## Life Is Worthy Of Concern Of All

A life is important. A life is meaningful. A life is worth of the care and concern of all, no matter to whom that life belongs.

Every day in the Northeast Mississippi Hospital, a life is the concern of many people. The doctors, the nurses, families care about the life and health of someone. Beyond this, however, there are literally hundreds who care about that life.

These are the people who live and work in Prentiss County. These are the people who gave 605 pints of blood through the Red Cross Birmingham Regional Blood Program last year to help save lives in this hospital and others.

Without the help of these people who care about a life, the hospital, the doctors and the nurses often could not offer help or hope for the ill and injured who need care and treatment day after day.

Blood is one of the most important and often most vital commodities in medical treatment today. Blood is used for the treatment of many different conditions. It is used in emergencies, in almost every surgery, in the treatment of many diseases, in hundreds of other ways.

Blood cannot be manufactured. It must come from human beings . . . and it must come from human beings who care enough about life, any life, to give that blood. In Prentiss County this year, 700 pints of blood must be collected in order to meet the needs of our hospital.

When a pint of blood is given during a Red Cross bloodmobile visit, the donor receives a card entitling him and his immediate family to all the blood they may need for the next nine months. Anyone who receives blood and is not a Red Cross card holder must replace the blood pint for pint at the next bloodmobile visit, according to the agreement our hospital has with the Red Cross Regional Blood Center.

Usually, a member of the family of the patient who receives the blood assumes the responsibility of securing donors to replace the blood used. This is often not an easy job.

How much more simple it would be if every family and individual in Prentiss County were covered with a Red Cross donor card. And how simple it is to get the card . . . simply give one pint of blood.

There is no money involved. The donation of a pint of blood takes only about thirty minutes. It is completely painless and harmless. A doctor is always present at the bloodmobile to make sure that each donor is able to give, and any person not able to give who presents himself at the bloodmobile still receives a donor card.

The Red Cross blood program is for the people of Prentiss County. Its success and continued service depends on these people . . . these people who care about life.

## Joe Walden To Head Planning Commission Here

The City Planning Commission met at Milwick's Thursday night and reorganized.

Mr. Joe Walden was named as chairman succeeding Mrs. W. H. Anderson who has held the position since the organization of the Commission in 1959.

Mr. Don Eubanks was elected secretary of the organization.

The group will meet the last Thursday night of each month. For a number of years the Commission met regularly but in recent years has met only on a called basis.

The Commission decided to give a resume of each meeting to the Mayor and Board of Aldermen in order to keep the City Fathers informed of any planning which might be undertaken and which they might wish to adopt.

## Mr. Windham To Speak At Crossroads

Mr. Clinton Windham will speak at Crossroads Methodist Church Sunday morning at 10 a.m. Mr. Windham is a native of Booneville and is presently an instructor at Northeast Mississippi Junior College.

The public is cordially invited to attend.

**N. E. FACULTY MEMBERS**—Three faculty members at The Northeast Mississippi Junior College have been selected to appear in biographical publications. Mr. H. H. Daws, Sr., left, Chairman of the Department of Natural Science, has been included in *Presidents and Deans of American Colleges and Universities, Leaders in American Science Vol. VII*, and *Who's Who in the South and Southwest*. Mrs. Sale Martin, center, instructor in English, has been listed in *Who's Who in American Education*. Mrs. Jack Gardner, right, has been included in *Who's Who in American Education*, *Who's Who in Library Science*, and will be listed in the fifth edition of *Who's Who in American Women*.

## Lack Of Understanding Leads Many To Break Forest Fire Laws

According to Forester B. K. Kilbrew of the Mississippi Forestry Commission, a large number of Prentiss County landowners who fail to comply with Mississippi's laws governing forest fires may be prosecuted for damages. The breaking of these laws is due, in part, to a lack of understanding and carelessness on the part of landowners.

A person driving fire to escape to the lands of another is guilty of a misdemeanor and is liable to a fine of \$20 to \$500 and imprisonment up to three months.

Many of our fires in Prentiss County are started as debris or trash and escape through carelessness or negligence to neighboring land. Damages resulting from woods fires may be collected by the landowner from the person or persons responsible through Civil Courts.

Make sure you are not the next one to let fire escape to the lands of another. Prevent the needless and costly expense of court costs and fines by burning under safe conditions. For information on safe burning, contact Forester Kilbrew of Prentiss County or telephone 728-6835.

## Local Garden Club Wins Blue Ribbon

At the district meeting of the Tombigbee Conference of Garden Clubs held in Tupelo November 1, the Booneville Town and Country Garden Club was the recipient of a blue ribbon for fulfilling the six requirements of the Federation of Garden Clubs of America.

Those attending from the Booneville club were Mrs. Joe Carter, Mrs. Ben Smith, Mrs. W. V. Kemp, Mrs. W. R. Richerson and Mrs. Allan Norton.

A lovely luncheon was served at the Tupelo Country Club, followed by the showing of slides on community improvement.

Closing the meeting was a tea held at the home of Mrs. W. W. Timbes.

## BHS Downs Lafayette Eleven 27-18; End Season At Ripley Friday Night

The Booneville High School football squad got back into the win column last Thursday night as they bested the Lafayette Commodores at Oxford 27 to 18 in a non-conference game.

The Blue Devils go to Ripley Friday night to close out the season against the South Tippah Tigers.

Prior to last week the Tigers had won all their games, but the Fulton Indians humiliated them in a 55-6 affair and they could either suffer a letdown or come fighting back for a measure of revenge.

At Lafayette, Booneville held a slim 7-6 lead at the halftime intermission, but got their offense cranked up to out-score the Commodores in the second half.

A 20-yard run and a 55-yard kickoff return by Bill Breedlove accounted for two of the Blue Devils touchdowns.

Freddie Tollison had a hand and foot in the rest of the Booneville scoring as he passed to Don Guy on a 15-yard scoring play and on a punt return, scampered 80 yards for the final Blue Devil tally. He also added three extra points from placement.

## Over 9,000 In County Are Eligible To Cast Ballots Tue.

Mississippians will go to the polls Tuesday, November 8, for the general election in which, for most parts of the state, will be the first since Reconstruction days that the Republican Party has been in serious contention. For almost 100 years the Democratic nomination in Mississippi had been tantamount to election.

Prentiss County has more than 9,000 voters eligible to participate in the balloting for a United States Senator, Representative, Supreme Court Judge, Chancery Court Judge, and Circuit Court Judge.

Voters in the fifth district of the county will also elect a member for the County Board of Education. Cletis E. Floyd and C. A. Taylor are the candidates for this post.

In the race for United States Senator, Democrat James O. Eastland, incumbent, is opposed by Republican Representative Prentiss Walker, and Clifton Whitley, running on an independent ticket.

For Representative in the U. S. Congress from the Second Congressional District of Mississippi, Democrat Jamie L. Whitten is opposed in his bid for reelection by Republican S. B. (Bushy) Wise.

L. A. Smith, Jr., is opposed for Mississippi Supreme Court Judge from the Third (Northern) District as are Chancery Court Judge Fred P. Wright and Circuit Court Judge N. S. Sweat, Jr.

Voters will also consider two amendments to the Mississippi Constitution. House Concurrent Resolution No. 38 concerning the State Treasurer and the Auditor of Public Accounts provides that the treasurer cannot succeed himself.

Under the present constitution both are now ineligible for immediate succession, and the change in the wording merely provides that the auditor will be eligible to succeed himself.

House Concurrent Resolution No. 36 would amend Section 271 of the Constitution of Mississippi to read as follows:

"Section 271. The Legislature may provide by two-thirds (2/3) vote of the elected members of the House of Representatives and of the Senate for the consolidation of existing counties of the State, provided, however, that such counties must be adjoining."

The voting will be at all of the

regular polling places in the county and Roy Lowery, circuit clerk and county registrar, said that anyone who was registered on or before July 8, 1966 is eligible.

## City Board Holds Meeting

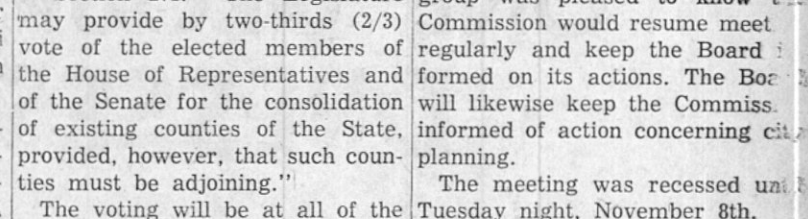

The Mayor and Board of Aldermen held their regular meeting Tuesday night at the City Hall. After invocation, minutes of the board meeting were read, received and disbursements compared.

Mayor Smith reported on the status of the Water and Sewer System project with the Housing Urban Development of Atlanta, Ga.

The group discussed the electrical and plumbing permits with Mr. Ian Wheeler, Building Inspector.

Mayor Smith read a letter from the Planning Commission and the group was pleased to know the Commission would resume meeting regularly and keep the Board informed on its actions. The Board will likewise keep the Commission informed of action concerning city planning.

The meeting was recessed until Tuesday night, November 8th.

## Favorable Feasibility Report Given For Tennessee-Tombigbee Project

Congressman Jamie L. Whitten advised the Banner-Independent this week that a tentative determination has been made by the Corps of Engineers that the Tennessee-Tombigbee project is feasible and would meet the requirements essential for construction.

This report was a tremendous step forward in the history of the project and apparently cleared the final obstacle before allocation could be made of actual construction money for the \$316 million project that would connect the Tennessee River with the Gulf of Mexico by way of the Tombigbee River.

The tentative approval by the Corps of Engineers will be subject

to a 30 day waiting period allowing persons opposed to the project to present their views to the Corps. After the waiting period the report will be prepared for Congress.

This economic feasibility report brings the project under the procedure written by Mr. Whitten in the Public Works Appropriations report, whereby this project would be kept tied to the Lake Erie, Ohio project.

Congressman Whitten said that preliminary plans and specifications could proceed from funds in this bill this year, providing the report by the Corps of Engineers is still favorable.

Request for actual construction funds will probably be made in 1967, but as soon as the waiting period is completed Representative

Mike Kirwin will notify the engineers to use available funds to do such planning during 1967 as is possible.

## Late Tag Buyers To Pay Penalty

"Around 200 people will have to pay a penalty starting today for not buying their car tag on time," reports the sheriff's office.

The people of Prentiss County were given the whole month of October in which to buy their tags and yet over half of the people waited until the last three days, making it a rushed job for the car-tag sellers.

An estimated 5,200 A, B, C, and D size car tags were sold along with 1,800 pick-up tags, 75 motor cycle tags, 300 big truck tags, and 150 miscellaneous tags. These statistics have not changed considerably since last year.

## Rotary Governor Addresses Local Club

Maynard Wingo of Collierville, Tenn., governor of the Rotary district of this area, addressed the local Rotary Club Tuesday during his official visit. The local club is one of 36 Rotary Clubs in this district.

Speaking of the global growth of Rotary, he said, "Rotary is the pioneer of the service clubs and today numbers more than 12,400 clubs with a combined membership of nearly 600,000 business and professional men. Spread throughout 133 countries in all parts of the world, Rotary clubs meet every day of the week and conduct activities to improve their communities, aid youth, elevate business standards, and further international friendship and understanding."

The district governor also conferred with Dr. Bill Preston, local Rotary club president, and Wayne Hunter, club secretary, on matters of club administration and plans for future service activities.

Referring to the program of Richard L. Evans of Salt Lake City, Utah, president of Rotary International for 1966-67, the Rotary governor said, "President Evans has urged Rotarians everywhere to be concerned with youth, employment and education, health, safety, and respect for law as a broad community-action program, and to acquire friendships and personal contacts in many parts of the world for the development of international points of view in general and the exchange of youth across national boundaries in particular."

Concerning the activities of this rotary district, he outlined several new ideas involving the International Aspects of Rotary.

## IT'S BU-R-R-R COLD

A huge cold air mass from Canada invaded Northeast Mississippi Tuesday night and early Wednesday morning and produced Booneville's earliest measurable snowfall.

According to Sammy Ryan, official weather recorder, this is one of the earliest snowfalls known; however, he has access to the records for only 6 years. The snow measured 1/4 inch and the temperature was 31 degrees at 6 a.m.

Only a little rain had been predicted for this area.

The snow and cold weather caused a rush for anti-freeze and heavier clothing.

Some of the city's older residents say it's the earliest snow they can remember.

And most everyone agrees it's the first time they can remember of having a snow before a killing frost.

These four 4-H girls are shown putting the finishing touches on their Project Records for the State Junior Record Contest. Left to right are: Jimmie Archer, Booneville, Foods and Nutrition Record; Linda Williams, Thrasher, Clothing Record; Gloria Archer, Booneville, Dairy Record; and Sandra Scott, Hill's Chapel, Clothing and Leadership Records. The records will be judged for cash awards on November 7, 1966. The record work was done under the supervision of Miss Sandra Hussey, Assistant Extension Home Economist.

**THE FREED-HARDEMAN COLLEGE CHORUS** of Henderson, Tennessee under the direction of Kelley B. Doyle will present a program at the Booneville High School on Friday, November 4 at 1:30 p.m. They will appear on WTVW-TV in Tupelo at 3:00 p.m. and sing at the Booneville Church of Christ at 7:00 p.m. the same day. All people of the area are invited to see and hear this outstanding musical group. They appear by tape recordings on a network of 100 radio stations each week. Miss Jeanita Thornton of Booneville is a member of the Chorus.

## HELP MEET QUOTA

## Bloodmobile To Be Here Fri.

Ten pints of blood are used every minute in the United States to treat the ill and injured.

Every drop of this blood is precious, for it can mean life itself for those who receive it.

Last year, more than five million pints of blood were used in this country. Of this 2,000,000 pints were collected and distributed by the Red Cross blood program. This is over 52 per cent of the nation's total blood supply.

This year, the Red Cross will be seeking 250,000 units of blood for use by U. S. Armed Forces in South Vietnam and elsewhere overseas.

The Birmingham Regional Blood Center collected and distributed almost 100,000 pints of blood in its

55 counties last year. This year, the increasing demand for blood, for both civilian and military use, will up the collection and distribution figure to more than 120,000 pints if all goes well.

There is no artificial source of blood. It must come from human beings. And, in accordance with Red Cross principles, it cannot be bought or sold.

How, then, does the Red Cross manage to fulfill the constant demand for blood from hospitals in counties such as ours? The answer is as tangible as the people of the county . . . of the state . . . of America.

That's right. People are the answer. People provide the blood for that child from our county whose very life depends on open heart surgery . . . for that neighbor whose body can be mended with your blood . . . for that wounded fighting man in Vietnam.

The bloodmobile will be in Booneville on Friday, November 4, from 12 noon until 6 p.m. in the basement of the First Methodist Church. Volunteers from our county Red Cross Chapter will be assisting in the collection. They are working now to recruit donors.

But their work will be in vain without your help. There would be no bloodmobile . . . no blood program . . . no hope or assurance that blood will be available when YOU need it without you and all the other people of our county and state who are willing to spend just thirty minutes to save a life somewhere.

## LET'S LOOK AT Congressman Whitten's "Experience"

On October 1, 1965, Jamie Whitten voted against a motion which would have amended the fiscal 1966 aid bill to provide for halting aid to countries who traded with the enemy. (H.R. 10871, Roll Call No. 347 U.S. House of Representatives). Jamie Whitten has had 'experience' in voting to send your tax dollars—in foreign aid—to countries that are aiding the Communist Viet Cong—while American soldiers die in Viet Nam.

## JAMIE WHITTEN TALKS OF HOW HE "TAKES CARE OF" THE FOLKS BACK HOME

But did you know that on August 11, 1966, he was the only Mississippian who voted to use your income tax dollars to finance Lady Bird's \$493 million highway beautification boondoggle. Such reckless spending programs are directly linked with inflation and rising food prices. (H.R. 14359, Roll Call No. 94)

## DOES JAMIE WHITTEN REALLY REPRESENT YOUR VIEWS?

On January 26, 1965, Jamie Whitten was the only Mississippian to vote against a motion which would have, in process, resulted in halting use of money to finance export of goods to the United Arab Republic. Egypt's Nasser was the leader who told the United States to literally "go jump in the lake." (H.J. Res. 234, Roll Call No. 7)

## YOU WOULD NOT VOTE TO HAVE ADAM CLAYTON POWELL HANDLING YOUR SCHOOL'S BUSINESS!

On January 9, 1963 (Roll Call Vote No. 2, Jamie Whitten's vote upheld Adam Clayton Powell as chairman of the 31-member Education and Labor Committee. Apparently, our congressman does not mind having the Harlem leader in an important position.

### New Albany District Methodists Meet At Camp Ground Church

With Bibles and sack lunches in hand, around 70 men and women of the New Albany District gathered Monday, October 24, to study and commune with God at the beautiful new Camp Ground Meth-

odist Church which rested quietly amidst lovely trees dressed in fall's richest colors.

Here the group heard the call to be a Christian anew through the congregational singing of hymns led by Mrs. Richard Tate of Calvary Church with Rev. E. E. Woodall, Jr., at the piano and the meditation thoughts and directed prayer by Mrs. A. C. Childers, secretary of Spiritual Life Cultivation for the district's Woman's Society of Christian Service.

In groups of two, depth Bible study of listed scripture selections was made to answer the questions of where, when, for what, and whom did Jesus pray and some results of His praying.

The hearty participation of the pastors and laymen in the period of sharing led by Mrs. G. W. Harwell of New Albany, which followed the group study, revealed the deep interest of those present. Realizing the value of Scripture study with another, Mrs. Harwell made the suggestion to continue the practice with neighbors at home.

The Voice of God is Calling Today by Rev. E. E. Woodall, Jr., of Calvary Church headed the meaningful meditation and set the tone for the directed feature. He calls to Sacrifice was ably discussed by Rev. Harold D. Robinson of Dumas, God's Call to Share and His Call for Dedication by Rev. Bryan Scarbrough of Aberdeen led the group into a new dedication.

The experience was made more meaningful by the interspersed singing of hymns started off unan-

nounced by Mrs. J. G. Houston, president of the Woman's Society, the prayer of request led by Mrs. A. C. Childers, leader for the Day Apart, fittingly followed the directed meditation.

The pastor-host Rev. J. C. Baker was on hand to give personal greetings of welcome, along with Rev. J. H. Millsaps of Baldwin and Mr. S. W. Downs of Booneville, who made decided contributions to the program.

The fine summary prayer and blessing by Rev. J. Q. Perkins of Glenfield closed the great day of study, meditation, prayer and dedication.

## "Bobby Kennedy is qualified in every respect"

Senator James O. Eastland Congressional Record — January 21, 1961

**HAD ENOUGH**  
of the Great Society?

**THIS TIME YOU HAVE A CHOICE!**

### PRENTISS WALKER

- ✓ He is a veteran who is determined we must win the war in Viet Nam. He believes the "no win policy" in Viet Nam is a slaughter house for American boys.
- ✓ He is greatly alarmed by the high cost of living of the "Great Society" and will work for a sound dollar and against the administration's tax increase.
- ✓ He opposes the "war on poverty" that is giving your tax dollars to political bosses and civil rights demonstrators rather than the poor.
- ✓ Prentiss Walker has proved that the only way Mississippi conservatives can be effective is through the Republican Party.
- ✓ He opposes The Democratic Party's attempt to buy friendship with foreign aid give-aways.
- ✓ He has voted 100% for Constitutional principles. He believes in states' rights, local self-government and individual freedom.

### JAMES O. EASTLAND

- ✓ Voted for confirmation of Abe Fortas (pictured above) to the Supreme Court. The same Fortas who recently swung the liberal vote to reduce the effectiveness of law enforcement in the United States. The same Fortas who worked for at least three organizations cited as Communist fronts.
- ✓ He was quoted in 1964 as saying he planned to "go down the line for Lyndon."
- ✓ Eastland championed Johnson as "my personal friend, a statesman and a great American who had aided the south."
- ✓ He voted to make Democrat fund raiser Matthew McCloskey of Bobby Baker fame, Ambassador to Ireland.
- ✓ Mrs. Bobby Baker is still on Senator Eastland's payroll at \$14,000.00 a year. Why?
- ✓ Eastland has voted a number of times against amendments which would have prohibited United States aid to Communist countries.

## Blue Bell To Make Wage Adjustment

L. K. Mann, Vice President of  
manufacturing for Blue Bell, Inc.,  
Greensboro, North Carolina, an-  
nounced today that the parent com-  
pany plans to make a 12% general  
increase in all wage base rates be-  
tween now and January 2, 1967.  
This wage adjustment will be made  
in two steps, the first being a 6%  
increase effective October 31, 1966,  
and the second will be a 6% in-  
crease effective January 2, 1967.

Mr. Mann stated that while Blue  
Bell's wages have consistently been  
among the best in the entire ap-  
parel industry, this increase will  
enable Blue Bell employees to  
maintain or better their earnings  
opportunities on a comparable basis  
throughout the industry. Mr. Mann  
also said Blue Bell's wage struc-  
ture and incentive earnings pro-  
gram enables the average em-  
ployee to take home actual earn-  
ings far in excess of the base wage  
structure. In fact, these two wage  
increases should not only boost em-  
ployee take home pay considerably,  
but will put millions of dollars more  
into the industrial payrolls in the  
many communities in which Blue  
Bell operates in a dozen states.

Mr. Mann stated that this wage  
increase has been made possible  
through the efforts of all Blue Bell  
employees in gaining increased con-  
sumer preference for the com-  
pany's operations.

Blue Bell, Inc., designs, manufac-  
tures and distributes over 3,500 sepa-  
rate items of work clothing, west-  
ern wear and sportswear through-  
out the United States and to some  
extent abroad. In late 1964, Red  
Kap, Inc., a manufacturing distribu-  
tor to industrial rental laundries  
of uniforms consisting of work  
pants, shirts and jackets, was  
merged into the company.

Blue Bell's executive offices are  
in Greensboro, North Carolina, with  
sales offices and distribution cen-  
ters located throughout the United  
States and Europe, and have their  
brand names registered in over  
70 foreign countries.

For the Booneville plant this will  
mean an additional \$75,000.00 in an-  
nual payroll, bringing the total ex-  
pected annual payroll for Blue Bell  
in the Booneville plant to approxi-  
mately \$750,000.00.

Chile is in the market for 50,000  
head of breeding cattle in order to  
improve stock on hand.

lotte Breedlove, song leaders; Tom-  
my Massey, devotion leader; Wade  
Lauderdale, program chairman.  
The officers set the first Monday  
in each month as meeting day.

Linda Williams, a junior club girl  
gave a short story of her 4-H work  
in clothing, which is part of a pro-  
ject entered in state competition.

policies which rob the people of  
their security through rampaging

# YOUR VOTE IS IMPORTANT

The Prentiss County Democratic Executive Committee, County and Municipal Democratic office holders, and other interested citizens met Tuesday, November 1, 1966 for discussion of the upcoming General Election. They reviewed a resolution issued by the Mississippi State Democratic Executive Committee and agree that November 8, 1966, is perhaps one of the most important elections that will be held in the State of Mississippi; that in the critical situation now facing this state it would be suicidal for Mississippi to fail to return to office our Mississippi Democratic Senator and Congressmen who have for so long valiantly fought our battles in the national arena against the liberals in both the National Democratic Party and the National Republican Party; that because of the importance of this election it calls on all good Mississippi Democrats, including Mississippi Democratic office holders, to take time from their various duties to work to preserve our way of life by actively supporting the nominees of the Mississippi Democratic Party in this election.

## Therefore They Now Urge You To GO TO THE POLLS AND VOTE

And Support The Democratic Nominees

**Senator James O. Eastland,**  
for re-election

**Congressman Jamie L. Whitten,**  
for re-election

### Their Seniority And Experience Is Important

These men have for a long period of time valiantly  
fought the battles of, and worked for the State of Mississippi.

Their Work Has Been

## Directly Beneficial To Prentiss County

by supporting and helping us to obtain:

1. Five Local Rural Water Systems
2. Prentiss County Syrup Producers Assn.
3. Set Up Planning Committee for Rural Sewerage Disposal System and Water Extension Grants.

## Senator James O. Eastland Congressman Jamie L. Whitten

Senator James O. Eastland has become in his lifetime a living symbol of conservative leadership in the United States Senate.

As Chairman of the Judiciary Committee of the Senate, he personally considers a major part of all legislation handled by the Senate.

As Chairman of the Internal Security Committee, he untiringly and unselfishly devotes his energies in the investigation of subversive groups, and particularly the Communist conspiracy. Few men are hated and feared by the Communists as much as Senator Eastland because of his exposure of their movement and his legislative actions against them.

Senator Eastland, as a member of the Senate Agriculture Committee, and as Chairman of the Soil Conservation and Forestry Subcommittee, labors untiringly to further the vital agricultural economy of Mississippi and the nation.

Serving as Chairman of the Senate Immigration Subcommittee, Senator Eastland stands as a guardian of sound immigration policies.

As a Mississippi Democrat . . .

A member of the Appropriations Subcommittee for National Defense, Jamie has supported the men in service, all legislation for the benefit of veterans, their widows and other dependents.

He is a member of the Appropriations Subcommittee for Public Works, Rivers and Harbors, TVA and Tennessee-Tombigbee.

As chairman of the Appropriations Subcommittee for Agriculture, this year when President Johnson recommended drastic cuts, Jamie Whitten restored funds for School Milk, School Lunch, ASCS, Rural Electrification, Research, Control of Diseases, Extension, Soil Conservation, Rural Water Loans and Loans for Rural Housing.

Jamie Whitten wrote legislation language authorizing TVA to use its own revenue to meet power needs of its region when President Eisenhower refused to recommend funds.

The ten-hour course, made possible by the Division of Distributive Education of The Northeast Mississippi Junior College, is open to anyone 16 years of age or over who is interested in learning to wrap attractive packages. CONNIE MURDOCK, who has many friends and relatives in Booneville, is crowned Homecoming Queen by Dr. W. Lloyd Graunke, superintendent of the Tennessee School for the Deaf in Knoxville, where Connie is a senior.

## Connie Murdock Is Elected Homecoming Queen At Tennessee School For Deaf

Honors keep piling up for Connie Murdock at the Tennessee School for the Deaf in Knoxville.

Her latest is selection by the football team as Homecoming Queen.

Nashville sports fans remember Connie.

She's the young lady they sent to the International Games for the Deaf in Washington, D. C., last summer as a member of the United States Women's Swimming team.

Connie's expenses were contributed by local people after THE NASHVILLE TENNESSEAN appealed for help that enabled her to participate in the Olympic-type games for deaf boys and girls all over the world.

"It all seems like a dream," Connie said after members of the football team had voted her Homecoming Queen from a group of eight candidates.

"Connie hopes to enter Gallaudet College next year, but keep your

fingers crossed for her," said Mrs. Murdock. "The entrance examinations are mighty hard, we understand."

Since the International Games, Connie's father, Mr. Martin Murdock, has died.

She is a member of the senior class at TSD and very active in campus affairs. In addition to being a member of the girls' basketball team and the swimming team, she takes part in the activities of the Science Club and serves as chairman of the Anchor Club service committee. She also reigns as Miss Key Club.

PHIL LAPANSKY  
SAYS . . .

"In the July 21 edition of the Jackson Daily News, I am mentioned by Senator James Eastland as one of 11 known Communists who participated and influenced the recent Meredith-Mississippi March.

"It is not my intention in this letter to deny Eastland's exposure. I am indeed a known Communist—a Marxist, a revolutionary socialist, an open advocate of the revolutionary overthrow of capitalism and its replacement with a world Socialist order.

"AS A KNOWN COMMUNIST I AM PROUD TO BE A PARTICIPANT IN THIS REVOLUTION THAT WILL SOMEDAY FOREVER SILENCE THE JAMES EASTLANDS."

"WE HAVE TO GET RID OF EASTLAND IF THE CIVIL RIGHTS MOVEMENT IS TO GO FORWARD"

—Martin Luther King, Jr., in a speech at Indianola, Miss., June 22, 1966. He also urged stepped up Negro voter registration "to get Eastland OUT OF OFFICE".

TAYLOR SMITH, County Agent

## BOOK FERTILIZER NOW FOR NEXT YEAR

Fertilizer people are concerned about being able to supply fertilizer needs for next year if everyone waits until next spring to place orders and accept delivery. If possible I would recommend that you book your fertilizer and accept delivery on it now for use next spring. It could give out at the wrong time.

## SUBSOILING LAND THIS FALL AND WINTER

Many farmers have profited by subsoiling with better production the following year. Too, they have found that subsoiling should be done in the fall and early winter before the subsoil gets wet. Many of the hardpans we have on our better soils are made by constant disking and the use of moldboard plows. When these hardpans are broken, you go back to the regular depth the soil should be. It is good to break hardpans that were not made by mechanical equipment especially for water penetration. Where water penetrates into the soil and doesn't run off, there is less surface erosion. A lot of our hillside pastures should be subsoiled where breaking would be hazardous because of erosion. Where sub-

soiling is done on pastures or row cropland the water will go into the soil. Plant roots can grow deeper and moisture is conserved.

## FROSTED SORGHUM AND OTHER GRASSES

Don't turn livestock in on frosted fields of second growth sorghum or sudan — sorghum crosses until the plants have dried out. This doesn't mean just the dew dried off, but the complete plant dried out. There is no damage after plants dry out. Good silage can be made from grain sorghum or other sorghum after frost. Don't let it stand in the field too long after frost as it will get too dry.

## SOD SEEDING

November is a good month to go into permanent pastures and sod seed with a combination of small grain and ryegrass. Seed 75 pounds of wheat or oats and 25 pounds of ryegrass per acre. Apply a complete fertilizer of 60-60-60 (500 lbs. of 12-12-12). You can get excellent grazing during late winter and early spring.

"A harsh word can never be withdrawn. A kind word will rebound many times." —Frank Bridges, The Smithville (Tex.) Times.

## Training Improvement Week To Be Held At First Baptist

Amid heavy hints of an income tax hike after the November elections, Commerce Clearing House notes that Americans are now lugging a heavier federal tax burden than their Canadian neighbors. Using the \$10,000 income level for comparison, a U.S. taxpayer with a wife and two children under 16 years of age, will pay \$1,114 compared to the Canadian's payment of \$987.

## LONG AGO PEOPLE

It happened while I was hiking in the mountains . . . suddenly I came into a clearing and saw the crumbling foundations of what had once meant shelter and protection for a pioneer family. Rugged mountains surrounded the decayed dwelling on three sides. But in front there opened a panorama across a valley which in all its beauty held me spellbound.

I turned and noticed a small old-fashioned rose bush which seemed to reminisce with yesteryear beside the moldering stoop. I could feel the presence of those long-ago people. How they must have loved this place. The woman had tended flowers and vegetables here, had borne her babies and had helped her man carve a life from the wilderness.

What was their secret . . . these pioneer people? Where did they find the courage and confidence needed to face the privations and dangers of primitive living? God was their refuge and strength. Their love of Him illumined their lives, and goodness graced their days.

Just so today, God and His Church are the source of all bounty, greatness, and joy. They are yours for the asking.

## Northeast Personnel Division One Of The Most Effective

The Northeast Mississippi Junior College probably has one of the most effective divisions of personnel in the Mississippi Junior College system.

The personnel of the department consists of a full-time director who is also a qualified and certified guidance counselor, two full-time counselors, and a full-time clerical assistant. With Mr. Hal Hughes as director, Northeast students are

provided with assistance that will help them achieve their ultimate goal in education. Service to the student consists of a series of related functions designed to support the instructional program, respond to the student needs, and foster institutional development. These functions are implemented through the assistance of Mrs. Martha Carole White, Guidance Counselor, Mr. W. O. Nelson,

Guidance Counselor, Vocational-Technical Department, and Mrs. Cecilia Tillison, clerical assistant. Other services rendered the student of Northeast include orientation to college and career opportunities and requirements, and appraisal of individual potentialities and limitations, and consultation with students regarding their plans, progress, and problems.

Participation of students in activities that supplement classroom experiences is encouraged with these activities being coordinated through the Office of Student Personnel. Of importance, also, to the students of Northeast are regulations to provide an optimal climate for social and academic development.

An additional service of the Student Personnel Department is that of facilitating college attendance

through a program of financial assistance which will, in turn, assure further education or employment. A variety of programs are available, including scholarships, loan programs, work programs, and an Educational Opportunity Grant program.

Northeast is a participating member of research services provided by The American College Testing Program. Studies have been conducted by the Guidance Office to better understand the academic potential of its students. Each year follow-up studies of Northeast graduates and drop-outs are conducted.

Northeast President Harold T. White stated that plans for the Student Personnel Department include the employment of additional personnel to more adequately meet the needs of the student body.

**NORTHEAST PERSONNEL**—Mr. G. Hal Hughes, left, is the Director of the Student Personnel Department at The Northeast Mississippi Junior College. Mr. W. O. Nelson, 11, standing, serves as Guidance Counselor, Vocational-Technical Department, and Mrs. Martha Carole White, seated, is Guidance Counselor.

### FAVORABLE TRENDS IN KEY PHASES OF STATE'S ECONOMY

Favorable trends in key phases of Mississippi's economy are reflected in statistics for August and September, compiled by various public and private agencies. Gains have been made in all fields used as valid measures of economic progress by comparison with the same months last year. New claims for unemployment compensation were down in September, 1966 from Sep-

tember, 1965. Non-agricultural employment was up.

Folks who make use of their spare time have none to spare. —Fred W. Grown, The Bergen (N.J.) Citizen.

## HOME ECONOMIST'S NOTES

By CLAIRE T. ROSS, Extension Home Economist

you're looking for a practical way to stretch your Christmas gifts, call on your sewing ability and imagination. Even if your problem isn't cost, gift ideas, remember a handmade gift, even the simplest one, expresses the Christmas spirit more truly than a pre-packaged phase. You can turn an ordinary item

into something special by adding attractive trimming. For example, you can convert solid colored terrycloth hand towels into handsome guest towels by stitching two rows of braid or multi-color tassel fringe along each end. Stunning place mats can be made by sewing a border of ball fringe around a plain mat. Napkins can be coordinated by applying a right angle of matching trim on each corner. One caution, if the gift is washable, be sure the trim is washable, too, and colorfast.

### Homemaking Hints

TO REDUCE WRINKLES in articles of manmade fibers, set your automatic dryer on "medium" or "low" if it doesn't have a "wash-and-wear" cycle. After the articles are dry, tumble them for 10 minutes without heat. Remove immediately and hang up. This last step is important because wash-and-wear items left in a dryer may acquire new wrinkles.

COOK VEGETABLES THE SHORTEST TIME POSSIBLE for the best color, texture and flavor. Most vegetables have a sweet, mild flavor when cooked just right. Over-

ercooking causes strong, undesirable flavors to develop.

**TIRED OF YOUR BATHROOM CURTAINS?** Try the towel trick. Sew bright brass rings to pretty new bath towels in your favorite pattern or color and hang them from an ordinary curtain rod. They absorb bathroom steam without wilting. When you decide to change the bathroom curtains, the towel-curtains can go into the linen closet for family use.

**A PORK ROAST WITH A THIN FAT COVERING** can be roasted in a shorter time than one with a thick fat covering, a study showed.

**IF YOUR CARPET IS CRUSHED DOWN** by furniture or walking, use a hot iron over a damp cloth, or a steam iron to raise it. Be careful not to press down on the iron. Brush up the spots gently after treating them. Try the same treatment on the front and back of carpet corners that curl.

**FOR BETTER SERVICE** from your woolen garments, brush and air them after each wearing.

**TO PLUMP PRUNES**, pour boiling water over prunes. Tightly cover container and let prunes soak for about 24 hours. Then, keep refrigerated.

Try this:

**ROAST AND GRAVY**  
4 to 6 pounds chuck roast  
1 package dry onion soup mix  
1 can cream mushroom soup  
2 t. salt

Place half of onion soup mix and half of mushroom soup in center of large square of heavy duty foil. Put roast on top of soups. Sprinkle salt on roast and top with remaining soups. Close foil around roast, sealing tightly. Place in baking pan

USS FORRESTAL (CVA - 59)  
(FHTNC) Oct. 19—Gunner's Mate

and roast at 350 degrees for two hours. Serve drippings in pan over roast. Yield: 6-8 servings.

Seaman Apprentice James L. Sanders, USN, son of Mrs. Mattie B. Sanders of Route 4, Booneville, a crewmember aboard the attack aircraft carrier Forrestal, observed the 11th anniversary of the carrier at the home of its commissioning, the Norfolk Naval Shipyard in

Portsmouth, Va.

Forrestal was the first ship built from the keel up with an angled flight deck. She is 1039 feet long, weighs 78,000 tons, and is 255 feet wide.

She has made seven Mediterranean cruises and participated in numerous NATO exercises. Forrestal was involved in the Suez crisis in November of 1956 and in the Lebanon crisis in July of 1958.

The carrier completes her 50 million dollar overhaul in January of 1967.
