## Local Doctor Answers Letter About 'Riders'

The following letter was received by Dr. S. C. Galloway, and following it is his reply:

June 30, 1964

Dear Doctors:

For the past two weeks we have been caring for several hundred American college students preparing themselves in Ohio for a summer's work in Mississippi. We have treated a variety of medical complaints ranging from lacerations, sprains, infections and allergies, to an acute surgical abdomen warranting emergency hospitalization.

We fully understand that the activities of these students working for civil rights in Mississippi may be strongly resisted by many people of the state. As physicians we are concerned that they continue to receive adequate medical care.

We are hopeful that the doctors of this nation, wherever they live, whatever their social or political views, will respond fully and without reservation to the words of the Hippocratic oath: "The regimen I adopt shall be for the benefit of my patients according to my ability and judgement, and not for their hurt or for any wrong..."

We are sending this short letter to our fellow physicians of Mississippi and to the county medical societies, in the sincere hope that a clear separation between social upheaval and medical need will be maintained.

Sincerely,  
Joseph H. Brenner, M.D.

## Dairy Association Has Meeting Tuesday

The Prentiss County Dairy Association held its regular monthly meeting in the Prentiss County Electric Power Association building Tuesday night.

The meeting emphasized the artificial breeding program.

W. E. Hodges, Guntown dairyman and a director of the Tupelo Area Artificial Breeding Association, pointed out what was available and the advantages and opportunities offered by the program.

Cecil Traywick, manager of the breeding association, showed film slides and County Agent W. T. Smith talked on the need for increasing production. J. W. Archer, associate agent, talked about the position of dairymen in the county at present. He also stressed the need of cooperation by dairymen in getting their calls to the breeding association in early to guarantee better service.

Also at this meeting, Junior production awards were presented. Pictures of the winners will appear in the next issue.

## KBL Juniors Win In Playoff Game Tues.

D. T. Whitfield pitched a one-hitter Tuesday at Booneville's Kiddie Baseball League Juniors defeated Corinth's Boys Club 1-0 in the opening round of the Kiddie League playoffs. Benny Haynie gave up four hits for Corinth.

Booneville scored the game's only run in the bottom of the third inning on a walk to Dennie Murphy, followed by Dickie Gilley's single. Gilley, Benny Pippin, Dean Koon and Hal Storey each had a single for Booneville.

This win gave the local Juniors an 11-0 record for the season. They will play the winner of the Saltillo-Shannon game in the second round of play.

Dear Doctor:

I received your letter of June 30, 1964. I consider this a studied insult and abysmal ignorance on your part. I am not a first year medical student to be lectured on my duties and Hippocratic Oath.

I am a graduate of the University of Illinois College of Medicine and Interned in Chicago. We had three Negroes in my class.

In my practice I make no appointments. I see my patients as they enter the office. Every day I see Negroes while my good white patients await their turn to be seen. Of course, emergencies take precedence over all cases.

I intend to continue this routine except for the changes that you mention that will take place in our state. I assure you that the group you are interested in will have as good medical care as was taught in your Northern University.

But, one change will be made. This change is that the group you speak of, those who have been so thoroughly "Brain Washed" that their I.Q. is lower than their Wasserman, will be seen after I have seen our "Good Mississippi Negroes."

Most sincerely,  
S. C. Galloway, M.D.

**SALE PIGS** — D. H. Prichard looks over part of a group of 259 pigs which he bought Thursday at the 17th quarterly Booneville Area Feeder Pig Sale, paying an average of \$13.53 per head. He has a total of 326 pigs that he is feeding out at his pig parlor south of town, and figures 75 per cent of them should reach market weight in approximately 90 days. At the Thursday sale, 1026 pigs were sold at an average of \$11.05 per head. County Agent W. T. Smith said, "The consistently higher prices which pigs have brought in these sales demonstrates that farmers with a few brood sows can profitably produce feeder pigs." He said that the potential was easily double the number of pigs now being produced for the sales.

## County Forestry Tour Will Stress The Importance Of Management

The annual Prentiss County Forestry tour will be held Wednesday, July 29, it was announced today by Bobby K. Killibrew, area forester with the Mississippi Forestry Commission. The tour will begin at 1 p.m. at the courthouse in Booneville and will be concluded by 4:30.

Mr. Killibrew urged all Prentiss County Forestry contestants to attend and gain additional points in the contest. He said, "Bring your neighbor to this meeting and tour, we feel it will be useful to you in the management of your forest woodlands."

The main purpose of the tour is to encourage better forestry management practices and to view results of such practices.

Pointing out the importance of forestry in this area, Mr. Killibrew

explained that while 52 per cent of the land area of Prentiss County is classified as forest lands and potential forest lands, only a relatively small amount of this area is being properly managed to produce profitably.

However, Mr. Killibrew continued, even now 25 per cent of the county's economy is coming from forestry and forest products. But, where the forestry income is now slightly less than a half million dollars the potential is well above \$2 million annually.

Explanations and discussions of the areas visited on the tour will be led by Mr. Killibrew; Perry Davis, management forester of Tupelo; and Al Spille, information and education forester of Tupelo.

Among the points which will be demonstrated and discussed at the areas to be visited are the conversion of mixed stands to desirable species of pines; hardwood management on bottomland sites; and intermediate management applications on areas where the pine stand has been established, such as watching for insect damage and

maintaining fire lanes, etc.

Other areas will show selective thinnings and steps toward a final harvest cut. These areas will also show the capacity of a given site for producing the maximum amount of wood per year, and the discussions will explain how to reach capacity production.

Mr. Killibrew added that for the past fiscal year Prentiss County had the second best fire control record in the 12-county Northeast District.

Box 131, Jackson, Mississippi will be in the office of the County Service Officer, Mr. W. C. Bridges for the purpose of assisting Veterans and their dependents with any claims which they may have against the Federal Government through the Veterans Administration.

He is a Combat Veteran of World War Two, a member of the American Legion and V.F.W., and has completed seven years of Veterans Affairs work with the Commission. He knows the Laws and Regulations under which the Veterans Administration adjudicates claims of the Veteran and his dependents and can be of great help to these worthy citizens who served their country.

Remember the date and come by, and chat with Mr. McClell. If you have a problem concerning your claim, let Mr. McClell know and I am sure you will profit greatly thereby.

## Booneville Swimming Team To Compete In Conference Meet July 31

Coach Charles Gullett announced Wednesday that the following boys and girls would compete in the Tombigbee Conference Swimming meet at Ripley.

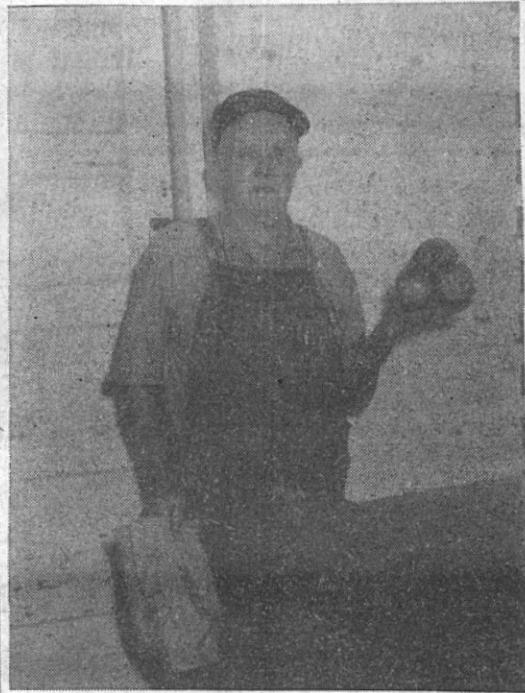

They are Richard Walden, Kenneth Shackelford, Larry Simmons, Johnny Hanley, Tommy Floyd, Walter Simpson, Doug Herbert, How-

ard Knight, Scott Hellum, Jim Pounds, Bob Galloway, Steve Hutchins, Mike Hutchins, Jim Hutchins and John Hutchins; Janice and Ann Gullett, Sandra Pounds, Jane Honeycutt and Donna Cartwright. They will leave Friday, July 31.

Plans to select an aquatic queen are being made.

Mr. J. L. Keeton, Sr., is shown, left, with tomato plants which are his and Mrs. Keeton's hobby. They have grown several in the two-pound class, and have the vines staked up over eight feet high... and they are still growing! The Keeton's home is on Third Street in one of the city's historic show places, the Old Lacy Home. Center photo shows Lon Ashcraft, who lives on Route 5. He has an oddity of nature — three tomatoes in one. This tomato weighed two and a half pounds. Mr. Ashcraft is in the tomato business in a big way; he has about 200 plants. Fred Houston, right, is shown with a vine that

was loaded with 117 small tomatoes. With him is his dog, "T-Bone", but "Obie," fuzzy half Scotty and half Sheep dog usually makes the rounds with him. The vine was tied to a display rack given him by Bob Grisham. Near the vine is another hobby of Mr. Houston's, trees which he finds struggling for existence along edges of sidewalks, buildings, etc. In that area he has a catalpa tree, silver leaf poplar, holly, sweet gum, hickory, tulip poplar, Rose of Sharon, sugar leaf maple, wild cherry, apple and pecan. Still another project is the development of the back-yard area from which one can see three ranges of the Tippah Hills.

## Accidents Don't Just Happen

National Farm Safety Week has become an American institution. It richly deserves that distinction — for the toll of death and injury that accidents cause to farmers and farm people is, and long has been, an urgent national problem.

This year the week is being observed during the July 19-25 period, using as its theme "Safer American Families Everywhere." It has been proclaimed by President Johnson, who said: "Notwithstanding the fact that hundreds of thousands of volunteer leaders and members of rural organizations actively participate in community, State, and national safety programs which have proved effective in reducing the number and rate of accidents among farm residents, accidents still cause thousands of deaths and nearly a million disabling injuries to farm people each year. This loss of human and economic resources causes a significant adverse impact upon the economy of the entire Nation and must be viewed as a matter of national concern."

The facts and figures fully support the President's statement. The death toll from farm accidents runs at a rate of about 8,700 a year, along with some 800,000 injuries. The dollar cost is estimated at \$1.5 billion. Farm people who are laid up by accidents buy less machinery, consumer goods, farm supplies. Their income loss is a business loss to the community and the nation. And no

statistic, of course, can begin to measure the extent of the human problems that all these needless deaths and injuries create.

Basically, the idea is to stress that accidents don't just happen, they are caused—and to stir people to act constructively on that fact. As an example, particular attention is given to stepping up safety efforts in the use of pesticides and tractors. As a spokesman for the Department of Agriculture puts it, "Both are basically safe tools. It is unsafe users that make them dangerous." Specifically, in our society we use over 250,000 different kinds of drugs and household products. Many of them are potential killers if misused. But, if the proper, and usually simple, precautions are taken, they are perfectly safe. To say the obvious, special care must be taken in keeping such substances away from children.

A list of the causes of fatal accidents on farms in a recent year (traffic and home accidents not included) is revealing. Among them are machinery, drownings, firearms, falls, blows, animals, burns, lightning, and suffocation. An accident of some kind kills a farm resident every hour. The doleful record can be cut, and sharply, if those concerned will pay attention to the lessons that Farm Safety Week is designed to teach—and remember that "accidents don't just happen, they are caused."

## Local Business

By S. S. TALBOT

Chairman, Dept. of Journalism  
University of Mississippi

The necessity for continuous expansion of advertising in highly productive nations such as the United States and Canada is related to a rather recent economic condition.

Such countries enjoy what economists call a "buyer's market." Goods are available in such variety and such quantity and from so many outlets that the consumer can buy as he pleases.

Six years ago, Vice President Richard M. Nixon said: "American business must recognize that this is a buyer's market and act accordingly."

"New products, increased advertising, low prices can have a dramatic effect on consumer psychology."

"The people who have most at stake in the survival of our free

## THE CHOICE SHOULD BE CLEAR

## SOUND SOLUTION?

## Sure Road To Recovery

Adoption of the most authoritative advice provides the surest means for solving a problem.

Congress, therefore, should give very careful consideration to the proposals made by the National Association of Manufacturers for speeding the recovery of Appalachia and other depressed areas because manufacturers have been dealing with and finding solutions for tough economic problems from the very inception of this country's industrial history.

Pointing out that businessmen are deeply concerned over the economic and social problems of the unemployed in long depressed communities, the NAM has expressed the well-founded conviction that it is through increased stimulation of private investment in those areas that recovery will be speeded and not by massive federal spending of taxpayers' funds.

"Members of the Association favor the unrelenting attack on the basic problems, including the application in depressed communities of proven principles of voluntary cooperation," said the NAM in a statement submitted to Congress. "These self-help programs pioneered by individual communities or stimulated by private foundation funds, educational programs or by business, professional and labor union leadership, should receive greater national attention and wider application."

As concrete proof of the efficacy of self-help programs the NAM cited, among others, the case of Hazleton, Pa., which, through its own efforts and without a penny of federal aid triumphed over an economic crisis that had thrown half of its job-force out of work. Working with the full cooperation of all elements of the community, Hazleton induced new industries to settle within its boundaries, creating enough new jobs to reduce its unemployment rate to a more respectable 8 per cent.

The NAM offered its fullest cooperation to Congress in the pursuit of satisfactory ways to help ameliorate the human and community problems of long-depressed areas. We believe that both the sound advice and the offer of help should be promptly accepted.

## What Do You Think...

The following article written by Kenneth L. Dixon appeared in the Commercial Appeal and was brought to our attention by Mrs. Eva Eskridge, who has long been concerned with the situation.

We would like for you readers to express your opinion on the subject, in letter form, which we will publish. Just address your letters to The Banner Independent, Box 269, Booneville.

WEST LAKE, La., July 6 — The current congressional investigation into the high cost of dying these days has stirred up another controversy involving the nation's undertakers.

It concerns health, rather than wealth, of the survivors. It is the problem of pallbearers. I have just returned from a funeral which dramatized the problem precisely.

With the temperature standing at almost 100 degrees, six men struggled with a coffin from the hearse to the grave. They already had gone through the same process bringing it out of the funeral chapel.

Four of the men were in their mid 60's. Three of them had known heart conditions. I use the word "known" advisedly, because the other three may also have suffered mild heart attacks and not known it.

All six were panting by the time they reached the graveside. And sweat was pouring from their faces. I was actually frightened for fear we'd have another death on the spot.

After it was all over, one of the men sat in his home and admitted he had feared for his own health out there in the afternoon sun.

He was one of those in his 60's. "And this happens on an average of once a week," he said. "A friend dies and I get called on to be a pallbearer. What can you do? A few times I have pleaded illness, but that meant I couldn't even go to the funeral. So most of the time I agree — and most of the time I'm scared I'll drop dead on the spot."

He went on to say he was even more worried about older friends whose health was not of the best but who were put through the same ordeal just as often.

His solution? Professional pallbearers. "There's many a husky school kid who needs money, and most of them would welcome the chance to pick up 5 or 10 dollars for an hour or so of their time."

"Let the six chosen friends walk

(10) Years Ago—

## Davis Fires Johnston; Forrest Is Defeated

By LON K. SAVAGE

As the hard-driving Federal army of Gen. William Tecumseh Sherman approached the suburbs of Atlanta 100 years ago this week, a telegram from Richmond arrived at Atlanta, addressed to Gen. Joseph E. Johnston, commander of the Confederate army defending the city.

From the Confederate Adjutant General Samuel Cooper, the telegram read in part: "I am directed by the Secretary of War to inform you that, as you have failed to arrest the advance of the enemy to the vicinity of Atlanta and express no confidence that you can defeat or repel him, you are hereby relieved from the command of the Army and Department of Tennessee, which you will immediately turn over to Gen. Hood."

Thus ended, for a time, a long smoldering feud between Johnston and Confederate President Jefferson Davis. All during May as Johnston retreated before Sherman's army, Davis fired off messages demanding to know why Sherman was not attacked. Johnston, eyeing a Federal army twice the size of his, asked for further help but did not receive it.

## Public Opinion

Public opinion turned against Johnston, too, as Sherman took more and more of Georgia, and Braxton Bragg, Davis' right-hand man, was working behind the scenes to get Johnston fired and replaced by Bragg's friend, Hood. Finally, on July 17, Davis administered the blow, and Hood was in command.

John B. Hood, 33 years old and Kentucky born, was brave as a lion; all agreed to that. But in Sherman's opinion, Hood also was "not deemed much of a scholar, or of great mental capacity," and many agreed to that, too.

Within two days after assuming command, Hood was to have ample opportunity to show his fighting merit as Johnston stepped quietly and sadly down. Meanwhile, in Mississippi, the one Confederate general who made a habit of winning in the west—Nathan Bedford Forrest—suffered one of his few defeats that week.

## Forrest Found

Early in July, an army of 14,000 Federals under Gen. A. J. Smith had set out from La Grange, Tenn., to find and defeat the famous Forrest. By happenstance, Smith found Forrest near Tupelo, Miss., at a time when Forrest was operating under another general's orders, and Forrest never was at his best unless he was running his own battles.

On June 13, Smith was nearing Tupelo when Forrest, under orders from Gen. S. D. Lee, fell upon Smith's rear. Misfortune started at once, as his men were beaten off by a brigade of Negroes and a Kansas cavalry detachment. That night, Smith encamped atop a knoll at Harrisburg, a mile from Tupelo, and prepared his defense.

At 7:30 next morning, Forrest, with about 6,000 men, dismounted his command and charged. Four times, his men went forward, and each time they were driven back with heavy loss. That night, they charged again, and again they met defeat.

Next morning, the 15th, Forrest prepared for another attack but was met, instead, by a Federal charge that broke his line. Forrest, himself, was shot in the toe, and his men were forced to retreat.

It was not a catastrophe for Forrest. Although his 1,300 casualties were double Smith's, and although he was forced to ride in a buggy afterward because of his wound, his fighting days were far from

over. Nevertheless, Forrest was never again to fill his depleted ranks.

Next Week: The Battle of Atlanta.

## Q and A YOUR SAVINGS BOND QUIZ

Question: I own some Series E bonds bought in August, 1944. Am I required to turn them in for redemption in August of this year?

Answer: Absolutely not. Series E bonds bought between May, 1941, and May, 1949, have been given two 10-year extension periods which, in effect, make them 30-year bonds. You can continue to hold your bonds and earn interest at a straight 3 1/2%, compounded semi-annually on the basis of their present value, for at least another 10 years.

Question: Is the Federal income tax on the accrued interest on Series E bonds deducted at the time they are cashed?

Answer: No. You are requested to list your taxpayer identification number (usually your Social Security number) when you redeem an E bond, but this is not mandatory. You would list the accrued

interest on your regular income tax return for the year in which you cashed the bond. But, remember: this interest is not subject to State or local income taxes.

Question: I purchased two bonds for other people, only to discover that I had been victimized by a chain letter scheme. What can I do with the bonds now?

Answer: You are lucky you learned so quickly. The Treasury does not condone sale of Savings Bonds in connection with a chain letter scheme. Your recourse is to write a full letter of explanation, enclosing the bonds, to the Bureau of Public Debt, Division of Loans and Currency, 536 S. Clark St., Chicago, Ill. 60605.

## Town And Country Garden Club Meets In Burress Home; Plans Hat Party August 21

The Town and Country Garden Club met Tuesday, July 21 in the beautiful home of Mrs. R. H. Burress, Sr. with Mrs. Lon Stutts as co-hostess. There were twenty members present, including the newest member, Mrs. Henry Mize. After delicious refreshments were served, Mr. A. L. Tidwell gave a very informative lecture on "Insecticides and Fungicides" with a question and answer period following.

The business session followed Mr. Tidwell's discussion. The club regrettably accepted the resignation of Mrs. D. F. Crowe. The club was welcomed into the Federated Garden Clubs of Miss. and a delightful note from one of the judges at the recent flower show was read to the members. A congratulatory card on the flower show was received from a former member, Mrs. Roy Gullett, who is in Colorado for the summer.

Plans were made for the semi-annual Hat Party, which will be held August 21 in the home of Mrs. W. V. Kemp from 10 a.m. to 5 p.m. Start making plans now for these fall and winter outfits and the hats you will need to go with them. Then come on out to Mrs. Kemp's home and enjoy coffee and cookies and friendly chatter while leisurely trying on new hats. Mrs. Webster Cleveland, Jr. is chairman for the Hat Party and named the committee members for the August 21 Hat Party.

After the meeting, Mrs. Ben Smith and Mrs. Joseph Hurst discussed and judged the beautiful arrangements brought to the meeting by members. The theme for the arrangements was "What's My Line?" There were many and they were all lovely!

The yard of Mrs. Kenneth Pounds was named "Yard of the Month."

## Just Scribbling

by

MRS. ED JOHNSON

For almost three months I've been managing the Aletha Lodge Nursing Home in addition to working some at the newspaper. Over the week end, I was elated because my folks, Mr. and Mrs. Long, who have been running their motel in Maggie Valley, N.C., said they'd be back August 1st.

I thought of the sign Ed has on the wall in the newspaper office which reads, "Cheer up, things could be worse. So I cheered up and sure enough, things got worse."

Our linotype operator, Herschel Presley, entered the local hospital Monday.

But once again, the fine employees at the Lodge took over; Jimmy Hodges assisted on the linotype; and it seems your newspaper will be on time as usual.

Might as well cheer up again, hadn't I?

Where there's a will, there's a way. Mrs. Bessie M. Whitfield of Birmingham, Ala., came by this office Friday to say, "Hello." She has been going to Florida in the winter for a number of years and always asked the post office to forward her newspaper from Booneville. One winter, she missed the paper several times, so she called the post office and told them to be SURE she got the paper. The post office put a permanent card above her box to all employees to "make sure Mrs. Whitfield's Banner-Independent from Booneville, Mississippi, is forwarded to her." She hasn't missed one since.

I guess one never ceases liking to be remembered by the younger set, so I was pleased when a teen-age favorite of ours, Carol Vail, daughter of Mr. and Mrs. Stewart Vail, wrote a card from Toronto, Canada, where she was a member of Lions All-State Band, participating in the International Lion meeting. I've always followed her many accomplishments with a deep sense of pride and rejoice in the many honors which have come her way. She deserves them.

July is the best Summer month in which to get an appointment with your dentist, according to the American Dental Association. A survey disclosed that dentists received fewer requests for appointment probably due to the vacation season. So if you need dental work, give your dentist a ring. We have some of the very finest in the country right here in Booneville.

I am indebted to two friends for the following item. Mr. Audie Pierce of the Post Office and Mr. Jack Brown both gave me this bit of oddity about the presidents.

### LINCOLN-KENNEDY

Both of our presidents, Lincoln and Kennedy, were concerned with the issue of civil rights.

Lincoln was elected in 1860, Kennedy was elected in 1960.

Both were slain on Friday and in the presence of their wives.

Their successors, both named Johnson, were Southerners, Democrats, and had previously served in the U. S. Senate.

Andrew Johnson was born in 1808, L. B. Johnson was born in 1908.

John Wilkes Booth was born in 1839, Lee Harvey Oswald was born in 1939.

Both Booth and Oswald were murdered before trial could be arranged.

Booth and Oswald were Southerners, favoring unpopular ideas. Both president's wives lost children through death while residing in the White House.

Lincoln's secretary, whose name was Kennedy, advised him not to go to the theater, and President Kennedy's secretary, whose name was Lincoln, advised him not to go to Dallas.

HOW'S THAT FOR HISTORY?

The following was written by Miss Connie Murdock, 16-year-old daughter of Mr. and Mrs. Martin Lee Murdock of Nashville, Tennessee, formerly of Booneville. She is attending school in Knoxville, Tennessee. Her grandparents are Mr. and Mrs. L. Houston of Booneville and Mr. and Mrs. Earnest Murdock of Baldwin.

"DEAF IN THIS WORLD ONLY"

"Sometimes I wish I could hear because I would like to have a 'desk' job or be an airline hostess. I know I cannot be an airline hostess, but perhaps I can get a good job in an office or as an artist."

Aside from this, I think I'm very lucky to be deaf. I am happy all the time, and I thank God for my many deaf friends. I feel it is God's will that I am deaf, but I always keep in mind that I will be deaf in this world only. In the next world I will be able to hear!"

—Connie Murdock  
(The Tennessee Observer)

(This appeared in the School For The Deaf, Knoxville)

Julia Davis, vivacious 7-year-old daughter of Mr. and Mrs. James Davis, was walking down the street Friday with her mother. A car had a sign on the bumper which read, "Silver Springs." She asked, "What is he running for... sheriff or president?"

A local citizen mused this week... "What's the use of having all the signs against littering when unthoughtful people keep throwing bottles, cans and papers into the yards along the roads."

I enjoyed a conversation with Mrs. Joe Hurst last week. She told me about her mother-in-law, Mrs. T. J. Hurst of Hattiesburg, visiting here recently. They showed her over town, but after returning home she was highly indignant they had not been by Aletha Lodge... they had been by in March.

Sara said Dr. Hurst's roses got canker and were no more... but he plans to get a brand new start this fall.

I commented on their pretty new home on Boone Street... and found out that Dr. Hurst is a direct descendant of Daniel Boone... sorta fitting!

Mrs. Hurst is a descendant of Sam Houston... but said she didn't keep up with all that genealogy.

I didn't get by to see a wild spider lily blooming last week, but will look forward to the roses again.

Mr. J. C. Stanley told me the poem, "There's Nothing the Matter With Me." I published recently in this column, was written by the beloved S. S. Sargent of Blue Mountain, formerly of Booneville, and that he, Mr. Stanley, sent it to the Rotary Magazine and from there it has appeared in publications everywhere.

Noel (Happy) Enis did a fine gesture recently... took three rolls of film of people in Booneville and sent them to his Aunt Dora, Mrs. Sam Enis, in West Palm Beach, Florida, who is most interested in everything that goes on here.

Things were buzzing at the home of Mrs. Grace Moore at New Site Wednesday!

Mildred Browning told me about the story last week, and when I called Mrs. Moore to get the item for this column, she said Mr. Jim Archer had just come to her rescue.

Mrs. Moore was away from home in May and bees invaded her wash house, and got into a trunk. There was just barely enough room for the bees to get under the unfastened lid.

The bees were making honey, but Mrs. Moore didn't want a trunkful of honey — she wanted a place to wash clothes. Mr. Archer set up a bee gum under a shade tree and hopes the bees go to it. Mrs. Moore's daughter and grandson got stung a little Wednesday, but not Mrs. Moore. "I didn't get out of the house," she said, "Too much buzzing around to suit me!"

I guess from now until election time, we'll hear many jokes concerning the candidates. I've been asked several times for whom I was going to vote. Well, I've always been a Democrat, and I might change my mind later, but it sorta looks like this Democrat is going to cast her vote for Goldwater this time.

Till next week,  
Helen

## Pilots View Film Of New York City And The World's Fair

A program of unusual interest and entertainment, entitled "Vacation Fun" was presented by the Publicity and Public Relations Committee last Thursday evening, July 16 at the Town Motel.

Low crystal bowls holding arrangements of dainty Queen Anne's Lace tinted in pastel colors and mixed with greenery made a lovely background for the miniature cars, planes and buses, used to emphasize transportation for vacationing.

Mrs. Louise Peeler, Program Chairman, introduced Mr. James H. Iler, District Sales Representative of Continental Trailways, who showed a colored film of New York City and of the World's Fair. For thirty minutes the wonders of the great Exposition, New York City, and views of some of the northeastern states, held an appreciative audience. Expressions of anticipated pleasure were heard from those planning on attending the Fair, as well as delighted comments from those who have already attended. For those who will not have the

opportunity of making the trip, the film brought out many of the high lights of the Big City, most of the wonders of the Fair, and views of the scenery en route.

Mrs. Clyde Thomason of Columbus, Ga., mother of Mrs. Ann Pritchard was among the guests.

Other members of the Program Committee were Miss Earline Woods, Co-Chairman, Mrs. Peggy Comer, Mrs. Dollye Hodges, Mrs. Bertha Yarber, Mrs. Daisy Golden, Miss Sue Kimbrell and Mrs. Jettie Nunley.

## COUNTY AGENT NOTES

By W. TAYLOR SMITH, County Agent

### FEEDER PIG SALE

The seventeenth Area Feeder Pig Sale was held here Thursday. 1026 head of pigs were sold at an average price of \$21.20 per cwt., or \$11.23 per head. The average weight was 52 pounds per pig.

This sale gives our farmers an opportunity to supplement farm income by producing pigs. High quality pigs will always sell at top prices.

The average price for pigs that have sold through these sales since the program was started in 1960 is \$24.06 per cwt or \$12.55 per head. The average weight of all pigs was 52.16 pounds per pig.

There are now seven such sales

Mr. Smith

in the state.

### POULTRY NOTES

Odds are that we are going to have a lot more hot weather before fall arrives. Already, especially during June, we had reports of heavy heat losses from broiler flocks and broiler breeder hen flocks.

Help reduce these losses. You can do a lot to help by simply making sure that your poultry houses are opened up. Then make sure that grass and weeds are cut from around the house so that air can circulate freely.

Remember, too, that additional waterers can help a lot. A chicken will drink around four times as much water in hot weather as they will in cool weather.

It might help too, to increase the depth of the water in waterers so that birds can immerse their wattles when drinking.

### COTTON INSECTS

Keep close watch for an outbreak of bollworms. Check in the bud area for small worms. If found, do a good job with one of the recommended insecticides.

Boll weevil infestation in "hot spots" has jumped. Where these pests are a problem, applications of insecticides should be made on a close schedule to bring the boll weevil under control.

### PASTURE POINTERS

Fescue should not be grazed from now until late fall. Old fescue and new planting should not be fertilized until around Sept. 1.

Areas that will be planted to fescue should be plowed and fallowed during the rest of the summer. Apply lime, if needed, during the fallowing period.

Coastal Bermuda can use more nitrogen per acre than other grasses for grazing or hay. One pound of nitrogen per day of growing is not bad. Most farmers apply 60 lbs. per acre at each application.

On Coastal set this year, spray with 2-4-D or clip weeds and turn in cows to graze. Topdress now with 30 to 40 pounds of nitrogen per acre for extra growth and to get the ground covered.

Do not forget to fallow an area for early planting of winter grazing. Fallowing land will do more toward getting quick stands and fast growth than any other practices. Disk the fallowing land every two or three weeks from now until planting time.

### SOCIAL SECURITY

Planning to move? If you are and you are getting social security checks, you must tell the social security administration as well as the post office your new address. For more information, check with your local social security office.

## Thrasher RCDC Has Regular Meeting

The Thrasher RCDC had its regular meeting Friday night, July 10 in the high school auditorium. The meeting was called to order by James Chase, president. Larry Furtick gave the devotional, reading The Lord's Prayer.

Doug Holland and Steve Goldman gave a report of their trip to 4-H Congress. This was interesting because so few of the members know what 4-H Congress is. It is an opportunity for improvement for those boys and girls chosen. These boys and girls participate in talks, demonstrations, lectures and on judging teams. Doug gave a demonstration on "Cooperative Marketing." Elimination was by districts and for being a district winner, Doug won a Longene wrist watch. He placed third in the state. Steve gave a demonstration on "Type and Breeding of Dairy Cattle." In this field he was a fourth place winner. The club members are proud of the showing the boys and girls make.

The month of August is picnic month; because of revivals in the community the picnic will be held the second Friday night in August at the Booneville City Park. Every family will bring a picnic lunch.

The September meeting will be a parent-teacher night. A prize will be given to the class which has the most parents present. All trustees, teachers, parents, bus drivers and school employees are asked and urged to attend. A special program is being planned.

At the close of the meeting door prizes were given and refreshments were served.
