware that there's a fascinating petrified forest in Mississippi, the only one in the United States east of the Rockies—and one of only five such attractions open to the public in the entire country? The Mississippi Petrified Forest, located at Flora (a few miles northwest of Jackson), welcomed thousands of visitors from all 50 states and many foreign countries last year. How many native Mississippians have missed this rare treat?

"Mountains" in Mississippi? Up in Tishomingo County there are huge rock formations, caves, waterfalls and rocky streams provid-

ing some of the state's most dramatic scenery. It's all there to see, and it's free at Tishomingo State Park, and at J. P. Coleman Park on Pickwick Lake.

And how many have seen the historic Old Spanish Fort at Passcagoula, the oldest building in the Mississippi Valley? The Fort (which is not a "fort" at all but an inn) was built nearly 250 years ago, and is today a museum.

These—and scores of other interesting places—are waiting to be "discovered" by thousands of Mississippians. Gov. Paul Johnson has inaugurated a program through the Travel Department of the state Agricultural and Industrial Board called "Discover Mississippi '66."

A visit to some of the many surprising points of interest in Mississippi provides an education in itself. Native sons of the state will be amazed when they explore their own country.

Some of Mississippi's attractions are well known. The fabulous Mississippi Gulf Coast, for instance, or annual Pilgrimage events at the antebellum mansions of Natchez, Holly Springs and Oxford; the Civil War Battlefield at Vicksburg; the Natchez Trace National Parkway.

But there are many other exciting and interesting things to do within a short drive of virtually every home in the state. You'll be hearing more about things to see and do in every section of Mississippi.

In the meantime, the state's Travel Department poses these "teasers" for travelers, aimed at helping you "discover" Mississippi:

Where can you find Indians, their fairs and festivals? Right here in Mississippi, near Philadelphia.

What about ghost towns? Why go west, when down in Jefferson County there's a full-fledged ghost town—Rodney—with its deserted streets, 19th century shops and homes. Used to be a thriving river port, 'til the Mississippi shifted its course during the last century.

You may know that the longest man-made beach in the world (28 miles) is along the Mississippi Gulf Coast. But have you ever seen the emerald green waters of the Gulf on the south side of the Gulf's offshore islands?

And what about the ghosts of unknown Indians, which haunt

## Confederate Soldier Is Topic For Dr. Sumners' Talk At UDC Meeting

The D. T. Beall Chapter United Daughters of the Confederacy met Wednesday evening, March 2nd, in the dining room of the Town Motel. Hostesses for the event were Mrs. Mary Davis, Mrs. J. L. Keeton, and Mrs. Toy Smith. The graciousness of the group, as they welcomed the members, added joy to the occasion.

A delicious dessert course was served during the social hour. Assisting the hostesses was Little Miss Elaine Rutherford, who led the group in the Pledge of Allegiance to the United States Flag and a salute to the Confederate Flag.

Mrs. Clarence Chase presided and after the ritual, a short business session was held. The members were pleased to hear Dr. Mary Sumners, a profound scholar of Southern history discuss the Confederate Soldier — Pride of the Nation.

Dr. Sumners study was unusual in that it was gathered from documentary material consisting of personal letters and diaries of the soldiers themselves. It gave an intimate view of their everyday life on the battlefields and in the camps of the Confederate army. It was a true picture and reflected the ideas and ideal of the Southern soldiers. It pictured the hardships they endured as well as the lighter moment of their experiences. With all was a picture of the sterling characteristic of the patriots.

In conclusion, Dr. Sumners said that "Johnny Reb" faced his responsibilities with courage and bravery. He was a dedicated soldier, one which the world respected for his unselfish courage and skill even in the face of great odds.

After Dr. Sumners discussion, the members felt very keenly the nobleness of their Southern historical heritage. They felt justly proud of the sturdy dauntless, resourcefulness of their Confederate ancestors. Never could a more intimate picture of the true Soldier of the War Between the States be given than Dr. Sumners presented to the members of the D. T. Beall Chapter. The impressiveness, the readiness and the closeness of the presentation made the members feel as if they were there with the noble soldiers through their war

## Methodist District Youth Rally Set For Corinth Mar. 14

The youth of the New Albany District of the Methodist Church will have their annual Rally at Corinth, Monday night, March 14, at 6:30. The Jr-Hi group will meet at Gaines Chapel, and the Senior-Older group will meet at First Methodist Church.

The Rev. James B. Buskirk of Charleston will be the speaker for the Rally at First Church. This group will elect five youth to represent the New Albany District on the North Mississippi Conference Methodist Youth Fellowship Council. Mr. Buskirk is pastor of the Charleston Methodist Church and District Director of Youth Work for the Sardis District. The Rev. Ed Woodall, New Albany District Director of Youth Work, will preside.

The Gaines Chapel Rally will have the Rev. G. H. Holloman, New Albany District Superintendent, as guest speaker. This program will feature fun and fellowship. Mr. Dennis Sparks of Dumas is the District Director of Jr-Hi Work. All youth from ages 12-21 are invited to the Rally.

experiences. At the close of her study, Dr. Sumners asked each member to give a short sketch of her Confederate ancestor and many incidents of interest were given by the members. Many stories handed down and some from the actual experiences of the members were enjoyed by the group.

The D. T. Beall Chapter United Daughters feel fortunate in not only their historical background but glad of the association with each other. They are glad not only to be daughters, and granddaughters of the Confederacy but happy to be associated with others of like heritage. The objectives of the organization, which is to perpetuate the fame of the noble deeds of the men who fought and died for the sacred principles which the South holds dear seems as necessary today as it was when the organization was founded. The South still believes in the democratic principles on which the country was founded and the sacred rights of the individual is still a basic part of Southern ideology. The UDC members feel that as true daughters of the South they still have a responsibility which is to keep alive the noble principle for which the Confederacy stood.
