Grand Jury Indicts Twenty

A murder indictment, stemming from a December 1981 shooting, was among 20 criminal indictments returned during the February term of the Prentiss County Grand Jury.

Jessie Eugene Roberts, 49, of Route 1, Marietta, was charged with murder in connection with the Dec. 18, 1981, shooting death of his wife, Ruby Melton Roberts.

Mrs. Roberts, 46, died at her home south of Marietta, after she was shot once in the head with a 12-gauge shotgun.

Indictments were also returned this week against five men who are suspected members of a theft ring that was uncovered in the Big V community in December.

Bobby Ray Deviney, 31, of Route 5, Booneville, was charged with 13 counts of burglary and larceny of a dwelling, and one count of grand larceny.

Deviney's charges were in connection with the theft of tools from Starling Construction Co. and break-ins at the residences of Mary Flanagan, Ona Smith, Maxwell Harbor, Gerald Caveness, Stanley Stacy, George Brumley, Zane Ellis, Michael Stevens, John T. McNeese, John E. Walendzik, Horace Massey, Jim Hunter and Larry Eaton.

Kenneth Earl Trimble, 20, of Route 5, Booneville, was indicted on 13 counts of burglary and larceny of a dwelling. His charges were in connection with break-ins

at the homes of Mary Flanagan, Ona Smith, Maxell Harbor, Gerald Caveness, Larry Eaton, Clyne H. Wilemon, Stanley Stacy, Zane Ellis, Michael Stevens, John T. McNeese, John E. Walendzik, Horace Massey, and Jim Hunter.

Thomas Lynn Trimble, 19, of Route 5, Booneville, was indicted on four counts of burglary and larceny of a dwelling. Those charges were in connection with break-ins at the homes of Gerald Caveness, Clyne H. Wilemon, George Brumley, and Jim Hunter.

21, of Route 5, Booneville, was indicted on three counts of burglary and larceny in connection with the break-

Social Security Changes Affect Local Students

Recent amendments to the Social Security laws have adversely affected a number of high school students who had planned on Social Security benefits to help pay their way through college.

Since 1965 unmarried students under 22 years of age have been eligible for Social Security benefits if a parent had died or had begun receiving retirement or disability checks. The student had to be enrolled full-time in an elementary or high school, junior college, four-year college or a trade school.

However, effective August

1982, a new entitled student must be in an elementary or high school, and benefits will continue only until age 19, according to Hugh Tigrett, district manager of the Tupelo Social Security district.

Students who were receiving Social Security benefits in August 1981, or earlier, and in full-time attendance in a school above the high school level in April 1982, or earlier, will continue to receive benefits. However, these benefits will gradually be phased out, ending completely in 1985, Tigrett said.

In order to make it in

under the April 1982 deadline, about 15 local high school seniors have dropped out of high school and enrolled at Northeast Junior College as full-time students. Each of these students already had enough high school credits to enable them to enroll in the college.

Those students who are currently receiving Social Security benefits will not receive a cost-of-living increase in 1982 or in future years, Tigrett said. They will also not receive checks for the months of May through August in 1982, 1983,

Board Appointment Made

A Prentiss Countian has been reappointed to the Northeast Mississippi Junior College Board of Trustees.

Trustee W.C. Williams was reappointed by the Prentiss County Board of Supervisors, NE President Harold T. White said following the regular NE Board of Trustees meeting Tuesday afternoon.

In other business, the board accepted bids on 11 major items that included materials for the spring musicals, athletic equipment and supplies, rental of graduation apparel, and printing of graduation programs.

The board voted to advertise for bids for printing the 1982 fall class schedule, printing traffic violation

books, a security alarm for the business office, and vocational education equipment.

The board of trustees approved the 1982-83 college calendar, and a "special tract of instruction."

President White said this special tract of instruction is to accommodate students who have not decided at this time to enter college or who have other special reasons for desiring college credit.

Classes will be taught by the regular faculty. Any student meeting regular admission requirements to

Union Vote Scheduled At Schweiger Industries

A number of truck drivers at Schweiger Industries in Booneville will decide this week whether or not they want to become affiliated with the Teamsters union.

L.J. Tucker, manager of the local manufacturing plant, confirmed that union organizers have petitioned Schweiger for an election on establishing the union at the factory.

Teamsters Local 667 out of Memphis organized the election, which has been scheduled for tomorrow, Feb. 12, at Schweiger.

Tucker said only about 15 Schweiger employees will be eligible to vote in Friday's election.

Schweiger Industries has been manufacturing upholstered living room furniture in Booneville for about six years. There are no active unions presently established at the plant.

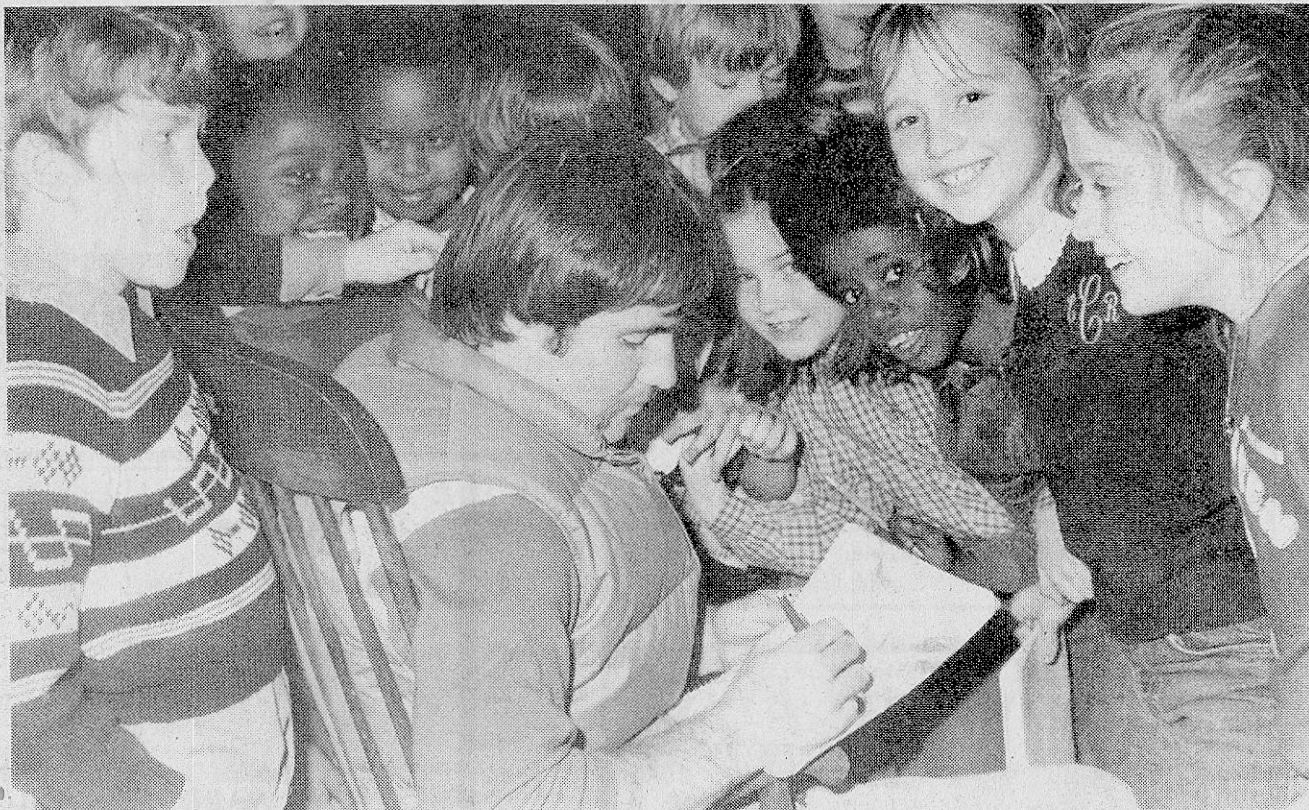

Booneville Aldermen Appoint One, Hire One

The Booneville Board of Mayor and Aldermen last week voted to reappoint a member of the city school board whose term has expired and to hire a park director for the city's parks.

The board voted unanimously to reappoint Richard Coggin, vice-president of Prentiss Manufacturing, to the board of trustees of the Booneville Municipal Separate School district at last week's city board meeting.

Coggin was first appointed to the school board about a year ago to replace a former school board member who had resigned. His present appointment will expire in 1987.

The city board also voted unanimously to hire Freddy Loveless of Booneville as full-time park director, effective immediately. Loveless was hired on the recommendation of park commissioner R.G. Houston.

A 'SUPER' VISIT - Professional football player Jim Miller of the Super Bowl champs, the San Francisco 49'ers, made a brief visit to the Booneville Elementary School last Friday. The 49'ers punter, a native of Tippah County, signed

autographs for the youngsters and talked about his current pro career. For additional pictures of the pro star, turn to today's sports section on Page 23.

Local Educators Apprehensive Of Vo-Tech Bill

By ANGELA SMITH
Staff Reporter

Local educators are skeptical about a bill concerning vocational education that was passed overwhelmingly by the Mississippi House of Representatives last week.

The educators say they are skeptical of the bill because they were not included in the formulation and planning of the bill.

As passed by the House by an 85-35 vote, the bill would establish a virtually autonomous Division of Vocational and Technical Education, governed by an independent lay board.

The bill would establish a nine-member lay board to set policy and determine funding for vo-tech programs on both

the high school and junior college level based on a "weighted formula."

The lay board would determine what vo-tech specialties would be needed by various businesses and industries, then weight funding toward training programs to fill the jobs.

The governor would appoint three members of the board, one from each Supreme Court district; the lieutenant governor would appoint one member from the state at large, the House speaker would appoint one member from the state at large and the Board of Economic Development, the college board, the State Superintendent of Education, and the Employment Security Commission would appoint one member each.

A separate appropriations bill would fund the Division of

Vocational and Technical Training, whose director would be appointed and would answer to the vo-tech board.

In order to become law, the Vo-Tech bill must still pass a Senate vote and Gov. Winter must sign it into law. If passed, the law would go into effect July 1, 1982.

The House bill states that lay board appointees of the Governor, Lieutenant Governor, and Speaker of the House shall be persons knowledgeable in the management of a distinct branch of industry, which employs a substantial amount of labor and capital, and who has at least five years' actual experience therein. No board appointee shall be an employee or elected official of the State of Mississippi or a political subdivision thereof.

Merrill T. Cartwright, director of the Prentiss County

Vocational Technical School, said the House version of the bill practically precludes anyone from Prentiss County being eligible for the lay board.

"The composition of the board needs to be changed such that a small businessman or farmer from Prentiss County would qualify for board membership," Cartwright said.

Cartwright, along with other area educators, said it is really too early to know exactly what effect this bill could have.

"This is a very complex and complicated issue. Although the House has passed one version, I think the Senate will pass a slightly different version," Cartwright said.

Local Educators

Northeast Mississippi Junior College President Harold T. White said Tuesday he hopes the Senate will amend the bill. White said he did not see the need for a lay board. "I believe that the State Board of Education can handle it. It seems to me like that would suffice."

He added that the junior colleges in the state planned to speak as an association and have some input as to the composition of the lay board.

White said he was surprised at how quickly the bill was introduced in the House.

"I learned about the bill two days before it was introduced into the House of Representatives," he said. "I was very surprised. I was disappointed that those of us that have responsibility for the administration of vocational education did not have an opportunity to have some input into the discussion at least."

White said it was too early to know what effect the bill will have at Northeast.

Hale Aust, Vocational Technical Director at NE said, "Although I anticipate some changes in this bill before it finally passes the legislature and becomes law, I still think it will represent a major change in the administering of vocational education in this state."

During a five county (Alcorn, Prentiss, Tippah, Union, and Tishomingo) meeting last week of county and municipal

school superintendents, 11 superintendents went on record as opposing the vocational bill, Prentiss County Superintendent Lex Cain said.

Cain said he believed that the bill the House passed would cut vocational programs so that the vo-tech would not be as efficient as it is now.

Cain noted that some of the programs being offered currently at the Prentiss County vo-tech would stand a good chance of being cut. "The board wouldn't think some of the programs would pertain to training for certain jobs," he said.

"It's like a Tishomingo superintendent pointed out. Tishomingo County has a farm mechanics class being offered at the Tishomingo County Vo-Tech. But there is no implement dealer in Tishomingo...so more than likely the lay board would cut that class. Although there may not be an implement dealer in Tishomingo, boys taking the class would still benefit from it because they could work on their father's and other people's tractors. In fact, some of those boys taking that class might decide to become an implement dealer," Cain said.

Cain said the way the present bill reads home economics and agriculture both face the possibility of being excluded from the curriculum.

"And if industries aren't hiring the welders from our

welding programs, that program would be closed out. A lot of industries say 'I would move into your city, but we have no way of training our workers.' We may not train them as quickly as they want them trained but we can certainly train them," Cain said.

City School Superintendent Robert Griffin said he opposed the vo-tech bill because it really makes two entities that a school district would have to work with to receive funds and finances. There would be a vo-tech board with an appointed executive secretary and a state superintendent and a state board. They would both be independent, he said.

Another reason he opposes the bill is because the superintendents over the state had no notice of it and have not really had time to study it.

Griffin disagrees with the point that courses such as home economics should be dropped if they do not provide training for students for gainful employment.

"Consumer home economics does not provide training for gainful employment. It gives a student knowledge of consumer skills, child care, nutrition... things to improve the home life of a family. I would oppose dropping home economics from the curriculum because the home is the basis of our society," Griffin said.

INSIGHT INTO EYESIGHT

from the office of:
JOHN R. WHITE, O. D.
A LAYER OF TEARS

A layer of tears is the only barrier between your eyes and contact lenses. And it's not because you're crying. It's just the natural moisture of the eye doing what nature intended: keeping your eyes moist.

Contact lenses float on this thin, moist layer of tears in position over the cornea (or "window") of the eye. The tears supply oxygen to the corneal tissue. Every time you blink a fresh supply of tears flows through.

Today's contact lenses are made of a very thin light plastic that creates hardly any pressure at all.

It is a "feather-light" lens that knows its place.

Contact lenses have to be properly "fitted" so they will be both comfortable and healthy for your eyes. And the prescription for vision correction has to be accurate to give your eyes the help they need.

Both your eyes and your contact lenses should be checked regularly by your optometrist to make sure they are comfortable and effective.

For answers to your specific questions regarding vision, Dr. White invites you to call his Booneville office

BIBLE QUESTION BOX

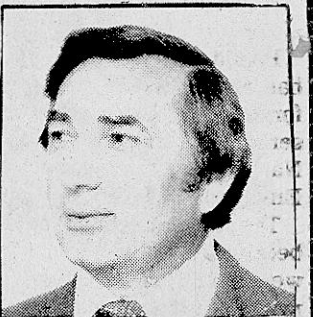

QUESTION: Mr. Hogland, I have always been confused about when a thing is an AID or when it becomes an ADDITION to the Bible, it seems this is hard to settle.

ANSWER: It is not hard to settle if one will follow the teaching of the Bible. I will give you some points to consider. A thing becomes an addition only when another element is added. For example, in the Lord's Supper, the elements specified are the bread and fruit of the vine. Now, the plates on which to distribute the bread are not additions, because no element has been added. But if we should spread butter and jelly on the bread, that would be an addition, there would be another element. The vessels in which to distribute the fruit of the vine are not additions, because no element is involved in the use of a container but if we should put milk in them, or some other element other than the fruit of the vine that would be an addition. A simple coordination of words will help one to see the difference in an AID and ADDITION. For example, the Bible tells us that the sinner is to be baptized in WATER for the remission of sins (Acts 2:38). The water is mentioned in Acts 8:36; Acts 10:47 and John 3:5. The element for baptism is WATER. If we baptize a person in a creek, pond or baptistery there is no addition, but if we add MILK to the water we have an addition. In Numbers 3, when Nadab and Abihu offered STRANGE fire unto the Lord he killed both of them. They did not know the difference in an AID and an ADDITION. This will get people into all kinds of trouble.

Gov. Winter:

State's Low Ranking Due To Underproductivity

By KEN CHRISTIAN
Editor

Despite a favorable reception by Prentiss Countians a couple of weeks ago at the Prentiss County Development Association's annual membership banquet, a number of Gov. William Winter's proposals on education and industrial development seem doomed, at least as far as this year's legislative session is concerned.

Gov. Winter told those attending the PCDA meeting at Northeast Junior College that, although the state has made many advancements in the past few years, it still ranks last among the 50 states in average per capita income. In other words, Mississippians, on the average, make less money in individual salaries than do employees in any other state.

HE SAID THAT in 1948 when he first began serving in the state legislature, Mississippi was last in per capita income among all the states. Now, in 1982 - 34 years later - Mississippi is still last among the states in per capita income.

"We are facing right now, in relative terms, the identical problems that Rep. Billy McCoy's father (Elmer McCoy who also served in the state legislature) and I faced in 1948," Gov. Winter said.

What really concerns me," he added, "is that not only are we in that same relative position, but here within about the last four or five years we don't seem to be doing as well as we were doing before. We lost ground in the last few years of the 70's while all the rest of the states were moving up."

THE GOVERNOR SAID that the average per capita income in Mississippi is currently 69 percent of the average per capita income of the nation as a whole. The

'The problem is based on the productivity - or lack of productivity - of the people. Frankly, we don't measure up! We have too many underproductive, undereducated, underskilled people in the state of Mississippi.'

- Gov. William Winter

only other states in the country which are under 80 percent are Alabama and South Carolina, both at 79 percent, and Arkansas at 76 percent, he said.

"Arkansas is in 49th place at 76 percent -- and going up," Gov. Winter said. "We are at 69 percent -- and going down!"

He said that in 1970 Mississippi had closed to within \$200 behind Arkansas in per capita income. "By 1980 we were \$800 behind Arkansas!" he said.

"In 1970 we were \$300 behind Alabama," the Governor continued. "By 1980 we were \$1,000 behind Alabama. In 1970 we were \$500 behind Louisiana; in 1980 we were \$2,000 behind Louisiana."

"Why is it that Mississippi is dropping in relative per capita income while all the other states are moving up?" he asked.

The problem is based on the productivity - or lack of productivity - of the people," Gov. Winter said. "Frankly, we don't measure up! We have too many underproductive, undereducated, underskilled people in the state of Mississippi."

GOV. WINTER SAID that, according to the head recruiter for the military services in Mississippi, 34 percent of the Mississippians taking the test failed the basic mental examination. He said that compares with 9 percent for the country as a whole, and with 17 percent with Arkansas, which is in 49th place.

The Governor places a great deal of the blame on the fact that Mississippi has the highest dropout rate in the nation.

"You can't get a skill without going to some kind of school," he said. "For every 100 people who finish high school in Mississippi, 59 do not finish."

The state with the next highest dropout rate has 49 students who do not finish school for every 100 who do. "We are 10 points higher than any other state in the country," Gov. Winter said. "And that concerns me."

Winter's proposal to do something about that state's dropout rate - the compulsory school bill - died in committee last week, meaning it will not be considered this year by the full Legislature.

"MISSISSIPPI IS STILL not a state that is capable of attracting the really high skilled, high level, high waged, sophisticated jobs that are increasingly a part of our economic system in this country," Winter said.

"We've got to get folks skilled to be able to compete with the North Carolinas, the South Carolinas and the Georgias to whom almost every week we lose plants," he said. "We lose industry simply because we are not competing on equal terms with the skills that they are looking for."

The Governor said that in order to change this situation, the Legislature is going to have to provide some special funding for education and industrial development. He recommends a tax increase on oil and gas, which he says the state is not going to have very much longer.

"I DON'T WANT to see us have happen with oil and gas what happened with longleaf pine timber in South Mississippi in the early years of this century," he said. "The timber was stripped away and the folks who cut it down moved out and all we had were stumps. I don't want us to have just some holes in the ground after the folks who produce oil and gas have gone back to Texas or Oklahoma or wherever they came from."

The Governor said the state should earmark the proceeds from the sale of some of its capital resources - oil and gas - for a permanent trust fund for education and economic development. The state needs to "lay some of this aside against the day when we don't have any oil and gas left," he said.

However, it appears as if this proposal by Gov. Winter will not make it through the Legislature this year, either. The bill has been rejected by the Senate Ways and Means committee and lobbyists for the oil and gas industry are fighting the bill which is still alive in the house.

COUNTY TEACHERS MEET - Bill Spigner, counselor at the Vocational Rehabilitation Center Services for the Blind in Tupelo was the guest speaker at a meeting of the Prentiss County Teachers Association Friday, Feb. 5. Spigner told the teachers some things they can do to help blind students. He also asked if the teachers knew of any blind students in the community who needed help. The meeting was held in the courtroom of the Prentiss County Courthouse.

County Native Named To Federal Commission

President Ronald Reagan has appointed the son of a former Prentiss Countian to serve as a member of the National Commission for Employment Policy.

The appointment, which became effective Jan. 1, went to Michael D. Caver, a management consultant with the Chicago firm of Heidrick and Struggles Inc. The function of the National Commission for Employment Policy is to advise the President on employment conditions and

recommend future employment policies.

Caver is the son of Mr. and Mrs. Hershel Caver of Gainesville, Fla. Hershel Caver is a native of Prentiss County who made his career with the FBI.

Michael Caver is a graduate of Hampden Sydney College in Virginia. He also did graduate work at Yale University. From 1965 to 1977 he worked in management positions concerned with domestic and international affairs of

the Proctor and Gamble Co. of Cincinnati, Ohio; Los Angeles, Calif.; and Toronto, Ontario.

From 1977 to 1979 he was director of personnel and manager of employee relations for Travenol International of Deerfield, Ill. In 1980-81 Caver served on the President's transition team.

Caver has visited his relatives in Booneville and this area many times over the past years. He is married and has three sons.

County To Participate Tornado Awareness Week Set Feb. 15

Gov. William Winter has proclaimed Feb. 15-19 as Tornado Awareness Week in Mississippi. A statewide tornado drill will highlight the week and is scheduled for Thursday, Feb. 18.

The Booneville City Schools, the Prentiss County Schools, Northeast Mississippi Junior College, and the Baptist Memorial Hospital in Booneville will participate in the tornado drill, Civil Defense Director Bill Prather said this week.

"Tornado season is again upon us," Prather said. "We have had several easy springs for the last three years. But it doesn't mean that we couldn't have a tornado this season."

"People should be conscious of the fact that tornadoes do happen. People should pre-plan their living in their homes today to meet all types of disasters that normally they think will hit somebody else. They should be conscious of the fact that tornadoes do happen and know what to do in the event there is a tornado," Prather said.

In homes the basement offers the greatest safety. Seek shelter under sturdy furniture if possible.

In homes without basements, take cover in the center part of the house on the lowest floor, in a small room such as a closet or bathroom, or under sturdy furniture. Stay away from windows.

In schools, hospitals, and shopping centers move to predesignated shelter areas.

Interior hallways on lowest floors are best.

If the building is not of reinforced construction, go to a nearby one that is or take cover outside on low protected ground. Stay out of auditoriums, gymnasiums, and other structures with wide-span roofs.

In country move away from the tornado's path at right angles. If there is not time to escape, lie flat in the nearest ditch or ravine.

Mobile homes are particularly vulnerable to overturning during strong winds and should be evacuated when strong winds of tornadoes are forecast. Damage can be minimized by securing trailers with cables anchored in concrete footing.

Trailer parks should have a community storm shelter, and a warden to monitor broadcasts throughout the severe storm emergency. If there is no shelter nearby, leave the trailer park and take cover on low protected ground.

Mississippi leads all other states in tornado-related deaths. Since 1916 tornadoes have killed 1,127 people in Mississippi.

But tornadoes are not the only severe weather event that can cause loss of life and property destruction in Mississippi. Severe thunderstorms may produce straight line winds which in some cases exceed 70 mph. Many times a tornado watch or warning is preceded by severe thunderstorm watches and warnings.

'Talk O' The Town'

QUESTION: Last week Police Chief Bobby Lambert resigned, and then reconsidered. And in another apparently unrelated incident four Booneville police officers were accused of taking merchandise from a Booneville store two years ago. What is your opinion about the current situation at the Booneville Police Department?

CLYDE HICKS of Booneville: "I certainly feel the chief should have the authority to run his department."

JERRY HOPKINS of Route 5, Booneville: "I think Bobby Lambert is doing a fine job and if he could get the cooperation of his men I think he would be one of the best police chiefs Booneville ever had."

R.C. CALTON of Route 4, Booneville: "I think the chief should be responsible for hiring and firing all policemen. All policemen should have a minimum of high school education and be required to go to a police academy. Also the police jobs should be under the civil service so if the chief or policemen change jobs they would still have a job."

MRS. HOYET LOWREY of Route 6, Booneville: "I can't believe our city policemen are actually corrupt. But if they are, I believe it will come out during the investigation."

LAMAR JACKSON of Booneville: "The situation is typical of small town government. Too many chiefs and not enough Indians and no one in charge. If a person is elected police chief, he ought to be allowed to do his job without interference from outside politics."

DEAN ADAMS of Route 1, New Site: "I think Chief Lambert is really trying to stop the stealing and the dope that's going on. But he is going to step on some feet that don't want to be stepped on and have a hard time. I feel like if he pushes the 'big' people they are going to try to stop him."

(Editor's note: "Talk O' The Town" is not intended as a scientific poll of public opinion. Rather, it is simply intended to give Prentiss Countians an opportunity to voice their opinions on particular issues and topics. Maybe we'll ask you next!)

HOW TO 'SUITPROOF' A MEDICAL PRACTICE

Many of today's working professionals are quick to criticize the methods of those in other professions. But these same people often wear blinders when it comes to taking a critical look at their own profession.

And this is unfortunate, because we could all benefit from taking a long, hard look at the way we do business.

One profession in which the members hold themselves in perhaps the highest esteem is that of medical doctors. Traditionally, doctors are a tight-knit, closed-mouth group when it comes to criticizing their own professional practices. That's why it is so refreshing to find one member of this group who is not afraid to criticize himself and his peers.

Dr. Robert S. Brittain, a physician from Denver, Colo., is apparently one such person. He has the ability -- and the courage -- to step back and take a critical look at himself and others in his profession.

Dr. Brittain recently presented some of his views to more than 400 physicians from Tennessee, Mississippi and Arkansas at a one-day seminar on professional liability at Baptist Memorial Hospital's Medical Center in Memphis.

Speaking on "How to 'Suitproof' a Medical Practice," Dr. Brittain, an investigator for the Colorado Medical Society's Professional Liability Review Committee, said many of today's malpractice lawsuits would be avoided if doctors were simply just nice to their patients.

He said the biggest single cause of malpractice lawsuits is retribution -- or revenge -- on the part of the patient.

'Know-Nothing' Party Alive And Well

By BILL MINOR
Columnist

JACKSON, Miss. -- The "Know-Nothing" Party, it seems, is still alive and well in Mississippi, and it can always count on Stone Barefield in the legislature to make sure it doesn't die.

Barefield is the longtime state representative from Hattiesburg. He has been tinkering with the state election laws for the past 20

years trying to get the kind of election machinery in the state befitting an unreconstructed Dixiecrat, which he is.

Unabashedly, the craggy faced Barefield will admit that he would really rather be a Republican, because the GOP is more in line with his views. But he doesn't want to give up his Democratic hat. So, why can't he find a way to have

the best of both worlds?

The other day he got the Mississippi House to go along with his latest political prescription for performing the amazing feat of riding an elephant and a donkey at the same time.

It was this wonderful idea of cross-filing. That is, a candidate can file for office in both the Democratic primary and the Republican primary held the same day,

and the voters wouldn't know if he is a Democrat or a Republican. That way, you could eliminate at least 50 percent of your opposition in one day, and then you would have only the possibility of a pesky independent running against you in the General Election. And we all know who the independents are.

Why even California had the cross-filing party primary system, said the

stone-faced one, failing to emphasize that California did away with it more than 20 years ago.

Nothing could be better for the Know-Nothings than the new Barefield idea. But for building a two party system and healthier competition between the Democrats and the Republicans in Mississippi, nothing could be more destructive, any keen political observer could

readily see.

Mississippi had been a one-party Democratic state for 100 years until the Dixiecrat revolt in 1948 which took the state Democrats out of the national fold. For the next quarter century, the erstwhile Mississippi Democrats wandered around trying to maintain a

Vo-Tech Bill Is Most Far Reaching And Important

By REP. BILLY MCCOY
Prentiss and Alcorn
Counties

In my opinion, one of the most far reaching and important bills of the past several years was passed by the House of Representatives last week. This was House Bill 1009 and is an act to establish a new Mississippi Board of Vocational and Technical

Education.

There is much potential for good in this bill, however, I did not vote for it, because unless it is drastically amended in the Senate there is a strong possibility that certain long established and successful vocational education programs in our state may suffer cuts or even loss of state and federal funds.

Vocational and technical

education is and has been a very broadly based program and in Mississippi it has been under the State Board of Education consisting of the Superintendent of Education, the Attorney General, and the Secretary of State. The program on the state level has been headed by the Director of Vocational and Technical Education who has been hired by the State

Superintendent.

Vocational agriculture and home economic in local schools are two of the oldest and most successful Vo-Ed programs. They began in 1917 and since then many others have been added, such as industrial arts, adult training, handicapped training, business and office training, co-operative work program - (the student works a regular job related to his chosen vocational field), technical and industrial training, health occupations, start up training programs for business and industry and many more.

Vocational and technical programs have expanded greatly in the last 20 years in our junior colleges and in our local secondary Vo-Tech schools. We feel there has been a very successful co-operative effort between the State Board and our local school boards.

My concern with this new bill is mainly two fold. Number one: While I do not

mind the concept of a lay board (one with no elected officials), I feel this bill goes too far in that it will be dominated by big business and heavy in industry. In fact it mandates that all five members appointed by the governor and lieutenant governor must be from a branch of industry that employs substantial labor and capital. Of the other four members, one will be appointed by the Superintendent of Education, one by the Board of Economic Development, one by the Institutions of Higher Learning, and one by the Employment Security Commission.

As you can see, this board composition would have no input from the local schools, junior colleges, small businesses, independent professionals, farmers -- No body but heavy industry would control this board. They will have complete control to decide what kinds of programs are funded and in what amount this funding

will be to each local school and junior college.

The fact that they will have this total control if they wish to exercise it -- is my second concern. They will not have to allocate funds based on student numbers or on the wishes of local school boards. Funds will be spent on a "weighted formula" determined primarily industrial and business need for a particular skill in relation to the number of students being trained.

While I have tried to support Gov. Winter in his total education package, I feel all areas of Vo-Ed in all sections of this state should be given equal treatment and vocational education should not become one giant "start up training program for heavy industry."

Hopefully, a good and fair bill for vocational education can be adopted before the 1982 session is over.

Northeast Mississippi has much to gain or lose depending on the outcome.

She Urges Vote Against Education Budget Cuts

Dear Editor,

As the parent of a mentally retarded child, I am extremely concerned about President Reagan's proposed cut-backs which will directly affect my child's education. Federal funding has played a major role in providing services for handicapped children in recent years.

Prior to 1975, many handicapped children received no public education at all. However, with the passing of The Education for All Handicapped Children Act in 1975, came the realization that handicapped children can be helped and deserve a free and appropriate education.

President Reagan proposes a two part block grant in the Department of Education budget for fiscal year 1983 which includes the 1983-84 school year. This grant will allocate 54 percent less than the authorized amount for separate programs.

When money is so crucial for everyone, it is especially unfair to strip programs from a group of children who have gone unserved educationally for so long. Mississippi schools will still be obligated by law to provide a public education for her handicapped children but without federal funds, this will be a difficult task. Another group included in this block grant is Title 1, which is already suffering this year from Reagan "belt tightening."

In 1980, while hot on the

campaign trail, Reagan promised "to work to insure that the Education for All Handicapped Children is a success." A 54 percent reduction in services for handicapped children cannot under any circumstances be considered a "success."

The day this is allowed to happen will be a very sad day for our educational systems nationwide.

Please urge your Senators and Representatives to vote against the proposed block grant. Handicapped children need a strong voice in Washington to advocate for their rights as citizens.

The value of a human being is neither increased or decreased according to his or her mental ability. By the same token, a dollar mark cannot be put on a child's worth. All children, regardless of their unique abilities or disabilities deserve a chance to learn.

Please urge your President to reconsider his funding cut-backs in the Department of Education budget. Each one of our children is precious and deserves every chance to develop and reach his or her potential.

Each letter that you write to your Senator or Representative is a pledge on your part to speak for those who cannot speak for themselves.

A decision will be made soon. Please take a moment today to write a short note to your Senators and Representatives. By doing so, you will have a part in speaking for a group of children who very much need to be heard before it's too late.

It is in their behalf that I thank you,

Mrs. Larry C. Smith

Are County Roadside Garbage Dumps Illegal?

Dear Editor,

Does Prentiss County not have any laws prohibiting dumping garbage on the side of the road?

If not, let's get some passed. If we do, why aren't they being enforced?

I live in the western part of the county where a few unconcerned citizens dump garbage daily. I for one -- and I'm sure others will

also -- will furnish a dumping place if the county will cut and cover it.

Come on, concerned citizens. Let's get together and show people we care. We can have a meeting and post signs and get some answers as to why nothing is being done.

South Central Bell's newest Design Line® telephone is more than just a conversation piece — it's a real fun phone.

The Big Button phone, shown here, has oversized square buttons that cover the entire top surface of the set. And they serve as the Touch-Tone® dialing pad.

The Big Button phone adds style to modern home interiors. The set is white with color accents in gold to brown tones. And it features an electronic handset, a distinctive electronic ring, adjustable volume control, and a ringer cut-off switch.

The Big Button phone is also practical. The large buttons make it easy to dial, especially for people with motion and sight problems.

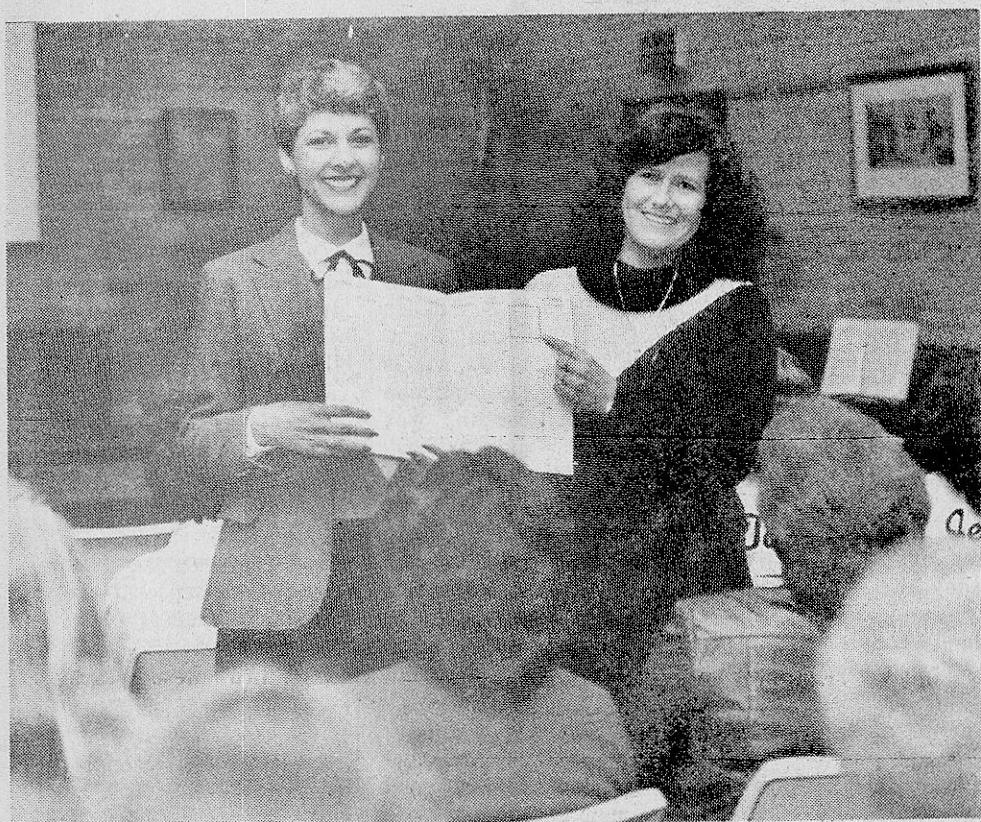

At \$175, the Big Button phone will make a handsome addition to your home or a cherished gift for someone special.

See the Big Button telephone and the entire family of quality Design Line telephones at your Bell PhoneCenter Store.

When you buy a Design Line phone, you own both the housing and internal working parts. The sets are registered with the FCC, and are covered under a limited twelve-month warranty, a copy of which is available without charge from South Central Bell.

Chimneys were really puffing again as another blast of winter swept the area. After a spell of mild winter weather, it seemed almost unbearable as the temperature dropped to the bone chilling level.

Although there was no snow, the ice gave the environment a sparkling look. The trees bowed and glistened as if they had been sprinkled with silver glitter. The sage grass leaned to the ground under the weight of the ice.

Icicles hanging from the mailboxes, rooftops, signboards and powerlines added a certain beauty to the enchanting scene. There was certainly beauty in all this, but it was much more pleasant when you were safe and warm inside.

Mrs. Lena Gilley of Mimosa Drive has returned home after an extended stay in Memphis with relatives and a weeks stay in the hospital for eye surgery. We are proud to report she is improving and is glad to be at home again with her friends.

We extend our deepest sympathy to the family of Walter Arnold of Frankstown who passed away last Thursday. The Arnold family have been living in this part of the county for many years. He will be missed by family and friends.

Mr. and Mrs. Quinn Johnson of Jackson, Tenn., Jessie Presley and Mrs. Doely Hodges spent last Saturday with the Sam Wilsons of New Albany.

Mrs. Bob Putt of Wheeler joined Mrs. Rozie Walden Chase and Mrs. Lois Stringer for a birthday dinner honored Mrs. Chase one day last week. When these friends get together it is always a special time. The birthday dinner was a delicious one. We wish Rozie many more such occasions.

We are glad to know that

Raymond Spencer is now home from the hospital, "Mid South" of Memphis, after having eye surgery. He is doing fair. Those visiting him while in the hospital were Mrs. Lucy Dillon and granddaughter, Tara Tuckett of Corinth and Mrs. Patty Ross, also of Corinth. On Sunday, since coming home the Raymond Smith of Fulton made them a visit.

Rose Mary Marcle has been a patient in the hospital of Russellville, Ala. Mrs. Jean Downs and grandson Matthew visited her one day last week. Rosemary is improving.

Mrs. Richard Moore celebrated her 86th birthday at her home last Sunday. There were many wonderful gifts and a feast of good food, this was served buffet style. We congratulate Mrs. Moore and wish her many more to come. Those attending were: Troy and Gladys Moore, Don and Linda Eubanks, Kevin, Bob and Nancy; David and Amy Moore, Stewart, Joel and Katie; Luther and Louise Moore, Carmon and Christine Walden, Lawrence and Era Stell, Terry Moore and John Howard Stutts.

Vern Kinsey of Trenton, Tenn., passed away Feb. 2 in Trenton. In the middle twenties the Kinsey were teaching at Osborne Creek High School. Mr. Kinsey was the principal and his wife Annie Gene was an English teacher. Later on the school was consolidated

with Wheeler and Booneville High School. After leaving Osborne Creek the Kinseys taught in Rienzi. Mrs. Kinsey (Annie Gene) was the daughter of Henry and Dora Powell, all resident of Booneville and Prentiss County. Mr. Kinsey is survived by his wife Annie Gene and a daughter Bobby Nell all of Trenton. We wish to express our sincere sympathy to this fine family.

**"I'm only 32.
Why worry about retirement now?"**

Because every year you wait, you're losing money. And a tax deduction, too.

With an Individual Retirement Account from The People Place, your deposits are tax-deductible. And the interest you earn is tax-free until you withdraw it at retirement—as early as age 59½. By then, you'll probably be in a lower tax bracket anyway.

You can open an IRA at The People Place even if you already have a pension plan where you work. And you can deposit up to \$2,000 a year for individuals, \$4,000 a year if both you and your spouse work.

Say you start depositing \$2,000 a year into your IRA at 30. By age 65, you'll have put a tax-deductible \$70,000 in the bank. Tax-deferred interest mounts up so fast that, assuming a 12% interest rate compounded quarterly, your \$70,000 will have turned into \$1,106,452.

Even if you deposit just \$25 a month in your IRA, you'll still have a handsome sum of \$165,967.91 at retirement. And a tax deduction every year until then.

Find out more about IRAs. Ask the people who know. At The People Place.

Federal regulations require a substantial interest penalty for early withdrawal of funds from an IRA. Also, the Internal Revenue Service imposes a 10% penalty on the amount withdrawn, and the amount withdrawn must be included in taxable income.

Pace Discusses Free Enterprise System

Bill Pace, chairman of the American Enterprise Center in Jackson, spoke to the Prentiss County FBLA Chapter at the Prentiss County Vocational School last week.

The American Enterprise Center is a vital part of the Mississippi Economic

Council. It was created out of concern by the business community for the public's need for economic education.

Its primary purpose is to help people understand and appreciate the importance of the free enterprise system to our freedom and

prosperity. Pace stressed to the Vocational Business Education students the importance of profit, competition, and productivity. His talk was a part of the Prentiss County FBLA Chapter's continued interest in learning more about the Free Enterprise System.

FBLA Sponsors Speakers Forum

The Prentiss County FBLA Chapter at the Prentiss County Vocational School recently sponsored a Speakers Forum for all the students in the Vocational Business Education Department at the Prentiss County Vocational School.

The speakers were Carroll Rogers, personnel director at Schweiger Industries Inc.; Mrs. Julius Lee Morris, executive secretary at Prentiss Manufacturing Company; Paul Miller,

publisher of the Banner-Independent; Dr. Cliff Cartwright from the Family Practice Clinic; Larry Hogland, vice-president from the Bank of Mississippi; and John Morrow, manager at Kellwood, Inc. in Booneville.

Rogers stressed appearance and brought out points from his personnel management experience.

Mrs. Morris reminded the students of the value of learning the skills that are

available in the vocational department.

Miller informed the students that profit is a definite factor in employing individuals, and he stressed loyalty, honesty, and effort.

Dr. Cartwright said the first impressions are of utmost importance. He further stressed the importance of keeping company information within the office.

Hogland talked about interviews, the correct way of filling in an application

and the importance of good dress.

Morrow brought out the fact that there is a correct way to begin an interview or to ask about employment. He also stressed the importance of answering your own questions during an interview.

This Speakers Forum was another step in getting the students in the Vocational Business Department ready to go for interviews and into the world of work.

On Feb. 20 at the West Side Community Center, there will be a benefit singing for Rienzi Kingfish and his family. Their home was completely destroyed by fire.

Featured singers will be the Yates Family and the Jumbertown Singers. The benefit is being given by friends, family and members of the Northeast Mississippi CB Club. It begins at 7 p.m.

Saturday night was our regular social. It was cold, but we had a good crowd and everyone enjoyed some good fellowship and lots of good food.

Apple Blossom is enjoying a visit from her father, Wallace Gibson. He says he likes it here, for a change.

Lady Q came home from Big M and is doing real well. She has to report back for a check-up Tuesday. It was good to see Miss Shorty driving her truck this week.

Happy birthday to White Girl on the 9th, Running Bear on the 13th, and Apple Blossom on the 14th. We hope each of you have a nice day and enjoy many more.

Our annual dance will be at 8 p.m. May 1 at the West Side Community Center. The coffeebreak will be May 2, beginning at 10 a.m. at the community center. Club units will furnish gifts as usual. White Girl has crocketed an afghan to be given to the club member who sells the most tickets.

The Junior CB Club will give away a black and white TV and an AM-FM radio as their grand prizes.

Happy anniversary to

Birdhunter and Lady Birdhunter on the 10th to Biscuit Eater and Biscuit Maker on the 12th, and to Early Bird and Mississippi Shorty on the 14th. We hope

each of you have a nice day and enjoy many more years together.

Congratulations to Apple Dumpling and Wesley Weatherbee who will be

married Saturday, Feb. 13. Best wishes and God's speed.

Until next week, stay well and attend the church of your choice.

Danny Isbell Named District Winner

Danny Isbell, a member of the Prentiss County FBLA Chapter at the Prentiss County Vocational School was recently named district winner in the "Visual Arts Competition Emphasizing Expanded Career Choices."

The announcement was made by Joe McDaniel, State Supervisor of Vocational Guidance.

The chairmen of the Mississippi House and Senate Education Committee, presented the top three district awards for the state contest at a ceremony in the lobby of the Walter Siller State Office Building on Feb. 9.

In addition of these awards, each district winner will receive a certificate from the Vocational Division

of the State Department of Education. The posters will be displayed in the lobby of the Walter Sillers Building during the Vocational Education Week.

Danny is the son of Mr. and Mrs. Bill Isbell, a junior at Booneville High and a second year Vocational Business Education Department.

To Control Your Weight

Learn To Control Your Eating Habits

By CLAIRE T. ROSS
Extension Home Economist

THE GOVERNOR'S FITNESS WORKSHOP: At the recent Governor's Fitness Workshop "The Turnaround Workshop," Dr. Henry Jordan, a clinical Professor of Psychiatry at the University of Pennsylvania, presented new directions in eating and exercise.

In a community very concerned about diet and exercise, Dr. Jordan's directives were and are very

timely. He pointed out that diets tell us what to eat, how much to eat and what not to eat. But we still have to learn how to eat.

He presented "Rules of the Road" -- behavior at meals and snacks. Each of us needs to develop a basic eating style. We need to eat with someone we enjoy and eat slowly and never on the run.

Always take smaller portions, especially if you are compelled to clean your plate. Try to avoid seconds, but if you feel you must, wait

5 minutes before taking seconds. Don't use food as a reward or relief. You must control your environment so that food cues are kept at a minimum.

Plan menus and use a shopping list when buying groceries, never shop when hungry, and store problem foods out of sight, especially snacks. For special occasions, like birthdays and holidays, don't forget your basic eating style. Maintain control of your eating.

At parties, stay far away from the buffet table. Don't

starve yourself before a party. Anticipate 2 or 3 days before a party and cut back on calories, a kind of "depositing in savings." Offer leftovers to guests as they leave.

Learn to live your own life -- take control of your eating behavior. Learn to say "NO." Don't use food as an excuse for a break at work. Take a walk. Do isometric exercises at your desk.

Don't use food to kill time. Get more physical exercise to firm up and get rid of much of the nervous tension that may lead to nibbling. Plan exercise into every day.

Learn to eat defensively just as you drive defensively. Don't eat with your brain turned off. Be prepared for hazards at the table. Be wary of family and friends who affect your eating.

Don't let backseat drivers manage your eating habits. Slow down your eating. If you do lose control, stop and pull over, gather yourself,

then go back to your plan.

HINTS FROM MARY ELLEN:

An inexpensive oven cleaner: Set oven on warm for about 20 minutes, then turn off. Place a small dish of full strength ammonia on the top shelf. Put a large pan of boiling water on the bottom shelf and let it set overnight. In the morning, open oven and let it air a while before wailing off with soap and water. Even the hard baked-on grease will wash off easily.

For the Refrigerator: A little vanilla poured on a piece of cotton and placed in the refrigerator will eliminate odors. To prevent mildew from forming, wipe with vinegar. The acid effectively kills the mildew fungus.

PROGRESS REPORT

TO THE

CITIZENS OF

PRENTISS COUNTY

SCHWEIGER INDUSTRIES began its operation in the Booneville area in 1975, four years after American Seating pulled out. THE CITIZENS of Prentiss County made the plant possible through a bond issue for construction of the plant under the BAWI program. We appreciate your loyal support and have tried to show our appreciation by operating a plant we could all be proud of and which would contribute to the ECONOMIC GROWTH of our area. We have come a long way since we opened the plant. Our audit report for the year ending December 31, 1981, shows what SCHWEIGER INDUSTRIES has done to benefit the people of our community during the past year.

<input checked="" type="checkbox"/>	SALARIES AND WAGES PAID TO SCHWEIGER INDUSTRIES EMPLOYEES	\$2,774,400	<input checked="" type="checkbox"/>	Payments Made For Goods And Services Provided Locally	\$2,722,381

Total Contribution To Workers And The Economy Of This Area For One Year \$6,299,457

We are proud of this record and we are thankful for the HELP we have received from YOU, our friends and neighbors who have helped make this PROGRESS possible.

★ BUT NOW

union outsiders have come into our community, trying to get our employees involved with them. Because of this, we feel it is important for everyone to know our position in this matter.

As we have told our employees . . .

★ WE ARE OPPOSED TO A UNION AT SCHWEIGER INDUSTRIES!

We are convinced that these union organizers are only interested in our employees for one reason. They hope to collect THOUSANDS OF DOLLARS from our people each year in UNION DUES, FEES, FINES AND OTHER CHARGES!

We have enjoyed about six years of progress without the THREAT of UNION STRIKES, PICKET LINES, STRIKE VIOLENCE or OTHER TROUBLE!

★ WE DO NOT WANT TO RISK THAT SORT OF TROUBLE NOW!

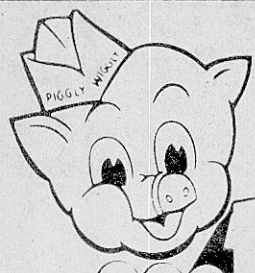

- ✓ The union DID NOT put up the money for our plant. The union DOES NOT pay the wages of our employees.
- ✓ The union DOES NOT provide anyone with jobs. The union DOES NOT provide our employees with benefits.

★ THE UNION IS HERE TO TAKE--NOT GIVE!

We sincerely believe that the best interests of our employees, our company and the entire community will be served by keeping the union out.

THOUGHT FOR THE WEEK

We Need A Revival

Psalms 85:6

By Bro. Austin Shook

I see such a great need today for revival in our land. One that will stir the hearts and minds of people.

Romans 13:11 reads that now it is high time to awake out of sleep: for now is our salvation nearer than when we believed.

Sin is the number one disease in our land today. It destroys the soul of people. In my sixteen years of the ministry I have seen the love of many wax cold and become unconcerned about church and their experience with God. Because of sin I have seen homes broken up, and people lose their love one for another.

Why don't we as christians begin to fast and pray for God to send us a revival? It should start in our hearts, homes, and church services. We must be stirred so much that we cannot rest until we hear the shout of newborn souls. We must cry out unto God, until he moves in

our dry, formal, or lukewarm churches until the spirit moves in the preaching, praying and testifying. This will bring about revival.

It may seem that we go to the extreme. Those whose names are recorded in the sacred pages, and also in history since the days of the apostles have been accused of going to the extreme, sometimes called fanatic's. But in spite of the criticism, their ministry has been crowned with success. They were concerned over a lost world. The burden of lost souls rested upon them. Long after their congregation was dismissed and had gone home they still wept over the lost. The multitude of lost souls inspired them to preach as never before, and the results was so gratifying that their ears seemed to be deaf to the slander and criticism of those who would stop the work of God.

Let us start this year by asking God to lead us to those who need to be saved.

When Big Day Arrives

Have Your Show Animal Ready

By EDWARD L. McWHIRTER
Extension 4-H-Youth Agent

AT THE SHOW

When you bring your calf to the show, it is important to keep him as fresh and comfortable as possible. A good firm bed should be made and it should be kept clean at all times. This will help keep him clean as well as preventing wet spots from becoming warm and uncomfortable.

It is also good advice to take along a fan to keep the air circulation around your calf as well as keep him cool. If you have access to a tie-out, the cool night air can be refreshing to your calf as well as allow the barn to dry out.

The show will be a new and strange environment for your calf, therefore it is best to keep everything as normal and as much like home as possible. It would be a good idea to arrive at the

show several days ahead of time so the calf can get used to the new surroundings, get over the long haul, or just have the opportunity to rest.

You will also need to feed him the same ration at the show as you were feeding him at home. However, on the day that you bring him, cut the amount in half and feed him half rations for several feedings while at the show.

On show day, withhold his feed until 30 minutes or an hour before you are to enter the ring. If your calf will not drink water at the show due to the chlorine content, try adding to little molasses to the water to sweeten it and cover up the chlorine odor.

Remember to keep your animal clean at the show and don't wash him the day of the show. If all of the oil is removed from the hair, it will be difficult to keep up on show day.

SHOW DAY

When show day arrives, you, your animal and the necessary equipment should be ready. The equipment that you will need for show day includes: combs, brushes, neck rope, show halter, electric blower, show stick, coat dressing, rag for oiling, saddle soap, hair spray, butch wax, towel, clippers and scissors.

From 30 minutes to one hour before you enter the ring, get your calf out and blow him completely clean. Put your show halter on him and make sure it fits properly. Bone the legs of the calf by applying saddle soap from the hocks down and from the knees down.

Make sure that you soap the leg all over - inside and out, front and back. Then comb the hair forward in the front part of the leg and towards the rear in the back part. This will increase the width of the legs as viewed from the side.

Use your scissors to clip off any uneven hair so the

legs appear straight and correct. The saddle soap may also be used to bring up the hair on other parts of the body; however, it will have a tendency to dull unless proper coat dressing is used to keep it bright. The tail should be fluffed or ratted into a neat appearing ball so it ends up covering the space between the twist and hocks. A hair spray is helpful here in making the fluffed tail hold.

The last thing to do before entering the ring is oil the hair on your calf and comb it up or brush it down, depending on how you are going to present him. Use just enough oil to give your animal the desired bloom and shine and not too much as to make the hair sticky and mat down. Also be sure not to get it on too early or the hair may pick up dust and dirt and you will have a dull appearing animal.

Make sure that you have your exhibitor's number on, comb in your pocket, and show stick in your hand.

Ward In Co-op Program

John A. Ward of Booneville is participating in the Cooperative Education Program at Mississippi State University.

As a major in the area of Management, he is working toward a BS degree and at the same time is working as a Co-op Student on alternating semesters in Little Rock, Ark., with Christian Finkbeiner Inc.

The Cooperative Education Program is a five-year educational program which allows students in various fields of Accountancy, Agriculture and Home Economics, Arts and Sciences, Business and Industry, Education, Engineering, and Forestry to affiliate with a business, industrial, or governmental firm while enrolled at Mississippi State University.

By combining practical experience with theoretical training, this program provides the student with a superior education, an MSU spokesman said. Once all of the degree requirements are complete, Ward will begin full-time work with the cooperating firm or will join another firm which demands this particular training.

ATHLETIC INJURIES

Professional athletes working with doctors of chiropractic find real advantages and the outcome is better performance and increased energy levels.

However, most of us "weekend-warriors" are not professional athletes, yet we need chiropractic even more. Our bodies are not as finely tuned for the variety of sports that we take part in and are more easily injured as a result of over-stretching, collisions, slipping, sprains etc.

Many times seemingly minor injuries go untreated, leading to greater pain and suffering. Some injuries related to the spinal column and central nervous system require immediate treatment so as to prevent future discomfort and ill health. Nerve interference can be readily observed by the athlete as soreness, lack of flexibility, delayed reaction time, loss of balance etc. Many professional athletes know it keeps them in the game, and it will work for you too.

As an athlete you know the advantages of proper physical fitness, but do you really know how good you can feel? Call our office and let us help you plan your physical fitness program to help you achieve the best results.

Rainy weather and cold temperatures led us to believe that we might have a 4-6 inch snow. But aren't we glad we didn't? We are so very glad.

Our deepest sympathy is extended to the family of Curtis Miller. Our prayers are with them in their hour of sorrow.

Congratulations to Mr. and Mrs. Tom Bailey Burress on the arrival of their 7 lb. 10 oz. girl. We're glad to know that the mother and daughter are at home doing fine.

Our many prayers are extended to various ones that are in the hospital.

As we read the newspaper and look at the the news on TV, all we hear and see are stories about rising costs.

We have to remember to hold on to our faith in God.

On Feb. 14, at 3 p.m., Mt. Olive will be having a Black History program. The speaker will be the Rev. D. Hannah of West Point. Everyone is invited.

On Feb. 21, at 3:30 p.m., sister, Pamela Cummings will be the guest speaker for the Hospitality Club at the Holiness Church of Christ Deliverance Center.

Everyone is invited.

On March 7, at 7:30p.m., the Rev. Archie Miller and choir will be at the Wolf Creek M.B. Church. Everyone is invited.

Happy Birthday wishes go out to Wess Shinault, Taneka Jackson, and Jessica Friar. We hope that they had the best birthday ever.

We had a beautiful Sunday School lesson this morning.

It may help someone who was sick and shut-in and not able to attend. So we'll share a little of the lesson with them.

Jesus met the woman at the well and he asked her for a drink of water. She thought this was very unusual because Jesus didn't have any dealing with the Samaritans. He told her if she really knew who he was

she would never thirst again...even though the woman had five husbands and Jesus revealed that to her and the one that she was living with wasn't her husband.

The greatest point we stress is that Jesus looked beyond her faults and saw the woman's need.

This is the job for Christians today...looking beyond a person's faults and

seeing their needs and helping that need. It's not always financial-sometimes people just need a friend, a word of consolation, or to be shown love. These are very important.

But today's Christians are so busy seeing the faults and condemning them and not recognizing the need. This is not the will of God, because if the Lord did us like that, then everyone of us would be

dead. But God is patient with us.

Ellis Stubbs is home sick. Let us be praying for him.

Thought For The Week

He looked beyond all our thoughts and faults and saw our needs. Let us also look beyond one another's faults and see their need because after all we all have faults. Till next week....

Get a \$2000 tax deduction every year and retire like a millionaire.

How your IRA Tax Shelter can grow into a small fortune (or a big one).

Start at this age and contribute the maximum each year until you're 65.	An individual contributing \$2,000 a year could have this amount by age 65.	A couple with one spouse working contributing \$2,250 a year could have this amount by age 65.	A working couple contributing \$4,000 a year could have this amount by age 65.
Age 25	\$1,718,284	\$1,933,070	\$3,436,568
Age 30	\$ 966,926	\$1,087,791	\$1,933,852
Age 35	\$ 540,585	\$ 608,158	\$1,081,170
Age 40	\$ 298,667	\$ 336,001	\$ 597,334
Age 45	\$ 161,397	\$ 181,572	\$ 322,794
Age 50	\$ 83,506	\$ 93,944	\$ 167,012
Age 55	\$ 39,309	\$ 44,222	\$ 78,618
Age 60	\$ 14,230	\$ 16,009	\$ 28,460

Amounts are based on an average of 12% simple interest annually with deposits made on January 1 of each year. This chart is not meant to be a statement of actual interest rates available or guaranteed end financial results.

All you do is stash away up to \$2,000 a year in a First Bank IRA Tax Shelter account.

You can deduct every penny of that money from your Federal income taxes. In a 50% tax bracket, that could save you \$1,000 a year on taxes; \$600 in a 30% bracket. And you'll earn high interest so by the time you retire, you'll have accumulated quite a nest egg.

In fact, if you start putting in \$2,000 a year when you're 29 and you earn an average of 12% a year interest, you'll have somewhere around a million when you retire at 65. For a working couple, it could be two million.

Almost everybody's eligible for an IRA Tax Shelter.

Thanks to recent changes in federal laws, you can now get an IRA Tax Shelter no matter what other retirement or profit-sharing plans you may have where you work. The only requirement is that you earn the money you contribute to an IRA.

If you and your spouse both work, you can put in up to \$4,000 a year from your joint income. For couples with one spouse working, it's \$2,250. And for individuals, it's \$2,000.

Even contribute monthly at First Bank.

You can put your money in a 1982 IRA Tax Shelter in one lump sum any time between January 4, 1982, and April 15, 1983. But, of course, the sooner you put your money in, the sooner you start earning the high interest.

Or at First Bank, you can put in a little every month. If you start in January, you only need to contribute \$166 a month for the maximum tax deduction by the end of the year. For working couples, it's \$333 per month. And for couples with one spouse working, it's \$187.

To make it more convenient, we can automatically withdraw your monthly payment from your First Bank checking account.

Start now for high interest all year.

With the First Bank IRA Tax Shelter, you always earn a competitive interest rate, because the rate is tied to the rate for Money Market CD's, and it will vary quarterly. When interest rates soar—like they did this year—your rate does too. And vice versa. But

no matter what happens, you're assured of earning money market rates. And over the long haul, the tax benefits make it your best investment.

You can begin withdrawing your IRA Tax Shelter money when you're age 59½, and you must start by age 70½. Then you'll pay taxes on the amount you withdraw, but when you retire you'll probably pay taxes at a lesser rate. There is a substantial penalty for withdrawal before age 59½.

Your IRA Tax Shelter money is completely safe because it's invested in 18-month Savings Certificates and it's insured up to \$100,000 by the F.D.I.C.

If you want to cut your taxes. If you want to make sure your retirement is secure. Or if you'd just like to become a millionaire, our IRA Tax Shelter is for you. Call or visit any First Bank location.

Shirley Burns And Lee Lindley

Employer Of Week Named

The Vocational Business Education Department at the Prentiss County Vocational School this week spotlights Lee Lindley, Sears Catalog Merchant, and his student-employee, Shirley Burns from New Site High School and a part of the Cooperative Vocational Office Training program at the Prentiss County Vocational School.

Lindley and his wife have been with Sears for three years. They have also owned and operated a Sears Catalog Store in Greensboro, Ala. They have been Sears Catalog Merchants in Booneville since August 1981.

The Lindleys attend the East Booneville Baptist Church. They have two children, Cyndia and Shea. The Lindleys are very

much at home on Meadow Creek Road, and say they appreciate very much the support for the store from the people in Booneville and Prentiss County.

Shirley Burns is the daughter of Mr. and Mrs. Charles Burns, and is a senior at New Site High School. She has been a member of FHA, Beta, Pep Club, vice-president of the sophomore class, Math and Science Club, assistant editor and editor of the newspaper, and a member of the student council.

She is a second year student at the Prentiss County Vocational School, where she has been a member of the FBLA. She is currently program chairman.

Shirley's career goal is to be a secretary.

IT PAYS TO FERTILIZE

You have to look hard to find something that doesn't go up in price from year to year. Fertilizer, unfortunately, is one thing that usually does. But even though prices are up, I would advise against cutting back on the nutrients you need for top yields.

Fertilizer prices are up 5 to 10 percent from last spring. But that's no reason to skimp. For every \$1 you put in fertilizer, you'll get \$3 to \$6 in return, when it's used according to soil test recommendations. Not too many investments give you this kind of return.

Arrange now for your fertilizer needs so you can get the analysis recommended by soil test. You may be able to cut total nitrogen needs by using split applications instead of applying it all before planting. If animal waste is available and priced right, don't hesitate to use it for some of your needs.

DID YOU KNOW

Mississippi leads the nation in catfish production by a wide margin. Production expanded by more than 15,000 acres last year, bringing total acreage to almost 56,000. That's more than twice the catfish acreage reported in all other areas of the United States in July 1980.

FARMWEEK

Are the days of the southern pork producer numbered? Lean economic times make that a possibility -- at least for some.

On Feb. 15, Farmweek explores the reasons behind the economic hard times and why many southern pork producers have been forced out of business.

Ballard's Last Second Shot Downs Golden Wave

**BY LEE GENTRY
SPORTS EDITOR**

Terry Ballard hit a last second layup at the buzzer here last Thursday night to give Wheeler's Eagles a 45-43 victory over the Tupelo Golden Wave in yet another thrilling matchup between the two arch rivals at the Bonner Arnold Coliseum.

The game lived up to all expectations. In fact, you couldn't have drawn a better game if you'd put it on paper.

Quarter after quarter, and bucket after bucket the fans, some 2500 in all, roared and raved each time a basket was made and from the first quarter on everyone knew the game would probably be decided in the closing seconds.

Without a doubt Wheeler came to win. The Eagles, under head coach Sam Richey who has been this route before, was clearly the dominating team leading the entire game. But the Wave refused to fold under the Prentiss County squad and took advantage of several key situations to take the margin into the closing seconds.

Class is the name of the game of basketball and Ballard showed he had plenty to spare.

The 6'2" senior went to the freethrow line with just seconds remaining with all the pressure in the world on him. Tupelo quickly called time out and Ballard went

back to the line with a chance to put the game away for the Eagles.

Ballard missed the front end of the one and one and it looked as though the Wave would get the final seconds.

Realizing he'd missed the shots Ballard stepped in front of the Tupelo defender and stole the ball back.

Realizing he'd missed the shots Ballard stepped in front of the Tupelo defender and stole the ball back. Ballard then put a climax to the whole affair when at the buzzer the ball was fed to Ballard and then put in a somewhat reverse type layup and the entire crowd went wild.

Some Tupelo fans rushed on to the court disputing the call, that the buzzer had sounded but the Eagle fans had started the celebration on the mid court and the Eagles had beaten the Wave for the second consecutive year at the buzzer.

Without a doubt the game will again go down as another top matchup but all in all Wheeler indeed played the better game it appeared and picked up their 31st victory of the season.

Ballard led the scoring department with 18 points on the night followed by Jim Davis with 13 and Steve Lindsey with 16. Bubba Miller and Rickey Chandler netted six points a piece.

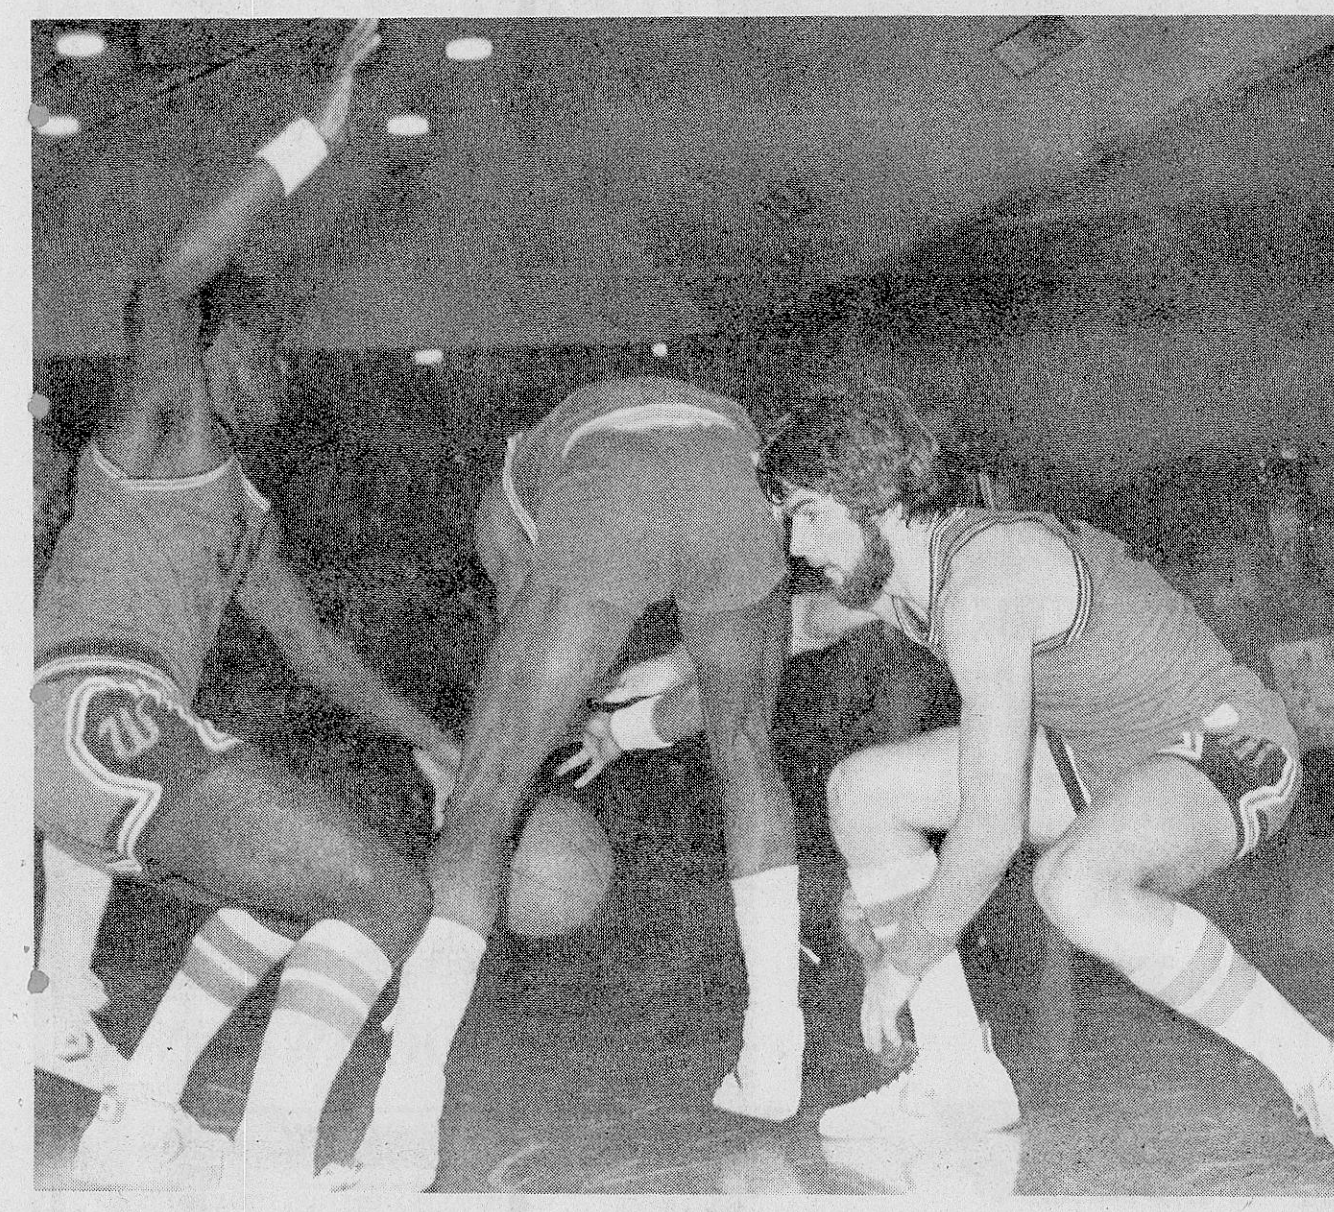

The game was knotted at 20 all at the intermission.

Tigers Notch Key Wins In North JUCO Action

The Northeast Mississippi Junior College Tigers moved one step closer to a key hosting spot in the North JUCO conference here over the past paper week with two key wins in North Conference Play.

On Thursday night coach Richard Mathis' Tiger five dropped arch rival Holmes Junior College 75-69 while on Monday night of this week Northeast's men got the best of Mississippi Delta with a 90-73 bulge.

Coach Richey Ford's Tigerettes, who also have a chance to host one of the girls spots, didn't do bad themselves gaining a split of the two game stand.

The Lady Tigers dropped a 91-82 victory to Holmes Lady Bulldogs and then followed with a 79-73 win Monday over Mississippi Delta.

In Monday's action, Maurice Stafford led the Tigers in scoring with 29 points followed by Anthony Anderson with 17 and Ralph Griffin with 16 points.

In girls action, Brenda Mayes pumped in a 30 point performance against the Delta squad followed by Ann McBrayer with 16 and Monte Hare with 15.

In Thursday's battle with Holmes Anthony Anderson led the Northeast men's scoring brigade with 21 points followed by Stafford with 20 points and Tim Kesler with 19 and Ralph Griffin with 18.

In the girls action, Monte Hare netted 17 points followed by Ann McBrayer with 16, Tina Garner with 13 and Brenda Mayes with 12.

The Tigers are now sitting in fair shape in the North standings. At 20-4 on the season, the Tiger paws will have one remaining game tonight with Meridian.

The Tigers will probably host one of the opening round games of the Northhalf Tournament beginning next Monday Feb. 15th.

The Tigerettes will also battle Meridian tonight and could possibly host a girls spot sometime next week probably on Tuesday night.

The North Junior College playoffs goes as follows the number one team plays the number eight team; 2 plays number seven; number 3 plays number 6 and four and five play each other.

The top four teams host the opening round games.

District B Tourney Underway Wheeler, Jumpertown Competing

FULTON -- Two area schools will represent Prentiss County here this week in the Annual District I B. Basketball Tournament held in the Itawamba Junior College Gym.

Due to our early press schedule results of Tuesday nights opening round games were not available.

Wheeler's Eagles, defending champions are heavy favorites this year, were scheduled to play Tremont Tuesday night at 8:30 while Jumpertown's Cardinals had a battle last night (Wednesday) against West Clay at 8:30.

In girls action Wheeler's Eaglettes were scheduled to compete against Houka last night at 6 p.m. while Jumpertown's Cardinalettes are scheduled tonight at 6 p.m. against Woodland.

Finals (weather permitting) of this tournament will be held Saturday night with the two top teams advancing to the Northhalf Tournaments the following week.

A team must reach the finals of the District Tournament to advance to the Northhalf event.

A complete report of this tournament will be published in next week's Banner-Independent.

Devils, Devilettes Earn Opening Round Victories

Action get underway here Saturday night in the District 1 A Tournament held at Northeast's Bonner Arnold Coliseum.

Teams will battle throughout the remainder of the week with the finals slated for Saturday night.

Opening round action Saturday night saw Booneville's Blue Devils, Iuka's Lady Chieftans and Houston's Lady Hilltoppers earning first round wins.

The Devils got on the winning track with a 49-44

victory over Pontotoc's Warriors while Iuka downed Ripley's Tigerettes 51-49 and Houston dropped New Albany's Lady Bulldogs 43-31.

Booneville's Devils, under the direction of head coach Randle Downs, had some troubles from the Warriors in the late going. The Devils led at one point in the first half by as many as 16 points but Pontotoc came on in the final two frames to trim the margin and even take the lead at one point.

Booneville pulled it out in the final minute of the game. A key basket came when Larry Mackin, with only a minute remaining sank a layup and was fouled completing a three point play. He also chipped in with some other key freethrows to aid in the Devil victory.

Mackin, along with Ronnie Elam led the team with 11 points each followed by Christ Williams with 10 points on the night.

In Monday's action of the tournament Booneville's

Lady Blue Devils along with Alcorn Central's Golden Bears and Ripley's Tigers all picked up opening round wins.

The Devilettes, under head coach Steve Jobe, had a field day with Saltillo winning 71-21 while Central had a rather easy time of it against Nettleton 54-26 and Ripley downed slightly favored Houston 59-47 in the nightcap. Kushing Sorrell paced the Devilettes attack with 24 points followed by Vanissa Groves with 17.

New Site, Thrasher, Baldwin Battle In BB Tourney

SALTILLO — Action got underway here last Friday night in the District 1 BB Basketball Tournament held in the Saltillo Gym.

In opening round action Friday, New Site's Royals, Hatley's Tigerettes and Baldwin's Lady Bearcats all picked up opening night wins to advance to further competition.

The Royals dropped Belmont's Cardinals 60-49 while Hatley downed Thrasher's Rebelettes 78-39

and Baldwin's Lady Bearcats defeated New Site's Royalettes 53-31 to round out the night's activities.

New Site was led by Charles Reece with 20 points on the night followed by Jeff Martin with 14 and Bobby Whitley with 10.

In girls action Baldwin's Ruby Tyes and Melissa Harvell netted had 16 each while Chris Frost had 18 points for New Site.

Patty Miller had 23 points for Hatley while Jessica

Goddard burned the nets for 23 points for Thrasher.

Saturday's Action

In Saturday's action here Biggersville beat Hatley's Tigers 70-61 while Biggersville's girls dropped Mooreville 50-24 and Thrasher's Rebels downed Mooreville's Troopers 57-53.

In the game involving our Prentiss County team, Danny Ramsey netted 14 points to lead the Thrasher attack followed by George Leslie with 13 and Pat Lauderdale with 10 points on

the night.

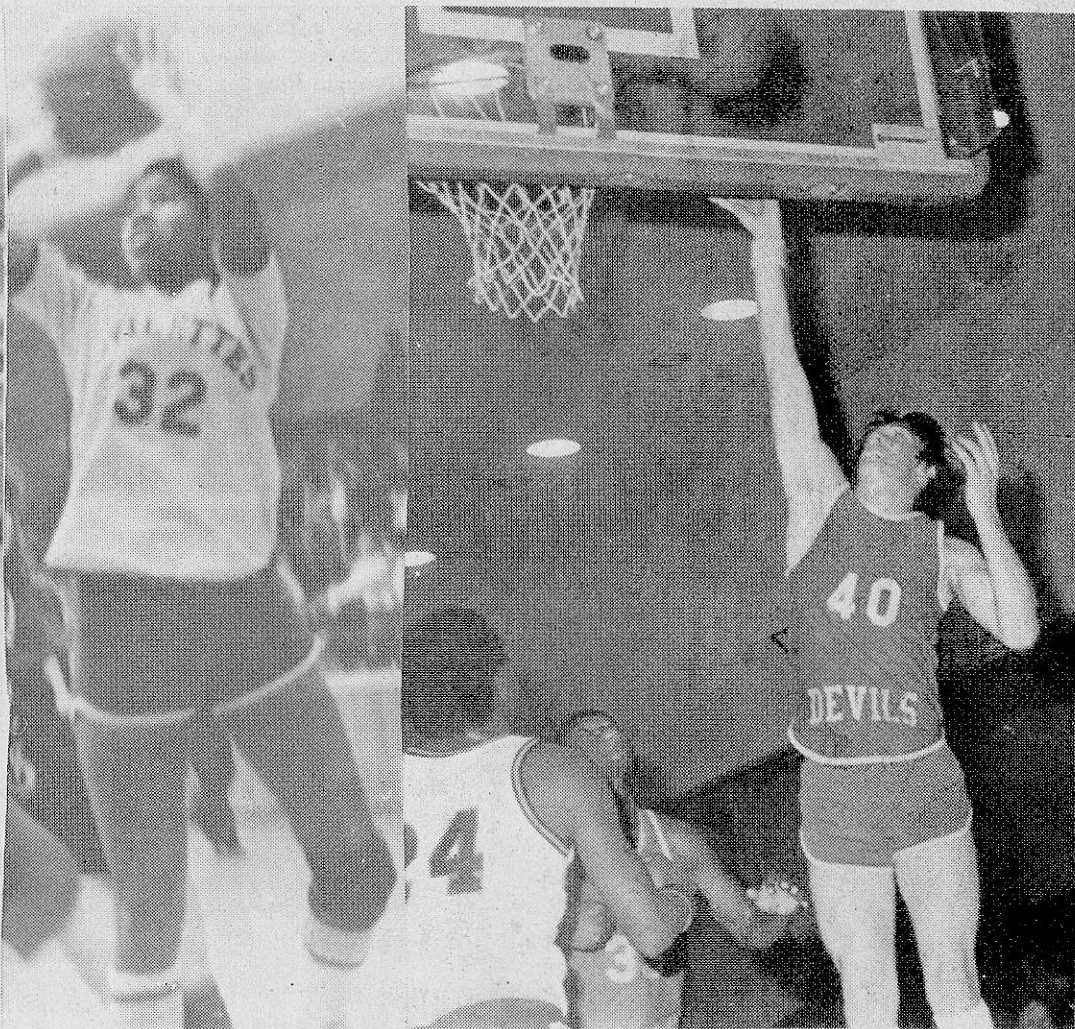

Monday's Action

In Monday night action here Biggersville's Lady Lions beat Belmont 42-38 while Burnsville's girls beat Okolona's girls 43-27 and Okolona beat Burnsville's boys 74-62.

Results of the Tuesday and Wednesday night games were not available at presstime.

A complete report of the Tournament will be published in next week's Banner-Independent.

Northhalf Sites Set

North Half action, scheduled to begin Feb. 17th, has a completely new look this year than in the past.

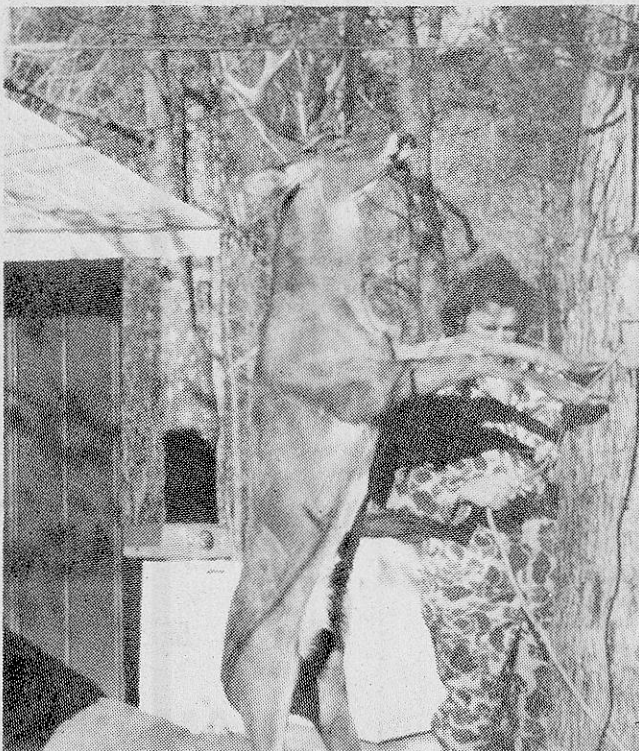

This year the top team who wins first place in this week's District Tournaments, will host the opening round of the North Half Tournament and then the final two nights on Friday and Saturday have been assigned sites.

Two teams (the two that reaches the District finals) will advance to further competition in the Northhalf events and then three teams will advance from Northhalf to State.

In the past only one Northhalf site per classification was issued but this year the sites will alternate.

There are specified sites in the Northhalf after the opening round action. They include, to be held on Feb. 19-20 (final two nights) as follows:

- NORTH HALF SITES**
- AA Boys-----Tupelo
AA Girls-----Starkville
A Boys-----New Albany
A Girls-----Southaven
- B Boys-----Baldwyn
B Girls-----Houlka
BB Boys-----Carthage
BB Girls-----Water Valley

Eagles, Devilettes Climb State Chart

Both Wheeler's Eagles and Booneville's Lady Blue Devils moved up the chart this week in the Mississippi high school top ten standings.

The Eagles with wins over Tupelo and Saltillo moved all the way from the number eighth to number four this week while Booneville's Devilettes, who have one of the best records in the State at 24-1 moved up one notch from eighth to seventh.

Harrison Central continues to dominate the boys top spot while Warren Central leads in the girls standings.

Both Wheeler and Booneville's girls are heavy favorites in their respected brackets of District competition.

Anderson Falls In Little Bigbee Tourney

By GREG MORGAN
Anderson Reporter

Baldwyn took all four trophies here last week in the finals of the Little Tombigbee Basketball Tournament held at Anderson Junior High School.

The local Anderson squads placed two teams in the finals but lost to the very tough Baldwyn squads in the finals.

Anderson's seventh grade squad fell to the Baby Bearcats 45-22 while the eighth grade Blue Devils lost to Baldwyn 41-22.

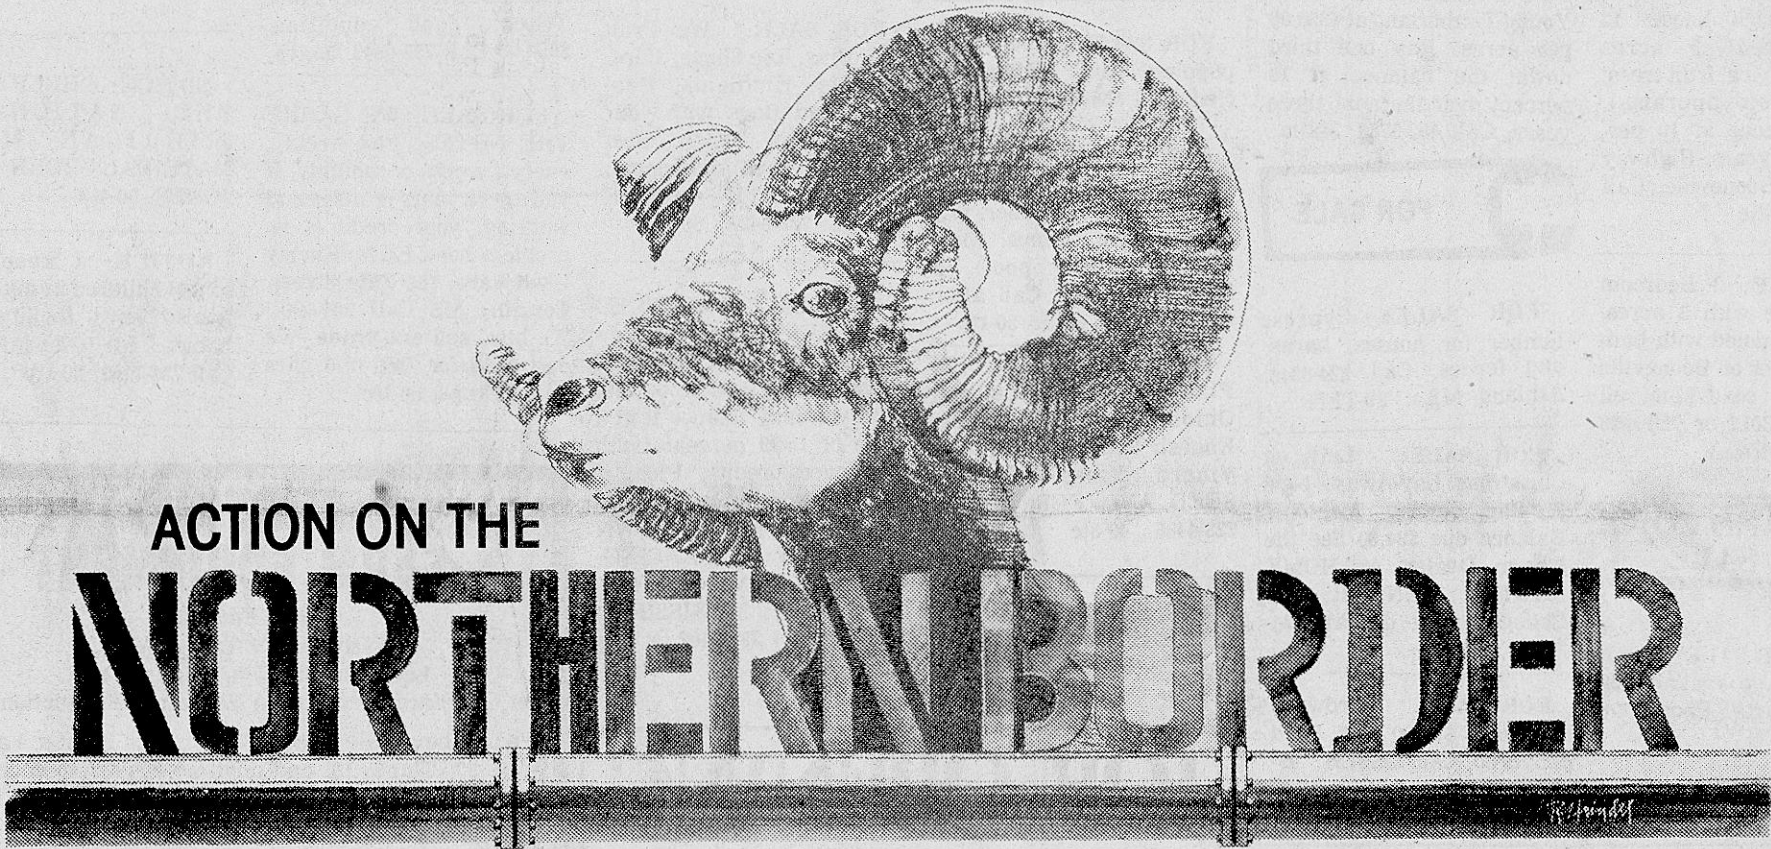

In seventh grade action Tim Jumper and Stan Stubbs both netted six points

a piece while in the eight grade contest Clay Johnson burned the nets for 16 points to lead the Anderson attack followed by teammate Buddy Bartlett with six points to account for the entire 22 points.

Anderson's eighth graders also won a night earlier in semi final action with a 32-28 victory over Ripley.

Clay Johnson again paced the Anderson attack with another 16 point performance followed by teammate Harold Smith with seven points on the night.

Baldwyn took the title in all four brackets including seventh and eighth grade both boys and girls.

We call it the Northern Border Project. It's a new pipeline being constructed from Big Horn country into the Midwestern United States. United Gas is a partner in this visionary project. When completed, 400 million cubic feet of gas will be delivered to us each day from Canada for eventual use by United's customers.

This project is a segment of the proposed Alaska Natural Gas Transportation System that eventually will bring natural gas from the rich Alaskan fields. United's share of the new Canadian gas — and Alaskan gas when it becomes available — will be exchanged in the Mid-West for gas closer to the Gulf South.

It seems strange to be bringing Canadian and Alaskan gas to Louisiana. But this costly and complex project is one of the many things United is doing to keep the gas flowing to its customers.

CARDS OF THANKS

We the family of Leola Winsett take the opportunity to express our sincere appreciation to all our friends, church friends and relatives for everything that was done to help us through this time of sorrow. The flowers, calls, cards, food, and above all your prayers.

Thanks to Bro. Edward Lowery and Bro. James Perry for their assurance of seeing mother again, and the Tusculumbia Baptist Church choir for the beautiful songs, for McMillan's wonderful service.

God dwells in the hearts of people like you. God bless you all is our prayers.

The Family of Leola Winsett

CARD OF THANKS

Words cannot express the heartfelt thanks we feel toward so many for kindnesses shown during the hospitalization and death of my mother, Mrs. Myrtle Harris.

Doctors Cleveland, Galloway, Ellzey and Hurst were so attentive and kind, as were all others working on D-2 at the Booneville hospital.

The cards, calls, visits, food, gifts, prayers, Tishomingo friends, and other expression of concern for us will never be forgotten.

God bless each and every one of you.

Mrs. Dayton (Cleo) Ward
