Farmers' Market Opens On College St.

The new Prentiss County Farmers' Market was scheduled to officially open today, providing Prentiss County farmers with a place to sell their produce directly to consumers.

At the beginning of the week, all that remained in completing the market was the spreading of gravel over the lot.

Located directly across College Street from the Booneville Gas and Water Department, the new market provides 10 covered stalls for use on a first-come, first-served basis. Due to a Booneville ordinance prohibiting peddling in the city, only farm products grown in Prentiss County can be sold at the market.

The opening of the market is due to the efforts of the agricultural committee of the Prentiss County Development Association, the Prentiss County Agricultural Coordinating Council and elected officials of Booneville and Prentiss County.

The market is located on county-owned property and the Prentiss County Board of Supervisors provided equipment and personnel to prepare the lot for construction of the 10-stall shed. The city of Booneville has installed a water line to the location and will provide garbage pickup at the site.

PCDA executive director Doug Mansell said Tuesday that this project has prompted more calls to the PCDA office than any other single project undertaken by the organization.

He said the calls were divided about 50-50 from farmers with products to sell and from consumers wishing to purchase fresh fruits and vegetables.

J'town Voters Approve Franchise Ordinance

Jumpertown voters okayed an ordinance Tuesday to grant a franchise to the Prentiss County Electric Power Association and the city of Booneville which supplies electricity and natural gas to the citizens of Jumpertown.

There were 55 votes for the ordinance and 15 against. Jumpertown Mayor C.D. Windham said that about half of the qualified voters turned out for the election.

The franchise would generate extra revenue for the city. The mayor and board of aldermen hope it will be enough money to hire a town marshal.

However, the city of Booneville has indicated to the board's attorney Tommy Cadle, that it plans to fight the franchise. Therefore, Jumpertown officials say they will have to wait and see what their next steps will be.

The Jumpertown board of mayor and aldermen met Tuesday night in a recessed meeting. During the meeting the board discussed the possibility of expanding the city limits about a quarter of a mile east on Highway 4 and about a half mile west. That would put about 22 more homes in the city limits.

If the city limits were expanded, it would mean the water pumps would be inside the city limits. "I believe and some of the aldermen believe we do need our pumps inside the city limits," Mayor Windham said.

Hearings To Be Held On Use Of City Funds

The City of Booneville will hold two public hearings during their regularly scheduled city board meeting Tuesday night, Aug. 3, in the board room at city hall.

The first hearing, at 6:30 p.m., will be to solicit public input concerning the development of an application for block grant funds from the state of Mississippi. Information concerning the program will be discussed at the meeting.

All persons are encouraged to attend this meeting and offer comments related to the development of an application, a spokesman for the City Hall said.

That same evening, at 7 p.m. in the board room, there will be a public hearing to obtain written and oral comment from the public on the proposed uses of revenue sharing funds in the city's budget for upcoming fiscal year 1982-83.

The city expects to receive \$109,276 in revenue sharing funds during the coming fiscal year.

"All interested citizens' groups, senior citizens and senior citizen organizations are encouraged to attend the hearing," the spokesman for the city said.

Those attending the hearing have the right to provide written and oral comments and suggestions regarding possible uses of revenue sharing funds.

Construction Resumes After Judge's Ruling

Following a three-hour hearing in Oxford Monday, U.S. District Judge William Keady Tuesday allowed work to resume on portions of the Tennessee-Tombigbee Waterway where construction has been at a standstill since a federal court order last year.

The U.S. Corps of Engineers filed a new environmental impact statement on the waterway before the court-ordered June 1 deadline. Thus, Judge Keady ruled "there is no basis for the issuance of injunctive relief at this time."

Construction on portions of the waterway was halted by court order as the result of lawsuits filed by opponents of the project.

Taking Careful Aim

Getting in some practice for a miniature golf tournament next week at the West Side City Park, Mark Duncan takes careful aim at the hole as (l-r) Jon Oakley, Bob Stutts and Nancy Stutts await their turns. The tournament will be held July 29-31. Ages 8-12 will play July 29; senior citizens, July 30; and young adults and adults, July 31. To register or for more information on the tournament, stop by the miniature golf course at the City Park. (Photo by Ken Christian)

County's Unemployment Rate At 10.3 Percent

Prentiss County's unemployment rate continued its upward trend at mid-June.

The rate of unemployment in the county was estimated to be 10.3 percent of the civilian labor force -- or 1,100 individuals -- according to Charles Smith, manager of the Mississippi State Employment Service in Corinth. This compares to 9.4

percent in May and 9.0 percent in June 1981.

The county's civilian labor force was estimated to be 10,690, 180 below the previous estimate but 190 above that of one year ago. The number of county residents employed also declined over the month to reach 9,590. This was a slight rise over the number one year ago.

Manufacturing employment in Prentiss County was estimated to be 2,760, only slightly above May's estimate, but 90 below that of June 1981.

Non-manufacturing employment, at 3,500, dropped 70 from the May estimate, with a rise of 230 over the year.

FOUR-COUNTY AREA
The unemployment rate

for the four-county area of Alcorn, Prentiss, Tishomingo and Tishomingo stood at 12.9 percent during June.

This is an increase of .7 percent over the previous month and 3.5 percent over the estimate for June 1981, Smith said.

The civilian labor force, a combination of employed and unemployed persons, showed a decrease for the

area during the month of June. Comparative totals showed a decrease of 230 from May and 950 from June 1981.

The number of area residents employed was estimated to be 42,310, 580 below the estimate last month and 2,590 below one year ago. This monthly decline was attributed primarily to

Nonagricultural Wage and Salaried Workers and Agricultural Workers, while the yearly drop was noted in Nonagricultural Wage and Salaried Workers and Other Nonagricultural Workers.

An estimate 14,510 workers were employed in manufacturing industries in the four-county area,

After Year's Wait

Autopsy Results Show No Poison

After almost a year, the results are in on an autopsy performed on the exhumed body of a Prentiss County man believed to have been poisoned six years ago by a friend's wife.

It was last August when the body of Prentiss Countian Bynum Rogers was exhumed so an autopsy could be performed to determine whether he died of natural causes or was poisoned.

The Prentiss County Sheriff's Department received the autopsy results Monday morning. According to the State Crime Lab, "No strychnine, arsenic or drugs were detected in the autopsy samples submitted."

Rogers' body was exhumed last summer after a former Prentiss County resident, Richard Caldwell accused his ex-wife of poisoning Rogers. Caldwell has been convicted of one murder in Tennessee and has been indicted on another murder charge there, according to Prentiss County Deputy Sheriff Carl Sartin. "Right now we're up against a wall until something further develops," Sartin said this week. "The main thing we have to do is prove the cause of death and we can't right now."

Sartin said he plans to talk with Caldwell again. Caldwell is in jail in Tennessee.

"As far as I can see now," Sartin said, "another autopsy would not be performed."

The bizarre story began to unfold in March 1981 when Sartin received a telephone call from an investigator in the sheriff's department in Lexington, Tenn., who said Caldwell had confessed that his former wife, Lucille Morgan Caldwell, poisoned Rogers in February of 1976.

Caldwell, a native of Kentucky, and his wife and family lived in Prentiss County near New Site for about two years.

Caldwell told authorities

PCEPA Annual Meeting Scheduled For August

Four members of the Prentiss County Electric Power Association's board of directors will be up for re-election at the annual PCEPA membership meeting, scheduled for 10 a.m. Friday, Aug. 27, at the PCEPA headquarters building in Booneville.

The Prentiss County Electric Power Association is a publicly owned utility which purchases electric power from the Tennessee Valley Authority for resale to the residents of Prentiss County.

Those Prentiss County residents who purchase electricity from PCEPA are considered to be members of

the Association and are eligible to vote in the election of the Association's board of directors.

The board of directors is composed of 13 members -- two from each of the old supervisors' districts, plus two members from Booneville and one member from Baldwin.

To be eligible to seek election to the board, a member of the Association must be a bonafide resident of the county and must reside in the district which he is seeking to represent.

He also cannot be related to a PCEPA employee, cannot be closely associated with the sale or generation

of electricity, and cannot be employed in a competing industry -- such as natural gas.

Anyone who wishes to seek election to the board of directors must complete the necessary forms and formally qualify at least 25 days prior to the election. This year's deadline to qualify is Aug. 2.

The 13 directors serve staggered three-year terms. Those with terms expiring this year are Percy White (president of the board), J.H. Gardner, J.C. Hudleston and J.M. Green. All four have already qualified

Burton Resident Is 'Blanketed' In Quilts

By ANGELA SMITH
Staff Reporter

Claude Wilemon of Burton says he doesn't have a blanket in his house. But he does have some 300 quilts.

Wilemon is owner of The Quilt Shop on Highway 30 east of Booneville. It is there in his old, white two-story house that he creates quilts so beautiful they are works of art.

Wilemon, 54, has designed over 70 of his own quilt patterns. He cuts out the patterns and pins them down and then hires women to sew the quilts.

"The sad part about it is the women are all over 65. Quilting is a dying art

because young people don't quilt," Wilemon said.

The women who sew for Wilemon range in age from 65-85 and live in Booneville, Baldwin, Iuka, Dennis and sometimes out-of-state.

Wilemon uses the very best cotton blend fabric. He averages from 2-6 finished quilts a month. His quilt prices range from \$150 to \$500. Some 27 of his quilts are for sale at the World's Fair in Knoxville.

Wilemon retired in May 1981 after teaching school for 31 years. He taught in Prentiss, Alcorn, Tishomingo, and Itawamba counties. He was the last principal at Burton school -- which is not far from his

home.

He was born in Tishomingo county -- about three miles from his home now. He lived on a road in Mackey's Creek Bottom.

Some 11 years ago Wilemon began collecting scraps from a blouse factory in Mantachie. "I sold a big truck load for \$60 and I thought I was rich!" he said.

Then he began supplying scraps to women and they began making quilts on halves. Then Wilemon himself began quilt designing.

"I steal my designs from nature," he says. "The Mississippi Cotton Patch"

AN ELVIS QUILT--Claude Wilemon of Burton is shown tying the shoelaces on a pair of blue suede shoes that are on an Elvis quilt he designed for his daughter. Wilemon has designed over 70 of his own quilt patterns. Mrs. Robert Kennedy was one of Wilemon's customers who purchased a pattern for the Elvis quilt.

slightly above the previous estimate but substantially below that of one year ago, by 1,310.

Nonmanufacturing employment had a total employment of 18,390 at mid-June. No change was noted from last month but a decrease of 2,250 workers was experienced from the June 1981 estimate.

This large yearly decline

was experienced primarily in Construction and Government.

STATEWIDE

Mississippi's unemployment rate rose to 11.6 percent in June, an increase of 1.6 percent over May's jobless rate of 10.0 percent, according to Mississippi Employment Security

Commission executive director O.H. Simmons of Jackson.

Last year's June unemployment rate was 9.1 percent.

The 11.6 percent unemployment rate for the state was higher than the national rate of 9.8 percent for June.

MESC figures showed 123,100 unemployed and 936,100 unemployed out of a

civilian labor force of 1,059,200. The initial unemployment insurance claims totaled 25,394 in June.

Sixty-three of the state's 82 counties had unemployment rates of 10.0 percent or higher in June. Of that number, six counties had unemployment rates in excess of 20.0 percent.

Seventy-eight counties showed an increase in their unemployment rates from May to June.

STOLEN AUTO RECOVERED— Local law authorities received a tip Sunday night that a 1978 Pontiac Grand Prix stolen from Alcorn County was at a Prentiss County residence. Booneville Police Chief Bobby Lambert, Justice Court Judge Billy Sartin, and Prentiss County Deputies Doug Hendrix and Jim Ross went to the residence of Kerry McVey on Osborne Creek Road. Officers found the Grand Prix which belonged to Brenda Burns of Alcorn County, behind McVey's house trailer. The front bumper, grill, two doors, trunk lid, and front end had been removed. McVey, 22, was charged with receiving stolen merchandise. McVey was released from jail Monday on \$5,000 bond and was bound over to the action of the Prentiss County Grand Jury. Another arrest is pending in the case, officers said. Pictured with the car are Chief Lambert and Deputies Ross and Hendrix.

BIBLE QUESTION BOX

QUESTION: Mr. Hogland, some of the songs we sing at church are hard to understand. They have words like guerdon, ebenezzer and the like. Should I be able to understand these words?

WARD HOGLAND

ANSWER: In order to sing with spirit and understanding you need to understand the words. I suggest you use a good dictionary and this will help. However, I will try to help with a few words which seem to give some people trouble. The word GUERDON means reward; EBENEZER refers to any memorial of divine aid; BULWARK has reference to a solid support of defense; EBON means black or dark; PINION means a wing; CASSIA a plant of warmer regions that produces a drug; BARK OR BARQUE would be a small sailing vessel; SURGES a great rolling swell of water; DIADEM would be a crown or an ornamental headband worn by Eastern monarchs; CHERUBIM a group of angels described in Ezekiel; SERAPHIM as above in Isaiah 6; HALLOW means to make holy and PILGRIM is one who wanders to some holy place as a devotee. I hope this will help you to understand the songs you sing.

Long Recovery Ahead

Shrine Club Helps Local Burn Victim

By ANGELA SMITH
Staff Reporter

The night of May 18 started out much like any usual spring night for the Harold Stephens family of Lake city. But after seeing several snakes in their yard, Mr. and Mrs. Stephens decided they would cut a hedge behind the house—just in case a snake was thinking about hiding there. To cut the hedge, which had grown to resemble a tree, Mr. Stephens had to undo a guide wire to the television antenna. While work was going on

at the back of the house cutting the hedge, the Stephens' 7-year-old daughter, Cynthia Rena, a blonde second-grader at Wheeler, was at the front of the house. Rena grabbed the television antenna pole and swung around it. This was not unusual. Rena and other members of the family had swung around the television antenna pole before. But this time the guide wire holding the antenna was loose. As Rena swung around the pole it fell into the power lines. When her parents got to her, she was sitting on the ground with the antenna

pole between her knees. Electricity went in both knees and came out both sides of her feet. Rena received burns on 20 percent of her legs. Doctors later said 17 percent of the burns were third degree. The doctors also said electrical burns were the worst type of burns. Power company personnel told the Stephens that if the transformer had not blown, Rena would have probably been killed. When the Prentiss County Shrine Club learned of Rena's accident, she was sent to the Shriners' Burn Center in Galveston, Texas.

She spent six weeks and one day in the hospital during which time she had three skin grafts. Rena lost two toes on her right foot and one toe on the left foot. While in the hospital, sores formed on her heels from wearing splints. At one point she also developed an infection in her knees. Rena and her mother, Betty, returned home July 6. Rena will return to Galveston on Aug. 5, two days after her eighth birthday. The doctors have told Rena she will have to wear special shoes and "Jobes" to keep scar tissue down for

two years. She might even have braces, Mrs. Stephens said. The doctors have told the Stephens' that Rena has done very well under the circumstances. The Stephens' also are the parents of three sons, Darrell, 14, Anthony, 11, and Daniel, 9. During 1982 the Prentiss County Shrine Club sponsored transportation for treatment and evaluation of two crippled children in Prentiss County to Shrine hospitals. The Shrine Club sponsors 18 crippled children's hospitals and operates three burn institutes.

design came from his days of picking cotton. "It was back breaking work picking cotton on my knees on that red, clay land." Some of his other patterns include dogwood blossoms, poinsettias, magnolias, grapevines, and wild purple violets. In 1974 he began preparation for the Bicentennial. He designed quilts for all 50 states complete with their counties. In 1976 all 50 of his quilts along with a Magnolia quilt and a quilt that has

each state on it hung in the bank in Jackson facing the Capitol and the Governor's Mansion. But perhaps one of his designs he is proudest of is the Elvis quilt. Wilemon designed the Elvis quilt for his daughter Katrina who is an Elvis fan. He has copyrighted the Elvis pattern. The Elvis quilt has Elvis' top 14 songs, a guitar, and blue suede shoes complete with shoe laces. Mrs. Robert Kennedy ordered an Elvis quilt

pattern. "I started to keep the check and then I finally decided to cash it," Wilemon said. Wilemon advertises his patterns, quilts and scraps in magazines. Consequently, he has had orders for his merchandise from people in every state and even in England. Quite often, he says, when people are vacationing near the area they will stop by to see his quilt collection. He's had visitors from New Jersey, Georgia and New York. One of his favorite quilts has antique cars em-

broidered on it. "This is as close as I'll ever come to owning an antique car," he said. The most complicated quilt he designed had a red Trans Am car on it. The quilt was for a woman in Detroit, Mich. He had problems deciding what material to use for the car's windshield and finally wound up using wedding satin. One of the reasons Wilemon began working with quilts was to supplement his teacher's salary. In fact, the money from his quilting work has

put his three daughters through college. His youngest daughter, Gaylena Wilemon Rhodes, likes one semester at the University of Alabama in Tuscaloosa. "You've heard of going to school in rags? They went to school on rags!" he says. Wilemon has designed quilts with emblems for Northeast Junior College, Ole Miss, State, the Alabama Crimson Tide and several others. He is currently working on a baby quilt. His oldest daughter, Marilyn

(Continued from Page 1)

Bussman, is expecting a baby in October. Julia Wilemon of Baldwin, who is 85, has embroidered animals on the quilt. She will be the baby's great-great-aunt. Wilemon hopes the baby quilt will be handed down through the generations. Wilemon calls himself a 'rag artist' since he makes quilts from rag cuttings. He gets the 'rags' from blouse factories in the area. Wilemon says he would like to have a museum where he could display his collection of quilts. He would like to purchase the old Burton schoolhouse to use as his museum but there are several others who also want to buy the old schoolhouse. He says there are some people who laugh at him because he designs quilts. But there is one thing about it, he says, "I have pinto beans on the table!"

his wife put strychnine in a bottle of whiskey she intended for another man, but that Rogers drank the whiskey instead. The Caldwells rushed Rogers, 60, to the Booneville hospital, but emergency room personnel were unable to revive him. Rogers was known to have a heart condition. Tissue samples were taken from Rogers' body

and sent to New Jersey for analysis. However, authorities were notified in October that the pathologist scheduled to perform the autopsy had been teaching classes in England and the autopsy results would be delayed. Later authorities had the tissue samples carried to the State Crime Lab, where the autopsy was eventually performed.

Tenn-Tom Construction On Schedule

An optimistic report charting progress of construction work on the Tennessee-Tombigbee Waterway was presented by the U.S. Army Corps of Engineers at a meeting last week in Fort Walton Beach, Fla., of the board of directors of the Tennessee-Tombigbee Waterway Development Authority.

In that meeting, Col. Robert Ryan, District Engineer of the Corps' Mobile District, said that almost 83 percent of the funds needed to complete the waterway are committed. In addition, all navigation facilities on the waterway are now under contract or complete. Glover Wilkins, veteran

administrator of the five-state Authority which is headquartered in Columbus, Miss., said the Tenn-Tom board members were elated over the amount of progress that is being made on the project. "Construction is on schedule or, in most instances, ahead of schedule," Wilkins said.

Street Opinion

QUESTION: Do you think the farmer's market is a good idea and will you shop there?

DELBERT MORGAN of Route 4, Booneville: "If it was used right, it would be a good idea. I don't think people should go to Alabama or someplace to get food to sell. I'm a farmer, so I'd be more apt to sell there than shop."

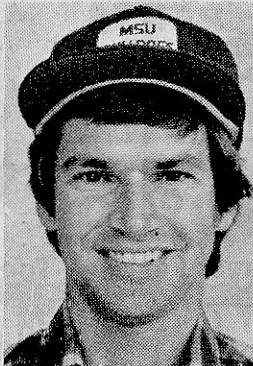

N.B. MURPHY of 301 S. King St., Booneville: "It's a good idea. I raise my own garden, but I would buy cantaloupes or water-melons there."

IVELL HENDERSON of Route 1, Booneville: "Yes, I sure would shop there because I don't have a garden."

HENRIETTA OAKLEY of 601 Ninth St., Booneville: "Yes, I think it's a very good idea for people like myself who don't have a garden. They can go there and get fresh vegetables, where as they wouldn't have them any other way."

BARRY COX of Route 3, Rienzi: "It's a good idea. I'd probably shop there. I believe you'd probably get more reasonable prices for vegetables than at a supermarket."

JANICE SCOTT of Jumpertown: "I think it's a good idea. I would shop there because I don't have a garden and we've been wanting fresh vegetables."

Ponderings

By Angela Smith

Staff Reporter

I'll get right to the point. I don't like to mow the yard. Every week while I'm mowing the yard I think about all the other exciting things I could be doing. Things like eating and sleeping or writing this column.

In the days before we had all the fancy lawn mowers people would keep the grass scraped from their yards. Although I've never had to keep grass scraped from a yard, I imagine that scraping grass from a yard would hurt me as much as mowing a yard...maybe more.

Before all my loyal readers rush over to the newspaper with a cold glass of lemonade for me, I will confess that I mow the yard with a riding lawn mower. (But I have mowed the yard with a push lawn mower, so I know that agony, too!)

There's one drawback to using a riding lawn mower. Every week I mow a little bit more of the yard than I mowed the previous week. Consequently, I figure I must be mowing about six acres. But remember, I mow better than I add.

No matter what day of the week, or what time of the day I begin to mow the yard I can be sure that will be when all the traffic starts passing. I live on a gravel

road and that simply adds more dust to the dust that the lawn mower kicks up. Perhaps one reason there is so much traffic when I start mowing the yard is because people like to see someone suffering in the dust and heat.

A couple of years ago I decided there was no use mowing the yard every week. So I let the grass grow to its heart's content. By about the fourth week the grass had grown so tall we could barely find our way around in the yard. One day I thought I saw a bear coming out of the grass so I decided then and there that mowing the grass was better than not mowing the grass.

There is one good thing about mowing the yard...it gives one the opportunity to think. When I was mowing the yard last week it occurred to me the reason lawn mowers were invented. A man became tired of having to keep his yard free of grass so he invented a lawn mower...for his wife to use!

Snakes Alive

Snake. Just the word scares me. I read an article

recently which listed the poisonous snakes in Mississippi. They are: Cottonmouth (also called water moccasin); Copperhead; Pigmy Rattlesnake (also called ground rattlesnake); Timber Rattlesnake; Eastern Diamondback Rattlesnake; and Eastern Coral Snake.

The article said many factors influence the outcome of a poisonous snakebite such as the age, size and species of the snake; the amount of venom injected; location of the bite; and the general health of the victim.

According to the article, the nature and timing of medical treatment after the bite can mean the difference between rapid recovery with little or no after effects and prolonged illness possibly accompanied by permanent deformity.

On television westerns we usually see the snakebite victim swallowing whiskey. However, according to the article I read, the victim should not consume alcoholic beverages.

From what I read, the best bet for a snakebite victim is to seek medical aid as quickly as possible.

One final note, one of the suggestions the article offered for avoiding venomous snakes was "never handle a 'dead' venomous snake. The animal may not really be dead." So folks, keep that in mind the next time you have the urge to play with a dead snake!

Eyes On Mississippi

A Giant Step For State Education

By BILL MINOR
Syndicated Columnist

JACKSON, Miss.--One of the wisest men I have ever known, the late Oliver Emmerich, editor of the McComb Enterprise-Journal, used to say Mississippi's greatest problem was not it's economy. It was ignorance.

He spent most of his life trying to combat ignorance and to stimulate learning. But when he died four years ago, ignorance was still our major problem, as it remains today.

That's why my thoughts

went back to Oliver Emmerich the other day when the State College Board bit the bullet nobody else in authority seemed to have the taste for, and decided to call a halt to Mississippi high schools sending kids on to higher education who do not have the proper foundation.

At long last, the College Board laid down the rule that beginning in 1986, youngsters entering college must have four units of English, three units of math, three units of science, two and a half units of social science (not including

Mississippi history), and one required elective which must include a foreign language, or another math or science. The board recommended, although did not require, two years of a foreign language.

What the College Board has done is possibly the biggest breakthrough in expanding the threshold of learning and knowledge in this state since free textbooks were put into the hands of every school child almost a half century ago.

It was perhaps not the province of the College Board, but the State Board of Education, the State

Superintendent of Education or somebody primarily concerned with curriculum of the state's public schools, to invoke such a major reform in educational standards at the high school level. Nonetheless, this seems an effective way of getting it done, from the top down.

This may point up the ineffectiveness, or the lack of power of the state level public educational authority in Mississippi. Evidently, the State Superintendent of Education in the past could not mandate that any such standards be carried out, because local school districts in Mississippi have a great deal of autonomy.

The curriculum division of the State Department of Education has felt it could only set minimum standards, which are, indeed, minimum--such as three units of English, one unit of math, one of science and one social science. Actually, a Department of Education survey now being completed shows that most school districts are doing better than the minimum course requirements.

But Mississippi high schools have been woefully weak in some areas for years, particularly in their offering of foreign languages and the harder science courses. Based on my own high school experience of many years ago

when it was necessary to take Latin, and one other language course, I was rather stunned back in the 1950's to find one half of the high schools in Mississippi offering no foreign language at all.

State educators admit that the standards of course requirements in high schools became less stringent as the kids from the World War II baby boom began to flood the schools during the 1950's and 1960's. These were the happy, carefree years when greater emphasis was being placed on football, well-attired school bands, marching groups and cheerleaders, than on chemistry, algebra or English literature.

Everybody was playing the numbers game. Even the colleges in Mississippi which formerly had higher requirements, began admitting kids with less college foundation, because they could justify getting more money from the legislature for buildings and dormitories with bulging enrollments.

Then the colleges became inundated, and finally by the end of the 1960's, they had to go to test requirements to limit their admissions. The 15 minimum ACT score was instituted at the five predominantly white schools through a "gentleman's agreement" in 1968, and not

made an absolute rule by the College Board until 1976.

Some have blamed the lowering of course requirements in state high schools on the massive integration which took place at the beginning of the 1970's. That evidently is the case in some school districts.

However, the weaknesses in the Mississippi school curriculum had been evident a good bit before that. For example, the Booz, Allen, Hamilton study which was initiated by the Mississippi Research and Development Center back in 1966 to ascertain the quality of education in the state showed that Mississippi students, white and black, were below national norms, especially in English and the social sciences.

Mississippi high school students still grade below the national average on the ACT, by a significant amount. Last year, the ACT average score in Mississippi was 15.4, compared to a national average score of 18.5.

There are some outstanding cases of highly integrated school systems producing better quality students than ever before, McComb being a prime example.

At least Oliver Emmerich won his battle in his hometown.

Any Way You Cut It,
Ma Bell Comes Out Ahead

Dear Editor,

We were in Memphis over the weekend and, listening to the laughter about South Central Bell having to refund millions of dollars, I wonder if we really appreciate the subtlety and beauty of the perennial rate-increase ballet?

The whole affair is carefully choreographed and orchestrated to secure the rate increase desired -- while making everyone happy. Neat trick, isn't it?

First, a rate increase vastly larger than required is demanded. This unreasonable demand always creates a storm of protest from subscribers which, in turn, allows the local 'Davids' to throw a few rocks at the telephone 'Goliath.'

Second, after everyone has had her or his say, a rate increase is granted -- but for

half to two-thirds of the original demand. If the increase is at least as large as needed, Ma Bell goes sullenly off, muttering threats to appeal or cut service. If not large enough, the company may in fact appeal, but even in this case it has the edge on us.

Remember, the full requested rate increase has been collected in the interim -- piling millions of unearned dollars into company coffers. At today's interest rates, each million dollars held unjustly is worth more than \$400 per day, over \$12,000 per month in interest.

The longer a decision is delayed, the greater the interest earned on the overcharges.

So, you see, the telephone company is happy because it got what it wanted to begin with, plus enough unjustified interest on the overcharges

to pay for the process. Community leaders are happy because they had an opportunity to speak up for the people. And even the subscribers are happy because they feel, mistakenly, that they got the better of Ma Bell.

This ballet will continue to be repeated until the phone company is barred from collecting increased rates before they are approved -- or until forced to pay a fair rate of interest on the increased rates which eventually must be refunded.

At today's rates, this should be at least 15 percent, but 25 percent would deter the company more effectively from overcharging in its original demand.

Sincerely yours,
Frank Scott

Summer Is Sandwich Time

By WANDA L. ROBINSON
4-H Program Assistant

Summertime is sandwich time. Although August is sandwich month, sandwiches begin their appearance for quick lunches in early summer. There are hearty sandwiches you can plan a meal around; those to eat with knife and fork; and dainty finger style.

Sandwiches have been popular since their beginning by the Earl of Sandwich many years ago and today can include any combination of foods you prefer.

Sandwiches, like other main dishes, can be as economical or expensive as you wish to make them. They can be the basis for a well-balanced meal or consist mostly of empty calories.

You can make them from specific recipes or piece them together from odds-and-ends in the refrigerator. In their most delicate forms, sandwiches add glamour to the fanciest tea table; yet sandwiches are more likely to be the plan-as-you-go Dagwood type.

A single sandwich easily provides two of the four servings needed daily from the bread and cereal group plus one of the two servings of meat, poultry or fish needed daily. Green or yellow vegetables add food value, color and taste appeal when served on the sandwich or as a separate salad.

To complete a full one-third of the day's food needs in a single sandwich meal, serve a glass of milk or milk beverage. If you hold rich salad dressings, French fried potatoes and prepared vegetable chips to a minimum, sandwich meals can be long on nutrition without adding excess calories.

Because much of the work of making sandwiches consists of getting all

equipment and ingredients out, making several at one time can be a time-saver. Since lunches often have to be packed during the early morning rush, the shifting of sandwich making to a different time of day can also be helpful. Freezing several sandwiches can help with both time saving and rescheduling the job, but following a few precautions improves the quality of the end product.

Library Notes

By LEE DAVIS
Librarian
George E. Allen library

The Summer reading Program at the library has two more meetings yet to take place.

Tuesday, July 27th, we will again have an hour of stories and handicraft and Tuesday, August 3, a costume party will bring this summer's program to a close.

Reading certificates and awards will be made available at that last meeting.

Some 82 children are registered in the program which has activities for those ages 3-6 and 7-14. New registrants will be welcome.

A project conducted by the organization, The Friends of the Library, each year is a sale of books which have been given by the public just

for that purpose.

Funds received are spent to improve and add equipment and services.

Plans are being made for a sale in the month of August. Books are usually some that are already in the library and therefore can be sold, or are in poor condition.

All are sold for prices very affordable, many twenty-five cents. The need is for books and buyers in large volume. Gifts are very much appreciated and can be left at the library any time.

Last year the supply of children's books was the first to be depleted. If you could add some that you no longer wish to keep to our stock, your books would find good homes and your library will be able to give you better service.

Again, the library staff thanks you for your generosity to your library.

The Clothes Pen

CORINTH (ICU) — At the Clothes Pen we're selling, sale-ing over the beautiful see. Yes, that's S-E-E as in "see the beautiful prices, as low as the bottom of the sea." All summer items have been marked down again 1/2 to 70% off. Now, that's a whale of a sale, and no tall tale.

Also many of the new forward-fashions are in (sometimes called transitional, trans-season or season-spanners.) All that means is that these are new clothes that can be worn right now and on into the early fall because they are light-weight fabrics in colors that blend from late summer into the fall season.

They're perfect for back-to-school and those (hot) football games when you don't want to look like the "last rose of summer."

Actually, we probably wear this type of clothing longer than any other group: — now 'til November or December (unless it snows), and that's five or six months. Of course in the latter months we add sweaters and blazers or jackets according to the weather.

So...whether you're looking for a real bargain on cool summer clothes or ready to go forward into trans-season fashions...you'll be pleased at your "finds" at The Clothes Pen in Corinth.

Homecoming services were held at Beckley Chapel Sunday morning. The Rev. McDuffy delivered the message "Let Brotherly Love Continue." After dinner was served, the Rev. Ware from St. Mark, Corinth, delivered the evening services.

On Friday morning July 23, at 10 a.m. the Bishop wants to meet with everyone from the Methodist circuit.

A Baptist Union meeting will be held Saturday, July 24, at 9 a.m.

Revival has started at Spring Hill M.B. Church July 19-23 with the Rev. Prentiss Harris as speaker.

Oliver (Beete) Agnew wishes to thank everyone who prayed for him during his stay in NMMC in Tupelo. Sis. Carrie Young is asking

for prayers during her illness.

I wish to apologize for a mistake that was in my column one week. To the interdenominational choir and President Bro. Jerry L. Christian- somehow the name of the group was not mentioned and I am truly sorry.

Vacation Bible School was a great success at Beckley Chapel last week. The little children, the teenagers and the adults enjoyed it. Some commented that it didn't last long enough! Our children are the future church leaders and business leaders of tomorrow. We need to teach them the word of God so they will be able to face whatever tomorrow brings.

An attendance of 160 people in Vacation Bible School only tells us that we need it. A special thanks to

all the parents who allowed their children to participate in it. Also a special thanks to the Rev. Poole, Mrs. Versie Jones, Willie T. Jackson, James Knowles, James Chambers, Miss Bonita Crump, Miss Bertha and Mrs. Lizzie Green Harris and anyone else if I missed anyone. May God's richest blessing be upon you.

Friday night services were a great success with Bro. Ben Harris from Durant. Those of you who missed it, missed a great service in the Lord.

Wednesday night at 7:30 the Rev. Johnny Poole and the Beckley Chapel Choir will be at the Holiness Church of Christ Deliverance Center. On Thursday night Bishop Ollie Robbins from Mt. Moriah Holiness will be there. Try to attend some of these services.

Tent revival has begun at

the project.

We hope and pray Sis. Geraldine Johnson will feel better and be able to get back in services next week.

Pastor Archie and Sis Miller will be at the East Side Community Center at 2 p.m. The guest speaker will be Elder George Crawford from Miracle Revival Center in Amory. The Full Gospel Church of Deliverance Center, Huntsville, Ala., pastor Jimmy Jones, will be there.

Services Sunday night were great. The guest speaker was the Rev. L.V. Cummings. His closing thought was "Use me Lord in thy services. Lord, I'm willing to run all the way and how love will bear, love will share and love does care- it will endure- so let us love one another."

The minister stated there are two kinds of folks in the

church. Law folks and grace folks. Law folks keep trouble going all the time and grace folks keep their mouth shut and wait to see the salvation of the Lord.

Adams Is Promoted

Danny C. Adams, son of Mrs. David T. Adams of Route 1, Marietta, has been promoted in the U.S. Air Force to the rank of staff sergeant.

Adams is a security specialist at Seymour Johnson Air Force Base, N.C.

His wife, Sharon, is the daughter of Kenneth L. McCoy of Kure Beach, N.C.

He is a 1975 graduate of New Site High School.

Uptown Booneville

It's Happening at...

HAMMOND HOUSE
1004 Filmore St. Corinth, Miss.

CORINTH, (ICU) — We're first again! Usually we're first in fashion (and still are), but that's not what our most recent "first" is. It's a **cookbook**! Yes, we're 1st in N. Miss. to have the new Les Passees (Memphis) cookbook "Well Seasoned." A thick book full of marvelous recipes tested by a special cooking committee of Les Passees, it's \$12.95 and makes a grand hostess or wedding gift.

Speaking of weddings ... best wishes to Sally McKinney and Tim Wiygul, Carol (Box) Mote and Ron, Sherry Baker and David Childers, Kay (Hardwick) Jackson and Ronnie, Karen Anderson and Dannie Timmons and Meta Nichols and Herbie Key.

These are the most recent brides and brides-to-be who have shown their good taste by registering "some of their favorite things" at the Hammond House. A trip last week to the gift-market in Dallas insures lots of pretty items and unique gift ideas will keep coming in. Have you seen our "summer produce" display guaranteed to stay fresh?

Right now we're SALE-ing through summer at the Hammond House. Most prices have been reduced again this week and are 1/2 to 70 percent off!

One of the best bargains is on jewelry with a large group of earrings, chains, pins and necklaces going at only 3 for \$5. These are regularly \$5 to \$15!

Prices on cool clothing for hot weather are so irresistibly low you'll fall in love with everything your size. In fact, the SALE-ing at the Hammond House is so great you'll think you're on Love Boat.

Ahoy there, Mate — come sail with us and drop anchor at the Hammond House soon.

4-H Leadership Training Courses Set

**EDWARD McWHIRTER
EXTENSION 4-H
YOUTH AGENT
4-H LEADER
TRAINING**

Four-H clubs are built around project work and boys and girls between 9 and 18 years of age. To make all to go, we must have adults as volunteer leaders, teen leaders, and junior leaders who are motivated, concerned and trained in 4-H club work.

These leaders who assume the leadership role, organize, motivate and supervise the 4-H'ers in the club, community and project work. To help the volunteer leaders with this we have set up dates for leadership training for new and old leaders in Prentiss County.

The dates of the training will be Aug. 11-13 at 1 p.m. or 6 p.m., or Aug. 11, 16, and 23 at 1 p.m. or 6 p.m. at the Extension conference room. New leaders, teen, junior and volunteer leaders are invited to attend these meetings as well as any other interested person.

COUNTY LIVESTOCK SHOW

The fall Prentiss County Livestock Show has been set for Sept. 10 and 11 at the Prentiss County feeder pig barn.

There will be classes of registered beef breeding, commercial beef heifers, market swine, lamb, and dairy.

If you are between the ages of 9-18, call and we will be glad to help you with your livestock project.

BICYCLE RODEO

A 4-H Bicycle Rodeo has been set for August 20 at the Extension parking lot. Winners will be eligible to enter the bicycle rodeo at the Mid-South Fair. Come by or call for information and rules in the bicycle rodeo.

BEEF DAY SET AUG. 17

A beef workshop has been set for August 17 at the Dalton Garner farm at Blackland. The program will consist of feeding, foot care, grooming, showmanship.

A showmanship contest will follow the program. For more information and rules call 728-5631 for Ed McWhirter.

The public is invited. The program will start at 1:30 p.m.

LEADERSHIP IS LEARNING TO ASK QUESTIONS

The 4-H motto is "Learn by Doing." In 4-H and the leadership project, you will

learn many new things. You will also learn new skills for learning.

Knowing how to ask questions is an important part of learning.

You can learn a lot by asking questions. Try to ask questions that cannot be

answered by "yes" or "no." Examples are: "Why did you join 4-H?" and "How do like to spend your time?"

Make a list of questions you would like to ask people and review them with parents or friends. You'll be surprised how much you

learn just by asking questions.

You will learn more from asking questions if you really listen to the answers you receive. Practice listening as you practice asking questions.

For Financial Aid Group

Sweeney Named Vice-President

Ronnie Sweeney, director of Recruitment at Northeast Mississippi Junior College, has been elected vice-president of the Mississippi Association of Student

Financial Aid Administrators for 1982-83. Sweeney was chosen for his "exceptional performance and past service to the financial aid

profession," according to Joe L. Herrington, 1981 MASFAA president. Sweeney began as counselor at Northeast in 1977 after working with the

Prentiss County School System. He was promoted to director of recruitment because "he relates very effectively to the student," Joe M. Childers, dean of NEMJC said.

Sweeney graduated from Mississippi State University in 1968 with a B.S. in guidance education and educational psychology. He received his M.A. in 1971

He is married to the former Wanda Green of Jumpertown and they have two daughters, Cammie, 14, and Courtney, 5.

County System Provides For Handicapped Students

The Prentiss County School System is continuing its efforts to locate handicapped children in the school district who are 21 years of age and under and are not currently being served by the school system.

According to superintendent Lex Cain, handicapped children include those who are mentally retarded, hearing impaired, deaf, orthopedically impaired, speech impaired, visually handicapped, seriously disturbed emotionally, or children with specific learning disabilities.

According to Cain, the Prentiss County School

System provides for handicapped children in the following ways:

- It guarantees all rights and protections for the children set forth by the law.

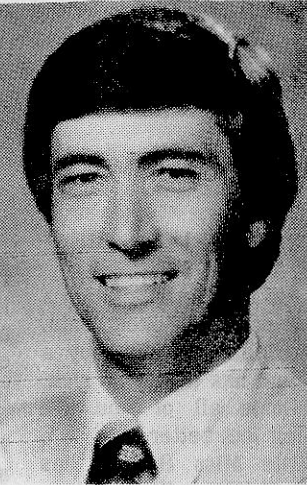

- It establishes the kind and number of facilities and services required to reach and maintain full service for these children.

- It defines "appropriate" education through the maintenance of full due process and safeguard procedures, uses assessment procedures which are multi-factored, multi-scored and carried out by qualified persons, and protects the confidentiality of the data.

Anyone knowing of a

handicapped child who is not currently in school should contact Prentiss County's Child Finder, James Gooze, at 728-4632, or P.O. Box 779, Booneville, MS 38829.

When a child who is suspected of being handicapped is referred to the school system, the Child Finder will make sure that the referral is properly evaluated. If found eligible, that child will either be placed in an existing class or placed on a waiting list with plans being made for the provision of a free appropriate public education in accordance with applicable state and federal laws and court decisions, Cain said.

Aid Offered In Pond Site Selection, Stocking

By DON JONES
Soil Conservation
Technician USDA Soil
Conservation Service
Booneville Field Office

With warm weather here, people naturally think of farm ponds as a place for fishing and sometimes for swimming or boating.

Selecting the suitable site for your pond is important. Preliminary studies of any site are needed before construction. If you are considering more than one site, study each one in order

to select the most practical one.

From an economic viewpoint, locate the pond where the largest storage volume can be obtained with the least amount of earth fill. Clay and silty clay are good soils for the ponded area. Sandy clay is generally suitable. Sand, gravel and sand gravel mixtures are unsuitable for pond sites.

A good site usually is one where a dam can be built across a narrow section of a valley. The side slopes are

steep, and the slope of the valley floor permits a large area to be flooded.

A good pond must also have an adequate water supply to replace water lost by evaporation and seepage. This supply usually is dependent upon size of the watershed. Soil Con-

servation Service personnel will, without charge, assist in selecting the pond site, determine the best type of spillway and drainage structure and give advice on other facets of final construction.

They can also assist in stocking your pond at

recommended rates of catfish, bream and bass.

CLOSE PLAY - A Peoples Bank base-runner attempts to slide under the tag, Sonic's pitcher tried to cover home plate, but the runner stole home successfully. People's Bank won the game, 18-13.

Brown Shoe Has Firm Grip On League Lead

By CLIFF LONG
Sports Writer

As the season draws to a close in Little League baseball, chances seem slim of anyone catching league leader Brown Shoe. Despite this fact all the players are enjoying the action and seem to be having a lot of fun.

In Tuesday night's action, Cox's Best Way routed Kentucky Fried Chicken, 10-1. Cox's winning pitcher was Marty Michaels, while Stewart Livingston picked up the loss for Kentucky Fried.

In the second game, Sonic defeated Kellwood in a close game that required six innings. After the final out Sonic was the winner, 12-10. David Koon was the winning pitcher and Carey Dodds got the loss.

A long homerun by Sonic's Rickie Kennedy was the deciding factor. Sonic holds second place to themselves with an 8-4 record.

Thursday night matched Brown Shoe against Kellwood. Thanks to a no-hitter by Brown Shoe's Ty Koon, they were able to show a 10-0 victory, and also a 10-0 record so far.

In the second game People's Bank defeated Cox's Best Way, 7-4. People's Bank's winning pitcher was Mike Coats, while Tracy Nix picked up the loss.

In Monday Night's action, People's Bank won again as they came out on top of Sonic, 18-13. Paul Saylor's was the winning pitcher as Brad Fugitt got the loss.

The game stayed close until the top of the 5th inning when Jeremy Johnson hit a double with the bases loaded and scored all three runs for People's Bank. People's Bank holds third place with a 7-4 record.

In the second game Monday night, Kentucky Fried Chicken won their second game of the season with a victory over Kellwood, 9-4.

Stewart Livingston was Kentucky Fried's winning pitcher while Gary Fleming got the loss for Kellwood. Kentucky Fried Chicken moved up a notch in the standings with a 2-10 record.

Prentiss Holds Lead In East Side Action

As of Monday, July 19, Prentiss Manufacturing remained "atop the heap" as Little League action at the East Side Park entered the final week of play.

Prentiss remained on top even after dropping two games last week.

In action this past week, Kellwood downed Prentiss, 5-2, and Alexander's Dairy, 10-2. Houston beat Prentiss 3-2, but lost to Alexander's Dairy 2-1 in 15 innings.

On Monday, Prentiss defeated Alexander's dairy 3-2 and Kellwood lost to Houston 9-6.

With seven wins and one loss, Bobby Groves remains the pitcher with the best record in the league.

Correction On Final Tee-Ball Records

The Banner-Independent incorrectly listed the final score of one of the Tee-Ball games in last week's paper. Due to this error, the final win-loss record chart was also incorrect.

In the last game of the Tee-Ball season, Civitan defeated New Orleans Fried Chicken 17-16, rather than the other way around as reported last week.

The following is a corrected win-loss chart:

Close Games Mark Girls' Softball Action

By CLIFF LONG
Sports Writer

Two close games were played Thursday night in junior girls' softball action, as all four teams gave fine performances.

In the first game, Marathon Cheese lost to Sunflower, 9-5. Marathon, playing with six players, held the game to a 2-2 tie through three innings.

The game broke open as Jenny Weatherford hit a two-run homer to make the score 4-2. As the game progressed, Marathon could never get enough runs to go ahead.

Sunflower is in a two-way tie for first place with a 5-2 record. Marathon has two more chances to win a game. They have a 0-7 record.

In the second game, Rotary, playing with only eight players, outlasted H&W Industries, 9-7. Rotary's victory came even though H&W showed up really well at the plate.

Three H&W players, Christy Jackson, Christy Lowrey, and Amanda Miller, all belted homeruns. Rotary now holds a 5-2 record, good for first place. H&W's 4-3 record puts them in second place.

At Northeast

Hundreds Participate In Cheerleader Camp

If you passed by Northeast Junior College last week and saw hundreds of girls carrying painted sticks and yelling their heads off, you may have wondered what was going on.

It was the annual National Cheerleaders Association's Superstar Spirit Camp. Or, more simply, it was a week of cheering, chanting, and pyramid building (just to name a few activities) for over 300 high school and junior high cheerleading campers from 37 schools in Mississippi, Alabama, Arkansas and Tennessee.

These young ladies gathered July 6-10 for instruction from NCA, "the original, largest and most respected cheerleading organization in America." They became a part of the 100,000 students who this year will participate in one of 37 camps in 49 states, Canada, Puerto Rico and Europe.

With these impressive credentials and sessions in universities such as Auburn, Georgia and Mississippi State, NCA camps are a dream for thousands of young girls each summer.

But, says Windy Pentecost, NCA camp director, the Northeast session is always something special. And, being a director for three years, with the organization for nine years and a squad member from junior high through college, she should know.

The Northeast camp is smaller with more individualized attention available from the NCA staff members, she said in describing the extra bonus of the recent session.

With freckles and a home-grown Florida tan, Pentecost still looks young enough to be leading yells at her alma mater, Middle Tennessee State University. But she has been out of that business for some time now.

However, the cheerleader-turned-director still has a squad to call her own. She is the sponsor of a varsity group in Orlando, Fla., where she makes her home. In addition, she teaches English and literature.

According to Pentecost, her long term association with NCA developed because she recognized the organization as one devoted to "keeping cheerleading cheerleading." This means teaching squads to remember that their main job is that of encouraging the team and promoting team spirit, she added.

The camps are designed to further these goals. Practice, workshops and self-improvement judging make up the biggest part of a squad's daily routine throughout the week. On the last day of camp one All-American cheerleader and one squad to receive the award of excellence are chosen. These awards are based upon the staff member's observance of the squads throughout the week.

One award, a giant megaphone with the NCA emblem is given to the squad the campers themselves vote the most spirited.

Helping Pentecost with the Northeast camp this year were an assistant director and eight staff members. The staff members are screened and chosen from the best college squads all over the nation.

Many have been with NCA for several consecutive years so they are recognized by groups returning each summer.

Working with these staffers and hundreds of young people as she does, Pentecost believes the most fulfilling part of her work is seeing the improvement in a squad after a full week of camp and in providing these youths with "positive role models."

And although she may not want this job forever, Windy Pentecost swears she would go crazy if she could not do camps. In spite of all the work involved, they keep her sane while she keeps turning out blue-ribbon squads.

SUPER STAR CHEERLEADERS - Attending the NCA cheerleader camp from Wheeler High School are (front, l-r) Sandy Hatfield, Kathie Barger, Teresa Saylor, Ginger Wilson, (back, l-r) Karen Koon, Julie Eaton, Tami Parker, Joy Kimbrough, and Donna Copeland. For a week they learned new cheers, chants and stunts for use during the coming school year.

CAMP DIRECTORS - Supervising over 300 girls from 37 schools in Mississippi, Alabama, Tennessee and Arkansas for a week was the job of camp director Windy Pentecost (center) of Orlando, Fla. She was aided by assistant director Shelley Martin (left) of Clinton, Miss., and head cheerleading instructor Nancy Eubanks of Tulsa, Okla.

WE'VE GOT THAT SPIRIT - Baldwyn High School cheerleaders who attended the NCA camp at Northeast are (front, l-r) Carla Price, Missy Adair, Tanna Chisolm, Regena Barber, (back, l-r) Vicky Rowan, Rothann McGee, Sherry Michael, and Sharon McCarley. They joined over 300 other young ladies who converged on campus to learn cheers, chants and stunts to raise the spirits of football and basketball audiences.

Booneville Dizzy
Dean Tourney
Teams Eliminated

NEW ALBANY—A double header loss here Friday cost the Booneville Bypass team the championship in the Dizzy Dean District Tournament.

Booneville was undefeated entering Friday's action and needed only a single victory to clinch the championship in the double elimination tourney. But the New Albany team won both ends of the double bill, 11-1.

Booneville was represented by two teams in the 15-18 year-old league tournament. The Bypass team was coached by Ronnie Wheeler, and Coach Leroy Brooks headed the East Booneville entry.

East Booneville lost its first game to Mantachie, but bounced back with victories over Tupelo Tuesday and Ashland Wednesday. Kevin Simmons was the winning pitcher in the Tupelo contest and Craig Brooks got credit for the win over Ashland.

Victor Gardner slugged three homers in these two games.

New Albany handed East Booneville its second loss in a late Wednesday game to eliminate them from the tournament.

Coach Wheeler's Bypass team remained undefeated through the first four days of the tournament by posting victories over Mantachie, 6-5, and Fulton, 7-5, in 10 innings. Rod Coggins was the winning pitcher in both games.

Entering Friday's action, the Bypass team needed only a single victory over New Albany to claim the championship.

After dropping its opener to Fulton 3-1, New Albany posted five consecutive victories, including the double header over Bypass, to become the district champs.

New Albany now advances to the State playoffs to be played at Starkville.

Seventeen Dogs Compete
In Coon Hunt

Seventeen dogs competed in a coon hunt Friday, July 9, night sponsored by the Northeast Mississippi Coon Hunters Association.

Wade Wheelington took the first place trophy.

The next scheduled hunt is Friday, Aug. 13. Everyone is invited to participate, a spokesman for the association said.

Ole Miss Roundballers Scheduled
For Five TV Appearances

The University of Mississippi's 1982-83 basketball schedule will feature five television dates and participation in the Brigham Young Classic, according to Athletic Director Warner Alford.

This year's Rebels, directed by first-year coach Lee Hunt, will open action at home Nov. 24 against Athletics in Action and end the regular season at home March 5 against Vanderbilt.

TVS, NBC and ESPN will handle games involving Kentucky, Mississippi State, Alabama, and Auburn.

The rebels will have both games with Kentucky on TV. The Jan. 3 contest in Lexington will be shown on the TVS prime time series, while the march 3 game at Oxford will be on the ESPN/TVS national cable series.

Ole Miss and Mississippi State will square off Jan. 22 in Starkville on the NBC-TV series. Another TVS prime time game will be carried Feb. 21 when Alabama invades Tad Smith Coliseum, while the Rebs' March 1 outing at Auburn will be shown on the ESPN-TV national cable series.

"We are excited about having five games on TV this winter," Alford said, "Ole Miss basketball has made major strides over the past few years and we're pleased our fans will have the additional opportunity to see the Rebels."

The Brigham Young Classic, set for Dec. 10-11, will feature the host Cougars, Ole Miss, California State-Long Beach, and Fordham.

Non-conference dates are set with Carson Newman, East Tennessee, Alabama-Birmingham, Mercer, Central Arkansas, Illinois Wesleyan, and Memphis State.

The outings with Alabama-Birmingham and Memphis State will carry special meaning for Hunt, who coached with Gene Bartow at both schools, "We have many fond memories from our association with UAB and Memphis State," Clark is the top returnee, having earned All-SEC honors as well as honorable mention Associated Press All-America last season. Clark averaged 21.1 points to

Sportin' Goods Wins
City League Tourney

Going undefeated in tournament play, Sportin' Goods took home the honors in the City League Softball Championship Tournament last week at the West Side City Park, wrapping up City League play for the season.

Burcham & Sons, with three wins and one loss, was second in the tournament, with Goodyear coming in third.

Sell-Rite, with an 11-1 record, led in the league standings at the end of regular season play, but did not participate in the league tournament.

Tournament action began on Monday night of last week, with the finals played Wednesday night.

Monday night Burcham & Sons defeated the Booneville Breakfast Club 18-4, and Schweiger shut out Marathon Cheese 18-0. Goodyear defeated Burcham & Sons 16-13 and Sportin' Goods beat Schweiger 12-11.

In the 6 p.m. game on Tuesday of last week, Schweiger defeated the Booneville Breakfast Club 5-3 after seven complete innings.

Marathon Cheese fell to Burcham & Sons 7-6 in seven innings in the 7 p.m. game. Lonnie Hoard and Mark Biggs hit homeruns for Burcham & Sons.

In the 8 p.m. game, Sportin' Goods defeated Goodyear 16-9. Mitch Johnson of Goodyear and Dennis Owens of Sportin' Goods each hit a homerun. The game went for seven complete innings.

In Tuesday's nightcap, Burcham & Sons defeated Schweiger 14-8 in 6½ innings.

In Wednesday night's opener, Burcham & Sons defeated Goodyear 14-7 in a game that lasted seven complete innings.

In the final game, Sportin' Goods defeated Burcham & Sons for the tournament championship. Floyd Lee Edmunson of Burcham & Sons hit the game's only homer. The game lasted for 6½ innings of play.

Sportin' Goods ended the regular season with a 7-5 record. They won three additional games in the league tournament.

Burcham & Sons ended regular season play at 6-6 and picked up three wins and one loss during the tournament.

Goodyear was 8-4 during regular season play, but picked up one game and dropped another during the tournament.

Schweiger ended the season 5-7 and picked up one win and one loss in the tournament.

The Booneville Breakfast Club was 3-9 for the season and dropped two additional games in tournament action.

New Coach Named At
Booneville High School

Booneville High School has a new varsity girls' basketball coach.

On Tuesday night of last week, the board of trustees of the Booneville Municipal Separate School District approved the hiring of former Booneville resident Mickey Wood to coach girls' basketball at Booneville High School.

Last year, BHS varsity girls' basketball coach Steve Jobe resigned at the end of school to accept a position in Ripley.

BHS's new coach is a graduate of the University of Mississippi and has 10 years coaching experience. He is married to the former Ann Brown of Booneville.

Wood has been the varsity boys' basketball coach at Louisville, Miss., since 1978. Prior to that he coached at Kossuth and at Corinth high schools.

In addition to girls' basketball, Wood will be involved in coaching spring sports at BHS. He has had previous experience coaching tennis and baseball.

"We're fortunate to have someone like Mickey coming into our program," BHS principal Mac Curlee said this week. "We're looking forward to working with him."

Youth Football League
Being Organized

A Little League Football program is currently being organized in Booneville.

A group of interested citizens met Monday night at the First Citizens National Bank in Booneville to discuss the program with a representative of the Corinth YMCA. The Corinth "Y" has conducted a Little League football program for a number of years.

The representative from Corinth presented a copy of the rules and regulations used by the Little League football program in Alcorn County and discussed other aspects of their program.

Many ideas and questions were discussed at the meeting, including the injury factor implied in football.

The representative from Corinth pointed out that the rules were derived in such a manner as to teach participation and a fundamental understanding of the game — and to eliminate as much injury as possible.

For example, a large percent of football injuries occur during kick-offs. Therefore, the kickoff is eliminated from Little League football. A coin is tossed to see who gets the ball and the winning team starts play on the 30 yard line.

Teams will be divided into two age groups: 7-9 and 10-12.

Organizers plan to meet again in the near future to set a date for pre-registration and to further discuss details of the program.

CARDS OF THANKS

I would like to express my thanks to the very many friends and family that was so good to us during the sudden death of my husband.

Special thanks goes to Brothers Milton Koon and Marion Payne. Also McMillan Funeral Home. It is very comforting to know that Terry was loved by so many.

And especially the truck drivers who were so close to Terry.

Thank you all
Mrs. Terry Hatfield
and Melody

CARD OF THANKS

Words cannot express how thankful we are for all the flowers, cards, calls, visits, food, and most of all, the prayers for Suzanne during her recent illness. It is at a time like this that we realize how blessed we are to have such caring friends.

Pat and Suzanne Murphy
CARD OF THANKS

CARD OF THANKS

Words cannot express our feeling for the kindness and sympathy shown to us during the illness and death of our loved one Nettie Stevenson. We would like to thank Dr. Mederria and Dr. Johnson and the staff of Baptist Memorial for their kindness and concern.

To the many friends and relatives who visited with us, for the prayers, flowers, and food during our time of sorrow.

A special thanks to Bro. Wilburn Sharp, Bro. Charles Potts, for their comforting words, to Charles Crabb for the song service and to McMillan funeral directors for being so nice to us.

May God bless each and everyone of you.

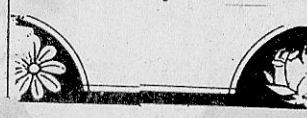

The Nettie Stevenson Family

CARDS OF THANKS

We thank our many friends for the kindness shown us during the illness and death of our dear mother, Mrs. Amanda Huddleston. Especially do we thank Dr. Johnson and the nurses here at Baptist Memorial Hospital, who were so wonderful to her. Also Dr. Kitchen and the nursing staff at the Tishomingo County Hospital, Iuka, Miss. for their tender loving care of our mother during her stay there.

We thank the ministers, Bro. C.D. Edge, Bro. Hollis Southerland and Elder Herman Clark for the kind words of comfort to the family and friends. God bless each one who extended sympathy during our time of sorrow.

Sincerely
Mr. and Mrs. Robert Lee Lindsey
Mr. and Mrs. Ishmael Huddleston

TRUSTEE'S NOTICE OF SALE

WHEREAS, on February 1, 1980, there was executed by Vester Hargett and wife, Deloris S. Hargett, to the undersigned Trustee for the benefit of Freddie Holder and wife, Karen Holder, a certain Deed of Trust which is recorded in the Office of the Chancery Clerk of Prentiss County, Mississippi, in Trust Deed Book 125, page 42, thereof, which Deed of Trust secures the payment of an indebtedness therein described; and,

WHEREAS, \$378.00, more or less, of the real property described in said Deed of Trust has been conveyed by Vester Hargett and wife, Deloris S. Hargett, to Isaac M. Wells and wife, Betty Smart Wells, in a Warranty Deed executed on May 18, 1981, and recorded on May 18, 1981, in Deed Book 119, pages 317-318 in the Office of the Chancery Clerk of Prentiss County, Mississippi, leaving as secured by the aforesaid Deed of Trust 1.22 acres, more or less, as hereinafter described; and

WHEREAS, default has been made and still continues in the payment of said indebtedness and when due and the undersigned Trustee has been called upon by Freddie R. Holder and Karen Holder, the owners and holders of said indebtedness, to foreclose and sell the remaining property covered by said Deed of Trust, in accordance with provisions of the Deed of Trust for the purposes of raising the sum so secured and unpaid, together with expenses of the sale, including Trustee's and Attorney's Fees.

NOW, THEREFORE, I, the undersigned Trustee, do hereby give notice that on July 30, 1982, between the hours of 11:00 o'clock A.M. and 4:00 o'clock P.M., I will proceed to sell at public outcry to the highest bidder for cash at the front door of the Courthouse of Prentiss County, Mississippi, in Booneville, Mississippi, the following described land and property, which is lying and being situated in Prentiss County, Mississippi, and more particularly described as follows, to-wit:

Part of the Southeast Quarter of Section 16, Township 4 South, Range 6 East, described as follows: Commencing at the Southeast corner of the North Half of said Quarter and run thence West 209.00 feet to the center of a public road and the true point of beginning. Run thence West 290.00 feet; thence North 150.00 feet; thence North 83 degrees 30 minutes East 111.20 feet; thence North 47 degrees 20 minutes East 100.00 feet; thence South 51 degrees 40 minutes East 209.40 feet to the center of a public road; thence South 47 degrees 37 minutes 20 seconds West 104.57 feet to the point of beginning. CONTAINING 1.22 acres, more or less.

Being part of the 35 acres, more or less, as described in Trust Deed Book 125, page 42, in the Office of the Chancery Clerk of Prentiss County, Mississippi.

The undersigned trustee believes that his title as Trustee is good, but he will convey only such title as is vested in him by the Deed of Trust aforesaid.

WITNESS MY SIGNATURE, this the 2nd day of July, 1982.

When in the course of human events, Congress knocks 10% off your taxes, you'd better salt it away.

They may take it back next year.

As of July 1st, your paycheck is going to be a little bit fatter. Because less is going to be deducted for taxes. It's almost like getting a raise. Let's face it, you've managed to get along without that extra money, so why not salt it away where it can do you the most good.

Shelter it from taxes now.

You can stash it away in a First Bank IRA Tax Shelter account. You can deduct every penny of that money from your Federal income taxes. And you'll earn high interest so that by the time you retire, you'll have accumulated quite a nest egg.

In fact, if you start putting in the *maximum* of \$2,000 a year when you're 29, and it earns an average of 12% interest a year, you'll have somewhere around a million dollars when you're 65.

Almost everybody's eligible, even if you have a company retirement plan. And working couples can put away up to \$4,000 a year. For couples with one spouse working, it's \$2,250. For individuals, it's \$2,000.

Put your tax cut away every payday.

At First Bank, you can put a little in your IRA Tax Shelter every payday or every month. \$20, \$30 or any amount. To get the maximum deduction, you only need to put away \$166 a month. For working

couples, it's \$333 a month. And one paycheck couples, only \$187.

To make it easy and convenient, we can automatically transfer your monthly IRA deposit from your First Bank checking account.

Make more money for your money.

Even if our IRA Tax Shelter isn't for you, you can still salt your tax cut away every payday in our First Savers account. It's a savings plan that automatically transfers the amount you want to save from your checking account— weekly, bi-weekly, or monthly.

Then, when you've built up enough to meet the minimum deposit required, we can invest some of your money in one of our high rate money market certificates if you want, or some other investment.

Right now is the time to turn your tax cut into a tax shelter with a First Bank IRA. Or, make your money make more money in one of our savings plans. Either way, you'll be money ahead if Congress turns out to be an Indian giver.

Warranties Offer Varying Degrees Of Consumer Protection

According to Mississippi's Attorney General Bill Allain, warranties and guarantees are the same thing -- a manufacturer's or seller's promise to stand behind their product.

However, there are various degrees of "standing behind" a product.

According to Allain, a federal law -- the Magnuson-Moss Warranty Act -- regulates those sellers who offer warranties on products costing more than \$15. Under the act:

- Warranties must be easy to read and understand.
- Warranties must be available for consumers to look over before they buy the product.
- All warranties must be labeled either "full" or

"limited."

A full warranty means:

- At the seller's option, a defective product will be fixed or replaced free of charge within a reasonable time.
- Consumers will not have to do anything unreasonable to get warranty service (such as shipping a washer back to the factory).
- If the product cannot be fixed, the consumer gets the choice of receiving a new product or a full refund.
- The warranty is good for anyone who owns the product during the warranty period.

A limited warranty is anything that provides less coverage than a full warranty. A limited

warranty may:

- Cover only parts and not labor.
- Cover only the initial owner.
- Allow charges for handling.
- Require you to return the product to the store.

A product may have both a limited and a full warranty. For example, a television may have a full warranty on the picture tube, but only a limited warranty on other parts.

The following are a few tips from Allain:

- Read all warranties before making a purchase.
- Make certain any verbal promises by the salesperson are included in the written warranty and signed by the

salesperson.

- Keep your sales slip and warranty. The slip may be needed to prove the purchase date or that you are the original purchaser.
- Getting a good warranty when making a purchase can protect against future repair bills.
- Products with full warranties may cost more than those with limited ones; however, it may be worthwhile to spend the additional money in order to acquire full protection.

Anyone having difficulties with warranties or guarantees should contact Attorney General Bill Allain, Consumer Protection Division, P.O. Box 220, Jackson, MS 39205.

FARM INCOME, DOWN BUT UP
It may be a long time

before farmers nationwide enjoy the success of 1979, the last good year for farm profits. That year total farm income on a nationwide basis was \$32.7 billion.

The latest estimate for U.S. farm income this year is \$19 to \$21 billion. That's a far cry from 1979 but it's still a little higher than last fall's pessimistic \$17 billion

estimate.

Things do look a little better now than they did earlier in the year. The main reason is lower inflation which has eased farm production costs. Some experts say expenses will be up only about 2 percent this year. If so, that would be the smallest rise since 1964.

Livestock producers are faring better this year. Pork prices are currently more than \$20 higher than they were last December. And beef prices have improved.

Cotton prices are up several cents a pound from just a month ago after a hailstorm damaged about 2 million acres of cotton in Texas and Oklahoma. Other crop prices may also improve in the months ahead.

Better prices could be ahead for soybeans if there are weather problems this summer. U.S. soybean supplies are 3 percent below last year's levels. While that's not enough to create tight supplies, it could bring a price rally if weather lowers crop prospects.

The general economy holds a big key to farmers' economic future. When the economy improves, the effect should begin filtering through all of agriculture.

FORAGE MANAGEMENT TIPS

Research for many years has shown that young growing, well fertilized forages are always the best quality. With annual forages such as small grains, ryegrass and sorghum-sundangrass hybrids a certain amount of basal growth must be left following grazing to maintain regrowth since they produce only an annual fibrous root system.

This is not true with a summer perennial grass such as bermudagrass which produces an abundant under ground rhizome system in addition to abundant above ground stolons which spread on the soil surface. Growth is produced from both rhizomes and stolons.

When grazed off, the first new regrowth will be higher in quality and the quality will decrease as the growth matures. Dr. Glenn Burton who developed Coastal bermudagrass has proven this many times. Current research with close grazing of Coastal bermudagrass is proving it again.

The same is true for other bermudagrasses and several other perennial grasses. This idea is to utilize young tender growin forage if the plant can tolerate intense grazing and still persist and regrow.

With summer perennial grasses, grazing systems and fencing should be managed to encourage the above practice. If you have two fields and need only one for grazing, use the second field for hay. This may often be accomplished by using electric fences to divide fields.

THOUGHT FOR THE WEEK

From Faith To Faith

By Larry E. Hill

Romans 1:17 "For therein is the righteousness of God revealed from faith to faith: as it is written, the just shall live by faith."

Faith is the most important commodity to spiritual progression. It keeps a christian growing, flowing, and going-going towards full stature, maturity and perfection.

Going from faith to faith despite doubt, repels fear, and propels the child of God to higher heights and deeper depths in the love of God.

The true christian maintains a current faith for current times, for "of his fulness have all we received, and grace for grace." John 1:16.

Though the christian life is pictured as steps that lead to constancy of growth and consistency of endeavor, tragically, many christians never get beyond the stages of maturity. They become satisfied with the status quo. They rely upon the "feeling impulse" and "what they know" to keep them. God's way has always been the "way of faith."

When we neither feel God nor understand His leadings, we must have faith in God. To put our hand in His hand is better than a lighted day and a known way.

When Abraham, by faith, left the Land of Mesopotamia, he did not know where he was

going, but he knew with whom he was going. This was his faith-Not where, but with whom.

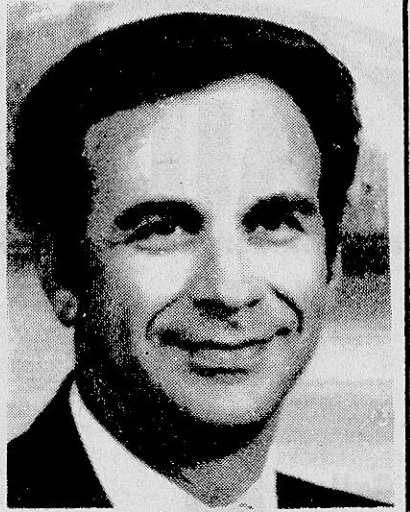

From Abel, the first man of faith, to the end of time, the scriptures give a detailed account of the need for faith in human existence. It is revealed from two different standpoints:

1. Doctrinal Faith
2. Action Faith

Our doctrinal faith is our basic and fundamental teachings which, when believed and practiced, make us a member of the Church of Jesus Christ. (Jude 3, Ephesians 2:20-22 and Hebrews 6:1-2)

Action faith can be described as that faith which we are achieving or receiving. It is practiced in our petitions to the Lord for healing, comfort, and all our needs and blessings. Daily faith also helps us to "Overcome the World."

When we profess, "Lord I Believe," may we also pray, "Lord, help thou mine unbelief."
