DA Asks For 50-Year Term For Kidnapper

The district attorney's office in Corinth has recommended a 50-year sentence for a Baldwin man who pleaded guilty last week in Alcorn County Circuit Court to kidnapping two 18-year-old Corinth youths after he escaped from the Mississippi State Penitentiary in December 1980.

James Earl Holland was indicted on related kidnapping and assault charges by an Alcorn County grand jury last month. He entered guilty pleas to the charges before Circuit Judge Fred Wicker last Thursday.

Holland reportedly escaped from the Parchman prison facility on Dec. 17, 1980, after taking the wife and child of a security guard hostage. He is said to have driven to Prentiss County where he left them handcuffed to a truck used in the escape.

The Alcorn County indictment against Holland charged him with abducting Lynn Keith Carmichael and Pamela Ann Para, both of Corinth, and forcing them at gunpoint to drive him through seven states.

Holland was captured the next day after Miss Para reportedly slipped a note to an attendant at a service station in Tennessee. Holland was finally cornered and talked into surrendering in Somerville, Tenn.

At the time of his escape from prison, Holland was serving concurrent 50 and 20-year terms for armed robbery and kidnapping in connection with the robbery of a Lee County grocery and a Prentiss County service station in 1977.

Sentencing for Holland has been set for Friday before Judge Neal B. Biggers Jr.

Supervisors Award \$125,000 In Bonds

The Prentiss County Board of Supervisors Monday afternoon awarded \$125,000 of Third District general obligation bonds to the Farmers and Merchants Bank of Baldwin.

The bonds were issued to provide funds for constructing and repairing roads and bridges in the Third District and for acquiring necessary land, building materials and rights-of-way.

Two other local banks also submitted bids for the bonds. The board voted unanimously to accept the bid with the lowest interest rate, which was 10.40 percent from the Farmers and Merchants Bank.

The Peoples Bank and Trust Company submitted the high bid of 11.5 percent. The Bank of Mississippi submitted a bid of 10.462 percent.

Each bidder was required to include a \$2,500 check with the bid as a guarantee that he would carry out the contract and purchase the bonds if his bid was accepted.

Third District supervisor J.P. Davis said Monday that part of the funds from this bond sale will be used to match a federal grant which has been approved to replace three bridges in the Third District. These bridges are located on Old Highway 45 South between Booneville and the Booneville-Baldwyn Airport.

Funds from the federal bridge replacement program will pay 80 percent of the expense in replacing these bridges. The remaining 20 percent must be provided by local funds. The project is estimated to cost \$282,394.14.

Davis said that after the county's 20 percent share of the bridge project has been paid, the money remaining from the \$125,000 bond sale will be used for general repairs and expense in the Third District.

Bids for the bridge replacement project are to be opened at 10 a.m. May 18 at the courthouse.

Iuka Plane Crash Kills Three

An Iuka pharmacist, his son and a Kentucky man died Tuesday afternoon when a single-engine plane in which they were riding crashed while landing at the Iuka airport.

The plane was piloted by Thomas Sims Buse. Buses owned pharmacies in Iuka and Corinth. Also killed in the crash were Buse's six-year-old son Anthony and a mechanic from Martin, Ky., identified as John E. Howard.

Tishomingo County Sheriff Amos Bates said the wing of the plane caught a bank on the north end of the runway. All three passengers were thrown out of the Cherokee Lance when it crashed about 30 feet from the runway, he said.

The Federal Aviation Administration officials were scheduled to begin investigation of the crash site Wednesday.

Stennis Fish Fry Saturday At Park

U.S. Senator John Stennis is scheduled to be present for a fish fry this Saturday at 6 p.m. at the Booneville City Park.

Sponsored by the Prentiss County Committee to Re-elect Stennis, the meal is free to the public. Entertainment will include local gospel, bluegrass and country musicians.

Stennis will be on hand through out the evening to meet with area constituents and to discuss the concerns of his fellow Mississippians, a committee spokesman said.

Attorney General Says

Judge Cannot Serve As Police Officer

By KEN CHRISTIAN
Editor

The City of Booneville has received an opinion from the office of state Attorney General Bill Allain that Fifth District Justice Court Judge William (Willie) Anderson cannot legally continue to serve as both a county judge and a city policeman.

Anderson was elected to the office of Justice Court Judge in 1979, the first black ever elected to that office in Prentiss County.

At the time of the election,

Anderson was already employed as a city policeman and had also served as a deputy sheriff under former sheriff Ralph Martin.

After he was elected Fifth District judge, both Anderson and Police Chief W.W. Stacy told *The Banner-Independent* there would be no conflict of interest between the two positions. They said any case involving Anderson as a police officer would be handled by the city judge.

In January 1981 County Attorney John Hatcher

issued an official opinion which supported this view. In issuing his opinion, Hatcher said there would be no conflict of interest "as long as the Justice Court Judge does not act as the judge on cases occurring in the city limits of the city wherein he is a policeman and on cases wherein he acts as a policeman."

Hatcher said the office of Justice Court Judge is that of a magistrate while the position of policeman is that of a municipal employee.

However, on March 30 of this year City Attorney

Eugene Gifford wrote a letter to the Attorney General's office in Jackson, asking "if the City of Booneville can legally continue to employ Mr. Anderson as a member of the Booneville Police Department while he also serves in the capacity as Justice Court Judge of the Fifth District of Prentiss County."

In response, the Attorney General's office issued an opinion that "the position of city policeman and justice of the peace (Justice Court Judge) are incompatible."

Although Allain's office did not state specifically why the two positions are incompatible, the opinion listed two similar opinions made previously by the Attorney General's office.

In October 1978, that office issued an opinion for the city clerk of Port Gibson which said the positions of city policeman and Justice Court Judge are incompatible. And in March 1979 it issued the opinion that a Justice Court Judge may not serve as a highway patrolman.

In the opinion issued in 1979, the Attorney General's

office said, "It has been the subject of previous opinions from this office that a Justice Court Judge may not serve in the dual capacity of Justice Court Judge and peace officer."

Gifford said this week that he plans to contact the attorney general's office for further information on the subject. He said he will make a recommendation to the board of aldermen at their next meeting as to whether or not Anderson should be allowed to continue to serve in both capacities.

MAKING A POINT -- "Our objective is to provide good telephone service up here in Prentiss County, as well as all over the state of Mississippi," South Central Bell Tupelo District manager Tom Bailey pointed out Monday night at the Prentiss County Development Association's board meeting.

Measured Local Service Termed 'The Wave Of The Future'

By KEN CHRISTIAN
Editor

Measured service is the "wave of the future" and could be the answer to many of the complaints voiced against telephone service in Prentiss County, South Central Bell Telephone District Manager Tom Bailey told the Prentiss County Development Association's board of directors Monday night.

Bailey said the long range plan of the phone company calls for the Booneville office to be replaced in 1986, four years from now, with the latest all-electronic switching equipment, which would make measured service available to Prentiss County residents.

Bailey's responses came as the PCDA directors put him on the hot seat at their regular monthly board meeting at City Hall. The local telephone company manager met with them to discuss local telephone service and a rate increase which went into effect last week.

Approval of that increase by the state Public Service Commission is still pending. The PCDA directors went on record last month as opposing this rate increase.

State representative Billy McCoy voiced his disapproval of the rate increase Monday night.

"This comes at an extremely bad time, so far as the economy is concerned, so far as this area is concerned," he said. "The people in this room and the citizens of this county and of the adjoining area have been hit awful hard along with the rest of the nation with energy increases, high interest rates and things like this. It seems like we'll meet and we'll protest and we get a little more frustrated every time because there's not much we can do

about it. Here tonight we're going to issue our protest to you and, again, I realize we can't do a whole lot about it, but we do want to tell you that it disturbs us greatly."

A NUMBER OF issues were raised by PCDA board members at Monday night's meeting, but probably the most emotional issue was the fact that residents of Booneville can phone very few places outside the city without having to pay long distance rates.

Booneville Mayor Charles Crabb acknowledged that since the late 1960's South Central Bell has probably spent "in the millions of dollars" in Prentiss County, dismantling the old telephone exchange company, transferring the operators out, running new lines, and incurring other expenditures.

"Maybe not in service, but in extended service it hasn't helped us a bit," the Mayor said. "We still cannot call within our county in any direction you go without paying a long distance telephone bill. And I feel that this is discriminatory toward our city and the people of our county."

Mayor Crabb and other local officials and interested parties have been seeking an answer to this problem since 1976.

"A person who is now paying \$21 out in the rural areas of our county will be paying \$38-\$40 a month telephone bills (under the rate increase)," the Mayor continued. "Some people can pay that, but we have countless hundreds of elderly people who are on fixed incomes who cannot pay that telephone bill. And I feel that, if we cannot do

Hospital Employees Reflect On Years Of Service

By ANGELA SMITH
Staff Reporter

Dealie Hisaw and Clay Perry probably know the inside and the outside of the Booneville hospital better than anyone. Both have been employed at the hospital for the past 26 years.

When Perry joined the maintenance staff in April 1955 there were only two other employees besides himself in that department. Today there are nine employees in the maintenance department and Perry is yard supervisor.

Last September Perry began taking care of the hospital rose garden. His first task was hauling four truck loads of bermuda grass from the rose garden.

His hard work in the rose garden has paid off, for today motorists driving past the hospital can see the well-tended roses. And Perry often presents hospital employees fragrant roses to place on their desks. Perry's work doesn't end when he leaves the hospital because he has over 30 varieties of roses to tend to at his home.

Perry, who is obviously

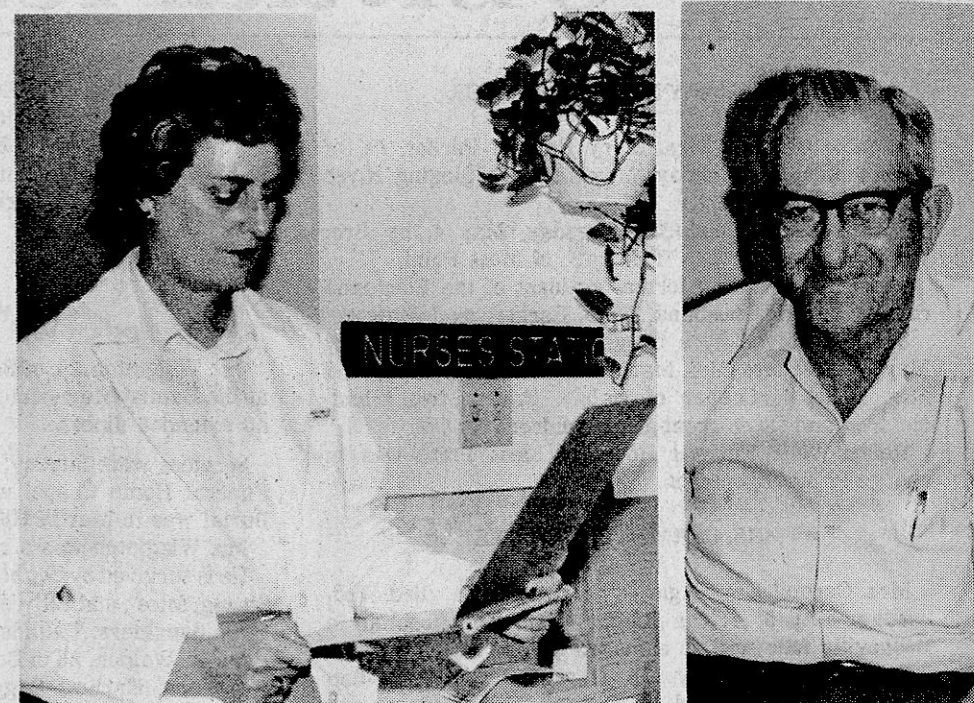

well-liked by his fellow employees, has a simple philosophy which perhaps explains the longevity of his job. "I just try to get along with everybody," he said.

LPN Dealie Hisaw wasn't always an infection control nurse.

In fact, after working 26 years at the Booneville hospital, Mrs. Hisaw says she has worked in just about every department.

In July 1955 she started out supervising three housekeepers. Besides

seeing to it that the hospital rooms were properly cleaned it was her duty to order enough ice every day from the ice plant in Booneville for patients and employees.

Later she worked as a nurse's aid, and a medical aid. In 1968 Mrs. Kisaw began LPN school at Nor-

theast Junior College. When she had clinical training at Ripley hospital she continued to work full-time at the Booneville hospital.

In January she became infection control nurse. Her many-faceted job includes, among other things, dealing with different types of infections to determine whether they are com-

munity acquired or hospital acquired.

After working 26 years at the hospital Mrs. Hisaw has had the opportunity to see changes occur in every department. However, of all the changes she has seen she singled out the acquisition of modern hospital equipment as the most important

change to take place at the hospital in the last 26 years.

Referring to her 26 years of work at the hospital Mrs. Hisaw said, "I wouldn't take anything for this experience. There's one thing for sure about working here, if I didn't like it I wouldn't have stayed this long! I just hope I'm able to work 26 more years!

Measured Service

anything about the rates. . . I feel that there should be some extended service given to the citizens of this county whereby that we would feel that we are getting what we are paying for."

"Not only is it (limited local service) expensive to the individual consumer and inconvenient," added Rep. McCoy, "but it's actually affecting our total economy more than you'd think. People get affiliated with the community they can call. People on the southern end call Tupelo and people on the northern end Corinth, and so forth."

Local farm implement dealer Bill Murphy echoed those sentiments. "We're sitting in a hole," he said. "Our customers are local customers -- by local, I mean Franktown, Geeville, Doss' Store -- we can't call in any direction inside the county without paying long distance. That's the problem I have."

BAILEY POINTED OUT that Prentiss County is not the only county in the state with this problem.

"I suppose every county in the state has some of this," he said. "Prentiss County is not unique in the fact that there's not a larger calling area than it is. And you pay less per month than folks who are in a larger calling area. Actually, it's the number of telephones that have in the past determined the rate bracket that you're in."

Bailey said the phone company had made two proposals to Prentiss County about extending the local phone service over the county.

"The problem is that you've got a cost, a dollar amount that's necessary to make the connections, to do the work that's necessary to make you a part of the same complex (as Tupelo and Baldwin)," he said. "And the cost has got to be born by the folks that are benefiting from it."

The two proposals presented by the phone company in the past were never acted upon because Booneville officials felt it would not be fair to ask Baldwin to pay higher rates to improve service in Booneville and it would be prohibitively expensive for Booneville customers to bear

all the financial burden.

The solution, Bailey indicated, could be local measured service.

"MEASURED LOCAL SERVICE is the wave of the future," he said. "You pay according to the number of calls you make, the distance you call and the number of minutes you talk on each call. I would say that within 10 years or so measured service would be the rule and the exception would probably be the flat rate service. It would be available, but it would probably be an option, just like WATS is an option for our message toll now for extremely high volume users."

Bailey said that right now in areas where it is offered, low-usage measured service should cost about 55 percent of what the flat rate is in the same town.

The phone company manager pointed out that this is the only service that South Central Bell currently offers which is not available in Booneville.

"You can dial your own long distance calls; you can dial your zero-plus calls, which is something they can't do in Jackson, Miss.," he said. "You can do things here in Booneville now which you can't do anywhere (in the state) except in Northeast Mississippi. You are ahead of people in Meridian and Jackson and the Coast on that."

Bailey said that if the people would like, he would take another look at extending the local service for Booneville, but he said he did not want to give the impression that the phone company could do something now on this issue that they could not do in the past.

However, he said that he felt as if this problem would work itself out in the next few years.

"I feel like if nothing is done, within the next five to ten years you're going to see the problem dissipate," he said. "I really and truly feel like you're going to have more of a leveling off and people are going to have the same type of service regardless. You'll pay for service when and where you call."

BIBLE QUESTION BOX

QUESTION: Mr. Hogland, if I do lots of good things and yet have one weakness or sin, will God discount all the good I do and hold the one sin against me?

WARD HOGLAND

ANSWER: Your question could tempt me to "play" God but I shall resist and give you what the Bible says. In Mark 10, the rich young ruler came to Jesus and asked about the same question you have asked. He wanted to know what he had to do in order to make it to heaven. Jesus gave him some of the commandments of the Law of Moses, since they were living under that law. He said he had kept all those commandments so the Lord told him "ONE thing thou lackest." I stress the ONE because I believe it will help you with your question. It seems in spite of all his good the ONE thing would keep him out of heaven. Another example is in Acts 8. Simon tried to buy the gift of God with money. He was told by Peter to "Repent of THIS thy wickedness and pray." I stress the word THIS because it seems that the ONE act on the part of SIMON brought him under condemnation. From a human point of view it seems that God should judge us on the amount of good we do as versus the bad we do. However, upon a close study of the Bible I am afraid this is not so sorry.

SMALL BUSINESS SEMINAR - Two sessions of a small business seminar for women was held May 5 at the Prentiss County Vo-Tech School. Approximately 40 women attended the seminar to hear experts explain the proper steps in starting a new business. The seminars were sponsored by the Prentiss County FBLA Chapter and the Vocational

Business Education Department at the Prentiss County Vo-tech. Susan Curtis Addresses Small Business Seminar For Women

By ANGELA SMITH
Staff Reporter

The pitfalls that often plague small businesses can be overcome with careful planning and common sense, said Susan Curtis, research analyst for the Small Business Development Center.

Small businesses comprise 96 percent of all the businesses in Mississippi. But statistics show, Miss Curtis said, that the failure rate in small businesses is extremely high the first year and only 17 percent survive. But if a business makes it past the five-year mark, the success rate is much higher.

Miss Curtis was the moderator at a small business seminar for women held Wednesday of last week at the Prentiss County Vo-Tech School.

The Small Business

Development Center serves as a link between federal and state agencies, universities and the private sector, she said.

The center offers free assistance to anyone who inquires about the steps in starting a new business. The center can assist in sales promotion, purchasing, financial analysis, foreign trade, record keeping, money management and other areas vital to a small business.

Much emphasis is being placed on women in business now because in 1970 there were only 702,000 women who owned businesses which is 7.1 percent of American businesses, she said.

In 1981 women made up 43 percent of the labor force and in 1990 are expected to make up half of the labor force. Miss Curtis pointed out to the women attending the seminar that in 1981 for

every \$100 a man earned, a woman earned \$64.74.

"Improving management ability is going to mean more money to women," Miss Curtis said.

Itawamba County Attorney Nell May discussed the legal aspects of starting and owning a business. Financing a small business was discussed by Sue Collins, a vice president with the People's Bank in Tupelo and Cathy Robertson, a loan officer with the Bank of Mississippi in Tupelo.

Booneville accountants David Jones and Kermit Jones talked about record keeping and tax planning.

Kermit Jones also emphasized that most business failures are made the day a person goes into business because people begin ill-prepared and often fail to use common sense.

Miss Curtis told the

women attending the seminar that the three best friends an owner of a small business can have are a banker, an attorney and a C.P.A.

Anyone interested in starting a small business should call the Small Business Development Center's toll free number in Oxford at 1-800-232-5001. Information is also available by writing the Small Business Development Center, The University of Mississippi, University, Miss. 38677.

Two sessions of the seminar were held May 5, at the Vo-Tech. Approximately 40 women attended the seminars, which were sponsored by the Prentiss County FBLA Chapter and the Vocational Business Education Department at the Prentiss County Vo-Tech.

Prentiss County Awarded 77 Slots For Summer Job Program

Scheduled to get underway in June, the Summer Youth Employment Program (SYEP) and the Youth Employment and Training Program (YETP), both of which are administered by the Governor's office of Job Development and Training, have received a combined allocation of \$7,934,327 to assist more than 7,500 economically disadvantaged and underachieving youth this summer in Mississippi.

Approximately 6,500 employment slots are available to youth through SYEP, a program designed to expose youth to the working world with actual on-the-job experience. Prentiss County has been awarded 77 of these slots.

The eight-week program, open to 14-21 year-old youths, will provide participants with 32-hour-week jobs at minimum wage and will allow them to earn a maximum of \$857.

A total of \$6,747,508 has been allocated for the program, which received a 10 percent or \$600,000 cut from last year.

The slots available in Prentiss County will be administered by the Mississippi Employment Security Commission, which has received a \$3,323,153 allotment to administer the program in 39 counties in the state.

Other agencies throughout the state will be handling the remaining SYEP allotments. In all, jobs in libraries, county offices and other public and private nonprofit enterprises will be made available to youth living in 77 counties of the state.

According to Andy Cutler, executive director of the Governor's Office of Job Development and Training, several changes have been made in this year's program to ensure that SYEP participants receive more than just a summer job.

Perhaps the most notable difference in the program, which began in 1973 following the abolishment of the Neighborhood Youth Corps, will be the implementation of a one-day orientation session in each area. These sessions are designed to give youth a

preview of the summer program and opportunity to ask pertinent questions concerning their responsibilities.

The orientation sessions will also provide SYEP participants with information relating to career education, successful work habits and money management. No wages will be paid for attendance.

Under the second summer youth program, YETP, more than 1,000 young people are expected to be served. The program is designed to give youth a sampling of various career fields.

Working through a university, six public junior colleges, a private college and a high school in 34 counties, YETP will use vocational facilities to enable program participants to sample several career fields.

"We believe that the summer programs can do much to help break the cycle of unemployment caused by unqualified or unwilling workers," Cutler said.

Young people interested in

participating in either of the programs may obtain pre-application forms from high school counselors, local employment security commission offices or community action agencies.

WHAT AN OPTOMETRIST LOOKS FOR

If you've never had an eye examination and your eyes are bothering you for any reason, you're in for a surprise. An eye examination is a lot more thorough than finding out how well you can read an eye chart.

An optometrist spends years of study and training so he can recognize problems and treat them effectively. Sure, he'll want to know how well you can see the letters on an eye chart. He'll test both eyes together and then test each eye separately. Maybe your problem is only in one eye.

He'll want to know how well you see at a distance as well as close up. He'll want to know how good

your peripheral or side vision is and how well you see objects around you. He'll want to know about your color vision.

Your optometrist will be using very precise instruments to examine your eyes to see if there are any signs of disease that could impair your vision or cause blindness.

All of this information will be considered when he writes a prescription for eyeglasses or contact lenses.

For answers to your specific questions regarding vision, Dr. White invites you to call his Booneville office

'Talk O' The Town'

Street Opinion Poll

QUESTION: Last week President Reagan said he plans to propose a constitutional amendment to let students pray in school. Are you in favor of this?

WAYNE CARTWRIGHT of Route 2, Booneville: "Yes, I'm in favor of it. If they want to pray I think they should be allowed to but I don't think they should be forced to pray."

MELANIE GARNER of Route 2, Booneville: "I'm in favor of it. I think if you want to pray in school it should be your privilege."

PAT STAGGS of Route 3, Rienzi: "Yes. I feel God would want them to pray daily and do his will. That's what it says in the Bible. I feel if the kids want to pray they shouldn't keep them from praying."

MABEL SMITH of Memphis, Tenn.: "Sure they need to pray in school. It would help all the kids learn to pray and it would make a better child out of them."

PAT FOSTER of Route 5, Booneville: "Yes. I think we need to get back to prayer in schools. Sometimes the only religion a child learns is in school. I think the whole nation needs to get back to Christ."

JANET FRIAR of Route 2, Booneville: "Yes, I am. I think they should start out each day with a prayer. It could help them out through the whole day and even through the entire week."

Three Wheeler Fever

I think now when it rains instead of saying "It's raining cats and dogs," we should say "It's raining 3-wheelers." If there are as many 3-wheelers in other communities as there are in Thrasher, there must be 3-wheel tracks all over Prentiss County!

There's no doubt that riding a 3-wheeler is a lot of fun, but accidents certainly can happen. Just this week a youngster wound up in the Tupelo hospital after suffering an injury from an accident on his 3-wheeler.

I thought I was going to see an accident Sunday when I was driving down the gravel road by my house and a boy riding a 3-wheeler came out of a field road. He was looking in the opposite direction as he pulled into the road and he started heading directly toward my car.

I was almost in the ditch when he finally saw me. For an instant I thought he was going to run into me. I hope the incident scared him as badly as it did me because if it did, he will be a lot more careful riding his 3-wheeler.

Unfortunately I've heard about some kids who have been riding their 3-wheelers through fields of wheat. Making paths through wheat probably is fun but it is definitely irresponsible and I'm sure the farmers owning the wheat don't appreciate it.

Parents need to see to it that their children aren't misusing their 3-wheelers. If children and even adults can't respect other people's property when riding 3-wheelers, they need to find another hobby.

That's The Life

Some people lead charmed lives.

You know the type I'm talking about. When they drive through Booneville the stop lights always turn green as they drive up to them. Or when they park their car under a tree, the little birds refrain from dropping presents on their windshield.

When I drive up to a stop light it is always red. I think the last time I didn't have to stop at a stop light was in 1980 and that was only because the light wasn't working.

There's three sure ways to spot people who lead charmed lives. Their hair never gets mussed up by the wind; they sneeze silently; and they usually don't write columns.

Eyes On Mississippi

Supervisors' Power Is Threatened

By BILL MINOR

Columnist

JACKSON, Miss. - The toppling of Eddie Khayat, the paragon Old Guardsman of Mississippi's unique county supervisor system, by a persistent young district attorney can only have an unsettling effect on entrenched county officialdom throughout the state.

That Khayat, who for many years was the chief spokesman - and certainly an effective one - for the Mississippi Association of County Supervisors, can be brought down means there is hope the free-wheeling power of the supervisors in every county can be challenged.

Many Mississippians take the county supervisor system here for granted, failing to realize that no where else in the country is so much power concentrated in the hands of a few county officials.

No place else do you find county officials who have the power to tax, to control practically all the spending in the county, approve the property assessments, serve as road commissioners with few restrictions on how they spend large amounts of money, and finally, have a say-so in the jury selection system.

Khayat was not only a part of that system as a supervisor in Jackson County for more than 30 years, but he convinced many over the years that the system shouldn't be changed because it was something almost sacred in its closeness to the people.

But the effervescent Lebanese from Jackson County was considerably different from his compatriots on boards of supervisors elsewhere in the state. He was a dynamic spokesman for industrial development in his area and he could get things to happen in both the State Capitol and the National Capitol when he arrived with his whirlwind sales pitch for some project.

That Khayat manner was to come bearing gifts, such as succulent Gulf Coast oysters and shrimp which hardly any one could refuse, as the largesse of doing business.

Quite a few eyes were opened back in 1973, however, when the federal government came down on Khayat for not paying income tax on more than \$200,000 income which he had failed to report, income that apparently came from kickbacks, or "cumshaw" as supervisors would say. But Khayat got off without having to go to jail, helped, many believe, by his close attachment with then powerful Sen. James O. Eastland.

Under federal sentence and still on probation, Khayat battled back to win re-election in 1975 by sheer hard campaigning.

Yet Khayat, even with that close call in 1973, apparently did not stop doing business as usual, and it caught up with him again, when an incredibly aggressive young district attorney named Mike Moore came along in Jackson County.

Moore obviously set out to get Khayat, and Khayat's helpmates on the Jackson County Board of Supervisors. It took him quite a while to do it, but he did. Now three of the five supervisors in that one coastal county have been banished from office.

In two trials, however, Khayat was not convicted by a jury of his peers when he pictured himself as something of a modern Robin Hood, which he unquestionably was...to a degree. Yet, the criminal code does not make allowances for Robin Hoods, no matter how much good they may spread, while taking a share for themselves of the peoples' money.

It's no secret throughout the state of Mississippi that many men have come into office as county supervisors with nothing, and become wealthy men. The blame for allowing such a system to exist, and propagate even in small, poor counties, must partly be placed upon citizens who didn't care that supervisors were putting a percentage in their pockets as long as these supervisors were coming around and putting down culverts and gravel in private driveways with no questions asked.

This reporter back in the early 1960's discovered and wrote about the key to the system of kickbacks to county supervisors on road machinery purchases which had been made through a company that went into bankruptcy. Testimony in the bankruptcy proceeding clearly revealed the pattern used by this one company was uniform throughout the business.

A special legislative investigating committee was formed to look into the road machinery kickback system. It made an elaborate study behind closed doors, came out with a report that deleted names of individuals and counties, passed a few high-sounding laws and that was that.

One decade later, in 1973, this reporter again had the chance to break the system of padding metal road culvert prices by 35 percent to cover kickbacks to supervisors as well as provide cushy profits to the culvert companies. The result was a 35 percent reduction in the price of metal culverts sold to counties, and federal indictments of several culvert company officials, but nobody ever went to jail and the system was not reformed.

A lot, it is evident, depends on the tenacity and the independence of local prosecutors from the "courthouse crowd" if change is really to come.

Not Just Social Drinkers

Drunk Drivers Are Problem Drinkers

From MISSISSIPPI STATE UNIVERSITY

We have been kidding ourselves about drunk drivers. Until recently, researchers thought most drunk drivers were non-problem or social drinkers. The majority of rehabilitation programs in the country are designed to help people in this category.

But a recent study prepared for the U.S. Department of Transportation reveals that most drunk drivers are problem drinkers and have a criminal record.

"In view of this, we suggest that the total DUI (Driving Under the Influence) control system must be reconceptualized, and that the total deviant career of offenders must be addressed in addition to drinking and driving behavior," said Jim Landrum, director of the study conducted by the Social Science Research Center at Mississippi State University.

The problem of the drunk driver is a complex one for many reasons, Landrum said.

"Americans are ambivalent about drinking. They either like it or hate it, and for that reason we don't have adequate laws to protect ourselves from the drunk driver."

Landrum said many alcohol-related traffic accidents go unreported as a result of society's ambivalence to drunk drivers.

As the study suggests our current methods of treating drunk drivers are ineffective, Landrum hopes it will be used to support more stringent methods of dealing with the problem.

The issue is gaining the attention of a number of United States Congressmen and several citizens groups.

Rep. James V. Hansen (R-Utah) has been in two automobile accidents involving drunk drivers within a five-month period. He and a number of other legislators have asked President Reagan to appoint a presidential commission to develop a comprehensive, national plan to address the problem.

States without adequate DUI laws may find themselves without federal highway safety funds, if legislation sponsored by approximately 100 Congressmen is passed.

Though the study conducted at Mississippi State University reveals that drunk drivers are problem drinkers and that current rehabilitation programs are largely ineffective, Landrum believes the major benefits of the project "have yet to be realized."

"We have amassed a data set on the social, psychological and deviant career patterns of offenders that will permit the examination of several significant and timely issues in alcohol and traffic safety, family abuse, addiction, and so on," Landrum said.

The data were gathered in 11 Mississippi towns-Biloxi, Columbus, Greenwood, Gulfport, Indianola, Meridian, Moss Point, Ocean Springs, Pascagoula, Starkville, and Tupelo.

The team of researchers who worked on the project included persons from the disciplines of sociology, psychology, business, statistics and computing science, along with graduate students in those areas and in management and counseling.

The study is available to the public through the National Technical Information Service, Springfield, VA., 22161.

Let's Hear The Good News

Dear Editor,

I returned to Booneville almost three months ago (I was the plant manager for Schweiger Industries here in Booneville for six years).

Since my return to Booneville, I have read several accounts of poorly handled political and administrative situations. Questionable actions certainly need to be addressed and the community has the right to know.

I believe it is as vitally important that the very positive aspects of the people of this community be highlighted. My own experience in dealing with the people of this community indicates a high degree of integrity and a genuine concern for people.

As a "transplant" into this community, my experience with these people has been truly rewarding. I do not disagree that problems exist, only that your obvious concern for community betterment be considerate, even enthusiastic of this community's genuinely laudable traits.

I believe the people of this community need to be reminded of these strengths which should be a source of pride to all.

For my own personal experience in this community, I wish to thank all the people who taught me so much and who cared enough to do so.

If possible, I would like you to print this in your editorial section.

Sincerely,
Jim Spooner

Time To Repair Mailboxes

Now that the winter has passed, the Postal Service is urging postal patrons - and especially those on rural routes, city curblines and highways - to turn their attention to repairing and improving their mailboxes during Mailbox Improvement Week, May 17-21.

"This winter was especially rough on mailboxes," said Postmaster Jack Wright. "Now the effects of weather, vandalism, abuse and neglect are evident in leaning support posts, rust and corrosion, broken hinges on doors and missing box numbers and names."

Noting that rural carries alone serve more than 15 million boxes daily, the Booneville Postmaster said a damaged or improperly placed box will make it more difficult for rural letter carriers to leave those special letters and packages.

"Of course some boxes may only need painting," the postmaster said, "but others may need to be replaced. Postal requirements are that Route number and Box number be placed on each rural mail boxes."

The postmaster said the Postal Service has restrictions on the type of mailbox customers may choose.

The postmaster said the Postal Service has restrictions on the type of mailbox customers may choose. Rural customers must erect mailboxes which have been approved for use on rural routes.

Should customers prefer a custom-made mailbox, it must meet certain standards for size and strength and be approved by the postmaster before being placed in use.

Postmaster Wright said a variety of approved commercial mailbox designs are available for use with decorative posts, and those who would prefer a custom-made mailbox, or who need information on mailbox specifications and requirements in general may check with the Booneville post office.

Thought for the week:
"Love Is..."

(Inspired by 1 Corinthians 13)
Love is ... a tiny seed
God planted in the mind;
It blossoms into flowers
And makes a person kind.
Love is ... compassionate
Has hope for those who fall;

Love is the effective,
Most Christ-like way of all!

Love is ... not resentful,
It readily forgives;
It brings great happiness
to those with whom it lives.

Love is ... ever patient,
It's found in trustful hearts;

It is most unselfish,
The finest of all arts!
Love is ... like the sun-

shine-

It shines on good and bad,
It dissipates the darkness
and makes the whole world glad!

Love is ... the childlike way -

Secure in Father's care,
For God is almighty
His love is everywhere!
His love is everywhere!

THE TYPE ON THIS PAGE WILL DISAPPEAR IN ONE MINUTE

We're kidding, of course. The type on this page —and every page in the paper—will be here all day.

And all day tomorrow.

And Sunday.

Or whenever you have time to read it.

That's why the Banner-Independent is so popular with the folks of Prentiss County. It tells them what's happening at home and who's having a sale. And it tells them when they're ready to hear it. They don't miss it because they dozed off watching TV.

Or went out to walk the dog.

Or answer the telephone.

Or to the bathroom during the commercial.

Our readers don't have to be ready for what we have to tell them between 4:38 and 4:39 a.m. every other Tuesday. They know we are coming to their homes every week. They know because they invite us. . . . and even pay us to come.

And they invite us back week after week, year after year, because

They can read it now or they can read it later.

Dedicated To The People And Progress Of Prentiss County

SOIL STEWARDSHIP WEEK PROCLAIMED -- J.P. Davis (seated), president of the Prentiss County Board of Supervisors, signs a proclamation declaring May 16-23 Soil Stewardship Week in Prentiss County. Looking on are Buddy Smith (left), chairman of the Prentiss County Soil and Water Conservation District, and Bobby Hodge, deputy commissioner with the district.

Soil Stewardship Week To Be Observed

The Prentiss County Soil and Water Conservation District will join in the nationwide celebration of Soil Stewardship Week, to take place May 16-23, according to Ralph G. (Buddy) Smith, chairman of the Prentiss County SWCD.

The theme for this year's celebration is "A Time for Tenacity."

"This is 'A Time for Tenacity' in our faith, in concept, in communication, in cooperation, in the political arena, in experiments and research, in leadership, in priorities, and in total commitment," cites the National Association of Conservation Districts (NACD) in the 16-page Soil Stewardship Week booklet.

President Ronald Reagan wrote the forward for this publication.

NACD has sponsored Soil Stewardship Week since 1955 in cooperation with the nation's nearly 3,000 soil and water conservation districts.

Informative material on the Soil Stewardship Week theme each year is distributed through local conservation districts to clergymen, lay leaders, churches, civic and educational organizations and to individuals participating in the observance.

"With the growth of population and the world demand for food and with the clearing and develop-

ment of most land that is suitable for cultivation, we must turn our attention to the task of saving every acre," a NACD spokesman said. "The dream of adequate food and shelter must cover a period that extends far into the future because this is the only world we have and the total heritage of our descendants."

Information and materials for the 1982 observance of Soil Stewardship Week are available in this area from the Prentiss County Soil & Water Conservation District located in the North Mississippi Savings & Loan Association building, 107 College St., Booneville; phone 728-3544.

HIGH FLYER—Leaping flying baserunners with a single bound, freshman Rod Coggin of Booneville avoids a second base collision with a Saltillo Tiger. Although Saltillo closed the Booneville season with successive verdicts, Coggin netted the Sportsmanship Award for his fine play on the surprising Devil club.

Baldwyn Drops Devils In Opening Round

By CHRIS BURROWS
Contributing Editor

BALDWIN -- Taking advantage of three critical Booneville errors, the Saltillo Tigers eliminated the Blue Devils, 4-3, in Monday's opening round of the Tombigbee Tournament.

The setback capped the campaign at 9-9 for the upstart Devils, the surprise team of the Class 'A' baseball circles in 1982.

"I think we earned the respect of everyone," said Kenneth Shackleford, first-year coach of the Booneville squad.

"I think we may have peaked too soon," admitted Shackleford, in retrospect. "At one time we were 9-4, but we cooled off late in the year, especially with the bat."

The reflection was evident in the opening round of the Tombigbee Tournament. Despite freshman Rod Coggin's superb one-hitter, the silent Booneville bats could not produce enough offense to stop the Tigers.

At the same time, Saltillo capitalized on three infield errors in the top of the eighth frame to pick up a pair of runs. "That's what killed us," sighed Shackleford, still proud of his squad in defeat.

In the bottom of the inning, Ray Holloway socked a solo homer to pull Booneville within 4-3, but Saltillo snuffed the threat. Greg Oakley was aboard with the tying run before Saltillo's Tim Wigginton whiffed a Blue Devil for the final out of the season.

Although the season

closed on a sour note, Shackleford was encouraged with the progress of his squad. "For one thing, we played more games (18) this season than we have in a long time."

At the same time, the nine wins represented the most verdicts by a Devil diamond club in over five years. Booneville managed to participate in the district playoffs, too, a first for the school.

"We had been regarded as a pushover," reminded Shackleford. "But, I think we proved we have a good team. The players worked hard to improve."

However, the best news is found in the prospectus for 1983. "We have nine starters coming back," beamed Shackleford. "We don't lose a single starter from this year's club. Hopefully, this will mean our best days are still down the road."

Shackleford revealed the award winners for the Cinderella squad: Rod Coggin earned the Sportsmanship Award.

The best fielder plaudits went to outfielder Larry

Mackin. Junior Greg Oakley gathered best hitter and MVP laurels after a superb season, including an awesome nine round-trippers.

"We hate it ended like it

did," summarized Shackleford. "But, we are looking forward to next year."

Booneville opponents probably won't share the same enthusiasm.

HE'S OUT--Blue Devil first sacker, Jody Presley, squeezes the ball for the inning-ending play against Saltillo last week. Umpire Charlie Kennedy echoed the out call, but Saltillo had the last laugh, registering an 8-3 decision. The Tigers prevailed again, 4-3, in the opening round of the Tombigbee Tournament on Monday night, completing the Booneville season with a 9-9 mark.

City, Church Softball Leagues Ready For New Season

The 1982 City League and Church League softball seasons get underway next week, with eight teams on the City League roster and four in the Church League.

Regular play for City League teams will take place on Tuesday and Thursday nights through July 6. There will be four games each night, with all teams seeing action each

Tuesday and Thursday.

The City League Championship Tournament will be July 8-11, while the Booneville Holiday Invitational Tournament will be July 1-4. The holiday tournament is optional; teams may enter if they wish.

There is a \$35 entry fee to participate in the Holiday Invitational Tournament.

No fee is charged for participation in the League Championship Tournament.

City Church League action will take place on Monday nights, May 17 through July 12, with all four teams playing twice each Monday night.

All City Church League games will be played on the east field, located behind the Community Center.

Teams participating in the City League are Goodyear, Sportin' Goods, The Breakfast Club, Sell-Rite, Marathon Cheese, Burcham & Sons Electrical, Custom Painting and Schweiger Industries.

City Church League teams include Gaston Baptist, Mormons, Independent Christians, and East Booneville Baptist.

For Reclassification

Coach Gullett Likes Proposals

By CHRIS BURROWS
Contributing Editor

The Mississippi High School Activities Association (MHSAA) could be giving Booneville a Christmas present this year. Proposals concerning reclassification and abolishment of spring practice will go into effect if the MHSAA receives approval for the second-time in a December 1982 vote.

"If the proposals aren't changed from what I

originally understand," began Doc Gullett, Booneville football mentor, "Then, I'm all for it."

The proposals would reclassify the Blue Devil football program and rearrange the scheduling for off-season football practice.

The practice proposal would allow all football teams to work out at any time during the off-season. However, the practice would be limited strictly to helmets, shorts, shoes, and shirts.

"There are pluses and minuses to the proposal," explained Gullett. "I like the fact you could practice any time. But, the new proposal would hurt in preparing linemen for the upcoming season because it restricts contact."

However, the biggest noise is being heard concerning the reevaluation of enrollment figures. In the football setup, the familiar lineup of B-BB-A-AA would become a thing of the past. Instead, schools with

enrollments of 200 or less would become Class A. Schools with 201-400 students would become Class AA.

Class AAA would encompass schools with 401-700 students. Finally, schools with enrollments of 701 and above would be Class AAAA.

Instead of District play, football teams would participate in Region play. Districts one and two would become Region A. Districts three and four would become Region B while five and six would be Region C.

Districts seven and eight would make a final Region, D.

Translated into simple terms, the Booneville and Baldwin athletic programs would become Class AA, competing in Region A.

Each of the other Prentiss County schools would be competing in Class A in Region A. Obviously, none of the other county schools would be affected on a football basis at this time.

If the present proposal can pass the December vote, then Booneville and Baldwin will be two of 87 Class AA schools in Mississippi.

Jumpertown, Wheeler, and New Site would be three of the 119 Class A schools in the state. The Class A setup would become the state's largest classification system.

"From a football standpoint, this would be a great thing for us," urged Gullett. "Right now, we are the smallest Class A school in our district. Under the new setup, we would be right in the middle of the new AA class."

Gullett pointed out larger A schools like New Albany, Corinth, and Houston would be forced off the Booneville schedule in favor of Okolona, Biggersville, Belmont, and Nettleton.

The competition would be much fairer for us," explained Gullett. "In fact, we need the relief from playing much larger schools than us."

"This way, the new AA class will be made up of the small A schools, like us, and the larger BB schools, like Baldwin, Biggersville, and maybe Hamilton."

The controversial new proposal is the brainchild of Tupelo football leader, Ricky Black. "The way it stands right now, I like Coach Black's proposal," echoed Gullett.

At the same time, Gullett

Legal Notice

The Board of Supervisors took up the matter of issuance of the Industrial Development Revenue Bonds of Prentiss County, Mississippi, in the principal amount not to exceed One Million Seven Hundred Fifty Thousand and No-100 Dollars (\$1,750,000.00). After a discussion of the subject, Supervisor William L. McKinney offered and moved the adoption of the following resolution:

RESOLUTION DECLARING THE ISSUANCE OF PRENTISS COUNTY, MISSISSIPPI, TO ENTER UPON AN INDUSTRIAL DEVELOPMENT PROJECT AND TO ISSUE INDUSTRIAL DEVELOPMENT REVENUE BONDS OF SAID COUNTY IN THE PRINCIPAL AMOUNT NOT TO EXCEED ONE MILLION SEVEN HUNDRED FIFTY THOUSAND AND NO-100 DOLLARS (\$1,750,000.00) FOR SUCH PURPOSE, AND DIRECTING THE PUBLICATION OF NOTICE OF SUCH INTENTION.

WHEREAS, the Board of Supervisors of Prentiss County, Mississippi (the "Governing Body"), acting for and on behalf of Prentiss County, Mississippi (the "Issuer"), does hereby find, determine and adjudicate as follows:

1. The Issuer is a municipality as defined in Chapter 147, General Laws of Mississippi, Regular Session 1960, as amended, appearing as Title 57, Chapter 3 of the Mississippi Code of 1972 (the "Act");

2. On April 5, 1982, this Governing Body, as authorized by the Act, adopted a resolution making application to the Mississippi Board of Economic Development (the "Board") for a Certificate of Public Convenience and Necessity (the "Certificate") authorizing the Issuer to acquire, own and lease a Project as hereinafter defined and to issue its Industrial Development Revenue Bonds to finance said Project;

3. On April 15, 1982, the Board ordered and directed the approval of the aforesaid application and issued its Certificate No. 520R to the Issuer, which Certificate authorized the Issuer to issue its Industrial Development Revenue Bonds in the principal amount not to exceed One Million Seven Hundred Fifty Thousand and No-100 Dollars (\$1,750,000.00) to provide funds to acquire said Project and thereafter to lease said Project to East Asiatic Company, Inc. or its designee (the "Company") for the purposes hereinafter set out; and

4. In order to promote industrial development and to provide additional gainful employment for its citizens, the Issuer should declare its intention to issue industrial development revenue bonds of the Issuer in the principal amount herein provided.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY, ACTING FOR AND ON BEHALF OF THE ISSUER, AS FOLLOWS:

SECTION 1. That this Governing Body, acting for and on behalf of the Issuer, does hereby declare its intention to issue Industrial Development Revenue Bonds of the Issuer in the principal amount not to exceed One Million Seven Hundred Fifty Thousand and No-100 Dollars (\$1,750,000.00) (the "Bonds") to provide funds for the purpose of defraying the cost of acquiring an industrial enterprise, consisting of land, buildings, improvements, machinery and equipment (all of which together constitute the "Project") for the manufacturing and processing of meat products or other permissible products under the Act, and thereafter to lease the Project to the Company; provided that the Bonds shall be payable both as to principal and interest solely from the revenue to be derived from the leasing of the Project, and neither the Bonds nor the interest thereon shall ever constitute an indebtedness of the Issuer within the meaning of any constitutional provision or statutory limitation of the State of Mississippi, nor ever constitute or give rise to a pecuniary liability of the Issuer or a charge against its general credit or taxing powers.

SECTION 2. That the issuance of the Bonds in the amount and for the purpose aforesaid shall be authorized at a meeting of the Governing Body to be held at the County Administration Center in the City of Booneville, Mississippi, at the hour of 10:00 o'clock a.m., on May 17, 1982, or at some meeting held subsequent thereto, unless on or before the aforesaid date and hour, twenty percent (20 percent) of the qualified electors of the County shall file a written protest against the issuance of the Bonds, in which event the Bonds shall not be issued unless authorized at an election on the question of the issuance thereof to be called and held as provided by law. If no such protest be filed, then the Bonds may be issued without an election on the question of the issuance thereof at any time within a period of two (2) years after the date hereinabove specified.

SECTION 3. That this resolution shall be published once a week for at least four consecutive weeks in the Banner-Independent, a newspaper published in Prentiss County, Mississippi, and qualified under the provisions of Section 13-31 of the Mississippi Code of 1972. The first publication of this resolution shall be made not less than twenty (20) days prior to the date fixed in this resolution for the issuance of said Bonds, and the last publication shall be made not more than seven (7) days prior to the date aforesaid.

SECTION 4. That the Clerk of this Issuer is hereby directed to procure from the publishers of the aforesaid newspaper the customary proof of the publication of this resolution and to have the same before this Governing Body at their meeting to be held on the date and at the hour set forth in Section 2 of this resolution.

Following the reading of the foregoing resolution, Supervisor Larry Barron seconded the motion for its adoption. The President put the question to a roll call vote, and the result was as follows:

Larry Barron voted: Aye
Jimmy Moore voted: Aye
H.B. Lindsey, Jr. voted: Aye

Plan Shade Tree Planting To Reduce Energy Consumption

By CLAIRE T. ROSS
Home Economist

ADVICE FOR SPRING GARDENERS

It is that time of year again when thoughts turn to gardening. We encourage gardeners to look closely at their need for shade on the house, walks, drives, and patios. Reducing heat gain from intense summer sun can save money by reducing energy consumption of the air conditioning unit.

During the hottest summer months, the sun rises in the northeast and sets in the northwest. Check your landscape situation for these vulnerable areas. If you need shade trees, don't wait any longer to plant.

In years to come, the energy savings will more than pay for the price of the tree. Suggested varieties of

shade trees for Mississippi gardening are listed in Extension Publication 666 entitled "Selecting Landscape Plants." It also lists vines and shrubs which are excellent for shade on east and west walls.

For the patio and terrace area, small shade trees, provide appropriate scale, color, and shade. One of the most popular small flowering trees is the crapemyrtle. Ask us for a free copy of the new information sheet entitled "How to Plant and Care for Crapemyrtle."

During hot days of summer, trees, shrubs, and flowers need plenty of water. You can help reduce drouth and the need for watering by using mulch around your landscape plants. A four to six inch layer of pine straw, leaves, rotted sawdust or crushed

pine bark will provide excellent protection. Save your pine straw and leaves.

What you don't use as mulch around the plants can be put into a compost pile for a ready source of future mulch of compost.

One last suggestion: Go look at your air-conditioning unit and see if it is sitting in the boiling sun with no shade protection. Most people don't realize that shade on the unit will increase the efficiency and minimize strain on the unit.

A small shade tree is ideal, so long as it does not interfere with the roof of the house. Another idea is a simple screen or arbor covered by a quick-growing vine, such as clematis, morning glory, or Carolina jessamine.

In many instances, one section of simple fencing can reduce hot afternoon sun

with good results. In all situations, remember that a unit must be serviced and should be accessible to workmen. In addition, always be cautious of underground utilities when planting near any electrical equipment.

Rienzi News

By VIOLA PRESLEY
Correspondent

In Jackson, Tenn., Wednesday night attending the Strawberry Festival were Josie Hughes, Todd Cox, Andy Gann, Robin Johnsey, Ritchie Williams, Jr. and Mrs. Jimmy Thompson, Blake, Allan and Scotty Thompson and Mrs. Charles Dick.

George and Peggie Ayers and daughter, Gina, held an open house recently in their new home east of Rienzi. Arrangements of silk flowers, fresh flowers and potted plants were scattered throughout the house. Conversation and laughter could be heard from the basement where twelve varieties of finger foods, with coffee and two flavors of punch were served. New acquaintences were made and old friends visited. A retired teacher saw a former first-grade student for the first time in 45 years. Using wood throughout the

house, variety was accomplished by changing the style in each room and by custom designing the kitchen and bathroom cabinents.

Over 100 friends came from Nettleton, Tupelo, Pontotoc, Dumas, Walnut, Booneville, Corinth, Rienzi, Burnsville, Belden, Baldwin, Okolona, and Florence, Ala.

Assisting in serving were Denise Presley, Eloie Francis, Janet McCarver, Sherry Berry and Judy Bright, all co-workers of Mrs. Ayers. Guests were guided on a tour of the home by Mr. and Mrs. Ollie Rorie, parents of Mrs. Ayers.

Mr. and Mrs. Roy Morgan were in Corinth Sunday to be with Mrs. Kellie Holder and her family as the group celebrated Mrs. Holder's birthday.

Bro. and Mrs. Nat Mayhall and Mrs. Dale Mayhall of Corinth were visitors at the Rienzi Baptist Church Sunday where Bro. Mayhall was guest speaker at both morning and evening services.

Mr. and Mrs. Ken Nash were in Jackson, Tenn., Saturday and Sunday for the Marshall family reunion.

Lee Benjamin celebrated a very happy birthday on his 12th birthday Sunday. He was joined in the festivities by his parents, Mr. and Mrs. Irb Benjamin, and his sisters and brother, Stacy, Holly and Burton Benjamin.

Mrs. Billy Crow is recovering nicely from a recent illness and is delighted to be at home again.

Among our young people who will be observing birthdays this Sunday will be Tim Perry and Michael Walker. Each family is planning special events in keeping with the day.

Mr. and Mrs. Dee Lockhart visited with Mrs. Jessie Smith at the Care Inn in Corinth Wednesday.

Mrs. Christine Gallahar was a guest Wednesday of Mrs. Della Massengill.

Mrs. Sherri Weeks and Cindy Weeks of Florence, Ala., were here Friday and Saturday for a visit with Mrs. Truman Smith.

ATTEND LEADERSHIP MEETING - Members of the Booneville High School FHA who attended the State Leadership meeting in Jackson on April 29 and 30 are (from left) Susan Wimberley, Mitzi Johnson, Stephanie Lindsey, Deanne Lambert and Michelle Young. Mitzi was elected to sing in the FHA Chorus which sang at the banquet Thursday night. Mrs. Cissy Worley and Mrs. Lee Griffin, Home Economics teachers at Booneville High School, were chaperones for the trip.

TIMBER HILLS
MENTAL HEALTH SERVICES

"VANDALISM, VIOLENCE, ETC."

We have discussed the prejudice that so many older persons are expressing against the current crop of teenagers, and pointed out that, from all evidence, today's young people are at least as responsible, creative and concerned as those in past generations.

There are, of course, exceptions...and it is these exceptions that make the headlines. There is no point in denying the fact that schools and public buildings are sometimes vandalized, that careless driving often causes accidents, and that, occasionally, there is seemingly unprovoked violence which results in permanent injury or even death to the victim. And it is also a fact that often teenagers are involved in these incidents.

What makes a young person break out in seemingly unreasoning anger at his environment, his school-mates or teachers; or sometimes even total strangers? Psychiatrists, social scientists and educators have been asking that question for a long time, and unfortunately no simple answer has been found.

Is there any way to tell which youngster will become involved in violence? Again, there is no simple answer to that either. All newspaper readers remember the stories of teenagers perpetrating some particularly horrifying crime and being told in the newspapers that the neighbors all considered these youngsters as "model citizens."

"They were so quiet and respectful," is often the description.

Counselors who deal with these seriously troubled youngsters know one thing: they are usually bitterly angry, often at their parents, and by extension at all authority. Often they can't admit this anger to themselves. They will say that they did not know what suddenly came over them. But usually there have been symptoms for a long time, clues which no one picked up because no one realized that they were at all serious.

For instance, there is the boy who has been known to wantonly destroy other children's property, to throw bricks at street-lights and through windows. Sometimes his parents will pay the damage and shrug it off with "boys will be boys." Sometimes parents will punish the youngster severely, but will not look at what's behind his actions...mainly because they don't realize that perhaps their son is trying to tell them something with his destructive behavior.

Counselors are aware of the fact that "boys will be boys" and that every thrown brick or crumpled fender doesn't necessarily mean emotional problems. However, if there is any kind of pattern in the youngster's behavior that points to great anger and frustration, they would advise that professional help be sought immediately.

Help should also be sought of the school, or the scout leader, or the clergyman or any person who knows that youngster well if there are indications that something is wrong. It is often possible for a relative stranger who sees the child away from his own home to see that a child or a teen-ager has an emotional problem which the parents cannot see.

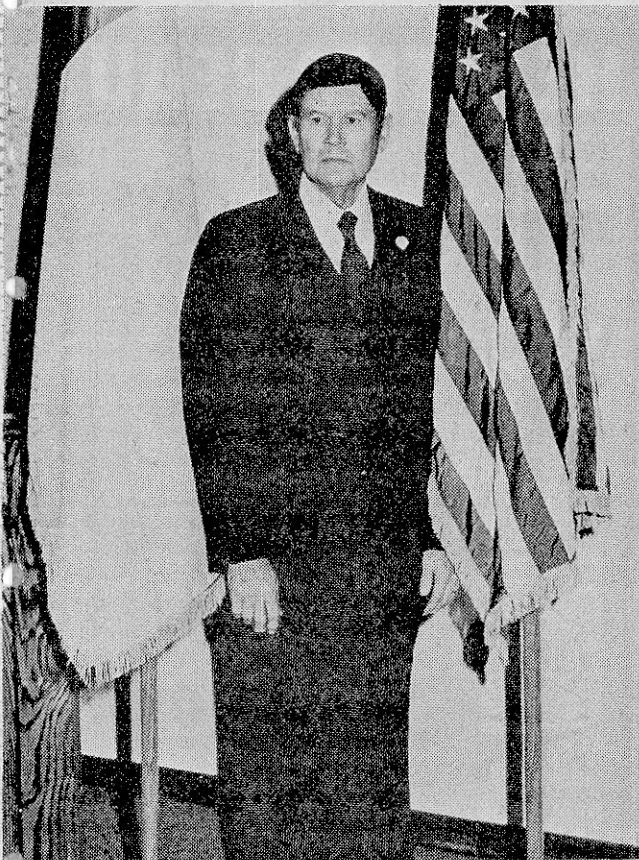

In such cases, help should be sought as early as possible, not only to avoid potential disaster, but also because it is usually easier to cope with problems before they become deep-seated and chronic.

Certainly a parent would call the doctor if a youngster ran a fever or had a rash that kept returning. It is just as important to call a mental health professional, such as a Timber Hills counselor, if the teen-ager shows signs of furious but repressed anger, if his pattern of behavior changes suddenly, or if anyone who works with him or teaches him says that something is not quite right.

Timber Hills Mental Health Center offers a variety of workshops in areas such as parenting, stress management, couples communication and assertiveness training. For information about services available phone 728-3174 or visit the offices on the Highway 30 By-Pass in Booneville, Mississippi.

After hours and on weekends phone 1-286-9209 toll free for emergency counseling services.

FLAGS PRESENTED - Woodman of the World Camp 60 of Booneville recently presented an American and a Christian flag to the Fulton Bridge Baptist Church in Hamilton, Ala. Wimp Caldwell, local W.O.W. representative, presented the flags to the pastor, Jasper Nell (pictured above). The Christian flag was given by Aaron and Shirley Mitchell.

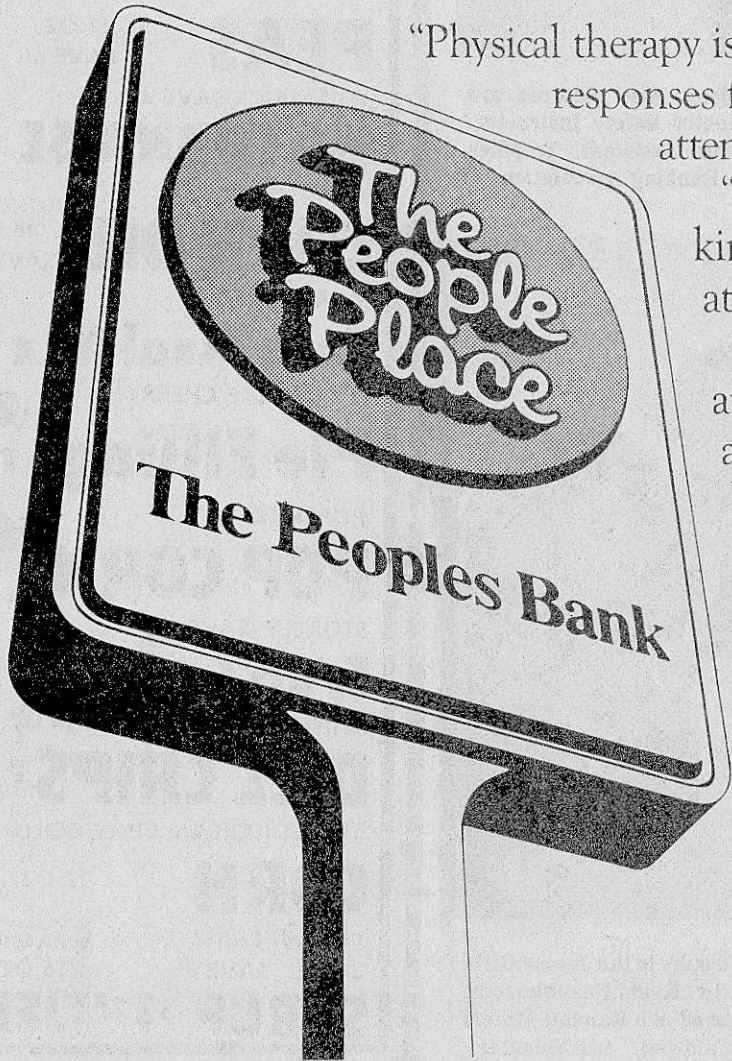

"Physical therapy is a one-to-one profession. To get the right responses from my patients, nothing else but individual attention will do.

"Banking is no different. I demand the same kind of relationship from my bank. And I get it at The People Place.

"When you walk in, they don't treat you like an account number. They're glad you're there—and they look forward to helping you with your banking needs, whatever they may be. To me, that's the sign of a good bank."

Wind Damage May Be Mistaken For Insect, Disease Problem
Those bent, curled or deformed leaves appearing on your shade trees this time of year might only be the result of high winds rather than insects or disease.

High winds that occur frequently in spring soon after trees begin to leaf out

can break or bend tender new leaves and twigs. New growth is then sometimes deformed, leading to the conclusion that an infestation of insects or a disease is present.

Magnolias, yellow-poplars (also known as tulip trees), sycamores, and other large-leaved trees are most likely to show wind damage.

Your tree may look ragged for awhile, but as leaves continue to develop

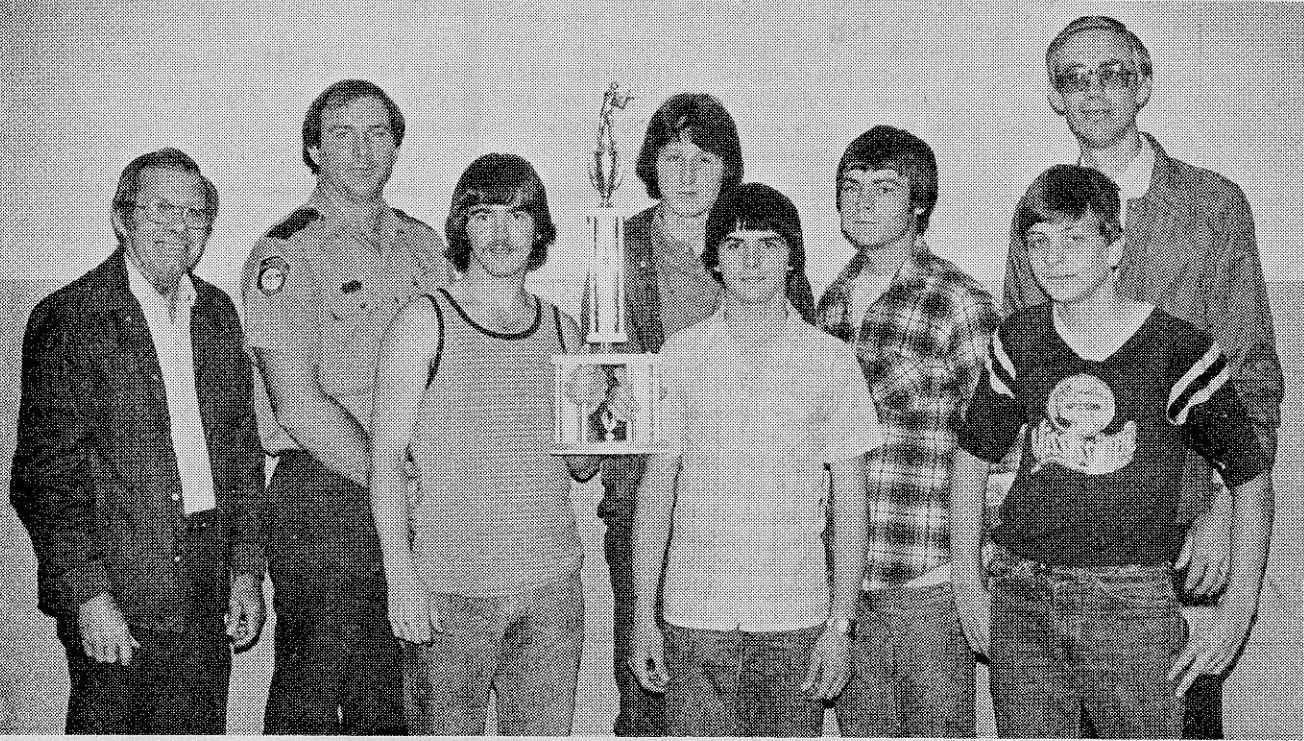

damage becomes less apparent. Usually by summer appearance of the tree is back to normal.

Notwithstanding the fact that your tree's problem may be wind damage, it is nevertheless wise to inspect affected foliage very closely for the presence of insects or disease organisms; then take quick action if needed and practical, to control the problem early on.

Among more common

insects affecting tender foliage are mites, aphids, caterpillars, several species of gall-forming insects and leaf miners. Common diseases are leaf-mold, or leaf-spot, fungi.

If you need some help in identifying tree problems give us a call. There may be a waiting list, but we'll try to get around and look the situation over as quickly as possible. The telephone number to call is 728-6835.

Speak Out For Him

A man on his way to a prayer meeting saw a stranger looking into an open window of the church. Sensing the leading of the Holy Spirit the christian invited the stranger to attend the service. The stranger did and it was the beginning of a new life for him because that night he was saved. Afterwards he said, I've lived in this city for seven years and no one has asked me to go with them to church. I hadn't been in this town three days before men from the dairy and the laundry contacted me. Yet in all those years you are the first to show an interest in my soul. This story makes me wonder how many lost people are constantly rubbing elbows with SILENT CHRISTIANS.

A little girl once asked her mother - "Do you love Jesus, mother?" "Why yes child I do, but why do you ask?" "Well, mama, you speak of Uncles and Aunts and others, but I never hear you talk about Jesus. I just thought if you really loved Him I'd hear you say so." This brought conviction to the mother and from that day on she determined to let it be known that she truly loved the Lord. The Bible gives christians a command in Psalms 107:2 - - it says - - LET THE REDEEMED OF THE LORD SAY SO.
