## Roundup

### Prisoner Escapes

A female prisoner who escaped from the Booneville jail around 8 a.m. Tuesday had not been apprehended as of early Wednesday morning.

Ronda L. Jones, 19, of Route 7, Booneville, escaped from the city jail when she was let out of jail to make a phone call, according to Booneville Police Chief Bobby Lambert.

"When we let her out to make the phone call she ran out the back door," Lambert said Tuesday.

Officer Jerry Barnes chased Jones on foot to the railroad tracks at the old depot but was unable to stop her. "She could run like a deer," Lambert said.

Jones apparently lost her shoes in the police department parking lot during the chase, Lambert said.

Jones was in jail for failure to pay old fines, he said.

She was arrested Monday afternoon by the Prentiss County Sheriff's Department for the police department. During the time Monday she was in the county jail, she reportedly broke out a window in the restroom and was attempting to escape when Deputy Jeff Jackson stopped her. After that episode, she was taken to the city jail.

Chief Lambert said Jones will now face additional charges of jail break.

### More Out Of Work

Prentiss County's unemployment for July jumped to 13.4 percent, up from 9.8 percent in June -- the largest increase in unemployment in the 15 county area covering Northeast Mississippi.

The closing of Brown Shoe Co. in Booneville and the initial layoffs were responsible for the high unemployment rate.

However, the unemployment rate in Northeast Mississippi dropped .6 of a percentage point last month, dropping to 10.5 percent from June's 11.1 percent levels.

Mississippi's unemployment rate rose to 10.9 percent in July, an increase of three-tenths of a percentage point compared to June's revised jobless rate of 10.6 percent, according to Mississippi Employment Security Commission Executive Director Cohen Robertson.

Last year's July unemployment rate was 13.3 percent.

The 10.9 percent unemployment rate for the state was higher than the 7.5 percent national rate for July. Mississippi Employment Security Commission figures showed 117,300 unemployed and 961,900 employed out of a civilian labor force of 1,079,200. The initial unemployment insurance claims totalled 20,447 in July.

### ICG Sale Cleared

The state Public Service Commission has withdrawn its opposition to the sale of 713 miles of eastern Mississippi Illinois Central Gulf lines to L.B. Foster Co.

ICG had petitioned the Interstate Commerce Commission for an exemption from the need for public hearing, citing a need for maintenance and upgrading of the lines by the new owner, the Gulf & Mississippi Railroad.

The petition claimed any delay in approval by the ICC would delay such upgrading and jeopardize the sale.

Portions of the ICG lines involved in the sale serve Prentiss County.

## Possible Site Of Future Fairgrounds

# Grant Sought For Ag Center Complex

By ED WOODWARD  
Managing Editor

The Prentiss County Board of Supervisors has applied for a Community Development Block Grant to help fund the initial phase of a project that could eventually provide a one-stop agricultural office complex, a park, a fairgrounds and an open arena for Prentiss Countians.

According to Board of Supervisors President J.P. Davis, who is also chairman of a committee organized to formulate plans for the facility, cost figures for the project previously reported in two area newspapers are incorrect.

One area newspaper reported a total cost for the entire project of \$1 million, while another listed the amount of the grant request at \$370,000.

"I don't think they understood us correctly," said Davis.

According to Doug Mansell, executive director of the Prentiss County Development Association and another committee member, the amount of the grant request is actually \$749,500, and \$1 million is only the cost of Phase One of the project.

The official grant request describes Phase One as "procurement of the land and development of the agricultural

service center," which would include the recreational area.

Phase Two, which would be funded and accomplished after the completion of Phase One, would then be the development of an agricultural arena and fairgrounds, Mansell said.

He said the total cost of Phase One would be \$1,085,000 -- \$335,500 of which would be the county's share.

"Our share includes in-kind services, site preparation using county equipment and that sort of thing," Mansell said.

He said the project should not result in any tax increases. "Plans are for the ag center to be built with a revenue bond, which would be

repaid with money that is already being spent for rent on the buildings now occupied by the Extension Service, ASCS, FmHA, Forestry and Soil Conservation Services."

The CDBG money would be used to purchase 70 acres of land, enough for the entire Phase One and Phase Two project, and to construct the recreation-agriculture complex.

The recreational area would actually be a county park, with picnic areas, a regulation baseball field, plus softball and Little League fields, tennis courts, a senior citizens jogging course and a handicapped persons' exercise course.

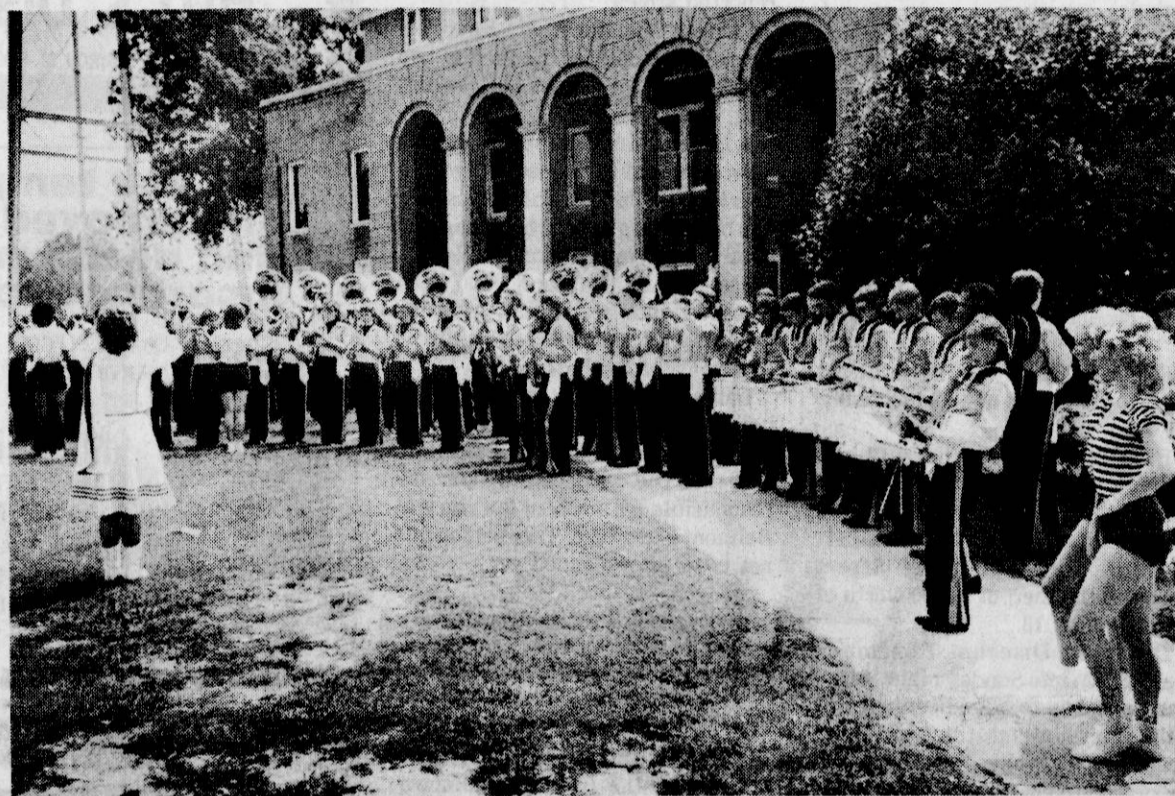

The adjacent agriculture com-

plex building would house all the county's existing agricultural offices and alleviate what County Agent Clifford Hampton describes as a critical space problem for agricultural service offices.

"We conducted our own sort of feasibility study on whether the citizens of Prentiss County felt such a facility was needed. And there is no question that the desire exists for the facility," Davis said.

Though Davis and Mansell both said a site has not yet been chosen, a map attached to the CDBG application indicates an area near the southwest corner of Highway 45

## Pre-School Performance

To mark the end of another successful band camp, the 1984-85 Northeast Junior College Tiger Band put on a brief show on the Prentiss County Court House lawn Friday afternoon. Beginning with a short march through Booneville and ending with a per-

formance at the courthouse, the show has become an annual tradition of the band and always marks the end of summer vacation and the beginning of the new school term. Classes at NEMJC began yesterday. (Photos by Ken Christian)

## Clerks Prepare For New Registration System

The Prentiss and Alcorn County Circuit Clerks both say they will need at least another month before they can put the new law eliminating dual registration into effect locally.

The new law provides that municipal clerks may be appointed as deputy registrars. City voters may then register one time with their city clerk and will not be forced to travel to the county court house to register separately to vote in county elections.

Both Prentiss Circuit Clerk Travis Cox and Alcorn County Clerk Jerry Moore, who must certify the Rienzi Town Clerk, said they are presently compiling lists of people they will certify as deputy registrars.

"We must then wait until we receive their certificates to swear them in. They will not be eligible until they receive that certificate," Cox said.

Once the town clerks have been sworn in, residents of incorporated municipalities may register one time, either at their town hall or at the county courthouse, and they will

## About Quorum & Election Requirements

# Senator Surveys Power Associations

By ED WOODWARD  
Managing Editor

State Senator John White has released the results of a survey he said he took with the help of the Mississippi Electric Power Association, an organization made up of cooperative power associations in the state.

"We surveyed a total of 25 member-owned electric cooperatives in the state, excluding South Mississippi, which is not a distribution system. And I am very grateful to the MEPA for their

help," Sen. White.

Though the Prentiss County Electric Power Association did cooperate by responding to the survey, Sen. White said, "I am told the PCEPA is one of only two cooperative power associations in the state that is not a member of the MEPA."

While admitting that the PCEPA is not a member of the state association, Ronny Rowland, manager of the local cooperative, said, "I am thinking there are about six that are not members, maybe more than that."

White said the systems were queried regarding voting procedures at their annual member meetings. The questions asked were:

- (1.) Do proxies count toward quorum?
- (2.) What is the minimum number to constitute a quorum at an annual meeting?
- (3.) Does the system mail out proxies?

In answer to Question One, 14 systems replied Yes and five said No. The Prentiss County Electric Power Association was among the

five replying No, Sen. White said. One said Yes, proxies count toward a quorum, but directors cannot be elected by proxy.

Five said they do not mail out proxies, but ballots do count toward a quorum. In reply to Question Two, of the systems allowing proxies to count toward a quorum, one system requires one percent of its members, one requires two percent, one five percent, one five percent with a minimum of 150 in attendance, one 10 percent from each county in its system, one 10 percent with at least seven percent from each district in

the system, one 10 percent or 500, whichever is less, one 10 percent or 300, whichever is less, and one 15 percent, including proxies and ballots with a minimum of two percent by district and a minimum of two percent in attendance.

Others allowing proxies to count toward a quorum require a specific number of members rather than a percentage. One requires 200 members, one 300, one 300 with a minimum of 10 from each district, one 500 and two 750.

## Property Owners Advised Of Leaks

Over 300 Booneville property owners have been sent letters from Municipal Water and Sewer System Manager Marvin Burcham. The letters advise them of "leaks or illegal connections to the sanitary sewer system" from their private lines and advise them that the problems must be corrected at the property owners expense.

"We sent 315 or 316 letters," Burcham said. "They all run about alike. There's just a little hole in the line, or a crushed service line or maybe a clean-out cap has been left off...something like that."

"It's an Environmental Protection Association requirement that the city has to follow," he said.

"The government doesn't want to treat any storm water."

Burcham said because of the leaky private lines, storm drainage is leaking into the sewage system and overloading it.

"Anywhere smoke came up when they ran the smoke test, water can go down," he said.

The repairs are a requirement the city must meet to keep its EPA funding for the new sewage treatment facilities which are presently under construction, Burcham said.

According to Burcham, repairs to private systems must be done by

## BIBLE QUESTION BOX

QUESTION: Mr. Hogland just who was this man called Coniah over in Jeremiah 22?

ANSWER: The name "CONIAH" is an abbreviation of Jeconiah the son of Jehoiakim king of Judah (Jer. 22:24). Coniah was also called Jehoachin (2 Kings 24:14, 15). Coniah was only eighteen when he began to reign as King of Judah.

WARD HOGLAND

His reign was rather short in that he did that which was evil in the sight of the Lord, and lasted for about three months and ten days (2 Chron. 36:9). Coniah was the last to reign over Judah. After Coniah was taken into captivity Zedekiah was set up as a puppet king over Judah by Nebuchadnezzar. He was not a king by the decree of Jehovah. In Jeremiah 22, the prophet tells us that Coniah would be the last REAL king of Judah. He said, "O earth, earth, earth hear the word of Jehovah. Thus saith Jehovah, write ye this man childless, a man that shall not prosper in his days; for no more shall a man of his seed prosper, sitting upon the throne of David, and ruling in Judah" (vv. 24-30). It should be observed that Coniah did have offspring but none of his offspring was to rule sitting on the throne of David. Remember that Zedekiah was Coniah's uncle and not his son. He was not of the seed of Coniah and he was not a king by the decree of Jehovah.

Davis said the committee must now wait indefinitely for approval of their request because there is no specified waiting period for block grant applications.

He said, even though he is the only county supervisor on the project committee, every supervisory district in the county is represented.

Davis said he was chosen committee chairman so the CDBG request could be prepared in the county's name.

## Local Company Wins Award

Townhouse Penthouse Industries of St. Louis, Mo. was honored at award ceremonies on May 24th in Chicago for overall excellence as a manufacturer of goods for the Sears, Inc.

TPI was one of only 80 suppliers to receive the award, called the Partners in Progress Award, from Sears Merchandise Group. Only 21 suppliers were repeat candidates for this top award. Sears purchases goods from almost 10,000 suppliers annually.

This is the third year TPI has received the Partners in Progress Award from Sears.

Ronald Chod, President, received the Partners in Progress trophy on behalf of the manufacturer's management team and employees at the awards ceremony.

TPI won the award for supplying

Sears with upholstered products which are produced in the manufacturer's local plant, formerly Jordan Industries, and in St. Louis and Springfield, Mo., Paoli, Ind., and Amory.

**ENTHUSIASM — THE KEY TO SUCCESS**

Emerson was right when he said, "Nothing great was ever achieved without ENTHUSIASM."

ENTHUSIASM is the key, not only to the achievement of great things, but to the accomplishment of anything that is worthwhile. ENTHUSIASM is a way of life. It is a magic spark that transforms "BEING" into "LIVING." It makes hard work enjoyable. ENTHUSIASM is the greatest elixir known to man.

Nothing will help you to sell yourself better than the POWER of your PERSONAL ENTHUSIASM.

## Power

Of the systems not allowing proxies to count toward a quorum, one requires three percent of its members to be in attendance at the meeting, four require five percent, one requires 10 percent, one requires 10 percent in person or voted by ballot and one (PCEPA) requires 15 percent in attendance.

Of those not requiring a percentage, one (Tombigbee Electric Power Association, which serves Itawamba, Lee and the southeastern portion of Prentiss County) requires only 25 members in attendance, and one requires 150, with nominations made at the meeting and voting taking place at polling places after the meeting.

In answer to Question Three, 14 systems replied Yes and six replied No. Four said they mail out ballots, rather than proxies. One does not mail out proxies but holds its election at polling places around the area it serves, and does not require members to come to a central location to vote.

According to Rowland, though the local system does not mail out proxies or ballots, proxies may be picked up at the cooperative's office on East Church Street or they may be distributed by candidates for board posts.

They must then be returned to Rowland in person by the member whose signature appears on the proxy, he said.

"I looked it (the survey) over, and I don't really see a whole lot to comment on," Rowland said.

"Of course, on the first question: Do proxies count toward a quorum?; there are five that just say no.

"And, on the second question on the minimum number to constitute a quorum, I assume that means we have the highest percentage," Rowland said.

"But, of course, there's one thing that will make quite a bit of difference in the way we plan to carry out this meeting this year," he said. "As far as I know, all the other

systems allow only one vote per person, no matter how many memberships (members) they have, where we are allowing one vote per membership.

"So that will cut that figure (1561 members in attendance) down considerably. I don't know how much that would knock this 15 percent down when you talk about people. But I would think it would knock it down considerably," Rowland said.

"Of course, I notice there are four systems that require a certain percentage from each district, which we don't require. And that would make it harder to have a quorum, too," he said.

"So, from those viewpoints, our requirements don't seem so out of line," Rowland said.

"I have not yet had an opportunity to verify this," said Sen. White when told of Rowland's claim that the PCEPA is the only cooperative in the state that allows memberships, rather than mem-

bers to count toward a quorum.

"But, if this is true, we have at least made some progress in persuading the PCEPA board to relax their stringent requirements for the election of board members," he said.

And Sen. White said he had spoken personally with representatives of many of the power systems surveyed who would still disagree with Rowland.

"After talking with numerous officials in power companies other than the PCEPA I found several were alarmed...perhaps even appalled at the deplorable situation that exists with the Prentiss County Electric Power Association," he said.

"Most agreed that a power company should be like any other business and do its best to woo and attract customers by attempting to meet their needs in a manner acceptable to the customer," White said.

**ARRESTED** - Prentiss County Sheriff W.V. Horn (right) makes an early arrest for the Community Action Agency's "jail bail" by "arresting" J.P. Davis, president of the Prentiss County Board of Supervisors. The Community Action Agency is sponsoring the jail bail to raise funds to purchase a mini-bus for transportation for the elderly and handicapped in Prentiss County. The jail bail will be held Sept. 7, on courtsquare. The Community Action Agency will also accept donations for the purchase of the mini-bus.

## Forestry Association Supports ICG Sale

Mississippi Forestry Association, Inc. is supporting the proposed formation of the Gulf and Mississippi Railroad as a subsidiary of L.B. Foster Company.

A statement sent this week to the Interstate Commerce Commission expresses MFA's opinion that it is the intent of Gulf and Mississippi to buy the east Mississippi rail lines of Illinois Central for the purpose of operating them, not for abandoning and dismantling.

Bob Izlar, executive vice president of Mississippi Forestry Association, said, "These rail lines are vital to the forest products industry in the eastern portion of the state and to the individuals, communities, and companies which are dependent on the forest products industry."

The Interstate Commerce Commission is now considering L.B. Foster Company's proposal to take over these eastern lines from the Illinois Central Gulf railroad.

**CAN EDUCATED PEOPLE  
BE WRONG RELIGIOUSLY?**

Some hold the mistaken idea that an educated person cannot be wrong religiously. Education does not always free one from ignorance or keep one from making mistakes.

It was an educated man by the name of Saul who tried to stamp out Christianity (Acts 7:58). He was brought up at the feet of Gamaliel, who was a doctor of the law (Acts 5:34, 22:3). If any of the apostles could have been called "doctor" because of academic learning, it would have been Saul (Paul). All of his efforts to destroy Christianity were done with a good conscience (Acts 23:1, Acts 26:9).

How could this educated man be wrong religiously? He had been taught according to the perfect manner of the law of his fathers (Acts 22:3). When people are taught wrong, they learn to believe the wrong thing whether educated or uneducated. We are a product of the teaching we receive.

Many fail to consider the fact that one may be educated in one field of discipline and ignorant in others. Most educated people will readily admit that there are many things they do not know and that one is capable of mistakes in any area of life.

Right or wrong is not determined by educated people, but by truth. When one knows and obeys the truth, it will make him free (John 8:32). One must live by the truth or the word (Matt. 4:4). All men will be judged by the word of God (John 12:48). The truth reveals all that we need to know that pertains to life and godliness (2 Peter 1:3, 2 Tim. 3:16-17).

All men are wrong educated or uneducated who do not follow truth. Many educated people are wrong because they have been taught wrong. Education does not make the difference, it is the desire to know and obey the truth. Truth is primary and education is secondary. Education can be helpful, but may not keep one from being wrong religiously.

## Talk 'O The Town

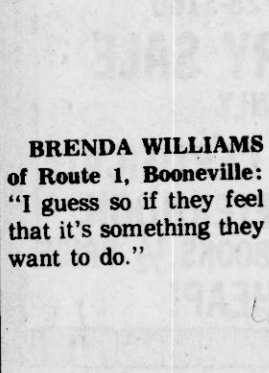

### Street Opinion

**QUESTION:** Do you think women should be allowed to join the Jaycees organization?

**GEORGIA TUCKER** of Route 6, Booneville: "Yes. I think the club's membership should be open to everyone."

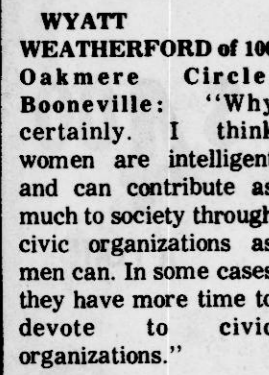

**ROGER McVEY** of Route 7, Booneville: "Sure. I think they should have equal rights. They work as hard as I do. They should be able to join the Jaycees or any other club."

**BRENDA WILLIAMS** of Route 1, Booneville: "I guess so if they feel that it's something they want to do."

**J.C. McINTIRE** of Route 1, Balwyn: "If they're just wanting to crash the club - no. But if their motives are for the betterment of the organization, why not?"

**WYATT WEATHERFORD** of 100 Oakmere Circle, Booneville: "Why certainly. I think women are intelligent and can contribute as much to society through civic organizations as men can. In some cases they have more time to devote to civic organizations."

**LEROY BROOKS** of 1008 N. Lake St., Booneville: "Yes, I do. I don't think our society would go without women anyway. Besides they say that behind every successful man there's a woman."

## Ponderings

By Angela Smith  
Staff Reporter

Our office hasn't been it's usual happy place this week.

The Banner-Independent's best friend, Cecil Brandon, is a patient in the Tupelo Hospital. Cecil has worked at the newspaper for 42 years. He's seen publishers, editors, reporters and the others making up the staff come and go.

But through all the changes, Cecil has remained here. Doing his work to the best of his ability and always giving over 100 percent. Cecil is everyone's friend - a very special friend. It isn't unusual for people who have worked here

years ago to stop by the newspaper just to say hello to Cecil.

Everyone has fond memories of Cecil. Their respect for him never diminishes over the years.

I first met Cecil in 1976; the summer after my high school graduation. I worked here then as a proofreader. There wasn't a more helpful person to me than Cecil.

And through the years Cecil has remained my friend. It didn't take long for me to discover that if there was one person I could depend on, it was Cecil

Brandon. In fact, Cecil is one of the most special persons I have ever met.

Lately there have been times when I would tell Cecil that everything seemed to be going wrong.

But he always thought of something comical to say to lighten my mood.

We've had our share of serious conversations, too. I guess we've talked about everything under the sun. Whether it be the Bible, government, or

every day worries, Cecil has the ability to put it all in a clear perspective.

It's often been said that Cecil is the first to arrive and the last to leave at our office.

I've missed seeing Cecil working on the ads this week... and hearing him and Kay Parr banter back and forth about how the ads should be composed.

I've missed his cheerful whistling while he worked. I've missed him saying to me as I go out the back door, "Angie, be careful out there." I've just missed Cecil this week.

Several of us went to visit him Monday night. Although he was in the hospital, one of the first things he inquired about were the ads. Next to his family, his love is for his newspaper.

Sometimes on Wednesday mornings Cecil asks me what my Court Square Ponderings will be. This week I'm using one of Cecil's sayings.

# TMR Class May Be Moved To Thrasher School

By J.W. GREENE  
County Superintendent of Schools

Due to the expansion of the Prentiss County Child Development by approximately 30 students, Prentiss County must relocate the TMR

(trainable mentally retarded) class presently being housed there.

It is the intention at this time to place this class at Thrasher School. By doing so, additional space will be needed. There is room within classes for more students at the

school, but there is not a vacant classroom to house an entire class of students.

It is the decision of the Board, upon the recommendation of the Superintendent, that certain parts of the building be renovated,

adding an additional classroom and bathroom (18' x 80') onto the gymnasium.

Fuel bids were opened recently at a regular Board meeting for gasoline and propane. The gasoline bid was awarded to Anderson-Newman Oil

Co. of Booneville, and the propane bid was awarded to Empire Gas whose local office is in Blue Springs.

Mr. Dain Cook is the dealer with Empire. An agreement has been made between his company and the company who supplies

the school district last year to exchange new tanks for the ones on our buses, and tanks of equal value for the ones on the school campuses. Empire's bid was 7½ cents less than the other

## Eyes On Mississippi

# Republican Party Gaining Strength In State

By BILL MINOR  
Syndicated Columnist

DALLAS, TEX. -- Mississippi Republicans were here this week to celebrate the "coronation" of President Reagan, but also to celebrate how far their

struggle has come in challenging the Democrats as the majority political party in Mississippi.

Once characterized as a party that could hold its convention in a telephone booth, the Mississippi GOP has proved in recent

years it is the best organized political organization in the state.

And, based on the results in the 1978 Senatorial race and the 1980 presidential race, the Republicans now represent the political thinking of more

Mississippians in national elections than the Democrats.

Its obvious that a former movie actor from California named Ronald Reagan whose conservative views on how the country should be run have long had a strong appeal to many Mississippians and has produced a greater sense of euphoria among Mississippi Republicans

than ever before.

Not only are they well pleased with his four-year record in the White House, but they are confident that Reagan will be returned to the presidency this year by the American people, notwithstanding the fact he will be the oldest president in history.

The consolidation of support behind Reagan which brought unac-

customed unity four years ago at Detroit, and is quite evident in the Mississippi delegation here in Dallas, marks a watershed in the development of the state GOP as a unified party.

Certainly the party came through some bitter adversities, both from within and from without the party ranks, in order

## Letters

Dear Editor:

Bravo and Amen on your excellent editorial recently regarding the lack of an access ramp off the Natchez Trace to the Bay Springs Lock and Dam. I have been pleading desperately for those in authority to construct such a ramp on the "north road" for months and this type of editorial support will be most beneficial in my

efforts.

I'm told that the Bay Springs Lock and Dam is the largest on the entire waterway and that the architecture and engineering draws the attention and admiration of most everyone in the two fields. For the Department of Interior to completely ignore this outstanding structure and to discourage its examination and observance by the traveling public is indeed un-

fortunate.

At any rate, I do appreciate your comments and perhaps your editorial will ignite a spark and inspire the people to take an even greater interest and mention it to our congressional delegation.

With kindest personal regards, I am,

Yours very sincerely,  
John White  
State Senator, District Five

Dear Editor:

I am writing in regard to the tasteless, insensitive cartoon published on page 4 of the August 16 paper. The cartoon in reference is depicting Brown Shoe Co.

Perhaps you find our situation comical, but I can assure you we do not. Call us over-sensitive or what have you. But you need to keep in mind, not only have individuals lost their jobs, but in some instances, whole families.

Perhaps you know people who would like to sit home and draw unemployment, TRA or welfare. But I can assure

you, I, nor the other 425 people care to do that.

We did not get our reputation as being some of the best workers in Booneville, by sitting around living off of government programs. We, sir would prefer jobs and a government who would protect these jobs.

The people of Prentiss County, as well as the rest of the country, had better wake up. If we as Americans do not take a stand on this subject of imports, we are going to find not only the closing of other shoe factories, but garment factories, other auto plants and millions of more people will be out of

work.

Since you are so good at publishing tasteless cartoons, perhaps next week you could publish one showing bank foreclosures, poorly dressed children, or how about a large Christmas tree with no presents underneath and crying children. That, sir I believe would be more in accordance with your standards.

Sincerely,  
Brenda Smith

## That Yankee From Yonder

By Ed Woodward  
Managing Editor

Above we have published a letter from Brenda Smith, a Brown Shoe Company employee, regarding last weeks editorial page cartoon.

That cartoon referred to a front page article about the possibility that Brown Shoe employees about to lose their jobs because of the plant's closing may be eligible for Trade Readjustment Act benefits. Such benefits would include retraining and extended unemployment insurance while the employees are enrolled in retraining programs.

The cartoon, captioned "Hope For Brown Shoe Workers?", rather than making fun of Brown Shoe workers, lauded the possibility that, like the employees at the defunct Pennsylvania Tire Co. plant in Tupelo, they might have a brighter future outlook with the help of TRA.

It consisted of two pictures. The top drawing depicted a dejected Brown Shoe employee leaving the plant under a cloud labeled "Plant Closing." The bottom drawing depicted that same employee standing tall and dignified, no longer dejected, but hopeful, under a Sun labeled "T.R.A."

In her letter Ms. Smith describes our cartoon as "tasteless" and "insensitive." She says, "Perhaps

you find our situation comical."

We don't. In fact, we are so concerned about the possibility of 425 people being out of work that we contacted U.S. Sen. Thad Cochran's office to see if those 425 people might be eligible for benefits under the Trade Readjustment Act, legislation which was specifically designed to provide help for American workers unemployed because of import competition.

Ms. Smith says, "Perhaps you know people who would like to sit home and draw unemployment, TRA or welfare. But I can assure you, I, nor the other 425 people care to do that."

Ms. Smith, I can assure you that none of us here at The Banner-Independent ever assumed that any of you wanted to "sit home and draw" anything. And that is precisely why we decided to investigate the possibility of TRA benefits for you.

We know you did not get your reputation for being good workers "by sitting around living off of government programs." And TRA is not a government program you can sit around and live off of. It provides an opportunity for training. And You have to be in training for a new job in order to receive the extended unemployment benefits.

And, if the 425 of you are to find new jobs without moving elsewhere, you must retrain. There are simply no footwear industry jobs available for you in this area or, most likely, anywhere else.

There is no sin in collecting unemployment,

welfare, food stamps or any other government benefit when you have been working steadily and paying into those programs for years. That is no different than if you had been investing your money while you were working, and must now live on the dividends of that investment while you are out of work.

All 425 of you have been sending a good percentage of your hard-earned wages to city, state and federal governments during all those years you were working at Brown Shoe. And, if you must now collect unemployment, food stamps or TRA benefits while you work to qualify yourselves for new jobs, you are only getting your own money back.

You are not "sitting around living off of government programs." And I doubt that even the staunchest Conservative would consider you to be freeloaders because you are collecting benefits while learning a new trade.

To Ms. Smith and any other Brown Shoe employee who misinterpreted the meaning of our editorial cartoon and was offended, that cartoon was intended to show that there is a productive future for all of you. It was in no way meant to degrade you.

If you or anyone else interpreted it that way, our intentions were obviously not clear. And we sincerely apologize.

## Miss Newman Becomes Bride Of Mr. Keenum In May Ceremony

Miss Rhonda Newman became the bride of Mark Keenum at the home of Mr. and Mrs. Eddie Hill, Saturday, May 26.

Parents of the couple are Mr. and Mrs. James R. Newman of Booneville and Mr. and Mrs. Charles E. Keenum of Corinth.

Wedding music was presented by Clint Carroll, pianist. Vocalists were Mrs. Tonya Thompson of Booneville and Mrs. Paula White, formerly of Booneville.

The double-ring ceremony was performed by Bro. G.T. Pharr of Booneville.

The bride, given in marriage by her father, wore an original tea-length gown of white silk organza over peau d'sois. The drop waist style was accented with a satin sash. Re-embroidered lace traced with pearls fashioned the bodice with its ruffled neckline and long-fitted sleeves puffed at the shoulders.

She carried a cascading bouquet of white, burgundy, and pink miniature rosebuds interspersed with gypsophila.

Miss Gay Armstrong of Memphis served as maid of honor and Mrs. Lorraine Gann of Booneville served as matron of honor. Both are cousins of the bride. Miss Regina Newman of Winter Park, Fla., and Miss Carla Newman of Booneville, sisters of the bride, were accompanying bridesmaids.

They wore tea-length lilac taffeta gowns and carried arm-stems of burgandy and pink rosebuds.

Honorary bridesmaids were Miss Susan Frinkley, Mrs. Dwain Brown, Mrs. Jeffrey Crabb, Miss Wendy Floyd, Mrs. Robert Orchard, Miss

Harriett Perry and Miss Paula Rinehart.

Scott Ferguson of Union City, Tenn., served as best man. Groomsmen were Keith Coleman and David Keenum, brother of the groom, both of Corinth, and Bobby Keenum, cousin of the groom, of Jackson, Miss.

Ushers were Bryan Newman of Mantachie and Wesley and Marty Pardue of Belmont, cousins of the bride.

For her daughter's wedding, Mrs. Newman wore a tea-length burgundy chiffon over taffeta gown. The groom's mother wore a tea-length gown of pink sheer crepe. They wore corsages of double carnations and baby's breath.

Mrs. B.E. Phillips, maternal grandmother of the bride, wore a chiffon burgundy dress. Mrs. Maxine Newman, paternal grandmother of the bride, wore a pink dress. Both grandmothers wore carnation corsages.

Mrs. Hardy Huffman, maternal grandmother of the groom, wore a blue dress. She wore a carnation corsage.

Little Miss Chasity Cole, cousin of the bride, served as rice girl. Miss Martha Gail Ramey, cousin of the bride, presided at the register table.

Mrs. Eddie Hill directed the wedding.

### The Reception

Mrs. Doris Armstrong hosted a reception following the ceremony in the home of Mr. and Mrs. Eddie Hill.

Mrs. Brenda Day served the bride's cake. Mrs. Georganna Keenum served the groom's cake, and Ms. Peggy Hill served hors

d'ourves. Miss Gena Griffin presided at the coffee table. Mrs. Julia Pardue presided at the punch bowl.

Also serving as hostesses were Mrs. Joyce Phifer and Mrs. Betty White.

### Rehearsal Dinner

On the eve of the wedding, Mr. and Mrs. Charles Keenum hosted a

rehearsal dinner at the First Baptist Church in Corinth. The invocation was given by Greg Tyson. Entertainment was provided by Miss Joan Lauder milk. Accompanying hostesses were Mrs. Trudys Tuckier, Miss Laura Tuckier and Mrs. Sam Watson.

### Complimenting Festivities

On April 28, Miss Newman was

honored with a miscellaneous bridal shower in the home of Mrs. Edna Pharr of Marietta. Accompanying hostess was Mrs. Judy

Ramey.

On May 6, Miss Newman was honored with a bridal tea in the Rubel Home in Corinth.

Mrs. Mark Everett Keenum

## "I think we have a crackerjack community!"

"Booneville is made up of progressive, hard-working people who are willing to give up their time to make our community an even better place to live." So says David Emmons Turner, Jr., Booneville resident for 36 years.

"When I first moved to Booneville in 1948, the town was still coming out of a depression. But since that time I have seen the George E. Allen Library—a one-half million dollar facility, built and paid for here in the county. They were putting down the foundation of the Northeast Mississippi Junior College back in the late 40's and I've seen its student body grow to a record high of 2400, with 600 students living on campus. Booneville has built a new city hall. We have two city parks, and any number of churches. Believe me, these are hard-working people who care about their community."

As co-founder and former executive vice-president of Prentiss Manufacturing Company, now retired, Emmons Turner keeps his finger on the pulse of the area's work force. Although Prentiss County is largely agricultural, more and more industry is moving in. According to Turner, there are approximately

3500 industrial jobs. And he adds, "With the last Booneville population count in 1980 showing a little over 6000 residents, people should be able to find jobs."

"Prentiss Manufacturing started with 12 employees in 1947 and now has more than 600 working there. One thing I'm proudest of is the almost continuous work flow since we first opened. There have been very few times that we had to lay off anyone for lack of work. Now, the company has just completed a new \$1½ million corporate office and distribution center, and it is beautiful."

Since Turner has retired, he sees his responsibility as a board member of First Bank in a special light. "Now I have time to visit the newcomers to Booneville, welcome them to the town, and of course encourage them to do business with First Bank. I enjoy introducing them to our high spots: our junior college, our library and hospital. Our parks and our great little golf course. I want them to love Booneville as I do."

First Bank is fortunate to have such an ambassador as Emmons Turner. And so are Booneville and Prentiss County.

Mrs. Buddy Stone Lindsey

## Miss Parker And Mr. Lindsey Exchange Vows

Angelia Raye Parker and Buddy Stone Lindsey were united in marriage at 6 p.m. June 9, in a garden ceremony at the home of her parents.

The Rev. W.T. Dexter officiated at the double-ring ceremony. The wedding was directed by Mrs. Becky Scott.

Parents of the couple are Mr. and Mrs. Ray Parker of Baldwin and Mr. and Mrs. Clyde Lindsey of Booneville.

Nuptial music was presented by Mrs. Karen Davis, pianist and vocalist, and Miss Kim DeVaughn and Ricky Gillentine, vocalists. The bride also sang to the groom.

Given in marriage by her father, the bride wore a contemporary design gown of ivory organza over taffeta. The fitted bodice featured a sweetheart neckline and sheer puffed sleeves. The full, ruffled, floor-length skirt flowed from the a V-waistline which was enhanced with brocade lace appliques and accented by organza flowers at the back with satin ribbons flowing down the skirt. Her short fingerless gloves were of ivory lace. The gown and gloves were designed and made by Mrs. Brenda Saylor.

The bride wore a garland of silk flowers and baby's breath which held her fingertip length veil of ivory illusion. She carried a bouquet of ivory silk roses and baby's breath. In her bouquet she carried a linen and lace handkerchief made by her late paternal grandmother.

The bride's jewelry was a single strand of pearls, a gift from the groom.

The bride's veil and flowers and those of the attendants were designed and made by the bride's mother.

The lattice-work archway and prayer bench at the wedding were designed by the bride's father.

Miss Kathy Michael of Baldwin served as maid of honor. Bridesmaids were Mrs. Linda Carter of Gallatin, Tenn., Miss Debbie Wilhite and Miss Charie Morgan of Baldwin and Miss Ruth Anne Glidewell of Corinth.

They wore floor-length gowns of sheer mist batiste and carried bouquets of silk roses.

Misty Prather of Baldwin served as flowergirl.

Clyde Lindsey served his son as

best man. Groomsmen were Larry Lindsey of Tupelo and Joe Lindsey of Booneville, brothers of the groom, Jerry Young and J.W. (Dub) Strickland of Booneville.

Clay Lindsey of Booneville, nephew of the groom, served as ringbearer.

Ushers were Ray Scott, nephew of the groom, Brad Parker, brother of the bride, Steve Eaton and Freddie Corbin.

For her daughter's wedding, Mrs. Parker chose a pale pink dress. The groom's mother wore a dress of orchid. Both mothers wore corsages of ivory silk roses.

Miss Dana Parks, cousin of the bride, presided at the registry.

### The Reception

The reception was held on the patio at the home of the bride's parents.

The bride's cake was served by Mrs. Donna Way and Mrs. Terina Downs.

The groom's cake was served by Mrs. Donna Morgan and Mrs. Cathy Frederick.

Punch was served by Mrs. Anna Marie Tice, cousin of the bride. Miss Debra Michael served fresh fruit and finger foods.

Floating hostesses were Mrs. Monte Smith, cousin of the bride, Mrs. Dorothy Coggins and Mrs. Phyllis Green. Mrs. Elizabeth Crawford catered the reception.

Rice bags and scrolls were distributed by Noki Parks, niece of the bride, Carole Holt, Jennifer Prather and Dawn Glissen.

The couple are residing in the Blackland community.

### Rehearsal Dinner

Mr. and Mrs. Clyde Lindsey hosted a rehearsal dinner on the eve of the wedding for their son and his bride-elect at the home of her parents.

### Complimenting Festivities

Ladies of Carolina Methodist Church hosted a miscellaneous shower for the bride-elect. Hostesses were Mrs. Kathy Green and Mrs. Elminia Potts.

Mrs. Donna Morgan and Mrs. Irene Wellman hosted a pouncing at Mrs. Wellman's home.

Miss Ruth Anne Glidewell hosted a lingerie shower.

A rice bag party was hosted by Miss Debbie Wilhite.

# Booneville Pilot Club Holds Leadership Program At Baldwyn Restaurant

The Pilot Club of Booneville held its regular monthly program meeting at Antillon's Restaurant in Baldwyn Thursday, Aug. 16, at 7 p.m.

Dr. Neola Cleveland, president, presided.

Mrs. Sara Pounds, past club president and past La.-Miss. District Secretary, was named Pilot of the Month by Mrs. Ortha Long.

The program was under the direction of the leadership area with Mrs. Anne Prichard as leader. Other area members include Mrs. Lee Davis, Mrs. Clarene Goddard, Mrs. Eudora Kemp, Mrs. Robbie McDaniel and Mrs. Vicki Walendzik.

The devotion was given by Mrs. Kemp and Mrs. Walendzik led the pledge of allegiance.

Mrs. Prichard introduced Mrs. Patti Prather of Tupelo, the guest speaker, who spoke about leadership.

Mrs. Prather, a member of the Pilot Club of Tupelo and leadership area leader of the La.-Miss. District of Pilot International, is a graduate of Mississippi State University and received a master of education degree from the University of Mississippi. She is employed as the supervisor of Chapter I of the Tupelo City Schools.

Mrs. Prather said that a leader is a guide and conductor who goes first to lead the way. However, she said every leader must have followers - someone to be led.

include intelligence, perservance, endurance, integrity, humaneness, being able to communicate effectively, persuasiveness, open mindedness, flexibility, sincerity, charm, and above all, skill in human relations, she said.

She commented that successful clubs should have realistic goals for progressive growth of leadership. There should be effective com-

munications by using experienced members to coordinate plans of work with newer members.

Every club should have ambitious club builders to further the development of individual human resources within the club, she said. She challenged each member to help other members to grow by encouragement, praise and guidance.

Mrs. Prather concluded her remarks by stating, "Enthusiastic leaders will always have enthusiastic followers. Enthusiasm is the key to success."

Mrs. George McGregor was a special guest of the club.

# To Members of The Prentiss County Power Association

If elected, we hope to force the PCEPA Board of Directors to consider the following issues:

### 1. Membership:

- Change methods of transferring membership to surviving spouse in the event of death of either.

### 2. Quorum:

- Allow the transaction of business and election of directors by 1% of memberships, including proxies to count as a quorum.

### 3. Deposits:

- Publish amounts of deposits individual members are required to pay.

### 4. Annual Meetings:

- Change the date of the annual members' meeting and election from the last Friday in August to the fourth Saturday in August.

### 5. Directors:

- Initiate changes in the procedures for electing or appointing directors.

### 6. Accounting Systems And Deposits:

- Require a report to the members about the financial condition of the cooperative, including the amount of surplus monies and how and when those funds are invested. This should be in the form of a certified audit procedure and should be disclosed to each member.

### LADIES AND GENTLEMEN:

When the Prentiss County Electric Power Association was organized and chartered back in the 1930s, the association officials intended that the company be in existence for the benefit and convenience of the people of Prentiss and surrounding counties. Later, under the articles of re-incorporation in Section VIII, the dedicated and God fearing servants of mankind proclaimed: "The corporation is not to engage in business for a pecuniary profit, but for the purpose of promoting and encouraging the fullest possible use of electric energy by making electric energy available to its members at the lowest cost consistent with sound economy and prudent management of the business of such corporation."

We doubt that any of the original founders would be in agreement that "sound economy" would include imposing rates upon the members so as to allow the company to bank up millions of dollars. This has happened in the Prentiss County Electric Power Association.

Does anyone remember when he marked a ballot to elect a new power company director? We don't.

Do you think it right that your association does not even allow an election to be held unless 15 percent of the memberships (almost 1,600) are present at the inconvenient hour of 10:00 a.m. on the last Friday in August (pay day for both weekly and monthly workers) to demand that such an election be held? We don't.

There are 25 electric power associations in Mississippi. The Prentiss County Electric Power Association has possibly the most

stringent requirements of all the electric power associations in the state for the conduction of an election and satisfying a quorum. Do you think this is by design? We do.

One association requires one percent (including proxies) for a quorum. Four associations require five percent. The Tombigbee Electric Power Association which serves our neighbors in Lee and Itawamba and even a part of Prentiss County require only 25 people present for a quorum to have a meeting and an election.

Why has the board of directors of the Prentiss County Electric Power Association set the quorum requirement at almost 1,600? Do you think it is because they are striving to avoid an election so that the people can have no input into the operations of the company? We do.

We believe they try to do everything humanly possible to discourage potential candidates. Do you think this is proper behavior for an association to be run which uses for its slogan -- "owned by those we serve"? We don't.

People of Prentiss County, we need your help. We need you to come 1,600, 2,000, perhaps 3,000 strong to help us force the power company to conduct this election. This is our power company. They have no right to tell you your opinion doesn't matter. We intend to see that your voices are heard.

So mark your calendar! Make your plans! Let's beat them at their own game. Come to the NEMJC gymnasium at 9:00 a.m. Friday, August 31st. You will be there an hour early, but parking may be a problem and you must be inside by 10:00 a.m. Stand up for Democracy.

By LADY BLUE SURF

Blue Surf and I would like to thank Termite and Lady Termite for the gracious use of their patio and home for our officer's supper Tuesday night.

We were sorry that everyone could not attend. Everyone enjoyed grilled hamburgers, slaw, chips, salad, cake, pie, and vanilla and peach homemade ice cream.

We also appreciated the nice gift given to us. We appreciate all of you and the hard work you have done.

We would like to pay special recognition to Lady Birdhunter who has resigned from her job as secretary. She has been with the club many years and has always done an excellent job for us besides all the hard extra hours of work doing all our IRS services. We say thank you and we appreciate all you have done for us.

Spending the weekend with Spunkin was her grandson from Miami, Fla.

Sugar and Spice spent the weekend with her father in Baldwin. Honeycomb's niece is here for a few days from Texas. Yellow Dog and Silver Dollar Queen moved their daughter and son here from Kenosha, Wis.

Brass Monkey, Fig Leaf, Blue Surf and Little Blue Wave spent the weekend on the lake.

Happy birthday to Lady Edd on Aug. 27 and to Brass Monkey on Aug. 29.

We will have a new set of officers to take office on Sept. 1, so be sure to look for next week's news.

Our regular social will not be held until Sept. 8, because of the long weekend on Labor Day. It will be pot luck, so everyone bring a well filled basket. The Devaughn Brothers and Band will be our supper guests and they will provide musical entertainment afterwards.

Until next week, stay well, be happy and attend the church of your choice.

Homecoming

Set For State's

Vietnam Vets

There will be a statewide Mississippi Vietnam Veterans Homecoming Reunion Weekend in Jackson during the weekend of August 24-26.

The Mississippi Vietnam Veterans Leadership Program, which is assisting in organizing the Homecoming Reunion, believes that it is necessary to rectify "The greatest tragedy of Vietnam, both for the veterans and the general public, which is far from the most obvious."

"Our war did not welcome us home to march proudly together in a victory parade down Main Street cheered by a grateful public," said a spokesman for MVV

"At the time the streets and parades belonged to those who protested our service and drowned out those who supported our efforts. Young and confused, we tended to disappear back into society becoming a fraternity so secret that even we members did not recognize each other."

"No matter our age, race, occupation or social standing, then or now, Vietnam continues to constitute a 'hometown' which only those who served there share. It is time for us to reunite and finally come home together as proud veterans who served our country well."

The Homecoming Reunion, which will be headquartered at Parham Bridges Park-South in Jackson, will commence with a free picnic at the Smith-Willis-Jackson Mets Stadium followed by a "Salute to Vietnam Veterans Night" featuring a softball game between a team of Vietnam veterans against a celebrity team of national and local dignitaries and other well known Mississippians. The regularly scheduled Jackson Mets game will follow the softball.

Saturday at Parham Bridges Park-South will feature family oriented events and welcome home remarks by members of the Congressional delegation and other Mississippi notables. A free noon fish fry will be served by the Veterans of Foreign Wars and a free spaghetti dinner will be furnished by the American Legion that evening. Sunday will center around a morning Thanksgiving and Remembrance service.

All Vietnam veterans, families and friends are encouraged to bring your campers, tents or just yourselves for all or part of the weekend. For non-campers special rates are available across from the park.

## County Agent's Notes

By CLIFFORD J. HAMPTON  
County Agent

Many Prentiss County farmers will soon harvest grain sorghum. In fact, some of the early April planted grain sorghum may be mature, if moisture is between 30 percent and 35 percent.

The head matures from the top down making the seed in the bottom of the head the last to mature. As grain matures it loses its green color.

Grain sorghum can be successfully combined at 20 percent to 25 percent grain moisture. Drying costs at this moisture level are quite high, however.

If drying facilities are not available and you wish to harvest early, sorghum can be desiccated or dried with sodium chlorate. Grain sorghum moisture should reach 20 percent, at least. Applying too early may produce grain that sticks in the head and is lost in combining.

Sodium chlorate should be applied at the rate of six pounds per acre. It is most effective when applied on a bright day with temperatures above 85 degrees F.

Cool, cloudy weather or high humidity will greatly reduce the effectiveness of sodium chlorate. This is the only material cleared for

desiccation of grain sorghum.

The length of time between application and harvest depends on the moisture content of the grain, field conditions and weather conditions at the time of application. Allow five to seven days after application for plants to dry unless it rains. Then the period from application to harvest may be extended.

Grain is more easily and completely threshed when grain moisture is more than 16 percent. For safe storage or to avoid discounts for moisture at the elevator, grain must be dried to 13.5 percent moisture or less. For farm

storage, 12 percent or less is desirable.

If you have questions about drying grain sorghum or harvesting your crop, contact the county Extension office.

Statewide Reports indicate new plantings of Tifton 78 hybrid bermudagrass are growing well.

Prentiss County farmers who want to try the grass themselves can contact the Prentiss County Extension Office for information on where to obtain Tifton 78.

Seed plots for spring planting should be planted soon. It is important to keep them watered to get good establishment before cold

weather to assure winter survival.

Nurseries and producers propagating Tifton 78 from certified planting stock have good supplies of potted plants ready to go to the field.

A RETIRED Army colonel from Neshoba County co-owns one of the most outstanding Santa Gertrudis operations in the state. Farmweek

reporters interview Col. Jerry Rouse and his family who have a personal approach to raising their herd.

Find out what makes R&R Santa Gertrudis farms special on the Aug. 27 edition of Farmweek. The show airs at 7:30 p.m. on Mississippi ETV with all the latest agribusiness news, weather and market reports.

## ASCS News

By C.E. CALVERT  
County Executive Director

Farmers who are participating in the cotton, feed grain, wheat or rice programs are reminded that land diverted from these crops and set aside as Acreage Conservation Reserve (ACR) must maintain this land in an approved conservation use.

Producers are required to maintain in an approved ACR cover, mow or clip as necessary to control noxious weeds and see that livestock are not permitted on the area during the nongrazing period. If the same acreage is designated two years or more, it must be mowed or clipped one time. Clean tillage and wildlife food plots are permitted when requested and approved on an individual farm basis.

Program provisions require that a sufficient number of farmers be

inspected to insure that program provisions are being carried out. In compliance with these requirements, a acreage is not properly maintained will be penalized in accordance with program provisions. The penalty may result in the farm being ineligible for program benefits and liquidated damages may be applied.

We emphasize that any farmer who is participating in the 1984 program who has questions concerning any of the program provisions and most especially the provisions concerning ACR, should contact the local ASCS Office.

SEVERAL FARMERS in Prentiss County have not filed a crop report this year. July 15, 1984 was the final day for farmers to report their 1984 planted acres.

Late-filed acreage reports will be accepted as long as the farmer pays the cost of verifying the acreage

and there is physical evidence of the crop. Late reports are subject to mandatory spot check. A late-filed acreage report can be filed at no cost for Federal Crop Insurance purposes. These reports will not be acceptable for ASCS program benefits without payment of late filing fee.

Farmers who did not plant programs crops this year should submit a "zero" report to protect their base and future farm program eligibility.

ASCS uses crop reports to determine program compliance and to document crop acreage bases. Before program participants receive price support loans, deficiency payments and other benefits, they are required to report crops and acreages planted, the uses to be made of these crops, and cropland acre to be devoted to the acreage conservation reserve.

WITH WHEAT carryover stocks expected to remain large at the end of this season, farmers may want to study the benefits of the 1985 wheat acreage reduction program in relationship to their farming operation.

In an effort to reduce planted acreage, production and total supplies to a level more in line with demand, the program contains a combined 20 percent acreage reduction requirement and a 10 percent paid land diversion. Participants may receive 50 percent of the diversion payment at sign-up.

The program sign-up opens October 15th, 1984 and closes March 1, 1985. Farmers who participate in the program will be eligible for target price protection at \$4.38 per bushel, national average price support loans at \$3.30 per bushel, and land diversion payments at \$2.70 per bushel.

Program participants will be required to limit their 1985 wheat planted acreage to no more than 70 percent of their farm's wheat base. Ten percent of the farm's wheat base plan 28.57 percent of its planted wheat acreage must be dedicated to an acreage conservation reserve. The 1985 acreage bases will be the average of the acres planted and considered planted to wheat for 1983 and 1984 crops.

U.S. wheat production for 1984-85 is forecast at 2.54 billion bushels, 100 million bushels above 1983-84. Agriculture officials say the larger production comes at a time of declining exports. Because current supplies are large relative to use, farm prices for the 1984 crop will probably average near the \$3.30 a bushel loan rate.

The target price is \$4.38 per bushel for this season, so wheat growers who participated in the 1984 acreage reduction program will likely earn another large deficiency payment.

## Unique Cattle On 'Farmweek'

An outstanding cattle operation that specializes in a unique breed -- Santa Gertrudis beef cattle -- is featured on Farmweek at 7:30 p.m., Monday, Aug. 27, on Mississippi ETV.

Jerry Rouse, owner of the farm located near Union, talks about

raising his cattle, which have won a number of prizes. Rouse's herd of 150 Santa Gertrudis cattle is considered fairly large.

Farmweek is co-produced by Mississippi ETV and the Mississippi Cooperative Extension Service.

# Home Economist's Notes

By PATTY K. ROBINSON  
Extension Home Economist

American men will be dressing up more with the arrival of the Fall 1984 season, according to the Men's Fashion Association, even when they're dressing down. For work hours or leisure time, image-awareness - how others see you no matter what you're doing - will once again be more the rule than the exception.

Some of the specifics: Suits - Supplementing the quietly elegant discreetly sporty suits that have dominated the fashion scene for the past four or five years, look for updated models based on classics as well as some more assertive fabrics that will add a touch of dash to the new garments.

Double-breasted Models - Now strongly re-established as fashion favorites - will be joined by single-breasted innovations styled up with features such as peaked lapels and

lapelled vests. In country suits, you will see action backs, a wide variety of pocket treatments and even a few of the classic Norfolk models with their traditional straps and belts.

Business Suits Generally Will Be Darker - But dark with a difference. The new "Darks" are enlivened by the addition of bright yarns - actually compound colors - that give them a feeling of depth.

Sport Coats - Fall '84 combines updated models with handsomely colored fabrics that make for some outstanding new casual styles. Look for bi-swing and gusset backs, hacking models with angled pockets deep side vents plus some Norfolk styles. Conveying the feeling of the landed gentry or the college don, quite a few will also carry suede elbow patches and leather trims. Large, soft plaids, beautifully colored tweeds, shetlands and chevrons lead the fabric parade. Blazers maintain their perennial popularity and the double-breasted

versions are also growing.

Sport Shirts - The emphasis will be on darker colors in rich hues, colorful plaids, bold stripes and some fashion concepts with "placed patterns." The fabric range - all the way from the classic India madras to beefy wools with corduroys, twills, acrylics, pure cottons, cotton-polyester blends and wool blends in between. Experts see strong growth in knitted shirts, both plain and striped, with contrast collar treatments a key feature.

Slacks - Flannels in all shades and many weights will highlight the slacks' story for Fall 1984, supplemented by an array of gabar-

dines, elastiques, covert clothes, rainbow sharkskins, corduroys and mixey tweeds. Straight legs are still most popular, but some traditionalists still demand a slight taper. Pleated slacks are gaining in popularity and many slacks will be cut with more closely fitted seats. Quite a few will also have flaps on the hip pockets and watch pockets.

Jeans - The silhouette for Fall-Winter '84 is looser and oversimplified, relaxed to let the body breathe and look better and less constrained. The fashion focus is on texture and color. Denim is richer, more full bodied with black and smokey gray leading the pack.

indigo stripes and checks. New patterns such as paisley, houndstooth and cloque designs have been softly etched onto washed denim. Heavy construction, high-twill denims bring back the 50's.

Faded and crinkled denims reflect street fashion. Soft finish corduroys, cross-styled in blue, gray and taupe, create a winter tweed hasberdasher look. Novelty corduroys printed with dots, diagonal strips, checks and glen plaids given an illusion of dimension. Heather grounds are soft both to the eye and touch. Colors are richer, more full bodied with black and smokey gray leading the pack.

The key to Fall-Winter '84: a minimum of detail with maximum attention to clever texture and fabric mixes. Innovative accessories add the final creative touch.

get an enthusiastic reception from men in the sun belt and other regions who like the featherweights too. Look for sophisticated knits, bold argyles, popcorn knits and cable knits, and intricately patterned treatments.

Sweaters - This continues to be a key area in men's fashion news. The yarns range from luxury fibers such as cashmeres and lambswool to new synthetics and cottons that

## 4-H News

By WAYNE LAND  
4-H Youth Agent

Three-wheelers appear more stable than motorcycles because they have three wheels and easily stay upright stopped and at low speeds. But three-wheelers are not toys, like big tricycles. At low and high speeds, three-wheelers require as much or more skill to maneuver as a motorcycle.

In the 4-H safety project youth learn severe injury can result if three-wheelers are misused. Broken bones, internal injuries, head injuries and even death can result from the careless and improper use of these vehicles.

A major problem occurs when parents fail to enforce and supervise riding rules with their children. Parents should know where their children are at all times.

Three-wheelers are illegal on public roads, whether the road is paved or not. The manufacturers insist a helmet is necessary for safe operation of the vehicles. Also, signs on all three-wheelers clearly state it is not designed to carry more than one person.

Special caution must be taken in learning to drive a three-wheeler. Some falls are to be expected in learning to operate a three-wheeler, but these should take place off public roads and at low speeds to minimize the possibility of serious injury.

Even when the skill and techniques of learning are

mastered, the three-wheeler operates within a much smaller margin of stability than most vehicles. A dip, hole, stump, large rock or change in surface conditions can easily cause an overturn, and even more so as speed increases.

The low pressure tires, off-road suspension, straight axle and other features that make a three-wheeler effective off the road, causes it to be unsafe for hard surfaces or high speed operation. Originally for work on farms and hunting, three-wheelers are now considered a recreational vehicle.

The owner's manual should be read before a child or adult operates a three-wheeler. It lists some do's and don'ts which could prevent possible injury. Some important points to remember are:

- Know the terrain on which you are riding. Hidden rocks, holes or ravines could spell disaster.

- Always wear a helmet.

- Avoid "wheelies" or jumping since they cause loss of control of the vehicle.

- Before attempting a turn on a hillside, the rider should have first mastered turning techniques on level ground.

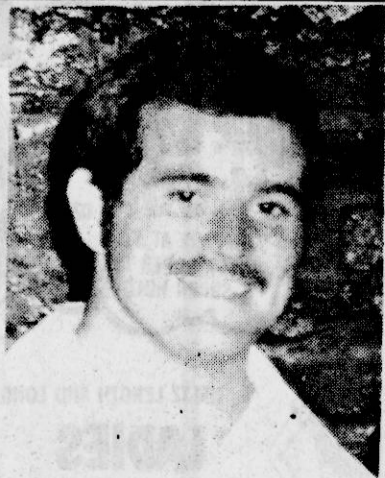

- Always obey local off-road riding laws and regulations.

- Do not ride the vehicle beyond its limit in high water. the three-wheeler may flip in the water and trap the rider underneath.

The county Extension office has more safety information.

**SOIL SURVEY** - A soil survey for Prentiss County is now underway thanks to a cooperative effort between the TVA, Prentiss County Board of Supervisors, USDA-Soil Conservation Service, Prentiss County Soil & Water Conservation District, and the Mississippi Soil & Water Conservation Commission. Officials reviewing the agreement from the various agencies are (front, left) J.P. Davis, President of the Prentiss County Board of Supervisors; Dr. Orvis P. Engelsted, Director of Division of Agricultural Development, TVA; Bill Koos, State Soil Scientist, SCS; (back, left) Willie Hatfield, Vice-Chairman, Prentiss County Soil & Water Conservation District; and Dalton Garner, Area IV MACD Vice-President, representing the Mississippi Soil & Water Conservation Commission. The soil survey will be useful to farmers, home builders, bankers, county and city planners, and others. The survey can help farmers in planning the type of management which will protect the soil and provide good yields; help zoning and planning commissions guide the urbanization of the land; can be used by engineers, home builders and relators in selecting sites for roads, buildings, ponds and other structures. A soil map can also point out limitations in the soil.

## Include Teacher Guidance Courses

# Fall College Credit Courses Set To Begin On Mississippi ETV

Mississippi ETV's fall semester of adult learning courses officially begins Saturday, Aug. 25, with the first lesson of the computer literacy and psychology courses. Courses in teacher guidance and writing skills as well as a rebroadcast of the GED-TV series will begin in September.

Persons interested in taking any of the courses for credit should contact the college or university where they would like to earn the credit. For information about the television courses, persons may call ETV, toll-free, at 1-800-922-9698.

"The New Literacy: An Introduction to Computers," an up-to-date survey of electronic data processing, computer hardware and software systems and developments, is designed to provide a comprehensive overview of the computer.

Two lessons can be seen weekly: at 1 and 1:30 p.m., Saturdays, beginning Aug. 25, with rebroad-

casts at 10 p.m., Tuesdays and Thursdays.

"Understanding Human Behavior," an introduction to psychology, encourages an understanding and appreciation of the scientific approach to the study of human behavior.

Two lessons can be seen weekly: at 2 and 2:30 p.m., Saturdays, beginning Aug. 25, with rebroadcasts at 3 and 3:30 p.m., Sundays.

"Teaching Writing," a course for all teachers who are involved in helping students improve their writing skills, presents a five-step model for teaching writing based upon current knowledge of the composing process.

The series can be seen at 3:30 p.m., Mondays, beginning Sept. 10. No rebroadcasts during the week are scheduled.

## State Treasurer Hunting Missing Investors

State Treasurer Bill Cole announced that his office is attempting to locate some 400 Mississippians who may have owned stock in the Choctaw Investment Corporation and are entitled to \$43,882.40 recently received by his office.

Cole said that in the mid 1960's Commonwealth National Life Insurance Company of Cleveland, Miss., acquired the Choctaw Investment Corporation in a stock-swap arrangement. Since that time, there have been a number of Choctaw stockholders who have not yielded their Choctaw shares for conversion to Commonwealth shares.

Mississippi Code Annotated Section 79-3-207 provides that upon voluntary dissolution of a corporation certain assets will be reduced to cash and deposited with the State Treasurer.

"The funds that represent the stock of Choctaw Investment Corporation have been deposited with our office, and we shall maintain custody of these funds until the stockholders are located," Cole said.

"It is our desire to return these funds to the rightful owners as quickly as possible," he said.

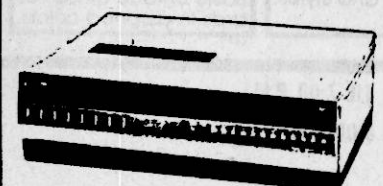

Individuals who have stock certificates in Choctaw Investment Corporation are urged to contact the State Treasurer's Office, P.O. Box 138, Jackson, Miss. 39205.

## Wheeler PTO Members & Boosters Meet

A PTO and Booster Club organizational meeting was held at Wheeler School on Aug. 14, in the school cafeteria.

Kenneth Chism, the new principal at Wheeler, opened the meeting. He explained that the PTO and Booster Club would be two separate organizations and that a person could be a member of either or both.

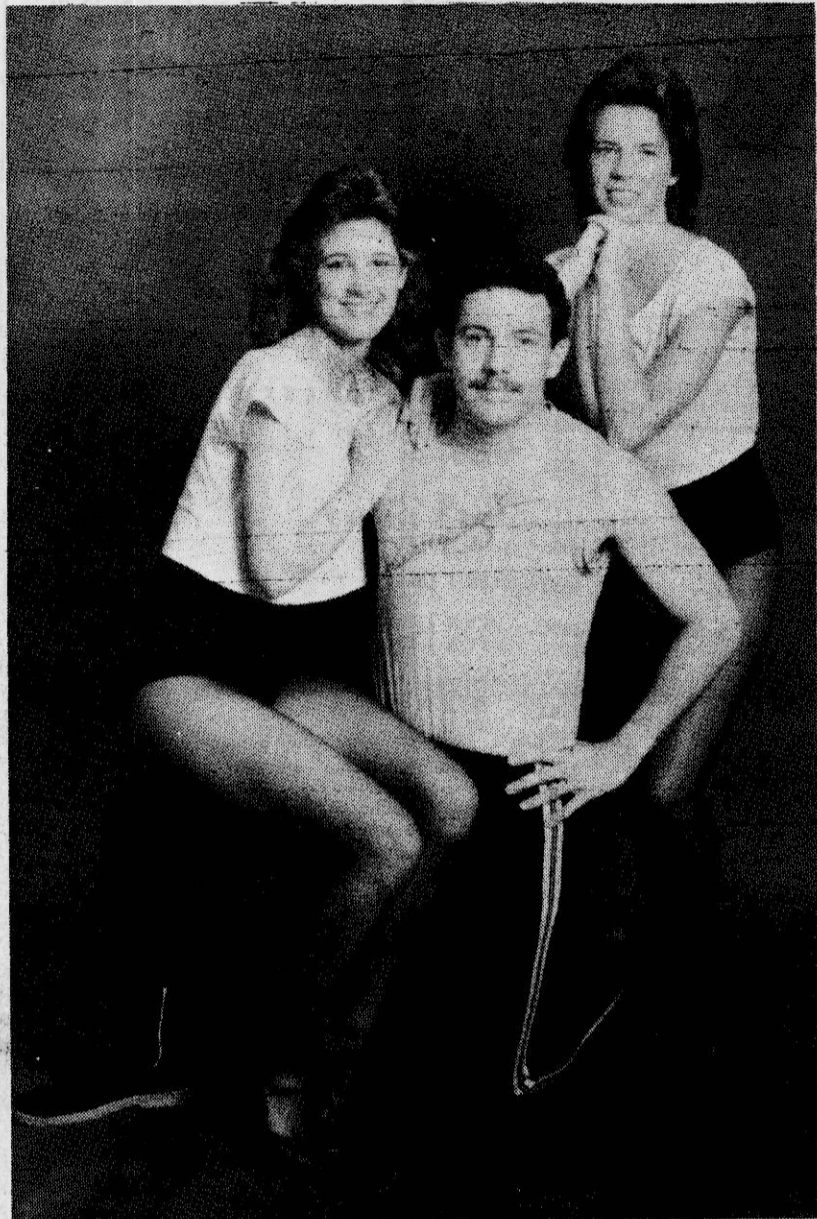

The Booster Club will primarily support the ball teams and cheerleaders, while the PTO's objective will be to support and upgrade the entire school system. He said he feels that a good PTO will also be very helpful in keeping good lines of communication open between parents and teachers.

Another PTO meeting was scheduled for Aug. 30, at 7 p.m. At that time officers will be elected and work toward establishing by-laws will begin.

Everyone with an interest in Wheeler School is urged to attend.

**DANCE INSTRUCTOR ATTENDS WORKSHOP** - Roxanne Gray (left), local dance instructor, recently attended a two-day workshop focused on Broadway dance techniques. The workshop was promoted by the Summer Showcase at the University of Mississippi and conducted in the Studio Theater in the Fine Arts Center. Dance instructors and their advanced students were invited by invitation of the Summer Showcase, Department of Theater Arts. The workshop was taught by Richard Bitsko, a professional actor and dancer from New York who has had featured dance roles in "Annie Get Your Gun," "Hello Dolly," and "Pudding Lane." He has also appeared in the Ole Miss Summer Showcase. His classes featured instruction in jazz, ballet, warm-up exercises and dance audition techniques. At the close of the second day, Bitsko presented a series of dance step combinations to the class as if they were actually in an audition for a Broadway show. Miss Gray was one of four who successfully executed the steps and passed the audition. Pictured with Ms. Gray are Paul Howell Jr. and Linda Howell.

# Groundbreaking Ceremonies Sunday For New Sheriff's Girls Ranch Unit

Officials of the Mississippi Sheriffs' Boys and Girls Ranches have announced that plans for the formal ground breaking activities of the new Girls Ranch unit located in George County have been finalized, and the date set for Aug. 26.

Activities on the site, located approximately three miles north of Lucedale on Beaver Dam Road, will begin around two o'clock on Sunday afternoon.

Bill Benson, Boys and Girls Ranches executive director said, "This is an historical event for our State, as well as for the Ranch program. It is most certainly a day and occasion we wish to share with the public, who have been most generous in making the total program a success since its

beginning in 1976.

The establishment of the new unit in George County is being made possible by the donation of a 90-acre site located three miles north of the town of Lucedale on Beaver Dam Road.

The land gift is valued at over \$200,000 and was deeded to the organization by the Luce Family who designated it as a Girls Ranch unit.

Doug Luce Sr., President of the Bank of Lucedale, along with two of his brothers, J. Rancey Luce and Dwain Luce of Mobile set the wheels in motion to make it possible.

In April, plans were confirmed with the Ranch Board of Directors that the Luce Family was going to make the donation.

Work and progress on the site has been underway since the acquisition of the property in April. And, in June, John and Glenda Turner, formerly Houseparents and Resident Directors at the Boys Ranch in Lowndes County, were appointed by Benson to become Resident Directors of the Girls Ranch and were moved into the Lucedale area to assume responsibility for the George County Unit. Since that time things on the site have taken shape and progressed to the current level.

Those planning to come to the site for the Aug. 26th ground breaking are encouraged to bring lawn chairs and other appropriate items they feel will be necessary in order to be comfortable.

## Report

bids. Except for the tanks servicing the buses, Mr. Cook will place the tanks and pumps under a lease agreement. The school district entered into an agreement with Mr. Cook to fill the buses from the tanks at the schools at a 2 cents reduction in price -- an agreement which has never been made before.

I would like to thank President White and Dean Childers for the use of Hines Hall on the Northeast campus for our district wide inservice program on Aug. 16. The building was most comfortable and con-

venient. I feel that our inservice program was a very successful one with Mr. Preston Castleberry and J.R. Pegues Jr., speaking to the teachers.

Garry English also held an informative session on the upcoming reporting process for AIM. The general attitude toward the inservice program seemed very encouraging. We are looking forward to a good school year with the cooperation of teachers, students, and parents.

As school begins, I want to urge all parents to pay strict attention to

guidelines about discipline on buses. It is the intent of the Board and Superintendent that any child who mutilates property on buses should be exempt from riding the bus. This must be enforced for the safety of the rest of the children, as well as to protect the property of the school system.

There have been some minor changes in some bus routes to try to make it more comfortable for the students who have to ride so far. Other adjustments are being considered in the near

future to eliminate some instances where two buses run the same road. These changes might affect a few people at the end of this school year. The Board has no intention of sending another bus in front of a house where there is already a bus coming by.

This week's featured principal is Bernell Smith who is beginning his 7th year at Marietta. Smith was born and reared in Blue Mountain where he graduated from high school in 1951. He attended Northeast and

received both the B.S. degree and Master of School Administration from Mississippi State University.

Before coming to Marietta he served as principal of Clermont High School in Florida for eight years. He was also the principal and coach at Blue Mountain High School for ten years.

He is married to Mary Lynn Smith, and they have two daughters, Mary Nell and Betty Gale. The Smiths are members of Little Brown Freewill Baptist Church where Mr. Smith serves as a trustee.

## Eyes

to arrive at the point where it now stands.

Significantly, Reagan has been at the core of some of the hottest internal battles inside the Mississippi Republican ranks in years past. He had caused a sharp split in the 1968 delegation to the Republican National Convention in Miami between those who wanted Reagan and those who backed Richard Nixon's "Southern Strategy."

The Nixon backers had won out then, and despite the fact their strategy paid off by putting Nixon in the White House, the Reaganites were never placated, biding their time until they could make their move in 1976.

What developed in the 1976 contest for the

presidential nomination between Reagan and then President Gerald Ford was the most emotionally searing experience within the Mississippi Republican Party, leaving wounds that in some cases have never healed.

The Reaganites, who then were being led by Jackson oilman W.D. "Billy" Mounger, were shocked when some of those they had expected to be strong Reagan supporters, principally then State Chairman Clarke Reed, switched to Ford. After a series of bitter closed-door caucuses at Kansas City, Mississippi finally gave Ford 16 votes and 14 to Reagan, helping to put Ford over the top.

Now the role of the modern Mississippi

Republican Party as a vital factor in the national political spectrum is more dramatic when contrasted to earlier days when the Democrats were doing everything to bury it as a political threat.

For a half century until 1956, the Republican Party in Mississippi had been nothing more than a caretaker party. For about 25 of those years, it was really a one-man party in the hands of Perry Howard, a distinguished-looking black attorney who spent most of his time in Chicago and St. Louis.

Every four years, Howard would come down to Jackson, hold a rump meeting with a dozen or so blacks and two or three whites, and go back North to deliver the state's

delegate votes to his favorite candidate. Even though a "lily white" handful of Republicans led by former Nebraska Gov. George Sheldon tried to gain recognition, the National Republican Party always seated Howard.

The Dixiecrat split the Democratic Party beginning in 1948 perhaps provided a catalyst that eventually saw politically influential whites in Mississippi publicly identify with the Republicans. But it also took a man named Dwight Eisenhower to come along in 1952 to make the transition possible.

It was in the 1956 Republican National Convention that the national party finally recognized it must open

its doors to whites in Mississippi who wanted to leave the Democratic Party. That year brought an end to Howard's "black and tan" vest - pocket party and started what has now flowered into a major political force in Mississippi.

The problem of the Mississippi GOP now is to shake off the image it is the "white man's party," and show more evidence it is trying to enlist blacks.

In the delegation the state party sent to Dallas, only one of the 30 delegates is a black, and three of the 30 alternates are blacks.

Even that, say party leaders, represents progress.

## Booneville Schools Menu

Research has shown that eating habits are formed early in life and are among the most difficult to change.

Surveys confirmed that many students participating in the school lunch program practice poor eating habits at school.

It's August once again - a brand new school year. The lunchroom personnel at the Booneville City Schools ask students to make a resolution to "feed your 'tummy' rather than garbage cans. Let's cut down on plate waste and cost."

Friday, Aug. 24

Hamburger or cheeseburger, French fries with catsup, lettuce and tomato, milk, ice cream.

Monday, Aug. 27

Ham and cheese sandwich, French fries with catsup, lettuce

and tomato, chocolate pudding with topping, milk.

Tuesday, Aug. 28

Pizza, whole kernal corn or French fries, tossed salad, jello with topping.

Wednesday, Aug. 29

Chicken pattie sandwich, vegetable rings or whole potatoes, applesauce, milk.

Thursday, Aug. 30

Hot dog with mustard, French fries with catsup, cole slaw or fruit cup, jello pudding pop, milk.

Friday, Aug. 31

Sloppy Joe on bun, whole potatoes with cheese sauce, green peas with carrots, half orange, milk.

The salad bar and "hot line" will be open each day at the High School.

## New Site Grad Honored With Star Status

Loretta B. Lambert has been named the STAR student at New Site High School.

She is the daughter of Mr. and Mrs. Earnest C. Lambert of Route 6, Booneville.

Miss Lambert designated Mrs. Karen Ruff Miller as the STAR teacher. Mrs. Miller teaches advanced sciences at New Site.

Miss Lambert, a 1984 graduate of New Site, was a member of the Beta Club, 4-H Club, Science and Math Clubs, and FHA.

She won the accounting award, honor award and essay awards her junior year.

She had perfect attendance in school during the 10th and 11th grades.

Miss Lambert plans to attend

Northeast Junior College and

Mississippi State University to pursue a medical career.

## Coast Guard Academy Now Accepting Applications For Cadet Appointments

The United States Coast Guard Academy has announced that it is now accepting and processing applications for appointment as Cadet, U.S. Coast Guard, Class of 1989.

Appointments as Coast Guard Cadets are tendered solely on the basis of an annual nationwide competition with no congressional appointments or geographical quotas.

Applications for appointment must be submitted to the Director of Admissions, U.S. Coast Guard Academy, prior to December 15.

Candidates must arrange to participate in either the College Board Scholastic Aptitude Test (SAT) or American College Testing Assessment (ACT) prior to or including the Dec. 8, 1984 administration for the ACT and the Dec. 1, 1984 administration for the SAT.

The competition for appointment as Cadet is based on the candidate's

high school rank, performance on either the SAT or ACT, and leadership potential as demonstrated by participation in high school extracurricular activities, community affairs and/or part-time employment.

Most successful candidates rank in the top quarter of their high school class and demonstrate proficiency in both the mathematical and applied science fields.

To qualify for the competition, an applicant must be unmarried at the time of appointment, have no legal obligations resulting from a prior marriage, and must have reached the age of 17 but not 22 by July 1, 1985.

All applicants must be assured of high school graduation by June 30, 1985. Regulations stipulate that all applicants must have completed three units in English, and three in mathematics to include algebra and plane or coordinate geometry or

their equivalents, and must fulfill basic physical requirements.

Coast Guard cadets obtain an excellent undergraduate education at no personal expense. In addition, they receive pay and allowances fully adequate to fulfill their ordinary living expenses.

The constantly updated Academy curriculum leads to a Bachelor of Science degree with a strong academic emphasis on engineering and science. The selected major studies, when combined with varied elective courses, establish a solid foundation for a challenging career.

Graduates of the Academy are awarded a Bachelor of Science degree and are commissioned as Ensigns in the United States Coast Guard. Selected officers may pursue further postgraduate education and specialized training at many leading civilian and military graduate or professional schools, in such fields as aviation, business administration, elec-

tronics, engineering, law and oceanography.

The young Academy graduate can look forward to a varied, exciting, and demanding career as a regular Coast Guard officer. The Coast Guard performs essential humanitarian missions vital to the safety and saving of lives at sea.

Under the Department of Transportation, the Coast Guard establishes and coordinates search and rescue operations by ship and plane, maintains advanced electronic and other aids to navigation scattered around the globe, operates the icebreakers which clear the way for all polar expeditions, and enforces marine law and all aspects of merchant marine safety.

Applications are being accepted for both men and women.

# Ole Miss Offers A Variety Of Activities

By KATHERINE HIGGINS  
UM Public Relations Intern

Fall semester at Ole Miss always means the return of traditional pastimes - football games, top-name concerts, festivals, symposiums, plays and movies in the Grove. Following are some things you might want to watch for when making your next plans to visit the Ole Miss campus.

The University plans to hail the return of the Rebels by hosting a "Welcome Back Rebels" party on the downtown Square in Oxford Sept. 6. A campus-wide pep rally, featuring the Ole Miss "Pride of the South" Marching Band, the Ole Miss cheerleaders and Head Coach Billy Brewer, will highlight the

night's festivities.

The first kick-off for the Ole Miss football season will be Sept. 8, when the Rebels clash with the Memphis State Tigers in Oxford. Everybody is looking for Coach Brewer's schedule to be even more exciting than last year's spectacular comeback.

For those who enjoy the stage, the University Theatre has planned four outstanding productions, including the ever-popular Kiss Me Kate, Sept. 27-29; the mystery-comedy Deathtrap, Oct. 18-20 and 23-27; Terra Nova, adapted from the true story of explorer Robert Scott's race to the South Pole, Nov. 15-17; and the musical Vanities, Nov. 26-Dec. 1.

Kiss Me Kate will be presented as part of the Sept. 29 Homecoming

festivities on campus.

The 1984 Artist Series will open this year's fall season with Kevin McCarthy's performance in Give 'Em Hell Harry! on Sept. 11. On Oct. 24, the Suzuki Talent Education Tour will follow, and the Boston Camerata will perform Medieval Christmas on Nov. 28.

An interesting feature this fall for history buffs will be the 10th annual history symposium, renamed last year "The Porter L. Fortune Chancellor's Symposium on Southern History," in honor of retiring Chancellor Fortune. The symposium is planned for Oct. 3-5 and will bring in scholars from around the nation to discuss this year's topic, "Religion in the South."

Interested in the silver screen?

Four-star movies will be shown throughout the semester to students, thanks to the Student Programming Board. Director Stuart Kruger says several big-name films have already been selected. This will be fun for all, since the movies will be shown outside at night in the Grove.

Also on the agenda is the Oxford Folklife Festival, scheduled for Oct. 13 on the Oxford Square. Sponsored by the Center for the Study of Southern Culture on campus, the festival is a fun-filled day with plenty of old fashioned square dancing, clogging, folk music and good ol' down-home Southern food. Onlookers can actually watch and learn from area craftsmen as they work at their trades and learn the history of their special crafts.

## New Hearing Procedure Announced For Worker's Compensation Hearings

In attempting to reduce the time delay in concluding contested Workers' Compensation cases, the Mississippi Workers' Compensation Commission has announced a new procedure to limit each case to one hearing on the merits.

Commission Chairman Marshall Bennett said, "After surveying the pending Workers' Compensation claims last year, we found an unusually long delay in over 400 cases filed each year.

"Many delays were up to three to four years in reaching a decision in the workers' compensation claim controversy. The use of the current recessed hearings method often resulted in six to seven hearings per case. The commission felt the delays were unreasonable and unfair to both the claimant and employer," he said.

"An injured worker should not have to wait three to four years to know whether or not he is entitled to receive benefits. And an employer or a workers' compensation insurance company should not have to keep its money tied up for that period without knowing if it should pay benefits.

"Doctors and hospitals should not have to wait on payment for such a delayed period if the claim is ruled a compensable one," Bennett said.

mission through hearing procedures conducted by eight Administrative Judges and three Commissioners in all 82 counties.

Bennett said, "This Commission just could not sit by and allow this unfair and drawn out procedure to continue to increase the cost of litigation and workers' compensation in Mississippi. We hope the new one-time hearing will speed

up the decision process through a fair hearing and reduce the unnecessary delay and the backlog of cases which has built up over the last 10 years under the multi-hearing recess procedure.

"Many employers and workers from over the state have urged us to do something to speed up the hearings and decisions in their cases. We certainly anticipate that

this bold new concept will make the Workers' Compensation system in Mississippi more efficient and fairer to all parties," he said.

The new one-hearing procedure will begin to be used immediately. Serving on the Mississippi Workers' Compensation Commission with Bennett are Walter M. O'Barr, of Biloxi, and O.L. Garmon, III, of Clarksdale.

## Need Correct Documents When Applying For SS

Nearly everyone in the Booneville area who applies for a Social Security Number remembers to bring evidence of age and citizenship, but many forget to bring evidence of identity, according to Hugh Tigrett, Social Security Manager in Tupelo.

Evidence of identity is always requested before the Social Security number can be assigned, no matter how young the person is, Tigrett said. This rule applies to infants and small children, as well as adults.

"The best evidence of age and citizenship is a public birth cer-

tificate established before a person's 5th birthday which was issued by a U.S. state or local government," Tigrett said.

"Examples of documents that can be used include vaccination certificates, newspaper birth announcement, day care or nursery school record, adoption record or doctor, clinic or hospital record.

"Other children can use school records, membership in boy scouts or girl scouts or other youth organization, report cards, ID cards, or welfare case record," Tigrett said.

## Rienzi Student Is Degree Candidate At UTM

Charles Phillip Leonard, Rienzi, is among 196 University of Tennessee at Martin students who are candidates to receive degrees at the university's annual summer commencement this Saturday, Aug. 25.

UT President Edward J. Boling will confer the degrees during the 4 p.m. program in UTM's physical

education and convocation center.

Dr. James C. Hunt, vice-president for health affairs and chancellor of the UT Center for Health Sciences in Memphis, will deliver the commencement address. UTM chancellor Charles E. Smith will preside over the ceremony.

Three-a-Day Practices Trim Northeast Squad

There's nothing like three-a-day practices to separate the serious football players from the rest. That's exactly what's happened at Northeast Junior College, where head coach David Carnell has been directing fall practice for the last two weeks.

Northeast started out with 65 prospective players Aug. 16, but by the following Tuesday morning, that number had dropped to 55. But Carnell said he didn't think the number of players having left the program in the early going was extraordinarily high.

"I guess the number we've lost is about normal," he said. "You're always going to have a few players come out who are not really sure they want to play, and after a few days they decide they want to go to the house."

But Carnell said he is pleased with the overall progress of the players who have stayed. Offensively, he said quarterback Lamar Keith is still in front of most of the other prospects at that position. Keith started behind sophomore David DeGroat last year and even though he does have more experience under his belt, he may get a tough battle from Iuka's Randy Burton for the starting spot at quarterback.

Offensive coordinator Billy Southward said his backfield is not blessed with excessive speed or strength this season, but he's hoping that returning backs Vonnie Howard and Ray Holloway will take the leading roles in passing along field savvy to the freshmen.

On the defensive front, perhaps Northeast's greatest strong point last season, Carnell feels his program may put together an even better defense than last year's.

Carnell said last week that he felt it was still too early to make any meaningful evaluations with the team having practiced only once in full pads. But the first cut could

come any day, and from that point the Tigers will start building their lineup.

Just beginning his second season at the helm, Carnell said he could make no predictions. He did say, however, that he was "pleased with where he was at this point."

"I really couldn't tell you about strengths or weaknesses right now," Carnell said. "But I think the biggest thing that we've got going for us is that most of these players don't mind working."

**TROPHY WINNERS** - Recently honored for their participation in the East Side Park Little League program were (front, l-r) Heath Anderson, championship trophy; Sean Anderson, championship trophy; William Anderson, championship trophy; Nathan Rogers, MVP, best offensive player, most cooperative; Robert Jr. Jones, best defensive player, championship trophy; Benny Hudson, MVP, pitchers award, championship trophy; Patrick Bean, MVP; (back, l-r) Gabe Thompson, championship trophy; Chuck Anderson, best offensive player, player of the year; Dee Jenkins, most improved, MVP; Jason Adams, player of the year, championship trophy, best offensive player, most cooperative; Tim Johnson, best defensive player. Former Baldwyn, Ole Miss Guard To Play Center At Northeast

**BY GREG SHOOK**  
Sports Writer

On Monday August 16, Northeast Junior College head football coach David Carnell announced that former Baldwyn High School griddier, and Ole Miss Rebel, Clark Richey was participating in football drills with the Tigers.

Richey, a 6'2" 250 pound guard, has been moved to the center position at Northeast, according to Carnell.

"I feel it will strengthen our offensive line," Carnell said.

"Anyone who comes in here like that will be an asset to our program and we are really excited about having him here with us. I think he is a fine person, a fine student and a fine athlete," Carnell said.

Richey, who is from Baldwyn, had a total of 215 solo tackles and 196 assists during his prep career with the Bearcats.

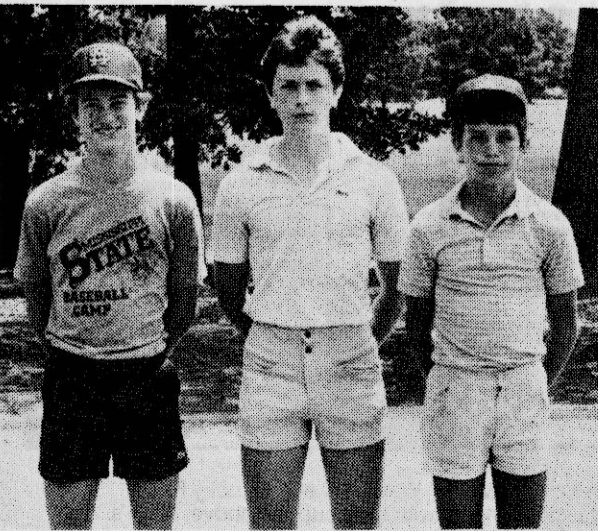

As a senior he was named to the to the 1983 All-State team 1983 with 111 tackles and 72 solos. He was also named Most Valuable Lineman in District 1-BB.

Richey has won numerous other awards, including All-District and All-Tombigbee Conference.

Richey currently holds the record for the squat-lift at Baldwyn High School with 740 pounds.

Efforts to contact Richey for comments had been unsuccessful at press time.

Fishing Roundup

Comer Wins Boat In Tournament

By SCOTT MCKINNEY  
Sports Writer

Baldwyn semi-pro angler Danny Comer caught eight fish with a total weight of 24.7 lbs. last Saturday to win the Mississippi Bass Association's Sardis tournament.

Comer said he fished in shallow water in the streams and river areas of the lake. He said he used a "Hog Rustler" buzz bait to catch the eight fish.

Comer was awarded a new bass boat for his victory.

"The fish are in the shallow water now at all of the lakes," Comer said. "Most of the lakes have turned over and the fish are in the shallow water."

Also, the crappie are starting to bite at Sardis according to Comer.

"The crappie are biting shad, minnows and jigs at Sardis," he said. "They are in the main river area where there is a lot of shade and overhangs."

**BAY SPRINGS**-- The fishing at Bay Springs has also been very good over the past week.

The bream are biting well in the lock and in some of the inlets.

Also, the bass are in shallow water and they have started biting buzz and spinner baits.

"If I were going fishing this week," Comer said, "I would go out to Bay Springs, get in a shallow water area and throw a spinner or a buzz bait all day. They will start hitting it sooner or later in the day."

The bream at Bay Springs have been biting crickets and red worms over the past few weeks.

**ENID LAKE**-- Enid Lake has also been producing some good results over the past few weeks.

The bass have been biting in the shallow water areas and will continue to do so in the next few weeks.

Buzz baits and spinner baits should produce the best results according to Comer.

**FISH TALES**--Well, it finally happened. I can now boast over my

recent fishing trip. The managing editor and I went out to Bay Springs on another fishing adventure last weekend and this time I came out on top.

I had told him all year that the bream were biting in the lock, but he refused to comment on the idea. It seems he only thought of Bay Springs as a bass lake. (I only think of any lake as a bass lake.- EW)

Saturday, we went out in the lock and caught 14 nice-sized bream in hardly any time at all. And I caught the majority of those. (If you count 51 percent a majority.- EW)

I knew I had suffered too long and that it was my time to come away as the "top dog".

We even tried fishing for bass. But, after several hits and nothing to show for them, we moved back into the lock and continued our good fortune with the bream.

One thing, however, that we both enjoyed was the comment that two other fishermen made to us in the lock.

As Ed and I were pulling in fish after fish, these other anglers fished all around the lock with no luck.

As they passed our small aluminum boat with trolling motor only in their fancy, fully-equipped bass boat, one of them said, "There are no fish in here because we can't find them on our scanner." At exactly that moment, Ed was pulling in another bream from the bed we were sitting on top of.

It all goes to show that sometimes even the best of equipment won't help you catch a fish.

**TOURNAMENT NEWS**-- Comer said there are not many tournaments scheduled for the next few weeks in our area. Though there will be an open tourney within the next few weeks, the site has not been announced yet.

Remember, if you have any question, tip or comment, feel free to send us your mail. Drop us a line (without a hook) at the Fishing Roundup, The Banner-Independent, P. O. Box 269, Booneville, Miss. 38829.

Until next week, good fishing!

Cincinnati's Smith Determined To  
Make It On His Own At Northeast

Though Tyler Smith may be following in his father's footsteps, he's determined not to try to fill his shoes. Tyler, the son of former olympic and NBA great Adrain Smith, recently signed to play for Northeast Junior College's Tigers just as his father did in 1954.

But young Tyler wants Northeast fans to know that he plans to succeed according to his own merits and not ride through the game on his dad's coattails.

At 5-11, 150 pounds, Tyler started at guard his last two years at Turpin High School in Cincinnati. Though his team didn't fair too well in the won-loss column, Tyler managed to turn in seven assists and six points per game, shooting roughly 50 percent from the field.

He was chosen as an all-star player in the Hamilton County American League in his senior year.

"I'm looking forward to playing at Northeast," Tyler said. "The situation I played in at high school and my dad's success just gives me incentive to keep on going and improving."

The elder Smith emphasized his desire to see his son's potential fulfilled apart from his own achievements. Having played with such basketball immortals as Oscar Robinson and Julius Erving, having played for the legendary Adolf Rupp at the University of Kentucky and having captured an olympic gold medal, Adrain still thinks his son's greatest mission in life is just to be himself.

"I've never tried to put Tyler under the pressure of trying to be like me or to top what I've done," Adrain said. "I just want him to be himself and be what makes him happiest. That's what will make me proudest of him."

Despite both father and son's

conscious efforts to live separate lives, the similarities between the two, in as far as their basketball careers go, are uncanny.

"I was about Tyler's size when Coach Arnold happened up on me in Kentucky," Adrain said. "Even then I had to prove myself and I had to go on proving myself throughout junior and senior college, the army and the pros."

"It's kind of funny, even though I had played for Kentucky and we won an NCAA championship while I was there, nobody was interested in drafting me but the army," Adrain admitted laughingly.

But prove himself he did as he scored about 29 points per game in his sophomore year at Northeast, spurring on his selection as an All-American.

Now a similar task lies ahead of son Tyler, who said he must prove himself, not because of pressure from his father, but because of his own personal drive to excel.

"All I need is the chance to prove myself," Tyler said. "I think I'm going to get that chance at Nor-

theast."

What does Tiger Coach Richard Mathis have to say about his newest signee? He sums it up simply, saying, "I definitely think Tyler's best days are ahead of him."

New Orange  
Law In Effect  
For Hunters

If saving lives is a necessary part of the sport of hunting, then Mississippi has anted up to the bill. This state is getting serious about saving lives in the field, according to the Department of Wildlife Conservation.

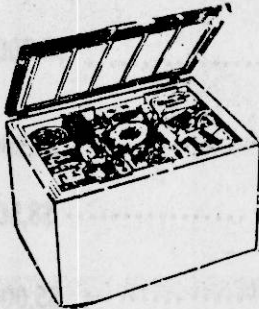

Formerly, when someone went hunting during deer season, all he needed to wear was an orange hat, cap or vest with his hunting attire. But all this has changed.

Now when you go to down your deer, you must have on at least 500 sq. inches of unbroken continuous daylight fluorescent hunter orange material during any open gun seasons on deer. This new regulation by the five-member Commission on Wildlife Conservation took effect in late April. "In our state, as in many states in the Southeast, more hunters are becoming concentrated in smaller areas due to the loss of wildlife habitat," said executive director Lon Strong.

So, in order to provide more protection to all hunters, we are requiring an increased amount of fluorescent orange to be worn during our gun seasons on deer."
