Overlaying Planned For State Highway

The proposed interstate highway system, overlaying of Highway 4 here, and the city's budget were three main areas of concern touched on in the meeting of the City's fathers here Tuesday night.

Northern District Highway Commissioner Herschel Jumper of Booneville met with the city board and explained some facts about the under-construction Interstate road system and the overlaying of Highways 4 and 30.

Mr. Jumper told the city's leaders that, by actual traffic count, "the first section of Highway 45 to be four-laned will be from Booneville

to Tupelo. This section of the existing road has the highest traffic count, and therefore will be first on the list for four-laning."

The commissioner commented that the interstate would be built to the standard full controlled access with the proper number of off and on exits to accommodate the City of Booneville.

He related that although the actual monies will not be able to be spent on this project until July 1st of next year, some work is now progressing on the project.

Jumper said the road will be located west of Booneville. The commissioner was as-

ked to the board meeting to answer inquiries as to what exactly the state highway de-

partment's position is in respect to Highway 4 and 30 now that the new by-pass is in full construction.

He replied to the members of the board that the commission will "overlay Highway 4 and 30 when the work on the by-pass is completed." He said this work on the overlaying of the state road should be underway within two years. The commissioner further commented that "by the Spring of 1975, the utilities should be in good order for the work to be begun."

This overlay system will cover the area from the Town Restaurant to the Big V, of course on the route of the State Highway.

The board delayed its consideration of the new city budget "until a time when we can give it more attention." A later date was set for the city fathers to meet to arrange the new budget for the city.

Forestry Field Day

The Prentiss County Coordinating Council is sponsoring a Forestry Field Day, Wednesday, August 29th commencing with registration at 10:00 in the parking lot of the First Baptist Church in Booneville.

The Forestry Field Day, the first of its kind in Prentiss County, will begin with instruction concerning wildlife food plots, timber marking, and timber stand improvement demonstrated on the Darrell Dodd's farm east of Booneville. Conclusion of the Field Day will be held at the Grace Fugitt farm on Highway 45, South where the various methods of thinning loblolly pine plantations will be demonstrated.

The featured speakers in the program will include representatives from every

agricultural based agency promoting forestry in Prentiss County so as to jointly explain what is available to the tree farmer through each agency. Financial promotion of the Field Day is provided by the Bank of Mississippi and the Peoples Bank with invitations extended to every landowner and timbercutter in Prentiss County.

Sales Tax Collections Fall Here

City Sales Tax collections in the city dropped off slightly for the month of June. Records showed that some \$20,015.49 was collected in June, compared with \$20,381.70 for May.

For a comparison, other cities in the area showed. Baldwin, \$8,010.51, Iuka, \$11,471.47, Ripley, \$20,449.69, and Belmont, \$3,903.54.

It's That Time Again

cats take a break between sessions in bottom photo. The Bearcat cheerleaders furnished the team some refreshments during the session.

Answering The Objections

The Mississippi Economic Council has long been interested in efficient and economical government at all levels--federal, state, and local.

For this reason, the MEC is encouraged by the many county governments that are now exploring the unit system of county management. The Council has supported the unit system in order to "assure county management on the basis of financially sound principles."

Several objections to the county unit system are often raised. In the interest of presenting the unit system in its proper light, this is the answer to those objections:

1. It would centralize authority.
2. This is not a move toward more centralized government. Decisions would continue to be made at the county level, by the Board of Supervisors. County unit simply means coordinated planning for the entire county instead of piecemeal decisions on the beat-by-beat basis.
3. It would take control away from the people.

Control of the road system would still be with the people who elect the supervisors. Final authority would continue to rest with the Board of supervisors, elected by the people, which would approve recommendations of the manager.

4. It would place too much power in the hands of the road manager.

The News Is Better

W.A. Leavell, in a column appearing in the Grifton (North Carolina) Times says that since there didn't seem to be much good news for the 1970s, he would go back in time to find some good news to report. And so back he went, to the 1870s; and this is what he found to report for the news of the day:

On the crime front, "the 1870's have a law and order problem. No fooling. The crime rate is about twice what it is today. People are going around shooting each other and the Indians are also on the rampage. In the cities traffic clogs the streets by day and you can hardly get around for the horses and wagons. The toughs and crooks take over the streets at night and it is not safe to go out."

"In New York City the Irish are rioting and demanding their rights. In Savannah the blacks are marching in the streets and in San Francisco the Chinese are giving the establishment a hard time."

"The taxpayers of New York found out that Boss Tweed

The manager would be an employee of the Board of Supervisors and subject to the authority of the Board. The Board would set policy; the manager, implement Board policies. He would be given authority to employ qualified people and to perform other functions necessary to carry out the instructions of the Board. Should he abuse this privilege, he would be subject to reprimand or discharge, as is any other employee of the county.

4. The system would cost too much for the small counties. The system would eliminate inefficiencies in the use of tax dollars. It would result in centralized purchasing and in the elimination of expenditures for equipping, supplying, manning, and maintaining five separate road departments in a county. Failure to operate under the unit system and the failure to use engineering skills and knowledge are costing the counties now.

5. Central storage of equipment would not be required under the proposed county unit bill. This decision would be made by the road manager. Factors determining such a decision would vary by counties and circumstances. Arguments that too much time would be lost moving heavy equipment from a central storage place in the county to points throughout the county every morning are immaterial.

has taken them for millions. Confidence in our political leaders is at an all-time low.

"Inside plumbing and sanitation are almost unknown and public health is nil. Pneumonia and tuberculosis strike down many, and scarlet fever and diphtheria combine with malaria and typhoid to make long life a slim gamble. No good young people are racing around on fast bicycles scaring the daylight out of horses and older people. They are also taking to hard drink and many think the young generation will be the ruin of the country. The drug culture is serious. Poppies grow in Florida, New Mexico, Texas, Vermont and New Hampshire and can't supply enough opium for the market so we import sizable tonnage from China, England and Germany (it wasn't until 1881 that the import of opium from China was prohibited.)"

Sums up Mr. Leavell: "As far as I can see, things have not gone that far down hill since the 1870's...except for one thing. In 1972 the total federal budget was \$278 billion and we are trying to get our present down to only \$250 billion. How is that for good news??"

It could be that the person in this question is affected by one or more of the situations just mentioned. Also, there is the subject of personality. Depending on the type of personality one has will depend on his compatibility or lack of compatibility with certain persons. One who is very dominant may find that he will clash with others who have the same personality need.

As can readily be seen, there are many reasons why one may get a date but can't continue dating the same person. Take stock of yourself; be objective as possible; try to see yourself as others see you. Ask some of your close friends

No Secret Is Safe

Americans were bugged long before the celebrated goof-up at Watergate.

A society which puts a premium on privacy resents and resists intrusions on that privacy.

Yet sophisticated new electronic devices make it so possible for anybody who wants to watch and listen to you that there's no longer any way or anywhere to hide.

Some months ago when my office draperies went to the cleaners, a tiny microphone was found in the folds. I thought little of it, made nothing of it.

My network got a little unhappy, tried to trace the device.

But it was a common one available to anyone. Indeed, some such are advertised for sale to anybody with \$59.95 plus tax.

Routinely, clandestine news sources know not to use my office telephone; we have another arrangement. So one learns to live with an increasing potential for surveillance.

In 1971, court permission was sought and granted to federal and state authorities to eavesdrop on 390,681 private conversations involving 29,558 individuals.

Those are just the "bugs" that were legally sought and authorized.

PAUSE FOR POWER

Three Problems Mastered . . .

The glory of the Gospel of Christ is that it meets man at the point of his deepest need. Jesus Christ, in his death and resurrection, mastered the three ultimate problems of human life: the problem of guilt, the problem of the perversity of human nature, and the problem of death.

The apostle Paul describes in graphic, personal language the terrible dilemma created by this second problem: "for to will is present with me; but how to perform that which is good I find not. For the good that I would, I do not; but the evil which I would not, that I do...O wretched man that I am! who shall deliver me from the body of this death?" (Romans 7:14-25).

Here is a frank and honest confession, and in it Paul bares his very soul. Paul knew what was right; he wanted to do what was right; and yet somehow he could never do it. Paul knew what was wrong. The last thing he wanted to do was to do wrong; and yet somehow it did it. It was as if two men were inside the one skin. Paul knew himself to be a walking civil war.

Here is a dilemma that confronts every Christian. The problem simply stated, is to be liberated from the tyranny of the old sin nature.

Sin is a tyrant. Sin will bind a man in the worse kind of slavery. And it is an inviolable law of God's moral government that the longer I indulge a sin, the stronger that sin exercises its tyranny over me. And every believer in Jesus Christ faces this problem. Soon after he is saved, a believer is disillusioned to find that the same old habits, the same evil passions, the same hateful sins still exert a powerful influence in his life.

Now, the salvation which God offers to man also possesses a remedy for the tyranny of sin. God saved a believer from the guilt of sin through the blood of Christ; God saves him from the tyranny of sin through the power and presence of the Holy Spirit. The Bible says, "For what the law could not do, in that it was weak through the flesh, God sending His Son in the likeness of sinful flesh and for sin, condemned sin in the flesh, that the righteousness of the law might be fulfilled in us who walk not after the flesh, but after the Spirit" (Romans 8: 3,4). Notice that phrase, "the righteousness of the law might be fulfilled in us, who walk... after the Spirit." Here is the divine formula: in us, by the Holy Spirit. This righteousness of life is not something that we can effect or produce; only the Holy Spirit can produce God's righteousness in us. The Spirit of God has taken up His residence in the life of every believer. It is His purpose to reproduce the graces and character of the Lord Jesus Christ in the believer. And, thank God, this is a reality. Just as the believer trusted the Lord Jesus to save him from the guilt of sin, even so the believer trusts the Holy Spirit to save him from the guilt of sin, even so the believer trusts the Holy Spirit to save him from the power and defilement of sin.

And God's provision for a life of victory over old sins and habits is available to every believer. It is high birthright. It comes his at the moment that he is regenerated by the Spirit of God. But in order to experience this victory, we must meet God's requirement, and that requirement is to walk about the Spirit. Such a walk involves two things: it involves a whole-hearted submission to the Word of God and confident reliance upon the Holy Spirit. The Word of God thus becomes our light, and the Holy Spirit becomes our power. As a believer walks in the path of obedience to God, the Holy Spirit will effect in his life that the victory that he so desires as a Christian. It is to this kind of life that the Bible refers when it says, "That the righteousness of the law might be fulfilled in us who walk not after the flesh, but after the Spirit."

And to that degree to which a believer walks in the path of obedience to God's Word and submits to the guidance and leadership of the Holy Spirit, to that same degree will he

enjoy victory over the tyranny of the old sin nature and experience the joy and blessing of God in his personal life.

IMPROVE MEALS WITH HERBS AND SPICES

Dreary, rainy days generally have a depressing effect. We look outside and count all of the things we could be doing if it were sunny. We could be swimming, working in the garden, picking fruit or a hundred other things. Why not, on these days when we are kept in the house, become an artist in the kitchen. Begin to master the art of herbs and spices.

The aroma of spices and herbs perks up appetites and sags morale. Some of them may be grown in your garden. These can be used fresh, or dried and stored for use the year round. Some that are especially popular are thyme, rosemary, mint, sage, sweet basil, parsley, marjoram, and oregano. These plants have attractive foliage which gives off a soft fragrance, too.

When using fresh herbs, it is best to crush or chop them before combining with the food. If you are using dried herbs, soak them in broth or oil to obtain fullest flavor.

There is a certain mystery and excitement when cooking with herbs and spices. It is not a science. There are no standard amounts to be added. It is an art, and you are the artist. Spices and herbs should be used to entice hidden flavors from food to play up certain aspects of a dish. Do not use a heavy hand when seasoning. If you do, the dish will lack even flavor blending and develop an overpowering single flavor.

To become a successful, creative cook with herbs and spices, start out slowly. Use some of the milder herbs such as sweet basil, marjoram, or rosemary on meats or in casseroles. These are hearty foods and have a definite taste.

From here, branch out to using herbs on egg and cheese dishes. You will soon learn to use a small amount on meats and even smaller amounts on egg and cheese dishes. Then begin to use herbs and spices on fruits and vegetables.

Try adding a pinch of rosemary to the cooking water of potatoes or rice. It will add interest and flavor to vegetables. Try herbs and spices in breads, rolls and biscuits. Savory dumplings may soon become a favorite recipe. Simply add caraway seed and thyme to your dumpling recipes and drop in beef stew, chicken stew or any favorite dumpling broth.

Vary your herbs and spices to add individuality to your meals. You are the artist and the whole world of herbs and spices can be blended and woven into delightful, fragrant masterpieces.

NEWS FROM THE COUNTY AGENT

DAIRY GRAZING

With winter grazing you can cut your feed costs and increase milk production at the same time.

Good, well fertilized winter grazing will allow you to drop the protein in your concentrate feeds from 18 percent to 16 percent. You will also need less grain when good grazing is available.

Plant on a well prepared, fallowed seedbed in early September. Crops recommended for winter grazing include oats alone, oats and ryegrass, wheat and ryegrass or wheat alone, rye and ryegrass and ryegrass alone.

Seeding rates per acre are: oats alone, 130 pounds; oats and ryegrass, 100 pounds; oats and 25 pounds ryegrass; rye and ryegrass, 100 pounds; rye and 25 pounds ryegrass; ryegrass alone, 40 pounds.

Use the equivalent of 500 pounds per acre of 13-13-13, then sidedress in November and March with 60 pounds of nitrogen per acre.

Recommended varieties are: oats, Coker brand 66-22; wheat, Arthur and Coker 68-15; ryegrass, Gulf Magnolia or common; rye, Vita-Graze, Abruzzi, Ebon, Balboa or Explorer.

Begin grazing when the plants are six to eight inches tall. Graze heavily in winter and early spring. If you want hay, graze until

around April 1 and then remove animals.

PASTURE WEED CONTROL

Lots of weeds in our summer pastures are too big to be effectively controlled with herbicides. Try clipping them now and then using a herbicide after they grow back to eight to 15 inches tall.

Tank mixes of 2,4-D plus dicamba (Banvel) are now permitted. If you are willing to assume all risks, you may want to try this combination. Many of the hardy pasture weeds can be controlled with this mixture.

HARVESTING

Get your cotton harvesting machinery in shape now. A pre-season overhaul can assure that your machinery will give troublefree performance--a must for greatest profits from your cotton crop.

Be sure to check all parts of the power unit including ignition, fuel, cooling, transmission, clutch, final drive, battery and electrical system, tires, hydraulic systems and steering.

The harvesting unit also needs a thorough checkup.

An hour of harvest time is worth 10 times as much as an hour of pre-season time. Recondition your harvesting equipment now and avoid costly delays in harvesting season.

BRIDGE for EVERYONE

James Kerry

The bidding in bridge is supposed to convey information which enables the partnership to arrive at the best possible and makeable contract. It also provides the defense with important clues as to the line of play that may be best suited to defend from either position. The North-South pair arrive at their best contract, six hearts, on more or less standard bidding, however victory eluded South simply because he failed to give proper consideration to West's vulnerable overall of one spade suit missing so many high card points. Let's look at declarer's actual play and then how he should have played the hand.

East-West Vulnerable. South deals.

THE BIDDING:

1 ♠ 1 ♠ 3 ♣ Pass

Open lead: Queen of diamonds.

In search for a safe opening lead West led

the queen of diamonds

which South won with the ace. South now drew

trumps in two rounds,

cashed the king of diamonds, ruffed his last diamond in dummy. He next

cashed the ace of spades and threw West in with the spade queen. West exited

with a small club and when that suit failed to break

three-three, declarer was forced to accept a one trick set.

Now let's see what clues South should have picked up from West's vulnerable overall of one spade.

West should hold a singleton or a doubleton or maybe both since his strength can't be in high cards only, and he surely must hold the king of spades. After two trump leads revealed he held a singleton heart, and his opening lead of the queen of diamonds figures to be the top of a sequence, the doubleton must be in clubs, but should he hold three clubs, all the better for a long suit will establish a long club and provide a parking place for declarer's losing spade.

So how should declarer proceed? After drawing trump South cashes his king of diamonds and ruffs his last diamond in dummy, observing that West is still following suit. Since he has played the queen, three and ten, he surely must hold the jack from his opening lead therefore he can only have two clubs. South does not touch his spade holding, and at this point takes the ace of clubs and leads a small club from dummy and finesse the nine which loses to West. He is now end played, since a spade exit makes South's queen and a diamond lead provides a spade ruff and ruff enabling declarer to emerge unscathed.

As we said, a keen observer learns much from the bidding, and opening leads, as shown in this hand, but even without an intervening bid South must not give up his spade stop. Obviously the contract cannot be made without surrendering the lead to the opposition after trump and diamonds have been cleared, and West's vulnerable overall must be considered a bonafide bid, enabling South to arrive at the right conclusion in the play of the hand. Opponents bids do not always tell us everything we wish to know and sometimes are misleading, however you can't ignore them.

Take Close Look At Acre Production

County Forester Tom Carter of the Mississippi Forestry Commission, recently urged all Prentiss County landowners to take a close look at what their acreage is producing, stating: "It could mean the difference between a paycheck and just another tax bill to many of our landowners."

According to Forester Carter unproductive lands are costing many landowners thousands of dollars annually in taxes while producing practically nothing in annual income. "Such areas," he said are found right here in Prentiss County on

You can and should order your seedlings now!

The Mississippi Forestry Commission officially began its annual seedling order period on July 2, 1973 and will continue to accept orders through October 15 or until the supply of desired species is diminished. Regardless of the remaining supply, if any, no orders will be accepted after October 15. Consider the order period and remember that many of you did not obtain the seedlings you desired last year because you ordered late in the season.

This year the Commission is offering loblolly, slash, longleaf, and shortleaf pine in packages of 10 seedling for the conventional \$.50 delivery charge for those of you who need a few trees for planting around your home or in your yard. This service is being offered to eliminate the necessity of ordering 1,000 seedlings when only a few are needed, eliminating the needless waste of precious seedlings that would otherwise not be planted. Please order only what you know you will plant. Two factors of utmost im-

portance should be considered: The MFC will not accept orders for seedlings for resale purpose and there will be no free seedlings available to private individuals, civic groups or other organizations this year. The conventional 1,000 pine seedlings, historically available to every landowner for a standard delivery charge \$.50 will be available to those persons who order seedlings from a representative of the Commission.

The following is a list of available seedlings by species, number that can be ordered if of a limited species, and the cost per bundle.

timber must become greater and the price paid for timber must also increase."

With the annual tree seedling sale currently underway by the Mississippi Forestry Commission, the Forester advised that now is the time to begin making preparation to stock unproductive acres and plan to obtain that extra income by ordering tree seedlings.

Forester Carter urged landowners to contact his office to order seedlings, obtain assistance in determining which species and how many will be needed to fill their reforestation needs, and to obtain assistance to plant these seedlings and begin a new income creating enterprise.

4-H'ERS LEARN NEW TRICKS FROM THEIR DOGS

You can teach people new tricks about dogs. That's what youths involved in the 4-H dog care and training program are doing.

The young canine fanciers are looking for better ways to train and care for their animals. And they're showing others how to get maximum enjoyment from their four legged friends.

Sponsored by Purina Dog Foods Group, Ralston Purina Company, the program alerts young people to the responsibilities of owning a dog. It stresses all aspects of dog care, the animal's health, obedience training and even records needed by the canine owner.

With the supervision of the Cooperative Extension Service, young people plan and carry out numerous activities in the 4-H dog care and training program. Some 4-H'ers train seeing eye dogs for the blind. Others exhibit their pets in obedience or breed shows. Many give talks and demonstrations on canine care and handling to 4-H youth and other groups in their communities.

One 4-H'er in the program created a new "trick" to show proper dog care. Kay Abell, of Fresno, Calif., wrote and produced a film for the blind. The 12 minute film, titled, "A Puppy in the House", helped secure funds to operate a guide dog training program in Fresno. Because of that and her other activities in the 4-H dog care and training program and 4-H, Miss Abell was named one of six national winners of scholarships in the 1972 program.

Adding to the young people's interest in the 4-H dog care and training program are numerous awards offered by the Purina Dog Foods Group, through the National 4-H Service Committee. Up to four medals of honor are awarded to outstanding youths in each county. State winners in the program received a transistor radio, and are eligible for consideration in the selection of 16 expense-paid sectional trip winners to National 4-H Congress in Chicago, Nov. 25-29. At that event, six \$700 scholarships are announced.

Also, Purina Dog Foods Group provided additional assistance to the 4-H dog care training program in the form of educational aids, and technical and public relations assistance.

For information about the 4-H dog care and training program and local program activities scheduled, contact the county extension office.

At the end of July, 1972, 1,255, 022 persons were enrolled in manpower work and training programs administered by the U. S. Department of Labor. This was a new high for any July since the training programs were launched in 1962 and 27 percent above the 985, 896 enrolled in July, 1971.

Controls Unrealistic Food Executive Says

C. W. Cook, chairman and chief executive of General Foods Corporation at the firm's stockholders meeting in Tarrytown, N.Y. said:

"There are, of course, many external pressures which govern the way we conduct our business... But the one which transcends all others in its impact at present is the inflationary spiral of food costs and prices and the actions of the federal government to restrain it. I know of no time in General Foods' history... when unrealistic controls and unreasonable administration of them so interfered with the management of our business."

MR. AND MRS. CARTWRIGHT

Stephens, Cartwright Exchange Vows In Methodist Church Here

The brilliant glow of many-lighted candles and jade fern formed a classic background in the sanctuary of the First United Methodist Church for the marriage of Miss Carolyn Stephens, daughter of Mr. and Mrs. Audie Stephens of Booneville, and Clifton Claude Cartwright, son of Mr. and Mrs. Merrill T. Cartwright of Booneville. The marriage was solemnized at 7 o'clock, Saturday evening, August 4. The Reverend J. S. Hathorn officiated in the double ring ceremony.

The nuptial prelude was presented by William T. Rutledge, Jr., organist, and Miss Leah Rutledge, soloist, who sang "More" and "Jean". At the conclusion of the ceremony, Miss Rutledge completed the wedding music with the singing of "One Hand and One Heart." Mr. Rutledge played the traditional wedding marches.

Brady Robison and James T. Liddell, III served as acolytes.

Vows were pledged before a spiral brass candelabra festooned with smilax holding white tapers which completed the formation of a wedding ring as the couple knelt on the white satin prieu dieu. Placed at each side were two brass candelabra holding white tapers forming pyramids and two tall baskets holding a spreading design of white gladioli. Slightly to one side of the altar stood the Trinity Candles, also brass on a wrought iron base, which became the unity candles symbolizing the two personalities when they were used in the union ceremony.

The family pews were marked with lighted white candles in hurricane lamps caught with white satin bouffant bows.

The Bride

The lovely blond bride was given in marriage by her father. She wore a traditional gown of white silk organza over peau taffeta. Alencon lace motifs, beaded profusely with seed pearls and crystals enhanced the bodice and high neckline and appliqued over the long, full sleeves ending in petal points over the hands. The beaded lace was scattered on the sweep, chapel train and also finished the hemline. Her tiered chapel veil of imported silk illusion, was gathered to a lace camelot headpiece, embroidered and scalloped with

pearls to frame the face. She carried a portrait bouquet of chaste white rose buds, accented with gypsophylla and centered with a white orchid. Showers of white satin bridal ribbon fell from the bouquet.

Attendants

For the blue and white wedding, the bride was attended by Miss Christi Cartwright, sister of the bridegroom, as Maid of Honor. Serving as Bridesmaids were Miss Gerri Ann Goodson of Baldwin, Mrs. Randy Morris of Memphis, Miss Sandra Goodman of Booneville. Miss Candy Cleveland of Booneville was a Junior Bridesmaid. They were identically attired in long gowns of powder blue chiffon. The squared yokes on the fitted bodices were framed by self ruffles which spanned the shoulders and formed cap sleeves. The wedding ring necklines were collared by a self ruffle. Matching satin belts encircled the raised waists, and the softly gathered skirts were edged with a deep, shirred ruffle. They wore matching picture hats of ligne braid trimmed with blue satin ribbon bands and streamers. They carried nosegay bouquets featuring a single chrysanthemum and gypsophylla tied with white velvet ribbons.

Little Miss Kim McCoy, daughter of Mr. and Mrs. William McCoy of Booneville, dressed in a miniature version of the dresses worn by the other feminine attendants, was flower girl and carried a white polished wicker basket filled with blue ribbons and filled with daisies, miniature chrysanthemums, and gypsophylla.

Mr. Cartwright was attended by his father as best man.

The groomsmen were Brady Robison of Mississippi State University, Michael Johnson of Wheeler, James T. Liddell III of Mississippi Holley of Marietta.

Jim Caver, son of Mr. and Mrs. Harmon Caver of Booneville, was ring bearer and carried the ring on a white satin pillow edged with white lace.

Mrs. Stephens, mother of the bride, selected for her daughter's wedding a formal gown of sky blue crepe with a matching coat trimmed with lace motifs.

Mrs. Cartwright, mother

of the groom, was attired in an aqua chiffon crepe with long bishop sleeves and a full skirt. Both mothers wore white orchids.

Mrs. John Roberts, maternal grandmother of the bride, chose an orchid crepe dress, and Mrs. Frank Windham, maternal grandmother of the bridegroom, wore a white silk dress with navy dots. Their corsages were white cymbidiums.

The Reception

Following the ceremony, Mr. and Mrs. Stephens entertained with a reception on the patio of the church where the beautiful green grass and growing shrubs formed a lovely setting.

Mrs. Odell Roberts, aunt of the bride of Baldwin, registered the guests in the wedding book placed on a round table covered with a white lace cloth over blue satin ornated with a creation of mixed summer flowers.

The bride's table was also covered with a white lace cloth over blue satin. In the center was crystal and silver epergne filled with a tall arrangement of blue and white carnations. The all white embellished three tiered cake decorated with sugar spun roses was placed on one side. The anniversary tier was mounted with a small bride and groom, standing under a white wedding bell. Mrs. Kenneth Stephens of Verona, aunt of the bride, and Mrs. Troy Moore cut the bride's cake. Sparkling punch was served from this table by Mrs. Michael Johnson of Wheeler and Mrs. James Fowler from a silver punch bowl. Silver compotes holding heart and wedding bell shaped blue and white mints complimented the setting.

The bridegroom's table, overlaid with a brown linen cloth was centered with a large brass compote filled with blue carnations and pale green zinnias. On one side was a rich chocolate cake cascaded with green frosted grapes. Mrs. F. C. Manning of Merigold and Mrs. Otis Cox, aunt of the bridegroom, served the cake. Pouring punch from this table were Mrs. Webster Cleve-

land, Jr., and Mrs. Don Eubanks.

Assisting as circulating hostesses were Mrs. Harmon Caver, Mrs. Norvell Perry, Mrs. W. B. White, Mrs. Joseph Hurst, and Mrs. Robert Buchberger.

Misses Patti Perry, Pam Cox, Freida Parker, Lisa Buchberger, Lisa Roberts, Melba McCoy and Jean Calvert served as Tea Girls.

Distributing blue tulle rice bags tied with blue ribbon and lily-of-the-valley were Misses Beth Caver, Lori Smith, and Rose Anne Dean. They wore formal length dresses of blue and white printed cotton white eyelet pinafores.

Mrs. W. V. Kemp created the lovely floral decorations for the reception, which was coordinated by Mrs. Otis Cox and Mr. and Mrs. Roy Bailey.

Appropriate background music was played on a spinet organ by William T. Rutledge and Brady Robison.

For traveling the bride wore a blue double knit sports dress with a white orchid corsage from her wedding bouquet. After a wedding trip to Niagara Falls, the couple will be at home at 707 Lakeland Drive, Jackson, Mississippi, where Mr. Cartwright will enter the University of Mississippi Medical School and Mrs. Cartwright will be a student at Belhaven College.

The lazy days of summer are hastily slipping away and the majestic days of autumn are surely creeping around us.

We should not say lazydays because who hasn't been busy this year? With all the vegetables there are in the garden and fruits in the orchard all growing their little hearts out to help feed whose ever hands will pick them.

The women of our community have surely been busy canning and preserving, freezing and drying foods for the coming seasons.

I hope we haven't been too busy to enjoy some of the smaller joys the season brings us. A bush of ripe figs, grapes, big and deep purple, hanging through a wire arbor, a bucket of tomatoes ripe and ready to be canned, and the sudden joy of finding a watermelon hidden deep in the corn patch. These are little things that perhaps don't mean so much to some, but so much to others. Older

people who realize this may be the last autumn they will

ever see. But not only the aged—none of us are assured there will be another autumn for us enjoy. Let's take a little more time, go just a slower with our life and stop and smell the flowers while we can.

YOU ARE INVITED TO OUR 90th ANNIVERSARY AND HOMECOMING AT GASTON BAPTIST CHURCH SUNDAY AUGUST 26th

The historic Gaston Baptist Church will mark it's 90th Anniversary with an all-day celebration on Sunday, August 26.

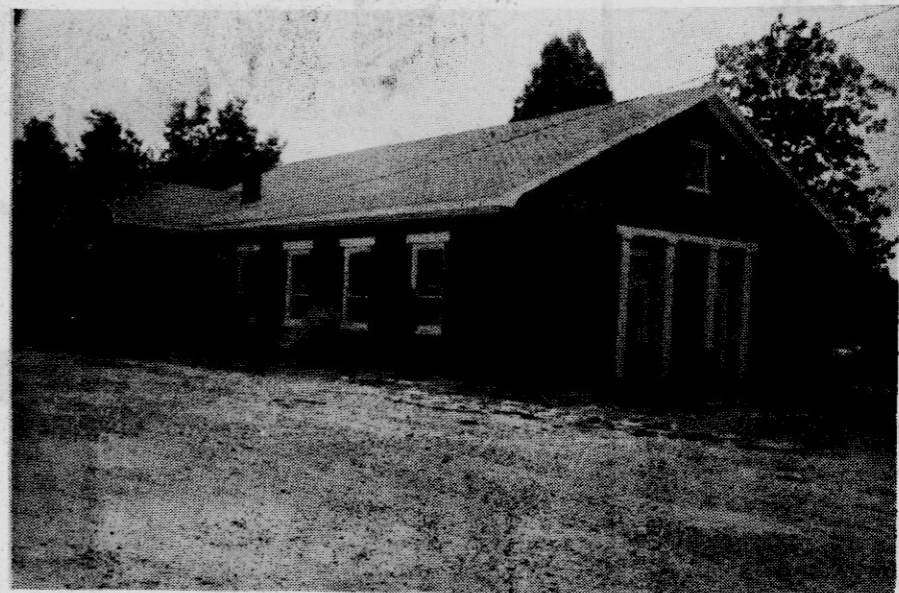

The church, founded in 1883, met for a few years in a school house. The present site was first known as the Ebenezer Presbyterian Church. In 1903 after the dissolution of the Ebenezer Church, the Church building and 5 acres of land were sold to the Gaston Baptist Church for the sum of \$87.50. The name was changed to Gaston in honor of Rev. Leroy Gaston, one of the Presbyterian pastors.

Activities at the Anniversary and Homecoming Celebration will include Sunday School-9:30 a.m.; Morning Worship-10:30 a.m.; A dinner on the grounds-12:00 p.m.; and all afternoon singing beginning at 1:00 p.m. Also at 2:00 p.m. will be the Sound Masters Quartet from Fulton, Miss.

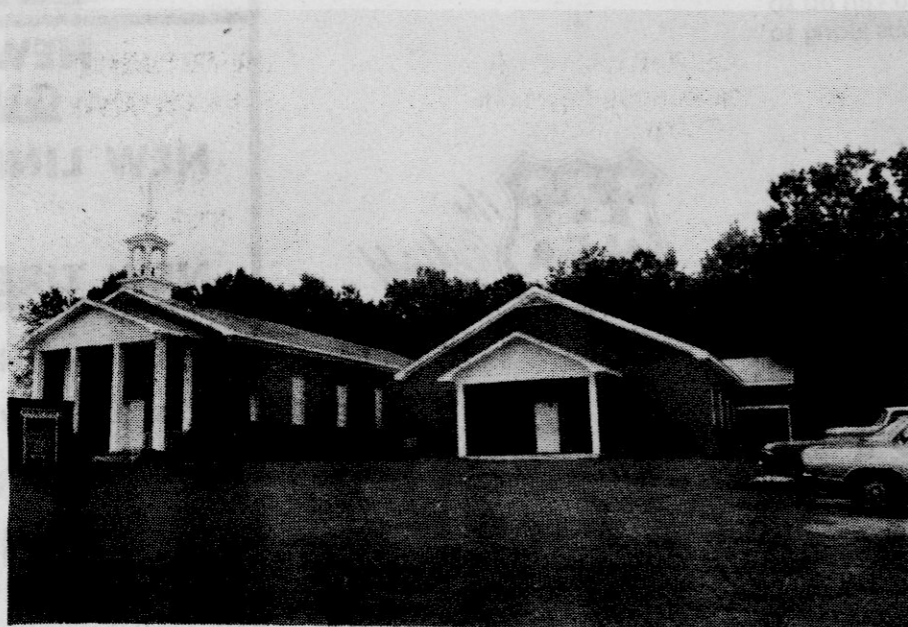

Visitors, former members, former pastors, members, and friends of the church are invited to attend. Rev. Bill Dowdy, pastor.

HISTORY OF GASTON BAPTIST CHURCH

The Gaston Baptist Church is located about four miles northwest of Booneville occupying a five acre tract hallowed by the association of nearly 100 years. This spot was selected for a school house in 1839 and has been in continuous use since that time for school, church, and community service.

The present site was first known as the Ebenezer Presbyterian church, but on the 21st day of February 1903 after the dissolution of the Ebenezer Church the church building and lot was sold to the Gaston Baptist for the sum of \$87.50. This building was about 30 x 50 feet and was on the spot now occupied by the Gaston Church. The pulpit was in the north end, with a single door in the south and double doors on each side. It had twelve large glass windows which were not often seen at that time. The seats were mortised together and were quite heavy. This house was built in 1850. The deed was signed by W. G. McLeran and S. J. Bradshor, surviving trustees of the Ebenezer Church and

was made to James S. Elliott, John C. Jennings and Henry C. Parker as trustees and the name was changed to Gaston Baptist Church. Supposed to be in honor of Rev. Leroy Gaston, who was one of the Presbyterian pastors. This building was torn down in 1904 and a new building erected.

The Gaston Baptist Church was organized on August 22, 1885 by Revs. W. L. Skinner and W. G. Thompson as the organizing Presbytery. There were about 30 members in the original church and we are told that none of those are now living.

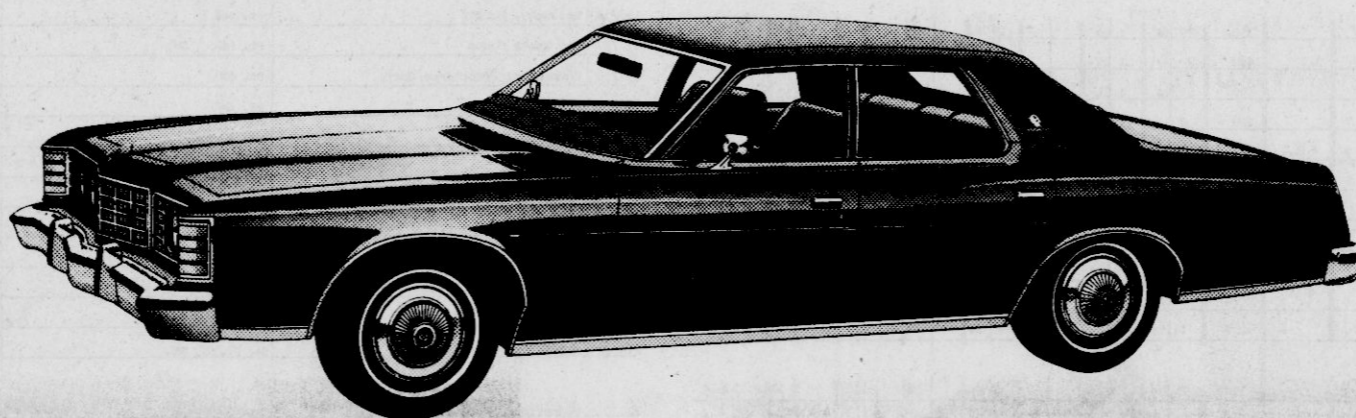

The following ministers have served as pastors of this church Revs. W. L. Skinner, W. G. Thompson, J. R. Barnett, W. M. Henderson, W. G. MaHaffey, J. A. Carmack, O. F. Huckaba, C. S. Wales, N. M. Davis, T. B. Holcombe, John H. Buchanan, E. S. Summers, O. H. Richardson, J. O. Guntharp, J. H. Crawford, Gordon Sansing, Gilbert Daniel, Hayward Moore, Jimmy Moore, Everett Moore, Bob Holand, Lamar Booth, and W. G. Dowdy.

My daughter-in-law brought a cook book back with them from Opera Land of mountain recipes. I would like to share this one with you. It starts like this: If yore menfolk don't like this recipe—don't cook fer them no more, cause they ain't worth the trouble.

1 cup flour
1 1/2 tsp. baking powder
1/2 tsp. salt
1 egg beaten
1/2 to 3/4 cup milk
1 tsp. melted oleo
1 tsp. sugar
1 cup peeled and diced tart apples

Sift dry ingredients together. Combine rest of ingredients and add to dry mixture. Use right amount of milk to make right consistency batter. Fry in deep hot fat till done, which will take about 5 minutes. Sprinkle with powdered sugar.

Our church was almost full on last Sunday but there were some empty seats. Now if all members were there this Sunday what a day of rejoicing that would be. And I know it would make Bro. Hathorn very happy. If you come and hear him once you will come again and again.

Acceptance
I cannot think or reason,
I only know he came
With hands and feet of healing
And wild heart all aflame.
With eyes that dimmed and softened

At all the things he saw,
And in his pillared singing
I read the marching law.

I only know he loves me
Enfolded and understands—
And oh, his heart that holds me
And oh, his certain hands.

Dale Gault was here one day last week visiting his parents, Mr. and Mrs. J. B. Gault.

Fondue Dishes Gain Greater Popularity

MISSISSIPPI STATE, MISS. — Recipes for fondue dishes are rapidly gaining popularity. This type of tabletop cooking allows the hostess to spend more time with her guests and yet provides a delectable meal, cocktail accompaniment or dessert.

"There are several types of fondue pots, some suitable only for dips and dessert sauces while others can be used for everything including hot oil cooking," noted Miss Frances Fortenberry, housing and equipment specialist for the

Cooperative Extension Service. "Each unit includes a pot, stand and burner for cooking or keeping the mixture hot."

There are three basic types: metal cookers, ceramic pots and dessert pots. The latter is small in size and uses a candle as the heat source. According to Miss Fortenberry, metal is the most versatile material and best suited for hot oil cooking.

"Ceramic, pottery or earthenware pots are attractively decorated and suitable for cheese and other sauce-type fondues," she said.

Home Loan OK Given

The Veterans Administration has resumed approving G.I. home loans as result of the President's signing July 27 of Public Law 93-75 (H.R. 8949) extending VA's authority to set interest rates.

W. H. Witt, Loan Guaranty Officer, VA Center in Jackson announced that 7.75 per cent is the maximum interest rate on VA guaranteed, insured and direct home loans. The rate had been set at 7 per cent since February 1971.

"This increase will permit the continuation of the VA loan program as a viable instrument for the use

of home buying veterans," Witt said. "This will be especially meaningful to our younger Vietnam Era veterans who now obtain some 75 per cent of all VA loans."

Witt noted that VA approved 4,268 home loans in Mississippi in fiscal year 1973—the highest volume of G.I. loan business in 16 years. On July 1, however, the VA rate reverted to 6 percent when Congress recessed without extending VA and HUD authority to establish interest rates.

The new authority just signed by the President applies only to VA loans.

Dr. Brown To Attend Confab

Dr. Russell C. Brown will attend the 1973 annual Homecoming of Palmer College of Chiropractic, Davenport, Iowa and will be away from his office from August 15 to 24.

Dr. Brown will take part in the professional seminars to be held on the campus of his alma mater. Two full days of lecture presentations will be held on the subjects of chiropractic philosophy, science and art.

The Honorable Harold E. Hughes, U.S. Senator (Iowa), will speak at the annual alumni banquet to be held in the Palmer College of Chiro-

practic Auditorium. Senator Hughes is one of the most dynamic Freshman senators on Capitol Hill. He has been mentioned frequently as possible presidential timber.

Climaxing Homecoming will be the "President's Report" by Dr. David D. Palmer, head of the world's first and largest chiropractic college, and grandson of Dr. D.D. Palmer, who discovered the principles of chiropractic.

The annual business meeting and election of officers of the Palmer College International Alumni Association will

be held simultaneously with Homecoming.
Dr. Mike Ream Hwy 45 South, Chiropractic Life Center will be taking calls for Dr. Brown.

MISSISSIPPI STATE, MISS. — Melting out can be a very serious fungus on bermudagrass. The disease is caused by the fungus *Helminthosporium* and can also cause leaf spotting on other types of turfgrasses.

The disease can be recognized by the round or oblong spots that are parallel to the leaf blade.

Tigers Success Depends On Sophomore Leadership

BY WILLIE IZARD
EDITOR

Leadership is the name of the game ... at least with the Northeast Tigers here. For when the 1973 football team members marched into camp here last week, the sophomores began right away to become leaders.

Head Coach Bill Ward commented that "these youngsters have got to exercise their leadership in order that we get off on the right foot here. We're going to show the folks what a game of football is."

The team has its work cut out for them, because in the past two seasons, the team has known two victories and 18 defeats.

Ward and assistant David Carnell are certainly "ready for those days to end."

"Nobody wants to win anymore than we do," said Ward, who's starting his sixth season here. "I've never been a poor-mouther. I've got confidence in the kids and I think they have confidence in themselves."

"I feel like we are going to have a competitive football team."

Since most junior college coaches around the Magnolia State never really know just what to expect from incoming freshmen players, Ward and colleagues base their yearly hopes upon the sophomore, the ones who did battle last time. The ones who've been under fire before.

"I think we've got as good a group of returning players as any since I've been here," he said. "If they lead the way, the freshmen will rally behind them and we can get going on the right track again."

First and foremost among the returnees is a halfback Ward thinks "can be one of the finest junior college backs this state has ever seen."

He's referring to Bill Neely, a 6-0, 205-pound youngster from New Albany who missed most of last year to an injury. "He's a strong and powerful runner," Ward said. "He runs it good inside and good outside and he will have to carry the load for us this season."

Also on hand from a year ago is fullback Jan Pritchard, a 5-11, 190-pounder from Booneville, who started "about half the time last year."

Another strong area it seems is the pass catching corps. Ward switched James Walker from quarterback to right end in the spring and he says the 6-2, 190-pounder "really looked good. He catches the ball well and can get open, but he needs some work on his blocking."

A couple of wide receivers, Bobby Smith and Jim Pounds,

both 160-pounders, will return and see plenty of action. "Smith played about 25 percent of the time last year," said Ward, "and Pounds put on some weight and he also catches the ball real well."

The Tigers have already run into quarterback trouble, however. Last year's half-the-time starter, David Barron, twisted a knee recently in a flag football game and Ward expects him to miss the first ball game.

So you can expect a newcomer to start at the vital position. Four will be in the house Sunday, newcomers Robert Martin of Corinth, David Griffin of Ripley and out-of-stater Rick Ewing of Hamilton, Ohio.

In the line, several returnees will be on hand. They include tackles Jim Perkins, 240, David Honnell, 225 and Dwayne Thornton, 200; guard Richard Hill, 200; center Rob Coltharp, 185; defensive ends Danny Patterson, 190, and Ron Phillips, 200' and "two of the finest linebackers to be found," said Ward of Randy Box, 190, and Robert

Henry, 230.

Four defensive backs are included in the returnees—Robert Turner, 170; William Payne, 170; Mike King, 180; and Vic Marlar, 170, who's moved over from offense.

Under a new ruling, Ward has signed six players from outside the state and he said, "We expect a lot of help from them. We think we signed some good football players."

After the area high school season, Ward went onto the recruiting road and came up with about 25 signees.

"We are counting on some freshmen to play a lot of ball," he said. "A freshman who comes in here in top physical condition can expect to be far ahead of anyone who doesn't."

Things will get going right away in the pre-season practice, he said. "We'll practice twice a day until school registration begins (Aug. 20)," said Ward. "There's going to be nothing easy about it, but the ones who pay the price will maybe reap the reward of a winning season."

The Tigers open here on Sept. 1 against Gulf Coast's Bulldogs.
