IJC Sophomore Is Winner In Third Hospitality Golf Tournament Here

Using long, straight drives and accuracy around the greens Mike Flanagan of Amory took top honors in the third annual Hospitality Golf Tournament at the Booneville Golf and Country Club over the week end. The 20-year-old champion is a sophomore at Itawamba Junior College in Fulton. He said he started playing golf when he was 10 years old.

The young new champion took medalist honors with an even-par 72 in the opening round Saturday, and then shot a 71 Sunday for a 143 total, seven strokes ahead of Curtis Monts, Jr., of Tupelo, Gene Box of Corinth and Wayne Mills of Corinth who were in a three-way tie for second with 150. In the playoff in the dark, car headlights

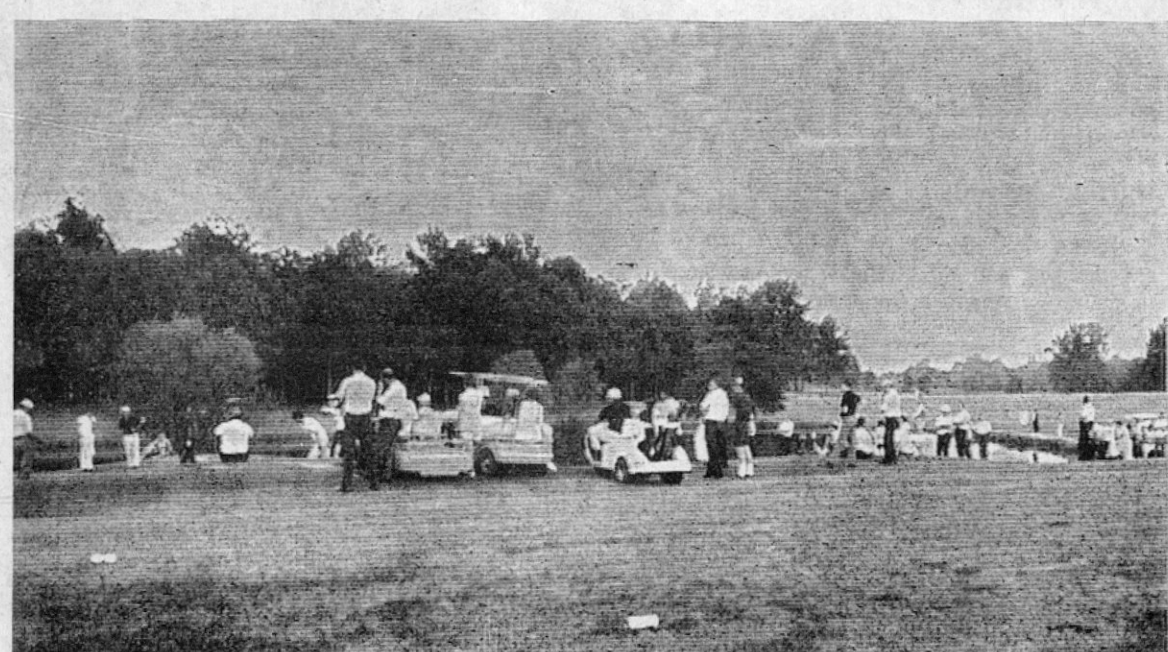

were used to light the greens and fairways and Monts won out on the third playoff hole.

Flanagan parred the first seven holes Sunday, then got in trouble when his tee shot on eight wound up in a clump of trees. He chipped back out into the fairway, but then overshot the green, chipped back on and two-putted for a double bogey. On the par five ninth he chipped in from the fringe for an eagle to pull back even with the card. Flanagan got a birdie on the twelfth hole, but again overshot on the fourteenth and took a bogey. His approach shot on the final hole rolled across the lip of the cup and about four feet past and he sank the put for a birdie and the 71.

In the first flight Neal Biggers of Corinth was first with 151. Lynn Harpole of Trenton, Tenn., was a second with 156, and Larry Jobe of Corinth and C. H. Kizer of Booneville tied for third at 157.

Harold Johnson of Corinth won the second flight, Emmett Hale, Jr., of Senatobia was second, and Jack Harpole of Trenton was third. The third flight was won by Dave Palmer of Corinth, Henry Mize of Booneville was second and Rae Kitchen of Corinth took third after being tied with Doug Marshall.

Paul Jones of New Albany won the fourth flight in a playoff with Tom Braddock, and James Brown of Starkville was third. (Cont. on back page, this section)

AT THE EIGHTH — Shown at the eighth green of the Booneville Golf and Country Club are some of the large group of spectators that followed the play of the foursome in the championship flight in which the winner, Mike Flanagan, played. The large lake in the background must be carried from the ninth tee and parallels the fairway from No. 18 tee. It is one of two such water hazards on the nine-hole layout.

Senator Eastland Wants To Win In Vietnam, Reform Electoral College

Reform of the electoral college to return the government to the people and halt the rising inflation, and the use of our military strength to bring a fast and complete victory in the fighting in Vietnam were two of the main points advocated by Senator James O. Eastland here Tuesday night in a talk before a large group of business and civic leaders of the area at the Northeast Mississippi Junior College cafeteria.

Mississippi's senior senator was invited here to discuss some of the problems facing the nation today. Stewart Vail served as master of ceremonies. Rev. Eugene Tension gave the invocation and after the meal, Mayor M. W. Smith welcomed the group and presented Booneville's new "Miss Hospitality", Miss Becky Gullett.

Senator Eastland was introduced by County Agent W. T. Smith, who pointed out the effectiveness the senator has gained in the Senate by his 25 years of service and that he now ranks sixth in seniority among Senators serving in the Congress and fifth on the Democratic side. Senator Eastland is chairman of the Senate Judiciary Committee, the most powerful of the permanent committees in the Congress. Among the many measures authored by Senator Eastland was the watershed legislation which has meant so much to Northeast Mississippi. Mr. Smith pointed out in his introduction.

The state's senior senator opened his talk saying, "We've got the fastest growing state in the country and are just in the infancy of development."

He referred to the increases in bank debts, land values, and diversified agricultural enterprise.

but said that cotton was in trouble because of the slump in the world price. He said the principle reason was that we had given grain from our large surpluses to foreign countries which, when they had the grain to feed their people, turned their farms to cotton production for a medium of exchange. He advocated making these countries grow foods and cut down on cotton.

Senator Eastland said that one of the biggest threats facing us is the movement to transfer power to the Federal government and create a strong centralized government, much of it in the last two years. He pointed out that Hitler had to take away the powers of the German states before he could set up a dictatorship, and that the Federal government is buying the rights of states and individuals with their own money.

He said, "What the Federal government gives you it must first take away from you, because it creates no wealth."

The senator said that we are giving money away all over the world and squandering it in this country, and unless we slow down on expenditure of public funds we are going to see the destruction of our country as the greatest country on earth.

He said, "The only way is to cut down on expenditures and stop running to Washington with our hands outstretched every chance we get."

Referring to the war in Southeast Asia, Senator Eastland said, "We are not fighting to win and I think it is a mistake. It took time to get men and equipment into Korea, but after they were there we could have won any day."

Because of our lack of victory there, he said we are at war in Vietnam today. The senator said that America has the strength to virtually destroy North Vietnam overnight, and "I think the military should be allowed to fight

the war and not somebody in the State Department who says 'let's just hold the line'."

"It is foolish to think about fighting China with conventional weapons. We have weapons to bring us victory and bring it fast, and I think it should be done," Senator Eastland said.

Speaking of the need for reform of the electoral college, the senator said that the small states get no consideration and never have, and the balance of power in the large states is controlled by bloc vote. Constitutional amendment is being sought to change the electoral vote to the same percentage as the popular vote, and if this is done it will destroy these pressure groups and turn the liberal trend in this country completely around.

"I think there is real chance for the salvation of the country and return to sanity by this reform, and I think it has a wonderful chance of happening," Senator Eastland concluded.

SENATOR SPEAKS HERE — Mississippi's senior senator, Honorable James O. Eastland, spoke to a large group at the Northeast Mississippi Junior College cafeteria Tuesday night on some of the problems facing the country today. Shown from left are: Mayor M. W. Smith, who welcomed the group and introduced Booneville's "Miss Hospitality," Miss Becky Gullett; C. W. Yarbber, who helped with arrangements for the meeting; Senator Eastland; County Agent W. T. Smith, who introduced the speaker; and Stewart Vail, master of ceremonies.

Mrs. Robbie McDaniel, first vice president, lighted the green candle symbolizing growth. Mrs. Ann Prichard lighted the rose candle as symbolic of the warmth and courage of her office of second vice president.

Lighting the gold candle of fiction was Mrs. Janet Feldman.

The blue symbol of wisdom and honesty Mrs. Peeler gave to herself as the treasurer.

Installed with lavender candles were the directors, Mrs. Kathryn Houston, Miss Sue Kimbrell and Mrs. Nancy Kizer.

Turning to the membership, Mrs. Peeler observed that the only light that did not symbolize an office was that of the white one emanating from the lighthouse and caucused the members to remember that it symbolized the entire membership working together and helping the officers in making the club an effective civic organization.

Mrs. Peeler closed the installation service by giving a moving reading of the Pilot Code of Ethics.

Profitable wisdom and stewardship has been demonstrated by Mississippi farmers and other land owners in effective conservation of soil, water and woodland resources in our state. Through the medium of woodland development and conservation, Mississippi landowners have reduced soil erosion and simultaneously tapped a new source of revenue. Our state has an outstanding record in this phase and can serve as an example by which many others in our sister states might profit.

Miss Sylvia Maddox And Miss Linda Martin Are Feted With Party Thursday

Highlighting the commencement calendar, Mrs. Brit Barron and Mrs. Allan Norton, graciously honored Misses Sylvia Maddox and Linda Martin, attractive seniors of the 1966 graduating class of the Booneville High School, on Thursday evening, May 17.

The Barron home, one of the prettiest of the newer traditional type homes in Horse Shoe Acres, was the scene of the outdoor party. The picturesque back lawn, gently sloping down to a wooded glen dramatizes the garden features and enhances the lovely lines of the home.

The base of the wooded area was bordered with sand hurricane lights, which softened the evening shadows and gave a special charm to the twilight out-door setting.

The informal hospitality was distinctive with the late trend in out-door decor, with vivid accents on the white linen cloths covering the tables, splashing the landscape with colors to set the theme for an enchanting supper by candle-light.

The serving table featured an arrangement of Magnolias surrounding an ink well, and silhouettes of graduates complementing the

Guests were seated at individual tables covered with matching cloths, centered with nosegays of red roses and a single candle.

The honoree was presented a lovely gift by the hostess.

5 Prentiss Countians Among Those Arrested; Will Face Grand Jury

When the jaws of an organized trap to snare wholesale moonshine whiskey retailers closed Thursday 17 of 18 suspects were arrested.

Police Chief Art Murphy of Corinth said raids on known moonshine whiskey retailers in the area led to the arrest of seven Mississippians, three Tennesseans, and seven persons from Alabama.

Arrested Thursday were: David Louis Eaton, Hugh Donald Eaton, J. Hoyle Eaton (of the Dry Creek Community), Cullen Baggett, and Dewey Eaton, all of Prentiss County; Billy Clingan and Tommy Clingan of South Tishomingo County; Mr. and Mrs. William H. Wade, Guy, Tenn.; Clyde Baldwin of Chewalla, Tenn.; Delbert Johnson, Vina, Ala.; Reathe Miller, J. D. Scott, James Scott, Roy Scott, W. H. McNatt and Mrs. S. T. Miller, all of Red Bay, Ala.

Murphy said in addition to the 17 arrests, two vehicles in Mississippi and one in Alabama were confiscated in the raids.

Mississippians charged with possession of the illegal moonshine whiskey were arraigned Thursday

at Aberdeen by U. S. Commissioner L. T. Senter, Jr. They were all bound over to the July term of Federal Court at Oxford.

The raids capped off a three-month attempt to gain information about retailer and wholesalers of moonshine whiskey in the area.

The undercover operation was organized as a cooperative effort of Federal Alcohol and Tobacco Tax Division agent Billy Pace, Aberdeen; Alcorn County Sheriff, S. C. Wilbanks and Corinth Police Chief Murphy.

An undercover agent, Walter E. Yow, Meridian, used Corinth as his base in gathering the information on the defendants.

Officers on Thursday closed in on Dewey Eaton and confiscated 201 gallons of moonshine. The confiscated whiskey was smashed at the city dump in Corinth.

Mr. Pace said a 1,200 gallon whiskey still was found about 200 yards south of J. Hoyle Eaton's home and a hose was connected to the Eaton home from the still. Pace said he would be charged with possession of a whiskey still in ad-

WHAT A PIANO MEANS TO YOUR CHILDREN

When a seven-year-old plays a simple piano composition, up to 60 different mental operations are required in a single second. Think of all the facilities that must be coordinated—ears, eyes, feet, fingers, mind. What other activity can match this training?

And besides providing mental stimulus during the formative years, the ability to play the piano is a lifetime gift that will bring endless hours of pleasure.

The expense of a piano has kept many parents from giving their children the benefits of music. But now the new Melodigrand student spinet puts a quality piano within the reach of every family. This price breakthrough by an established piano name, lets you open an enduring world of pleasure for your family.

Don't delay! For once your children are grown, they can never recapture this opportunity for achievement and development. Stop in today to learn how easy it is to own a Melodigrand piano.

Registrar's Office At Northeast Jr. College Keeps Up-To-Date Records On Students

Mrs. Joan B. Rakestraw of Booneville has served as registrar at the Northeast Mississippi Junior College for the past six years.

Mrs. Rakestraw is a graduate of Mississippi State College for Women, where she majored in science. She has done additional work at Mississippi State University.

Mrs. Rakestraw is assisted in compiling student data and other necessary student information by Miss Katherine Tays and Miss Becky Coffman, both of Booneville.

"The main job of our department," said Mrs. Rakestraw, "is to keep up an up-to-date permanent, confidential record of each student attending Northeast." This department has complete records dating back to 1948 when Northeast was officially established.

Mrs. Rakestraw stressed the importance that the records of each student are confidential and released only when necessary. The records are checked by government investigators several times each year for the academic and disciplinary record of the student.

"Students," said Mrs. Rakestraw, "can come to the registrar's office and view their high school academic records any time."

The registrar's office helps with the college catalogue published annually and mails each copy to interested applicants. The office distributes necessary information for incoming freshmen concerning entrance requirements, expenses, re-

gistration schedules, and dormitory procedures. This is accomplished by letters, pamphlets, and phone calls.

High school transcripts are evaluated by this office and Northeast transcripts are mailed to the senior college which the student desires to enter. Tardies and absences are tabulated in this department and are forwarded to the Dean when necessary.

Mrs. Rakestraw works with the Veterans Administration matters and the VA payroll is signed in her office. Each year the registrar prepares and sends a Certification of Student Attendance to the male students' home draft boards.

The seemingly never ending job of the registrar encompasses graduation also. Caps and gowns are ordered through Mrs. Rakestraw's office, as well as other necessary details for graduation.

Each year the registrar's office compiles numerous lists for the State Department of Education and the United States Department of Health, Education and Welfare.

Tentative plans have been made for mechanizing part of the registrar's duties by the use of electronic computers. All work at the present is done manually by the grooved card system, that of multi-copy precarbonized forms.

Mrs. Rakestraw's husband is Lee Rakestraw, Northeast instructor in social studies, and they have a son, Keith.

VA Answers Vets Questions

EDITOR'S NOTE: Veterans and their families are asking thousands of questions concerning the benefits their Government provides for them through Veterans Administration. Below are some representative queries. Additional information may be obtained at any VA office.

Q — Will VA guarantee a business loan under the new GI Bill?

A — No. Business loans are not authorized. GI loans may be made for the purchase of homes, farms, farm supplies or equipment, or to obtain farm working capital; also to make alterations, repairs or improvements in homes already owned and occupied; or, to refinance delinquent indebtedness on the property.

Q — Can the so-called "six-month enlistees" take advantage of the educational provisions of the

new GI Bill?

A — No. Six month enlistees, national guard reservists and those who go on active duty for training purposes only are not eligible for the benefits of the new GI Bill.

Q — In 1918 I suffered TB and was sent to a Naval Hospital from which I was discharged a year later with a 100 per cent temporary total service-connected disability. In 1942 I was told that my condition was inactive. I would like to know why there is a difference in service-connected disabilities?

A — The difference in service-connected disabilities is the severity of each disability. Each case is decided on the degree the veteran is disabled. Just about any ailment or disability can be service-connected if the veteran can prove that the illness or disability occurred during military service.

Some folks want road-side signs banned, especially those that read "no fishing."

Party At Gullett Home Honors Group Of Booneville High School Seniors

A "Little Kid Party" given in honor of Phyllis Pounds, Stan Pounds, Anabel Prichard, Nancy Duckworth and Ted Rubenstein, members of the Booneville High

School graduating class, was an enjoyable event on Saturday night. Hostess was Miss Becky Gullett and the party was held on the attractive patio of the home of her parents, Mr. and Mrs. W. L. Gullett, Jr. on Fifth Street.

Rites For Dee White Held Saturday

Dee White of Rt. 2, Booneville passed away at 3 p.m. Thursday in Kennedy Veterans Hospital at Memphis after an illness of two years. He was a farmer, World War 1 veteran, and a member of the Baptist Church. He was 66.

Funeral services were conducted Saturday in the chapel of Jones' Funeral Home with Rev. Huey Wood officiating. Burial was in the Liberty Cemetery with Jones' Funeral Directors in charge.

He leaves his wife, Mrs. A. V. Graham White of Booneville; nine sons, Jimmy, Milton, Robert, Floyd, Larry, Kerry, Kim, Sam and David

White all of Booneville; three daughters, Mrs. Jean Gahagan of Booneville and Misses Zevia and Laquita White of the home; a brother, Ralph White of Altus, Okla.;

A banner with the words, "Welcome, First Graders", a lollipop tree in the center of the patio, and a ceiling of balloons, provided a gay atmosphere for the fifty guests attending.

Those invited wore outfits typical of first graders. The group enjoyed listening to kiddie records, playing kiddie games such as hopscotch, and just having fun - reminiscent of the years gone by.

Mrs. Gullett was assisted by Mrs. Rex Yarbrough in serving delicious fried chicken, sandwiches, potato chips, pickles, cake and punch.

a sister, Mrs. W. P. Bullock of Dumas; 10 grandchildren and two great grandchildren.

Pallbearers were members of the VFW and the American Legion.

This is the victory... even our faith.

—(John 5:4)

If the good in our own life is not visible to our eyes we need to center our faith in God, and remember that we are His children. We must stand firm in our faith. We shall not go down in defeat or discouragement when we hold firm to the Truth. God is with us, and His Good is at work in our life and affairs.

THE GUILD CORNER

In an impressive service Mrs. H. F. Thomason installed the officers of the local Wesleyan Service Guild, Monday, May 16. The hostesses, Mrs. Clovis Harris and Mrs. Bynum Scruggs, served a delicious plate lunch.

Members are looking forward to the district meeting to be held in Ripley Sunday, May 29, at 2 p.m.

Buddy Smith's Dreams And Ideas Grow Into Reality As Farm Improvements Progress

(This is the second in a series of three articles concerning the story of State Star Farmer Ralph G. (Buddy) Smith.)

By MARY ROBINSON

Ralph G. (Buddy) Smith, State Star Farmer, had many ideas of what needed to be done on the Smith farm. As time passed, his dreams grew into reality. Much has been done in improvement of the soil, more and better farm equipment has been added, and over seven hundred acres of the Smith farm is covered with a natural growth of pine. Thousands of seedlings have been planted where needed and are protected with a good fire control program.

In the livestock field, Buddy felt that to make people more aware of registered Herefords in this area, good stock would have to be shown. With this objective in mind, Buddy, with the help of his Vo-Ag teacher, set up the right feeding program to get both a male and female ready for the Livestock Shows at the State Fair in Jackson.

The first year, he had Reserve Grand Champion male at State Fair, the second year, he had both the Male and Female Grand Champion in the Hereford Show at State Fair, and the third year, he had two first place winners and the Reserve Grand Champion. In February of this year, he showed the Champion and Reserve Champion Hereford Females at the Mississippi Junior Round-Up Show in Jackson. His Senior heifer calf took championship honors while his Junior Yearling heifer was Reserve Champion. The Champions of the Round-Up Show won the same honors at the Northeast Mississippi Livestock Show at West Point held prior to the Round-Up Show.

In addition to his livestock program, Buddy also concentrates on the importance of higher yields from the row crops. The 1965 harvest from his 350 acres of soybeans amounted to more than 6,000 bushels. From his 115 acres of cotton, he harvested approximately two bales an acre while from his 30 acres of corn, he produced 3,000 bushels. Buddy was given a certificate by the Mississippi Soybean Growers Association for producing 40 bushels of beans per acre on between 50 and 100 acres. Recently he has erected storage tanks for beans in which he is holding the beans for the spring and the summer market.

Other recent additions in equipment at the Smith farm have been

two Diesel tractors and accessories, a breaking plow, three four-row cultivators, a four-row planter (with pre-emerge attachment), several new cotton wagons, a cotton picker, a sprag rig, and a huge combine with pressurized cap. Increased production and yields have made the addition of this new equipment a must on the Smith farm.

from One Bible
Wonderful are thy works.

—(Psalms 139:14)

We truly become aware of our spiritual oneness to God, when we measure ourselves in wonderment before our Creator. We can sing out with the Psalmist who said, "I am fearfully and wonderfully made." What inventory of ourselves can we make to realize the wondrous work that God has done? Our heads are high, our vision spans the unexplored heavens, and our very souls kneel at awe before the greatness that has authored us.

Jerry Bell of Memphis and John Pennington of Memphis tied for first in the sixth flight with Bell winning the playoff, and John B. Young, Jr., of Bruce was third.

James Brawner of Rienzi beat Buddy Moses of Corinth in a playoff for first in the seventh flight, and Bubba Harpole of Trenton won third in a playoff with Sam Lowry of Holly Springs.

This year's tourney was termed by far the best of the three, and was the first time it had gone the two days without rain.

In a letter to Club President H. F. (Red) Billingsley, Mayor M. W. Smith said:

"The 1966 Invitational Tournament was a huge success and you as President are due a large measure of credit for its success."

"It was a great thing for the City of Hospitality and the many expressions of appreciation for the way in which the tournament was organized reflected on you as the President."

"The Hospitality Tournament was certainly a credit to the Hospitality City."

"Congratulations."

Benefit Payments In County Up 20% Over Last Year

Monthly Old-Age, Survivors and Disability Insurance Benefits in Prentiss County now top \$97,300. Hugh Tigrett, District Manager of Social Security, said today in releasing his annual county benefit data report. The new figure represents an increase of 20 per cent over the corresponding period last year.

This increase can be attributed to the changes in the law in recent years as well as the growth of our aged population, Mr. Tigrett said. This money stimulates county business as most of it is spent for food, clothing and shelter. Monthly benefits first became payable in January, 1940 and they have continued without interruption, accompanied by a steady growth in the number of people receiving these benefits. Mr. Tigrett noted that as of January 1, 1966, 1957 Prentiss Countians were collecting \$1,167,612 annually from Social Security.

More people in Prentiss County,

he said, could draw Social Security benefits if they knew more about the law, and for that reason they are urged to visit or call the Social Security Office whenever they have a question concerning their benefits or responsibilities.

The following table shows the number and amount of each type of monthly benefit paid in Prentiss County as of January 1, 1966:

Beneficiary Group	No. of Beneficiaries	Total Pmts.
Retired Worker	898	\$52,703
Wife or Husband	316	8,393
Widows, Widowers and Parents	149	8,088
Mothers and Children	335	13,052
Disabled Workers

COUNTY AGENT NOTES

TAYLOR SMITH, County Agent

Livestock and Acreage Surveys

The Mississippi crop and livestock reporting service is mailing survey cards to a representative group of farmers in each county to collect information for state estimates on livestock numbers and crop acreage. It is very important that these cards be filled out and returned.

We will be glad to assist you in filling these out if you need assistance.

Soybeans

If you have not already planted your soybeans, it may be a blessing. On fields where weeds have been a big problem in recent years, the delayed planting and available moisture will allow many weed seeds to germinate. These can be destroyed by shallow cultivation.

The slight delay in planting should not cut yields. Soybeans can be planted up until June 10 with very little effect on yields.

Soybeans should not be planted unless the seed can be placed in moist soil.

Use the recommended planting rates. Too heavy seeding can cause lodging and competition for moisture and plant food. Use quality seed of known origin — this could be your best investment regardless of cost.

For early season cultural weed control the rotary hoe is recommended. It will work best when weeds and grass are just breaking through the soil.

Market Hog Show

The seventh annual Mississippi Market Hog Show and Sale will be held at the State Fairgrounds in Jackson August 17-18. It is time now to select your animals to enter in this state-wide show.

The state show is open to all hog producers, 4-H Club members and FFA members in Mississippi. Competition is open to purebred and cross bred hogs, including barrows and gilts, except that only barrows may show in the carcass class. All hogs entered must sell and must sell for slaughter only.

Corn Weed Control

Post emergence chemicals recommended for weed control in corn are atrazine, lorox and 2,4-D. Atrazine can be used on corn

up until three weeks after emergence. It does a good job on weeds and grasses less than two inches tall.

Lorox is a hotter material and will give good control on grass and weeds up to eight inches tall. Mix it with ½ percent surfactant and apply only as a directed spray after the corn is 15 inches tall. Do not apply within 60 days of harvest.

Amine 2,4-D will control most broadleaf weeds in corn. Until corn is 12 inches tall it can be used as an overhead spray. Afterwards use drop nozzles to apply the 2,4-D to weed foliage. It should not be allowed to hit the corn plant except at the base of the stalk. Use 2,4-D with caution. Do not allow it to drift into cotton, soybeans or other susceptible crop.

THE WORLD IS WAITING...

In ancient times the world waited breathlessly for every new king. It was always man's crying hope, man's fervent expectation — that under a new king the world would be different.

Today we no longer put our faith in kings — nor in any government that does not represent the people. We believe that tomorrow will be determined by the hopes and ideals of the young men and women who today prepare for their role in life.

There aren't any Christmas bells at graduation time. But it would be well for us to remember those learned men — the Wise Men — who came across the desert to Bethlehem. They came to pay homage to a new-born King... One who did change this world.

And the sons and daughters upon whom we look with fond hopes today must find their foundation of faith in the same Lord.

With its ministry of teaching, its inspiration to service and sacrifice, the Church points their path to tomorrow — and ours!

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

HOME ECONOMIST'S NOTES

By CLAIRE T. ROSS, Extension Home Economist

EASY DOES IT

How do you clean shoes with uppers of "Corfam" material? This is a frequent question, since the man-made material is a newcomer to the shoe industry.

The following suggestions on care should be helpful in maintaining its fresh, new look.

To remove normal soiling, smooth or grained "Corfam" wipes clean with a cloth, damp sponge, or tissue, introducing "wipe-and-wear" care to footwear. For more stubborn stains or marks, mild soap or detergent may be used.

To heighten the shine or mask heavy surface marks, conventional paste waxes and most liquid polishes are suitable. However, shoe uppers of this man-made material do not need polishing as frequently as traditional shoe uppers.

If a stain will not wipe off, a damp cloth and soap, mild detergent, or saddle soap can be used.

White and shining "Corfam" are both easy to maintain and wiping with a damp cloth is all that is normally needed. With the white material, stubborn stains can be taken off by using a mild abrasive or lighter fluid. White "Corfam" does not usually need any polish.

but if it is desired, most conventional white liquid polishes can be applied.

Stains on shining "Corfam" can be removed with a mild detergent or lighter fluid. In addition, an occasional application of patent leather conditioner or polish will restore the high luster. Small scratches can be covered with a dab of petroleum jelly.

Dust and dirt on the soft, napped surface can be whisked away with a soft brush (Never use a wire brush) or sponge. When necessary, these shoe uppers may be washed with soap and water. Lighter fluid will remove stubborn stains, as will spot remover. Though not usually necessary, commercial suede spray intensifies napped colors.

Such cleaners as acetone, rubbing alcohol, nail polish remover, chlorinated dry cleaning solvents, and abrasive cleaners should not be used. Nor are shoe polishes designed for application to the napped surface of "Corfam" material, just as they are not intended for suede surfaces.

Care-tip cards are supplied by Du Pont to shoe manufacturers. Every pair of shoes of "Corfam" should have one of these cards in the box.

Incidentally, shoes of "Corfam" material are in the stores right here in our own community.
