Jumpertown Marshal Hired As Deputy

Jumpertown is without a town marshal once again.

John Moore, who served as Jumpertown town marshal, has been hired as a Prentiss County Deputy. Moore assumed his duties as deputy Monday.

Jumpertown Mayor C.D. Windham said Tuesday he would leave the hiring of a new town marshal up to the Jumpertown Board of Aldermen. Their next scheduled meeting is Monday night, he said.

It was necessary to hire two new deputies after Sheriff John McCauley dismissed Deputies Hubert Kitchens and Joe Shackelford as a result of their plans to seek election to the Sheriff's post in the August primaries. McCauley is also seeking re-election.

Charles Duncan, who worked as dispatcher at the sheriff's office, has been hired as the other deputy.

Jeffrey Dean White of Booneville was hired as the new dispatcher at the sheriff's department.

Four More Candidates Now In '83 Race

Four candidates have qualified to run for various political offices since Wednesday of last week. There are now 50 candidates who have qualified to seek election to various offices in the August primaries.

Joe Shackelford qualified for sheriff Friday, Feb. 4. He is the ninth candidate to qualify in the sheriff's race.

James H. Horn is seeking re-election as coroner. He is the second candidate to qualify for that position.

Floyd Nyle Calley has qualified to run as Justice Court Judge South. He is the sixth candidate to qualify in that race.

Paul E. Meeks is the second candidate who has qualified to run as 3rd district constable.

Wilford Knight has officially withdrawn from the 2nd district constable's race.

The last day to qualify for an office is June 3.

Elderly Couple Killed In U.S. 45 Crash

A Rienzi couple was killed Saturday morning in a car accident in Biggersville on Hwy. 45 when their car crashed into a tree.

The victims were George Wren, 85, and his wife, Frances, 59, of Route 2, Rienzi.

A mixture of sleet and rain had caused the highway to become slippery and the highway patrol thinks Wren lost control of the car, according to Patrolman M.O. Harris.

Mrs. Wren died immediately from the crash and Wren died two hours later at Magnolia Hospital in Corinth.

Mrs. Wren was employed with Garan Inc. Wren was a retired farmer.

Services were 2 p.m. Monday at Coleman Funeral Home Chapel East. Burial was in Forrest Memorial Cemetery.

Whitten Honored By Farm Magazine

Progressive Farmer magazine has named U.S. Congressman Jamie Whitten (D-Miss.) 1982 Man of the Year in Service to Mississippi Agriculture.

According to the article in the February 1983 edition of the magazine, Whitten practically holds the purse strings of the nation. The article said his ideas go a long way in deciding the fate of money bills in the House.

Last year, Whitten's colleagues voted him as having the most success of any representative at getting bills through Congress.

As an example of Whitten's leadership, the **Progressive Farmer** article credited Whitten with effectively saving the Pascagoula Harbor Project and the Greenville Harbor Project a few years ago. Neither of these projects are located in Whitten's district, but each is considered critical to the state's economy.

Whitten has also led several successful moves to override Presidential vetoes, particularly when Presidents were bent on cutting funds for farm programs.

Twenty-six times with the backing of his committee, Whitten has led the fight to override vetoes in order to save oil conservation, forestry, and other land-care programs.

Whitten, first elected to Congress more than 40 years ago, has been re-elected to his post 21 times. He has the longest tenure of service among the 535 members of the present House of Representatives.

Against Tax Assessor-Collector

Attorneys Seek Dismissal Of Latest Suit

By KEN CHRISTIAN
Editor

Attorneys for Prentiss County Tax Assessor-Collector Danny Childers have filed a motion to dismiss the latest lawsuit brought by members of the county school board against Childers in the local Chancery Court.

Two similar suits brought

against Childers by the school board have already been dismissed, one in Prentiss County Chancery Court and one in federal court in Aberdeen.

In all three suits, Prentiss County Superintendent of Education Lex Cain and board members Edwin Brown, Larry Cosby, Gene Gray, Bill Wimberly, and Harold Woodruff have

claimed that in 1980 Childers failed to collect \$137,408 in taxes which they say should have gone to the county school system. The latest suit was filed Dec. 31, 1982.

(Edwin Brown, who was a member of the board during the filing of all three suits, resigned from the board Monday. See related story, this page.)

The money in question is

tax money which was collected from property owners within the city limits of Booneville.

Establishment of the Booneville Municipal Separate School District was approved by the State Educational Finance Commission in 1980 and took effect July 1 of that year. As a result, the city of Booneville levied and

collected the portion of the taxes slated for schools on all property within the boundaries of the new school district.

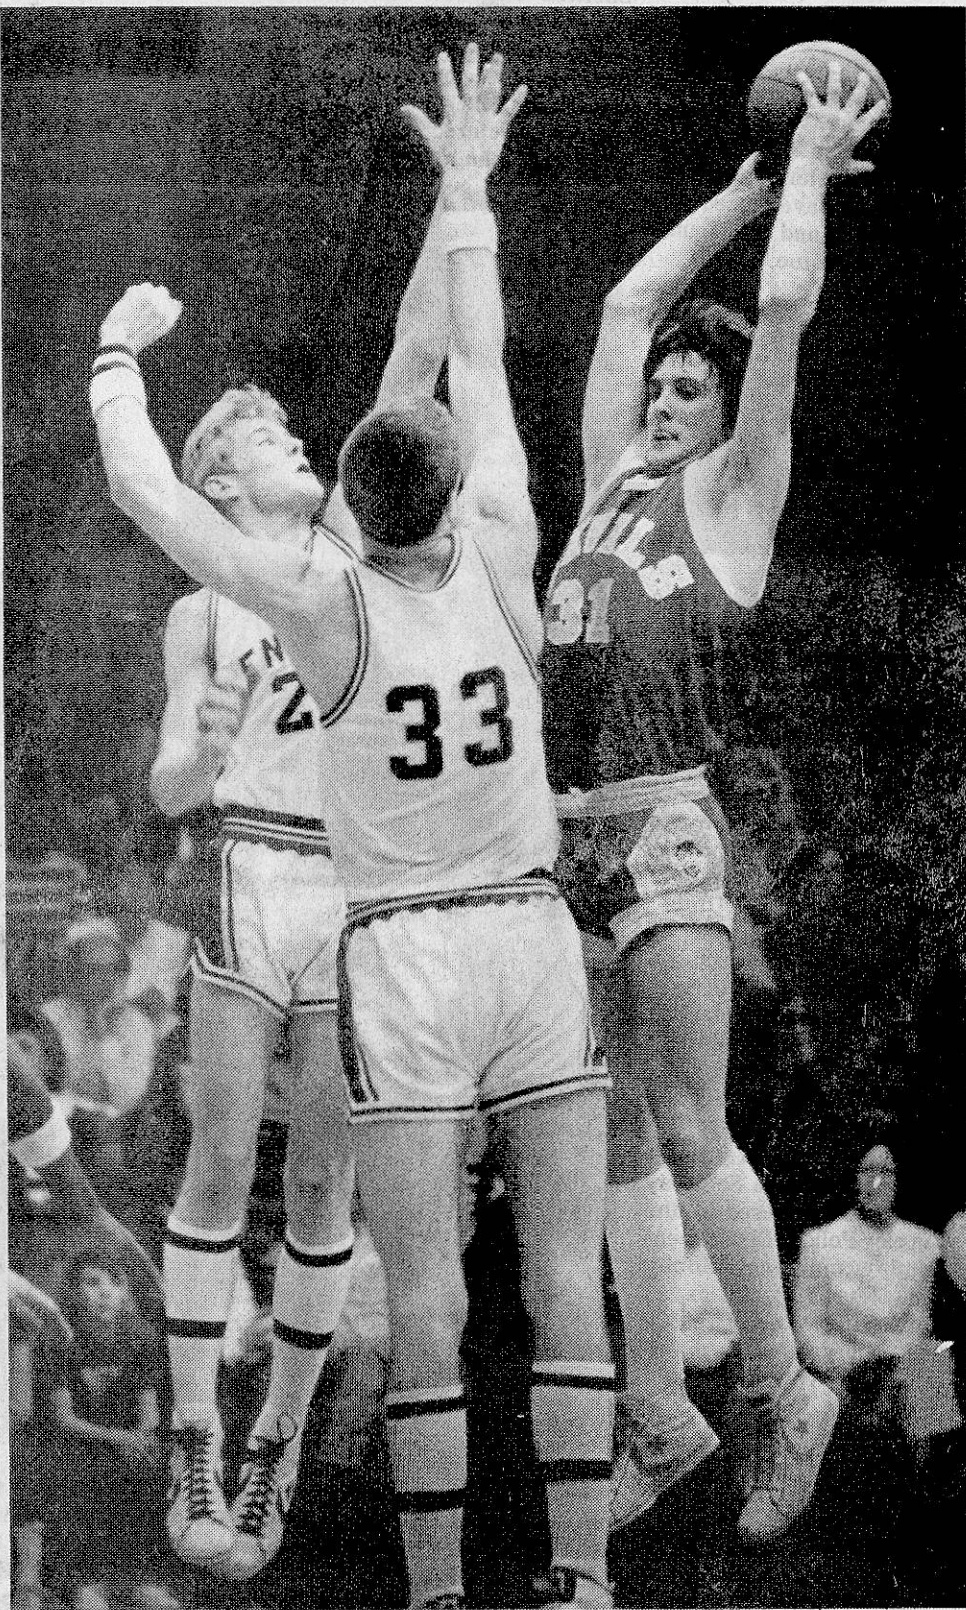

The county school board claims Childers should have collected that money for the county schools since the separation of the county and city schools did not take effect until July 1, 1980.

They say the county

schools are entitled to this money because of a state law which says any taxable real property must be made a part of a school district prior to June 1 of any year for that school district to be entitled to the taxes for that year.

In his motion to dismiss, Childers, through his at-

Veteran Member Resigns From School Board

Long-time member Edwin Brown resigned Monday from the Prentiss County Board of Education, saying he felt the move was in the best interest of the board since his brother, Johnny Browne, is running against incumbent Lex Cain in this year's election for the post of superintendent of education.

"Edwin was asked by all the board members and myself to stay on," Cain said Wednesday. "He has had a good relationship with the board and has been a fine board member."

Brown's brother recently qualified officially to seek the post of superintendent of

education. Although Cain has not officially qualified, he has made no secret of his intentions to do so. He again confirmed to **The Banner-Independent** Wednesday that he will seek re-election.

Cain is currently residing within the city limits of Booneville. This would make him ineligible to run for re-election. However, Cain said he will soon be moving to a house trailer located outside the city, near the Wimp Caldwell residence on Route 2, Booneville.

Supt. Cain said Brown resigned from the board because he did not feel right

about continuing to serve as a board member with his brother and Cain both seeking election to the superintendent's post.

The county school board will appoint a temporary replacement for Brown within the next few weeks, Cain said. It is not yet known who that replacement will be, he said.

In November, an election will be held for a new school board member to serve the remainder of Brown's term.

Brown was elected to the school board in 1972 and took office the following year, Cain said. His current term expires in December 1984.

Still Valentines After 60 Years

By ANGELA SMITH
Staff Reporter

Their romance began at a vaudeville show in Booneville in the early 1920's. He threw peanuts at her to get her attention.

And get her attention he did, for on Jan. 20 Mr. and Mrs. Sam Stoop of Booneville celebrated their 60th wedding anniversary.

In honor of the occasion their children and grandchildren surprised them with a 60th wedding anniversary reception.

"They really did us proud," Mrs. Stoop recalled. There was only one unpleasant thing about the whole celebration, she said,

and that was Mr. Stoop had to wear a tie. . . much against his wishes.

The Stoops' home is across the street from Booneville High School. They have lived there for almost 50 years.

Mr. Stoop, 82, ran a coal business in his backyard for 38 years. He has also been employed with the state highway department (he used a team of mules to keep up the roads) and as a truck driver. He still continues

gardening and mowing for the public.

Although he has given up quail hunting, he goes fishing every few days. Mrs. Stoop, 78, (nee Edith Gullett) also has a favorite pastime, writing poetry.

Since she suffered a stroke five years ago, her husband has taken over the cooking and cleaning chores.

"I wouldn't trade him for an electric dishwasher," Mrs. Stoop smiles. "He even puts away the dishes."

And Mr. Stoop's fried chicken is a family favorite. "If we have a picnic all the grandchildren want their Daddy Sam's fried chicken.

He's going to put Colonel Sanders out of business," laughs Mrs. Stoop.

The Stoops dated two years before they were married in 1923. She was 18 and he was 21. She lived in Booneville and he lived in Rienzi.

They courted via horse and buggy. A typical date for them was attending a watermelon cutting or an icecream party.

They were married at the Methodist parsonage in Rienzi by Bro. White. Mrs. Stoop remembers the ceremony as being a "very plain wedding. People didn't

have fancy weddings back then." "That's right," Mr. Stoop agreed. "It was as quick a ceremony as you'd ever hear."

What is their secret to such a long marriage?

"You've got to have a sense of humor and be able to laugh," Mrs. Stoop says.

Mr. Stoop says his philosophy is that since "a woman has got to have the last word, I just get up and leave."

Another reason for their successful marriage is because they had an understanding prior to their marriage. They agreed if

one of them corrected their child, the other parent would not take up for the child.

The couple have four children, Louise Coker of Tupelo, Jimmy and Larry of Booneville, and Tommy of Dalton, Ga. They have 10 grandchildren and eight great-grandchildren.

After being married 60 years, she calls him 'Sambo' and he calls her 'Mother.' "If he called me 'Edith' I wouldn't know who he was talking to," Mrs. Stoop smiles.

Looking back over their married life Mrs. Stoop says, "We've had a happy

life all the way through. I'm just about the luckiest woman in the world."

"Yes," her husband grins, "she could have looked the world over and not found anybody like me."

BIBLE QUESTION BOX

QUESTION: Mr. Hogland, the Bible seems to say in one place that the dead will not be raised and yet it says in another place they will be raised from the dead. I need help on this matter.

ANSWER: The Bible does say in Job 7:9 "He that goeth down to the grave shall come up no more." Then, it says in Lk. 20:37 "Now that the dead are raised, even Moses showed at the bush." When Job talked about one going down to the grave and not returning, he was talking about man's physical body. That part of man will never be raised. However, when the Lord said, "The hour is coming in which all that are in the graves shall hear his voice, and shall come forth." (Jno. 5:28, 29), he is talking about the spiritual body which will be raised. In 1 Cor. 15:42, Paul says, "So also in the resurrection of the dead. It is sown in dishonor, it is raised in glory." In your Bible you must understand whether the writer is talking about the "physical" or "spiritual" body. The body we have now will return to dust but God has promised to give us another body which will be adapted to the habitat in which we will live eternally.

Still Young At Heart After 55 Years Together

Addie Mae and R.B. Jones of 100 Cedar Street, Booneville, celebrated their 55th wedding anniversary on Feb. 4. R.B., who is 71, serves as the custodian at the First Methodist Church in Booneville.

Referring to Valentine's Day next Monday, pastor Charles Potts says the Jones "are truly two sweethearts."

"R.B. and Addie Mae have no children of their own, but in fact, are loved by all children... black and white," he said. "They are a perfect example of black being beautiful because they reflect the highest dignity of the Christian ethic."

Over the years as an employee of the church, both R.B. and Mrs. Jones have endeared themselves to church members and the community at large, Potts said.

"They are, indeed, young at heart as they tend to create by their very presence a climate of tolerance, acceptance, and love for all persons."

"We have learned to love him dearly," said church member Ruth Vail. "He is the most dependable custodian we have ever known. You tell him and then let it alone. He is very trustworthy and a really good man."

Mr. And Mrs. R. B. Jones

"He has tried very hard to help the children and youth of the community," she added.

Other church members, such as Emmons and Jane Turner and Myrtle Stevens, voiced similar sentiments about R.B. and Addie Mae. Eunice Fugitt, church

Named Student Activities Director

Sweeney Promoted At Northeast

Northeast Junior College President Harold T. White this week announced the appointment of Donnie Sweeney to director of Student Activities.

Sweeney, who has served Northeast for the past three years as a guidance counselor under the Mississippi Appalachian Manpower Consortium, will replace the former director Bobby Cox. Cox held the director's position until December when he left the College to pursue a private business interest, White explained.

"In addition to his continued responsibilities to the guidance and counseling of students, he will coordinate dormitory assignments, work with the Student Government Association, help organize special campus activities for students and assist with matters of student conduct," White added.

He will be assisted in these areas by fellow staff members, Bill Ward, Ricky Gillentine and Murphy Jones.

The Student Activities program is a segment of Student Affairs which is headed by Dean G. Hal Hughes.

Commenting on the new appointment, Dean Hughes

DONNIE SWEENEY

said, "I recognize that he is a very capable individual and I feel sure that he will do a good job."

Describing his new position as a challenge, Sweeney emphasized that he did indeed look forward to working with the students in this new capacity.

"Under the MAMC program, my primary responsibility was to educate the community and the student, making them aware of the many educational programs available," Sweeney said.

"In comparison, student activities means working with student needs outside the classroom," he said. "I believe student activities are a vital part of the student's total education."

The Prentiss County native is a graduate of Jumpertown High School and Northeast Mississippi Junior College. He earned both his bachelor's and master's degrees at Mississippi State University and is presently working toward an advanced degree

in guidance and educational psychology at the University of Mississippi.

Before joining the Nor-

theast staff, Sweeney was employed by Booneville High School and the Prentiss County School System.

The Mattress: A Somma Controlled Flotation System

It's called Controlled Flotation Sleep. And it's quickly replacing the innerspring mattress.

A Somma Controlled Flotation System has made sleeping on water completely respectable and acceptable. A Somma looks like a conventional mattress. It's lightweight and easy to move. It requires no troublesome heater. It comes in conventional mattress sizes. It uses standard bedding. It sits on a standard, heavy duty, bed frame. And the comfort level is unequalled by any other form of mattress available today.

A Somma's unique, patented, design of individual water filled cylinders nearly assures a leak proof bed while completely eliminating wave motion. By filling the individual cylinders to an appropriate level one side of the bed can be firmer than the other. The quilted top, with two inches of insulation, provides a luxurious sleeping surface. Your body is supported without any "hard" spots; a wonderful, relaxed, tension-free sleep is easily achieved.

Don't just look at a Somma Controlled Flotation System, lie down on one. You'll discover it's just like a bed, only better.

QUESTION: Do you support the independent trucker's strike?

JILL JONES of Slayden: "I have a friend who is a trucker. I see it from his side and I can see the other point of view, too. But I really don't think it's fair the truckers should be taxed more than anybody else."

EDDIE MILLER of Route 4, Corinth: "Yes, but I don't agree with the violence. Road use taxes have always been high and now they're being increased considerably again. It's senseless... a self-employed man trying to make a living and he can't."

TIM SARTIN of Route 4, Booneville: "No. The strike won't do any good without the union participating. I'm a trucker and I'm running just like always."

MARLYN CARTWRIGHT of Route 1, Booneville: "No, I don't. I drive a truck part of the time but I don't agree with the strike. I'll agree if you can save money it's all right to strike but I can't afford to strike. If they want to strike - let them and let the ones that want to run - let them."

BOBBIE CORBIN of Route 4, Booneville: "No, I don't. The strike effects too many people."

LOU DAVIS of Route 5, Booneville: "I can see their viewpoint. If they're having to pay road tax and extra tax they're adding on, I can't see how they can survive. I support the strike."

Don't Lick That Stamp

I have some sad news this week. The employees of the Booneville Post Office have asked me to ask you, my loyal readers, to refrain from sending me Valentines on Monday, Feb. 14. The postal employees called a special meeting and unanimously agreed that I would probably receive

several mailbags of valentines unless something was done about it.

Therefore, the postal employees are requesting that my readers skip sending me valentines this year.

I understand their predicament. Afterall, the postal employees have to work so much mail at the first of the month and at the last of the month, why should I, a mere staff reporter, add to their work load during the middle

of the month?

I remember the first letter I ever received that was addressed to me at the *Banner-Independent*. It really caused quite a stir at the post office. No one there realized anyone read my column at Publisher's Clearing House.

Since then I have received numerous fan letters from National Geographic and TV Guide. (Ed. note - Angela counts renewal notices as fan letters).

So although my Valentine's Day will be valentineless, I will be comforted in the fact that everyone read my column this week and followed the wishes of the postal employees.

Eyes On Mississippi

Lawmakers Facing Crucial Decisions

By BILL MONOR
Syndicated Columnist

JACKSON, Miss. - The euphoria left over from the Christmas "miracle" special session is just about to come to an end in the Mississippi Legislature, and you can look for the Seante and the House to be at each other's throats shortly.

In fact, colossal deadlocks on two issues which must be resolved - how to deal with the prisoner overpopulation crisis and a tax increase to sustain a state budget hard hit by recession - are building on Capitol Hill here. The Legislature's ox is in the ditch on both counts.

1. Lawmakers can't go home without providing money and locations for \$56 million in new correctional facilities or have some 1200 criminals put out on the street by a federal judge.

2. They can't go home without providing additional revenues, which means tax hikes, to support state government and institutions

next fiscal year, unless they try to get blood out of a turnip by postponing raises for 50,000 school teachers and state employees, or cut deeper into programs already on bare-bones rations.

The prospects on either of the above are not very hopeful for lawmakers who must go before the voters later this year. Certainly a tax increase in an election year is going to be a tough act to sell in Puckett, Paulding or Plantersville.

But the lawmakers have been dodging the bullet on tax increases for the past two sessions and now the services the state provides are in danger of being irreparably damaged. Last fiscal year, \$76 million had to be cut out of the budget to avoid a whopping deficit, and now \$100 million has been cut from this year's budget.

School teachers this year for the first time in 22 years were not given an annual

upward adjustment in pay, and neither were state employees.

Legislators thought they had the teachers taken care of starting next July in the education and tax package they passed in December, and raises for state workers were made the first order of business in the current session.

They aren't about to get out on the hustings next summer and have to tell the teachers and state employees the extra dollars in the pay envelope won't start until 1984. Yet push is coming to shove in the state treasury, where revenues continue to decline, now some \$63 million below expectations.

What's evident is that Mississippi was slower than the rest of the nation in feeling the full effect of the deep recession, but now it's going to take the state longer to get out of it.

Fiscal realists in the Legislature say there is no

way to finance even the austerity \$1.3 billion recommendations of the State Budget Commission without some new taxes NOW.

"Oh, of course we could do such things as close Mississippi Valley State University, merge Mississippi University for Women with Mississippi State and cut out remedial programs at the colleges, and maybe we'd get by, but we all know that is not going to happen," said a hard-nosed House fiscal leader.

Many are beginning to realize that the half-cent hike in the Sales tax starting next January that Sen. Ellis Bodron forced through as the key funding for the school reform package passed in December was a very big mistake.

They know that the sales tax is the best safety valve available to get the state out of the present financial crunch. One bill to advance the effective date of the 5 1/2 cent sales tax rate to July 1,

then increase it to 6 percent starting January 1, 1984, is already finding support in the House.

Again, however, Bodron, the entrenched guardian of taxes in the Legislature, is the chief obstacle to any smooth resolution of the budgetary crisis... and also the corrections crisis.

Bodron, after inflicting the sales tax hike on the school package, vowed in the special session no further tax bills would get out of his committee during the regular session. Now he is saying the only way he would accept advancing the 5 1/2 cent sales tax rate to July would be to pay for new correctional facilities, but no current expenses.

The blind Vicksburg lawmaker almost certainly is going to throw a bitter deadlock into the current session, and cause another major confrontation with Gov. William Winter over how the correctional facilities will be funded, by cash or bonds. He has

possession of the \$64 million bond proposal for the decentralized facilities backed by the administration.

Strangely, Bodron has also joined forces with Sen. Robert Crook, of Ruleville, the irascible foe of locating any prison facilities outside Parchman, which is in his district. Perennially, the state has found it virtually impossible to keep competent guards and staff persons at the remote Delta farm prison.

Close observers of the Legislature see the showdown on breaking both the budget and prison stalemates will eventually come if Lt. Gov. Brad Dye takes a strong hand in removing Bodron's roadblocks. Dye, too, must face re-election this year and he doesn't want the blame for breaking faith with teachers and state employees, or setting free a swarm of hoodlums resting on his back.

Legislative Report

Effort Made To Get 16th Section School Money

By REP. BILLY McCOY
District III
Prentiss and Alcorn Counties

This past week I was responsible for presenting to the House Education Committee all information pertaining to a bill which would have greatly increased state appropriations to the school districts in the 24 North Mississippi counties having no 16th section lands for the support of public schools.

This bill was referred to both the Education and the Appropriation Committees. I was able to secure unanimous approval in the Education Committee of which I am a member. However, the bill was not

considered by the Appropriation Committee and died because of Legislative deadlines.

Why do 24 North Mississippi counties have little or no 16th section land for the support of public schools, while the remainder of state's school districts receive over \$20 million dollars per year from their public lands to be used for the additional support of their schools?

The following facts by no means give the complete history to the long unjust treatment of school districts in North Mississippi, but they will give you a short resume.

(1) In 1802 Congress provided: "There shall be

reserved the lot No. 16 of every township for the maintenance of public schools of each township."

(2) In 1817 the whole of what comprises Mississippi was admitted to the union with 16th section in each township reserved for public schools.

(3) General John Coffee represented the President of the United States in the Treaty of Pontotoc Creek in 1832. A major condition of the treaty was the sale of ALL lands with the proceeds going to the Chickasaw tribe. The land was SOLD.

(4) The United States Congress in session in 1836 acknowledged the erroneous sale of the 16th section lands and authorized the 24

counties to select 174,555 acres mostly in the Delta in lieu of the 16th section land which had been sold.

(5) The Mississippi Legislature in 1840 authorized 99-year leasing (renewable forever) of all these lieu lands. Thus our lieu lands were actually sold again at \$6 per acre with the proceeds put in a trust fund for our public schools.

(6) In 1856 the Legislature authorized the loaning of the funds primarily to the railroads at 8 percent interest.

(7) The railroads failed, paid with worthless paper or the trust was managed in such a way as to rapidly disappear. Though the money was gone, the state was bound by its 1856 agreement to pay Chockasaw cession counties the 8 percent trust.

(8) The Constitution of 1890 reduced the 8 percent to 6 percent. Thus since 1890 the 24 combined counties have been receiving 6 percent per year of the \$6 per acre sale price on the 174,555 acres.

Last year these 24 counties received \$62,190 as a result of the above facts while the other counties received almost \$21 million.

House Bill 724 would have provided, for a \$5 million dollar annual appropriation to be divided by the school districts within the 24 county area.

We will continue to seek every legal and Legislative means available to correct another of the unfair practices afforded the citizens of North Mississippi.

HEART MONTH - February is Heart Month and the goal is to raise \$5,700 locally. Meeting recently to plan this year's fund raising are (front) Bobby Hodge, county fund raising chairman; (back, l-r) Eloise Maddox, Prentiss County memorial chairman; Norma Michael, publicity chairman; Ann Floyd, secretary and treasurer of the Prentiss County Chapter; and Helen Jones, president of the Prentiss County Chapter.

Local Heart Association Conducting Fund Drive

February is heart month and the Prentiss County Chapter of the American Heart Association will be conducting a campaign to raise \$5,700 in contributions. "We are asking people to please join in 'our fight for your life,'" according to a member of the local chapter of the heart association. "It's no mystery that 'our way of life' has become hard

on your pocketbook, but are you aware that 'our way of life' may be even harder on your heart?" The heart association suggests that people call the American Heart Association for nutritional information. Mississippi has the highest incidence of hypertension in the U.S. More than 400,000 Mississippians are living with heart and blood vessel

diseases. The American Heart Association has invested millions of dollars in research during the last 30 years and the investment has paid rich dividends, but much more needs to be done, according to a spokesman for the Prentiss County Chapter of the heart association.

Free Enterprise Conference Scheduled

High school student leaders from throughout Mississippi will gather on two college campuses Feb. 16 and Feb. 18 for a firsthand look at how the free enterprise system works. The two conferences will be held at Mississippi State University on Feb. 16 and at the University of Southern Mississippi on Feb. 18. They are sponsored by the American Enterprise Center, the educational arm of the Mississippi Economic Council. Aubrey Lucas, AEC chairman, said the conferences will be conducted in cooperation with centers for economic education on the two campuses. This is the third year the Free Enterprise Youth Conferences have been held.

"The purpose of the conferences is to expose outstanding students to business and industrial leaders and to encourage the students to share experiences of the day with other students," Lucas said. Lucas said that Mississippi business leaders will participate in the workshops on several business topics that include starting and operating a business, government regulation of business, productivity and profit, and competition. Also participating in this year's conferences is Lester Hollans, director of the Center for Business and Economic Education at Samford University and a Freedoms Foundation award recipient. Dropouts Offered Training

Today's jobs depend more and more on schooling and technical skills, according to Charles Smith, manager of the Mississippi State Employment Service. However, school dropouts can still receive specialized training at a Job Corps Center. Job Corps offers a variety of training programs for both men and women at over 100 centers. The training that is offered includes automotive trades, carpentry, bricklaying, plumbing, electrical trades, welding, nursing, clerical, secretarial, food services, and many more. In fact, Job Corps offers training in over 160 different jobs, Smith says. Of course, while attending in Job Corps, centers trainees receive room and board, some clothing for work and dress, books and other supplies, and a small cash allowance. In addition to learning a trade, they will receive counseling, medical and dental care and other services, including the opportunity to obtain a high school equivalency diploma (GED). However, Job Corps is different from the school the trainee may have dropped out of. In Job Corps, students learn at their own pace. Now is the time for school dropouts, 16-21, to make a change and enter the scene of the successful, Smith said. "See your Job Corps screener at the Mississippi State Employment Service Office NOW. This could affect your earning ability for the rest of your life!"

WHEN SEEING IS SURVIVING

About 110 million drivers cover more than a trillion miles in cars and trucks each year in the United States alone. And, in one way or another, they manage to "total" more than 55,000 human beings while doing so.

The safe driver makes sure he brings his "eyes" with him. If he needs eyeglasses or contact lenses, he's wearing them. And if his eye doctor advises him against driving on busy highways, he doesn't.

Anyone who spends time behind the wheel should have regular examinations by a vision specialist.

Optometrists know that about 90 percent of driving decisions are based on what we see - or fail to see. The four principal elements in safe driving are observing the vehicle operator, the vehicle itself, the highway system, and the highway setting. All involve vision.

Presented as a public service by Dr. Walter C. Simpson, Optometrist, 113 Main St., Booneville, Ms., phone 728-4833.

Farm PIK Sign-Up Underway

By C.E. CALVERT
County Executive Director

1983 PROGRAM
SIGNUP UNDERWAY
AT ASCS OFFICE

Farmers in Prentiss County are in the midst of a signup under the 1983 farm program. Signup under the Payment-In-Kind (PIK) Program and Acreage Reduction Program began on January 24, and will continue through March 11, 1983.

Farmers are showing a great deal of interest in these programs. Each individual farmer is trying to get all available information in order to decide how these programs will fit the needs of his particular situation.

The Acreage Reduction Program is in effect again for 1983. Generally a farmer must enroll in the Acreage Reduction Program in order to be eligible to participate in PIK. Participation in PIK can range from 10 to 30 percent of the base. There is also a provision for farmers to place bids for diverting an acreage equal to the entire farm base acreage.

We advise farmers to contact the County Office for program details. Farmers are urged to sign up early to avoid the late rush. We emphasize that a farmer who signs up may cancel out any time during the signup period.

PIK RESPONDS TO IMMEDIATE AND LONG TERM FARM NEEDS, MIZELL SAYS

The new U.S. Department of Agriculture's payment-in-kind program responds to immediate farm needs while keeping the door open for meeting future needs of American agriculture, Assistant Secretary of Agriculture Wilmer D. Mizell said.

Mizell told members of the Alabama Farm Bureau Federation meeting in Montgomery that farm exports are essential to farmers and the American economy, but farmers must first survive to meet domestic and world food demands in the future.

"The PIK program and our export initiatives are responding to immediate needs while strengthening the future," he said.

Worldwide bountiful harvests are the prime cause for the burdensome oversupply of farm com-

modities, Mizell said. Other causes, he said, were the Soviet grain embargo, global recession; a strong U.S. dollar; unfair trade practices; and financial problems among several trading partners.

Mizell explained the PIK program and told how farmers can benefit from participating in the program.

MARCH 16, 1983,
FINAL DATE FOR
ESTABLISHING
INDIVIDUAL
YIELD COVERAGE
FOR CROP INSURANCE

Farmers who are considering crop insurance which is available through the Federal Crop Insurance Corporation (FCIC), are encouraged to get their individual yields established based on actual production. The Individual Yield Coverage Plan (IYCP) was introduced in 1982, and provides individual farmers an opportunity to substitute their yield records for the established FCIC yield.

The Agricultural Stabilization and Conservation Service (ASCS) has been assigned responsibility for establishing yields under the Individual Yield Coverage Plan. Farmers who are interested in proving their individual yields for 1983, must do so by March 16. Crop insurance is being offered in Prentiss county for the following commodities: Cotton, Corn, Grain Sorghum, Wheat and Soybeans. Individual yield could be proven for any or all of these commodities.

Production records must be submitted for the 3 years prior to 1983, on which the crop was produced on the farm. Producers who are interested in establishing individual yield coverage, contact their local ASCS office for detailed information as to the records which are needed as production evidence, crop years for which records are needed, etc.

IYC records must be turned over to authorized sales agents. The ASCS office does not sell or service FCIC Insurance. Any questions concerning the sale of service of insurance must be directed to sales which are approved by FCIC. Personnel in the county ASCS office will be able to provide the names of agents who have been authorized by FCIC to sell crop insurance.

Farmers Eligible For Increased Insurance

Prentiss County farmers who participate in the Payment-in-Kind (PIK) program are eligible for increased insurance guarantees on insured wheat, corn, grain sorghum, rice, and upland cotton at no extra cost, according to Clarence H. Goss Jr., district director for the Federal Crop Insurance Corporation (FCIC).

To encourage the widest participation possible in the PIK program, FCIC will accept downward revisions of previously reported acres and increase the per acre guarantee on the remaining acreage. Downward revisions of acreage reports may be made until March 11, 1983.

For the 1983 crop year only, insurance guarantees on the eligible crops will be increased by the following proportions: a 6 percent increase for reductions of 20-29 percent; and a 10 percent increase in acreage reduced by 30 percent.

"Percentage reductions are calculated for acreage reductions above the regular farm program set aside," Goss says.

Farmers may participate in the PIK acreage reduc-

tion on one farm and not another.

"Any increase in coverage," Goss said, "will be in effect for the farm selected for PIK participation, without affecting the guarantee or premium on the other insured farm or farms."

"Upon acceptance of the revised acreage report, the premium will be recomputed on the reduced acreage and the per acre guarantee will be increased for the remaining acreage," Goss said.

Under a bid arrangement, farmers may reduce the entire acreage to zero. In that case, a zero acreage report may be made to the agent by March 11.

Farmers should verify acceptance of the bid with their agent by March 18. If the bid is not accepted, the farmer remains insured for the acreage intended for harvest.

"Insured farmers should contact the local agent authorized to service their FCIC policy before March 11 to report any downward revisions on insured acreage and to gain the advantage of the increased protection," Goss said.

Tree Planting Week Scheduled

"Mississippi's ninth annual statewide Tree Planting Week has been set for Feb. 11-18," according to James Martin, tree farmer of Brandon. Martin has been named the Tree Planting chairman for a second year by the State Tree Planting and Forest Resource Development Committee of the Mississippi Forestry Commission. The primary sponsor of Tree Planting Week is the Mississippi Association of Conservation Districts. The annual tree planting event has been observed since 1975. In 1982, 80 of 82 counties participated in Tree Planting Week. Gerald Tension, chairman of the Prentiss County Soil and Water Conservation District, says 6,000 trees will be given away to students in grades 1-6 during the observance. People in Prentiss County will join other Mississippians in acknowledging the many contributions trees make to their daily lives. Benefits from Mississippi's forest and wood products, are essential to the economic, recreational, and environmental needs of all. During 1982, more than 80,000 Mississippi school children at 484 schools took part in Tree Planting Week activities. Five and one-half million trees seedlings were planted throughout the State during the five-day observance. Mississippi has abundant forests. More than half of the state's land area is in trees. But several million acres of land best suited for growing timber, need planting or conversion from low value scrub timber to pine trees. Many of these idle and unproductive acres are in Prentiss County.

SCOUTING

"WHAT SCOUTING MEANS TO ME..." -- Some of the Cub Scouts and Boy Scouts who took time out this week to describe what being in Scouting means to them are (front row, l-r) Michael Leslie, Sam Devaughn, Mark Michael,

George Rainey, (2nd row, l-r) Ritchey Hurt, Chris Murphy, Charles Beene, Tim McGaha, (back row, l-r) Murray McGaha, Andre Simmons, Tim Jackson, and Steve Collins.

'What Scouting Means To Me'

STEVE COLLINS, Assistant Senior Patrol Leader, Troop 96:

"Over the past few years Scouting has meant a lot of things to me.

"Some of these things are: overnight campouts, a whole week at Scout camp each summer, learning to cook a complete meal over an open fire, learning how to swim and how to save a drowning person, and learning how to tie knots, just to mention a few.

"But being a good Scout means a lot more than just these things. On the road to earning my Eagle, I'm learning to be trustworthy, loyal, helpful, friendly, courteous, kind, obedient, cheerful, thrifty, brave, clean, and reverent. These are the 12 points of the Scout law.

"Working toward my Eagle has helped me realize how lucky I am to live in this free land of America. It has also helped me to learn to understand more fully about our Constitution and our Declaration of Independence.

"I'd like to thank my family and my Scoutmaster, John T. Larsen, for their help and guidance in all my scouting work."

MARK MICHAEL:

"My name is Mark. This is my second year in the Cub Scouts. To me Scouting means an adventure in learning.

"One thing I have learned is responsibility. I learned this one way by going to the meetings and participating in Scouting activities.

"Scouting also means making new friends and having fun."

Feb. 6-12 has been designated Scouting's 73 Anniversary Week. An estimated 382 Cub Scouts, Boy Scouts and Employers are expected to participate in various activities in Prentiss County this week.

Scouting is not only emphasized during Scout Week, but throughout the year. In Prentiss County alone, there are 150 Cub Scouts, 121 Boy Scouts, and 101 Explorers. These youths par-

TIM JACKSON, Troop 79, Booneville:

"In the world of scouting we learn many important skill that are really useful.

"First-aid is one of the most important skills. To be able to help somebody when they are hurt is a very good feeling. Many boys like Scouting because it is a challenge to learn all of the skills.

"One of our scouts, Billy Mullen, moved from California to Mississippi. Billy says Troop 79 is one of the best troops anywhere.

"Summer camp is the highlight of the year. Summer camp is a camp for all Scouts. There you live in the woods comfortably for one week. You learn how to swim, canoe, rowboat, and master the gun and bows. These are just a few of the many activities.

"Another Scout, Mark Kizer, who is a Second Class Scout, learned to swim. He went from a non-swimmer to beginner in one short week. This year, he is planning to go all the way to swimmer and get his swimming merit badge.

"Then there is our troop leader, 'Uncle Jim.' He spends time with us each week to show us leather work, wood work, and many other projects. He takes us on overnight campouts once every

month.

"We admire him as our leader.

"Scouting has given me the training that I could survive in the woods, the friendship of others, and the skills that I will have with me for a life time."

SAM DeVAUGHN, Troop 93, Marietta:

"Scouting to me has many challenging events which I enjoy participating in.

"It gives me an opportunity to meet new friends and learn important skills. I believe scouting builds character which can help people in all walks of life. It teaches good morals, attitudes and lifelong skills.

"These are only a few of the many qualities which Scouting teaches and directs toward young people.

"I feel that if every young boy and girl were a part of Scouting, this would be a better world to live in today."

CHARLES BEENE, TIMOTHY MCGAHA, & MURRY MCGAHA:

"Scouting is a part of having fun. Most of all is that you get to go fishing and camping.

"We haven't been out of the park camping. Even though we haven't, we have had a lot of fun. The lakes

ticipate in activities such as the Pinewood Derby, the annual Scout Show, summer camp, camporees, weekly meetings, ski weekends, and many other events.

The following describe how some Prentiss County Scouts feel about Scouting.

Anyone interested in the Scouting program, should contact Jim Russnogle, district executive of the Prentiss County area, at 728-3417.

we went to were bare.

"If you want to learn something, the Scout patrols can teach you.

"We will have a Scout Derby Feb. 12 at Anderson Junior High School. We meet every Tuesday at 5 p.m."

MICHAEL LESLIE, Pack 56:

"I like Cub Scouting because we go places and do things with other boys, and we go camping and fishing and meet a lot of friends."

ANDRE SIMMONS:

"Scouting to me is a way of learning to share, and to be dependable.

"A Scout learns to be prepared for all and any emergencies and he helps his fellow Scouts."

GEORGE RAINEY, Pack 96, Den 1:

"Why do I like Cub Scouts? That's easy. I like Scouts because it's fun!

"We meet on Wednesday nights. We say the Pledge of Allegiance to the flag, we work out of our Scout book, and then we have an activity.

"Our Scout books teach us about Scouting, and how

to be good citizens and good people. We can even learn Indian sign language and how to track different animals.

"For activities, we play games, or ball, or go to the park for a hot dog roast, or even to McDonalds for a treat.

One of the fun things we do each year is the Pinewood Derby Race. This is when a boy and his parents build a little wood race car from a kit. Then we race against other Cub Scouts in our area.

"Another fun thing about Scouting is learning about living outdoors. Cub Scouts get to go on an overnight campout with their dads. The older Scouts can go camping for a whole week!

It's smart to be able to survive outdoors, too. I know of a man who saved his wife's life because of what he learned in Scouting when he was a boy."

RICHARD HURT:

"Scouting means to have fun and to learn things. You make friends with other people, too."

JEFFREY WHITE:

"To me, Scouting is a chance for all young boys to get out of the house and

know more things than they did before.

"It means that Boy Scouts will continue serving our country, the United States of America.

"We are very proud to be called Boy Scouts of America."

JEFF BRIDGES:

"Cub Scouting is good. Cub Scouting is fun.

When you are in the Cub Scouts, you will get to do many things. You will get many things from Cub Scouts."

CHRIS MURPHY, Den 6, Pack 37, Booneville:

"Being a Scout is an honor.

"There are many things about Scouting that I really like. At our den meetings, my friends and I learn how to uphold Scout Law and learn to live by it daily.

"Working toward earning badges is sometimes tough. There is some paperwork and a lot of memorizing.

"Remembering that I am a Scout in ALL things is important to me. My den helps me work toward being a good Scout and a better person.

"When I wear my Scout uniform, I wear it proudly. Scouting is doing, learning and participating.

"Besides being a lot of hard work and effort, Scouting is fun. Many fun things are going to day camps, running cars in the Pinewood Derby, walking in the Christmas Parade, Scout Olympics, bowling trips, camping, hiking, and swimming.

"I am proud to be a Scout."

Library Notes

By LEE DAVIS
Librarian
George E. Allen Library

Tracing ancestry is sometimes motivated by practical concerns and sometimes by scholarly interests. In either case, its fascination, which makes long hours of research worthwhile, is hard for the uninitiated to understand or appreciate.

Information far removed from their present concerns is often destroyed by those who fall heir to such records, and once gone it is irretrievable.

Recently the Allen Library has received requests for local history that present holdings can't fill. Should you have such records which you do not want, let us see or know about them.

Another source of material for term papers and school reports is our vertical file.

From newspapers and magazines we clip information on topics which may be local but permanent

in application, which may be assigned at school, or may be of historical interest.

Some of you have material of this kind that you don't want to keep. We place it in folders which are filed by topic. When all other sources have been exhausted or checked out, many students have found our files on drugs or alcoholism sufficient for a class talk. Clippings and pamphlets of this type are welcome gifts.

Of course, "The New Times," some other newspapers, and a number of popular magazines have professionally compiled indexes and in this column we have appealed to you for gifts of those magazines you have used to which we do not subscribe.

We can trace this type of information through "The Readers' Guide to Periodical Literature," but our local history usually does not appear in such publications.

The library does have our local newspapers back to 1926, some only on microfilm. You are invited to use them.

Soybean Day Scheduled

All soybean farmers and other interested persons are invited to attend this conference sponsored by the Mississippi Soybean Association (MSA) and the Mississippi Cooperative Extension Service at the Bost Extension Center, Mississippi State University.

Registration and agribusiness exhibits will open at 8:30 a.m. Dr. James R. Carpenter, director of the Mississippi Cooperative Extension Service (MCES), will begin the program at 9:30 a.m. with "Soybean Profits '83."

"Developing Overseas Markets for U.S. Soybeans and Soybean Products" will be discussed by Gil Griffin. Griffin will share his firsthand experiences and observations as former American Soybean Association Japan director for market development.

"Managing Costs and

Increasing Profits" will be explored by Dr. Bob Williams, MCES economist. An industry sponsored luncheon will follow the MSA annual business meeting.

The afternoon program will open with a marketing workshop focusing on "Developing a Market Plan." Four topics will be included in the production workshop: "Using Lime Profitably," "Over-the-top Grass Herbicides - Where do They Fit?" "Doublecropping Wheat-Soybeans," and "Soybean Seed Situation."

YOUR HEALTH

By

Dr. Jim Davis, D.C.

HEALTH WISE

Patients tend to think of chiropractic as the best solution for pain in the back. If they have other health problems, they may turn to chiropractic only after all other healing arts have failed to help them.

This is unfortunate because a lack of nerve energy flowing to any gland or organ can cause functional disorder and illness. Nature intended our bodies to function in good health but normal flow of nerve energy is required if we are to stay healthy.

Chiropractic is the only healing art whose main concern is the maintenance of a full, natural supply of nerve energy to all parts of the body. Phone for an appointment and complete information.

Blue Devils Edge Alcorn Central In I-A Tourney

Victor Gardner Watches As Teammate Goes Up For Two In Tuesday's Victory Over Alcorn Central

By CLIFF LONG
Sports Writer

The Booneville Blue Devils pulled off the upset of the District I-A tournament Tuesday night, as they edged the formerly 5th ranked Alcorn Central, 58-55.

The two teams were neck-and-neck throughout the entire ball game. At half-time the score was tied at 23-23, and the third quarter score was also a tie at 40-40.

In the fourth quarter, Central gained the lead and kept a two to three point advantage through the opening minutes.

With 5:51 to go in the game, Central's Rod Nixon was fouled as he took a shot. The shot was good and he made the free throw, giving Central a 47-43 lead.

Central regained possession and drew another foul. Dale Ducker went to the line for a two-shot foul. He made the first to give the Bears the biggest lead in the ball game.

On his second shot there was a scramble for the rebound and a jump ball.

Booneville won the jump, Larry Mackin scored for Booneville and the Blue Devils never looked back.

The Devils began a barrage of scoring attacks each time down the floor.

This offense, coupled with some key defensive plays, allowed Booneville to shut down Central for the next four minutes on the clock. The Blue Devils outscored Central 9-1 during that time.

Then it was Larry Mackin's turn. When Central began to get back on their feet, Mackin began to work on the offensive and defensive boards to insure that Booneville would maintain their lead.

Mackin scored eight points in the final minutes of play, including maybe the most important two points of the game.

He was fouled on a shot with 30 seconds left and the score stood at 54-53 in favor of Booneville. Mackin sunk both free throws to pull Booneville out by three.

As Central rushed the ball down to attempt a score, Bernard Anderson stole the ball from point guard Dwayne Snyder and took it in for an easy lay-up. That was the ball game.

Free throws were the difference in the ball game as Booneville hit an incredible 16 of 19. Central was only 17 of 25, missing many

front end one-and-one situations.

Mackin had 18 points in the ball game, 16 of them in the second half. Victor Gardner also had 18, 13 of his

in the first half.

Bernard Anderson ended up with 12, including some key shots from the perimeter.

Booneville will play

Amory tonight. A win would put them in the finals on Saturday night and would give them a trip to the North Half playoffs in Water Valley next week.

Richey, Presley Named To All-Star Team

Two Prentiss County linemen have been chosen to represent the North squad in the 34th annual Mississippi

High School All-Star Football Game.

Jody Presley, 6-3, 250 lb. tackle from Booneville High School, and Clark Richey, 6-3, 250 center of Baldwin High School, are among the 66 All-Star performers from throughout the state.

Presley was a dominating figure in Doc Gullett's defensive line during each of his four years of high school action. Although no commitments have been made, he currently plans to play at Northeast Junior College next year.

Richey is also a four-year letterman with Hubert Tucker's Baldwin Bearcats. Along with his All-Star honor, Richey was also named to the All-State team.

He has committed his talents to the Ole Miss Rebels.

The All-Star game will be played on Friday night, July 29, at Mississippi Memorial Stadium in Jackson. The annual event is sponsored by the Jackson Touchdown Club.

Chris Frost Of New Site Guards Thrasher Player In Monday's Thrasher-New Site Game.

New Site, Wheeler, Jumpertown Fall

Thrasher Girls Advance In BB Action

Four of the Prentiss County School District's eight cage clubs were eliminated in opening round action of the district tournaments. The girls proved to be more vulnerable than the boys in the initial warfare. New Site's, Wheeler's, and Jumpertown's ladies bit the dust, while Thrasher's girls escaped by taking a tough 35-28 decision over neighboring New Site. On the boys side, New Site proved to be the

first boy's casualty, losing to Baldwin in a 57-48 dogfight. In I-B action, the Jumpertown girls were eliminated by the West Clay Lady Eagles, 43-34. The Lady Eagles from Wheeler didn't fare well, either, falling by a 49-35 margin to Tremont. Tangie Miller threw in 21 points for the Wheeler girls to lead all scorers in their team's final showing of the season. For the Jumpertown ladies, Angie Welch hit for eight points to lead the offensive thrust. Unfortunately, the loss of leading scorer Tracie White to injury proved too much for the Lady Cards to overcome. Over in I-BB, Thrasher survived the battle between the neighborhood rivals. New Site, after falling behind by a 16-4 margin early, made a valiant rally, but could never overhaul the Lady Rebel's torrid start. Lisa Garner hit for 18

points for the winners, while teammate Charla Huddleston added another 11 markers to account for 29 of the winner's 35 points. Tammi Thornton hit in double figures for New Site, despite the setback. The only boy's action involving a local club saw Baldwin eliminate New Site for a second successive season. The Bearcats advance to the semifinals to face Biggersville, after the Lions eliminated the tourney's top seed, Belmont, earlier in the week. Each of the local clubs were eliminated with sub-500 records for the campaign. Wheeler's Lady Eagles, and the New Site clubs managed to close in on the mark with late season rushes, but came up short in the final tally. Jumpertown's girls, after two successive trips to the North Half, suffered through a season eased by only two wins. Wednesday night's action was to feature the Jumpertown Cardinals, the top-seeded team in I-B, against the Smithville Seminoles at Amory. The Wheeler Eagles were to be in action, battling the improved Hamilton Lions. In I-BB, the Thrasher Rebels were to meet Burnsville in their opening battle of district warfare. Clubs advancing to the tournament finals will be rewarded with berths in the North Half. Ironically, two of the top-seeds in the district tournament, Alcorn Central and Belmont, lost their opening round games in the I-A and I-BB classes, respectively. Wheeler's Eagles, Jumpertown's Cardinals, and Thrasher's Rebels managed to earn North Half berths last year and are hoping to repeat the pattern this year. The Lady Rebels from Thrasher are the only girl's club left from the Prentiss County school system in district tourney action. Finals are slated for weekend play.

game to Baldwin, 16-9. Jeanie Weatherford was high scorer for Anderson with 5 points. Lea Ann Hughes scored 3 and Brenda Scott, 1. The 7th grade boys also dropped their game to Baldwin, 27-36. Jeff McVey scored 10 for Anderson, followed by Tim Jones with 5, Jonathan Davis, 4; Brent Johnson, 3; Steve Gaines, 3; and Anthony Burcham with 2. Anderson's 8th grade boys were victorious Monday night against Ripley, beating the Tigers 51-29. Jessie Godwin and Chris Hughes were the high scorers with 8 points each. Tim Jumper and Clay Johnson followed with 7 each, George Beene had 5; Anthony Crump and Jerry Christian, 4 each; Jeff McKinney, 3; and Jeff Burcham, Ricky Nanney and Steve Collins, 2 each. In another close game, Ripley beat Anderson's 8th grade girls by one point, 21-20. Karen Nunn scored 12 points to lead Booneville's

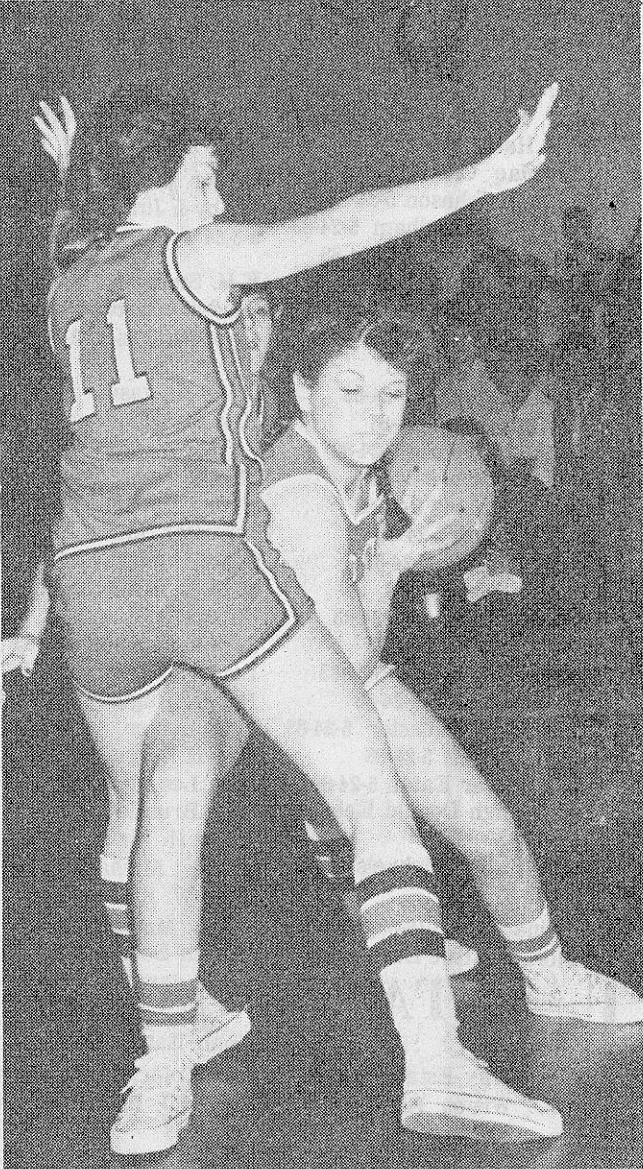

girls. Susan Downs scored 4 points and Pam Crump and Tammy Owens had 2 points each. The Tombigbee Junior High Tournament will begin next Monday night with three games at Anderson Junior High School. The finals will be played either Tuesday night or Thursday night at Kossuth.

Marsha Jones Is Named Employer Of The Week

The Vocational Business Education Department at the Prentiss County Vocational School this week spotlights Mrs. Marsha Jones, manager of Handy Dan's, and their student employees, Cynthia Jones and Tammy Jones from Booneville High School and Prentiss County Vocational Schools Cooperative Vocational Office Training program.

Marsha and Larry Jones have been owners of Handy Dan's for two years. It is a convenience market with gasoline. The store is open seven days a week.

Mrs. Marsha Jones, the daughter of Mrs. Roy Elder and the late Roy Elder, is a

graduate of Booneville High School, Northeast Mississippi Junior College and Mississippi State University with a B.S. degree in elementary education. She taught in the West Memphis Public Schools for 10 years and the Prentiss County School System for one year.

Since Handy Dan's is so close to Booneville High School, she says she sometimes feels that she has not totally left the field of education but moved up from elementary to high school.

Don't do your taxes without your \$2,000 deduction.

Quick, before you file your 1982 federal income taxes. Stash away up to \$2,000 in a First Bank IRA Tax Shelter, and you can deduct every penny. In a 50% tax bracket, that could save you \$1,000 on taxes, \$600 in a 30% bracket. Plus, you don't pay taxes on the interest until you withdraw your money.

Working couples can put in up to \$4,000 from their joint income, and save twice as much. For couples with one spouse working, the maximum contribution is \$2,250.

Save thousands on taxes.

The big tax break is why a First Bank IRA is better than almost any other investment. Other investments may pay you as much or more interest. But they don't give you the tax break which, over the years, can save you thousands and thousands in taxes. See the chart to get an idea of how much. You'll be amazed.

Almost everybody's eligible.

You can contribute to a First Bank IRA Tax Shelter even if you have retirement or profit-sharing plans at work. The only requirement is that you earn the money you contribute.

Hurry for '82 deduction.

To take the IRA deduction on your '82 taxes, you must make your contribution before April 15, 1983. You do not have to put in the full \$2,000. Stash away any amount up to your maximum — \$500, \$1,000, whatever.

Your First Bank IRA Tax Shelter money is absolutely safe because it's insured to \$100,000 by the F.D.I.C.

Contribute monthly for '83.

Tough to come up with a big lump sum? At First Bank, you can contribute to your IRA Tax Shelter monthly. And now's the time to start for 1983. Start in January, and you'll only need \$166 a month for \$2,000 by the end of the year. Or you can put in less every month. We can automatically withdraw your monthly IRA payment from your First Bank checking account.

Don't let a big tax deduction slip through your fingers. Visit any First Bank location now to make your '82 contribution, and to start your automatic monthly contributions for '83. You can save a bundle on taxes.

Tax break and a small fortune for retirement.

Start at this age and contribute the maximum each year until you are 65.	Total contributions at \$2000 every year to age 65.	An individual contributing \$2000 a year could have this amount by age 65.	Amount of Taxes deferred on interest earned by age 65 in 30% bracket.	Total tax deductions in 30% bracket.

* Based on an assumed interest rate of 9% a year. The actual amount accumulated will be determined by how much you contribute and existing interest rates between now and age 65.
Penalties for early withdrawal are forfeiture of an amount equal to six months' interest and 10% tax in addition to regular income tax on amount withdrawn.

THOUGHT FOR THE WEEK
“Dear Lord My Marriage Is On The Rocks”

“... And The Twain Shall Be One Flesh.” —Matt: 19-5B

By Charles L. Potts

Divorce or separation throws both the husband and wife off balance. Although the break-up may not be unexpected. . . it never-the-less brings on a crisis.

It is, of course, most difficult for the one caught off guard. Let's say, for example, it is the wife who has received the blow. . . the loss of her marriage. "Dear Lord, my marriage is on the rocks." But for her the marriage seems to be over.

If she fights to save the marriage she will need help. She calls on close friends. . . and they are deeply concerned. . . but can do little. Perhaps the minister can help. . . and he does to some extent; however, he can do little unless both husband and wife really want help. The lawyer can help explore the various alternatives and options.

In many martial breaks. . . often professional help can turn the tide of a crisis. Here are Joan and Earle. . . driving home one day and he announces that he is leaving for another woman. Her tears were to no avail. . . he moved out the next day. She tried desperately through prayer and self evaluation to determine why. Earle had always been dependable and steady.

She visited the minister several times for spiritual guidance and possibly referral. The visits helped her to see several things. . . finally Earle agreed to go also. He saw his wife as one lacking affection, a poor housekeeper, and as a hypochondriac. . . totally dependent on him. These feelings were buried inside of one who truly loved his wife but could not express himself on such matters without being hostile.

Joan saw him as lacking ambition and as a dull companion.

They agreed with each on several things. (1) They began to take each other for granted. (2) They had ceased to work for a good marriage. (3) They had left God completely out.

Earle admitted that the "other woman" was not in the class with his wife. . . but that she showed him some attention. It was not easy. . . but the couple did become reconciled and Earle returned home.

They admit working to keep "the twain as one flesh" . . . by inviting God into their marriage.
